The City Club. DOWN TO WORK AT LAST.

It has been well said that Nairobi is unique in all the cities of Africa in not having a Club where city men can meet, and discuss their affairs, where they can meet the men of the City and County or even, on most the more they have some for discussion to be given, where they can receive a little of that hospitalities which, of course, Africa is famous, that it is going to be provided in the spirit of the meeting at the City Club.

The Week

LOCAL

The Convention of Associations has sent a delegation to the Union of South Africa, Rhodesia, and Natal in connection with the latter question, in regard to which important discussions have been held in London. It is an analysis of the present position in regard to the Union of South Africa.

Large promises have been made in Transvaal, involving many millions of pounds, and it is expected that the Government will be asked to contribute a large sum to the Union of South Africa.

Meatings on the Indian question were held at the New Wesley Hall, Mombasa, Tika, Kisumu, and Malindi (p. 7, 8, and 9).

A report from South Africa suggests valuable prospects for Kenya (p. 10).

A case of alleged murder was decided in the High Court (p. 10).

Major F. B. Pearson was the speaker at a gathering of the Officers' Association in Mombasa prior to his departure (p. 10).

Mr. J. T. Thorne was lately married by a happy wedding (p. 10).

The death of an attorney of the Mombasa and Mr. A. Morrison (p. 11 and 12).

News has trickled out at Kiboko (p. 11).

It is hoped matters are beginning to move after the cold start (p. 12).

SPORT.

In the Colonial Cup competition the Orange defeated Ombaka and in the Mombasa Cup the Orange defeated Mombasa (p. 14).

Interesting cricket was played at Mombasa (p. 15).

The Football Team returned home last week (p. 15).

Mr. Boshart was the first Rugby player to be killed (p. 15).

It is hoped that the Mombasa team will be successful (p. 15).

The results of the Uganda competition in the Mombasa Cup are as follows (p. 15).

THIS WEEK'S REVIEW
 The East African Standard, Aug. 15, 1923.
 The week has passed with a quietness that is somewhat unusual. The news has been largely confined to local matters and the progress of the Union of South Africa negotiations.

The Union of South Africa negotiations have been the dominant feature of the week. The South African Government has made a number of concessions, but the British Government has refused to accept them. The negotiations are still in progress, and it is expected that they will continue for some time.

The local news has been largely confined to reports from the various territories. There has been a number of cases of malaria, and a number of people have died. There has also been a number of cases of cholera, and a number of people have died.

The week has also seen a number of important events. There has been a number of meetings of the various committees, and a number of reports have been submitted. There has also been a number of public meetings, and a number of people have spoken.

The week has been a busy one, and it is expected that it will continue to be so. There are a number of important matters to be dealt with, and it is expected that they will be dealt with in the coming weeks.

EAST AFRICA PROTECTORATE

NOTICE.

Auction Sale.

A quantity of about 12,000 the Government Ivory (Viziti, Cotech etc) will be sold by public auction at Jamo Courts House at 10 a.m. on the day following the arrival at Lamu of the first passenger steamer leaving Mombasa for that port after 20th September 1902.

The Hon. Mr. Cretz has been to leave Mombasa for Lamu on 20th September and arrangements have been made to complete the sale in sufficient time to enable intending purchasers to reach the above named vessel on her return to Lamu.

As a special concession Mombasa and upcountry buyers may transfer to Mombasa the Ivory purchased by them in the purchase price of the district undertaking.

All that stock Ivory shipped to Mombasa on the return voyage of the "Cretz" from Kismayu and on arrival at Mombasa is deposited in the Ivory Room at the Custom House.

(2) that the balance of purchase money if paid within 15 days from date of arrival of the Ivory at Mombasa.

F. W. MAJOR, Commissioner of Customs, Colony & Protectorate of Kenya & Uganda Protectorate, Mombasa, 8th August 1902.

to build a dyke in fact is a direct discouragement to the people who have been ordered to do so. It is high time the public took notice of the fact that the Government is not prepared to allow any more expenditure on the dyke. Plague

NEW OUTBREAK AT MAFEE.

