# The Thing that Counts in Overland Car

**L**OW upkeep expense is the big thing about the Overland, next to its moderate purchase price.

The car is designed for economical running. It is light—only 16 cwt.; it is fitted with three-point suspension, Triplex springs that afford protection from road shocks thus reducing petrol consumption and increasing tyre mileage.

Every detail of the Overland's construction makes for upkeep economy. One lubricating system (in which no pump is used) and one kind of oil supply engine, clutch, gear box and universal joint. Oil consumption is no more than one gallon to every 1500 miles.

You can rightly expect years of service from the Overland.

Even the tyres last from 8,000 to 10,000 miles.

Remember these Overland Economy Facts:

191 Overlands in a country wide test averaged

30½ miles per gallon

The price of the "Touring Car with complete equipment is

The Roadster 4,400

Chassis 3,500

Do. with box body 4,400

**PROPOSAL.**

London, November 12. The Japanese Naval Department has made a counter-proposal to the Washington Conference. The proposition, which is somewhat more radical than the Japanese delegation, and contains an offer to reduce Japan's fleet to 20,000 tons, is to withdraw her armament from the Pacific standard by 1931, and to reduce her fleet to 10,000 tons by 1936. The offer says Japan will be satisfied by accepting the Washington Conference standard, and the standard of the other powers. It is stated that twelve capital ships will be retained, and the standard of the other powers. It is stated that twelve capital ships will be retained, and the standard of the other powers.

### RAILWAY AND LABOUR.

To the Editor:—E.A. Standard.—I have read with interest your article on the railway strike. It is a pity that you have not mentioned the fact that the railway strike is not a strike against the railway but a strike against the Government.

This question must be settled and employers must be assured that the railway will not be taken over by the labour market, or the Government, for unless the railway is taken over by the labour market, it will be a failure to the Government.

There is a rumour that Pullinger has offered to sell the railway to the Government for £100,000. It is a rumour which has not been confirmed. It is a pity that you have not mentioned this rumour.

Labour Agents at Kisumu and Malindi have been accused of being in collusion with the Government to secure the railway for the Government. It is a pity that you have not mentioned this accusation.

It is a pity that you have not mentioned the fact that the railway strike is not a strike against the railway but a strike against the Government.

The Government are to be congratulated for their decision to take over the railway. It is a pity that you have not mentioned this decision.

UNION'S COMMUNICATIONS. Commercial Community Asks New Direct Cable. SHIPPING RING AND MAIL CONTRACT. WIRELESS DELAYS: WAITING FOR THE NAIBOI.

From the S.A. Correspondent. Pastors, October 31. The need for applying wireless communication services in the southern region is recognised in the public mind. It is pointed out that the most serious of the commercial communities, wireless communication, is a big industry. It has been for some time the subject of the thinking of the public between here and London. It is an especially important matter in the traffic of Africa. It is a fact that there are those who are not only in the wireless communication services but also in the wireless communication services. It is a fact that there are those who are not only in the wireless communication services but also in the wireless communication services.

tion which, from the nature of the service, was not to be regarded as a matter of course. A letter of August last gave similar results to those of the present. One of the important features of these observations was given to the University, which they are like to be able to do. It is a fact that there are those who are not only in the wireless communication services but also in the wireless communication services.

Asked to account for the programme in the wireless communication services, Mr. Rogers said that during the war when the wireless communication services were in the hands of the Government, it was not possible to do so. It is a fact that there are those who are not only in the wireless communication services but also in the wireless communication services.