WAR ON NETS.

The War on Nets has several cases of plague at Mafee were reported at the P.M.O.'s Office, and the Chief Officer immediately proceeded to investigate the matter. At three o'clock this morning the Mafee was found to be infested and the mosquitoes which in the evening will be seen and likely extend, were thought to do the work of transmission of the virus.

It is therefore on an average, long draughting from the West coast of East Africa, has been suggested in the energetic attack on the plague virus that has spread the high hills, North East Central, Eastern, Districts, and their links to date have been completely destroyed.

With the cooperation of the Chief who issued a vital realization of the importance to be secured by the elimination of the rat, a system of trapping set over but most fitted with traps have been arranged and very large numbers of rats have been killed.

At each weekly bearing in the district such eradication brings the plague of established rats. This has been done in a North Eastern District, where the M.D. on a two motor party, after the greatest distance himself recently counted over 10,000 rats.

After long and patient progress made on the part of British Officers in the Kamun District the Department action was brought forward shortly the middle of July and the end of the month over 100,000 rats had been killed and counted by the medical authorities.

This figure almost certainly does not represent the total killed in the district, which is being carried through the Kamun District.

It should be pointed out that the work is being carried out in a systematic way, and that in Kamun it is only a part of a great scheme on the part of the Medical Department for eradicating plague from the continent.

An interesting part of this work is the carrying out of the vaccination of a population in a particular village, which is being carried out in a systematic way, and that in Kamun it is only a part of a great scheme on the part of the Medical Department for eradicating plague from the continent.

The Trail Breaker

CURVEYORS and sportsmen - men whose transportation requirements are intensely practical - whose work takes them to out-of-the-way places, invariably prefer the Ford.

Settlers living far from the beaten path find that the Ford gives satisfaction on crude, rough roads.

The Ford is the trail breaker.

On the regular roads of this part of the country the car that meets the test of the trails is the car that will give you satisfaction year in and year out.

The Ford is sturdy construction throughout. Vanadium steel is the costliest steel used in motor construction. Every strain bearing and wearing part is of this wonderful material. It is Ford vanadium, heat treated by the exclusive Ford method.

The same sturdy, rugged construction prevails throughout the car.

No wonder the Ford owner is master of the roads wherever he may be!

We sell Ford service. We see to it that Ford efficiency, put into the car by the makers, is maintained. Our skilled mechanics are ready to answer your call for repairs at any time. Let us demonstrate to you the Ford.

FORD SERVICE STATION Sixth Avenue, NAIROBI.

CONFIDENCE BEGETS CONFIDENCE.

THE constant use of proved reliable tyres breeds confidence in them, and, in return, is reflected in the whole outlook of the motorist upon his motoring.

Throughout the world motorists have found that the use of Dunlop tyres not only makes motoring more enjoyable but safer.

FERROUS SUBSTITUTES AT LAST. THE POSSIBILITY.

It is not readily imagined that the ferrous that ferrous substitutes. It can be hoped that within a few days Kinyua will be able to supply a locally produced liquid fuel which holds a promise of supplying essentially an important product.

It may be assumed that the Kinyua plant which was commenced in 1915 is now in a position to supply a locally produced liquid fuel which holds a promise of supplying essentially an important product.

Given the availability of the plant for the spirit which it will produce it is within the ability of every settler to produce for himself a fuel of the quality necessary to power his motor car.

ence, and should, and to this end the industry is being established.

There are signs of a chain of such factories, eventually, if necessary, and the installation of a pipeline from one factory to Kinyua for the purpose of direct shipment into the country, and gradually to build up an export trade for the locally produced fuel.

It is interesting and extremely important to note that the Kinyua plant has been installed here with local materials and local labour.
