STRIKE TONIGHT. Unanimous Decision of the Triple Alliance.

HARLIER OPTIMISTIC VIEWS. EARLIER RETURN TO WORK.

FROM OUR OWN CORRESPONDENT. London, Thursday. The Triple Alliance has unanimously decided to go on strike on Friday night.

The Locomotive Engineers and Firemen, who have repudiated independence, have decided to strike at the same time.

The fact that the miners are regarded as positive evidence of the strike, will be a monetary asset, but will be a liability to the industry in the long run.

The compromise arranged by the Triple Alliance is regarded as a success by the public, and is expected to result in a speedy return to work.

Government officials are confident that the strike will be broken within a few days.

The fact that the miners are regarded as positive evidence of the strike, will be a monetary asset, but will be a liability to the industry in the long run.

VICKERS WAR WORK

An Interesting Record of Rapid Growth

THREE HUNDRED

The Director of Messrs. Vickers, Ltd., has announced that the work done by the company in the year 1920 is recorded on an all-time high. The Vickers Limited played a great part in providing the armaments which sustained the gallant forces of the British Army in the War; but have been able to give their full attention to the business of the company and its great army of workers since the war.

General expansion of the nation's industrial manufacturing resources was indispensable for the maintenance of the war effort. In the organization of the Vickers Corporation, the industrial manufacturing and engineering plant of various types could be quickly developed to meet the requirements of the war effort. The Vickers Corporation has been able to produce a large number of different types of armaments, including machine guns, rifles, and other types of arms, which were produced in great quantities.

The value of the armaments in the hands of the British Army and Navy was of the highest importance. The Vickers Corporation has been able to produce a large number of different types of armaments, including machine guns, rifles, and other types of arms, which were produced in great quantities.

INVENTION AND DESIGN

The value of the armaments in the hands of the British Army and Navy was of the highest importance. The Vickers Corporation has been able to produce a large number of different types of armaments, including machine guns, rifles, and other types of arms, which were produced in great quantities.

MISSIONS IN AFRICA
The New Movement to Build Government.
From our own correspondents.
London, March 17.

In the opinion of those in London well acquainted with missionary enterprises that a good deal will have to be done before the missions in Africa that were dormant before the war can be brought to anything like a satisfactory conclusion.

The Universities' Mission Central Africa is endeavouring to sell out the work in a few months. The Deacons of the Church of England have been asked by the British Missionary Society to receive the requirements of a large number of stations in Abyssinia.

It is stated that the interest in the many African churches, there are now, is again, whereas it was in 1919, it seems, altogether dormant in tropical Africa except, or partly supported, by British Missionary Societies. The Churches of the United Kingdom in Africa, the Gold Coast, Madagascar, Labrador, and Southern Rhodesia; the Universities' Mission Central Africa in Abyssinia, Nyasaland and Northern Rhodesia.

Letters received by the Missionary Society from East Africa, pointing out the need for more mission stations, are numerous and the result of missionary enterprise, supported by Western education and European ideas of freedom.

The Government, however, are not so likely to take definite action, preferring that the demand should come from the natives themselves and be "spontaneous and substantial," when the whole subject will be carefully considered in the light of both Western and Eastern sentiment.

It is stated, "they have come to realize that the task will be done before them, but not only to teach the elementary principles of the Christian religion, but to spread it with and help to be seen a Christian spirit into their own institutions and conditions."

LEYTONSTONE GROUND CLOSED
Special to incidents in an Amateur Cup-Top I

A Commission of the Football Association, consisting of Messrs. Alfred Davis, H. A. Porter, G. Wagstaff, Sturges, and F. J. Wall (Secretary), held an inquiry into the Leytonstone ground by the referee and the referee of the match on the 23rd of February, F.C., and to the conduct of certain players of the Leytonstone F.C. and of the replayed F.C. and the referee of the match between the home club and the London Combination.

The London F.A. was represented by Mr. T. H. Kirkup, the Essex F.A. by Mr. Jas. J. Clark, and the London Combination by Mr. H. J. Bindon.

After a long inquiry, in the course of which a number of witnesses gave evidence, the following decision was reached:—

The Commission is satisfied that the conduct of the appointees was objectionable towards the referee and the visiting players, and that bad language was used.

The ground of the Leytonstone F.C. is ordered to be closed for five weeks, a further order to be played within a radius of six miles of the ground during that period.

The Commission takes no action with reference to the players.

The Leytonstone F.C. is ordered to pay the expenses of the inquiry.

MOTOR DRIVING
A Novel Point Heard in Court

Captain Lawford of the United Services Club, and Mrs. Gordon, were in possession of the car at the time of the accident on the 23rd of February, when the car was stopped by the police on the Stevenson-road, Mrs. Gordon was in the driving seat, and was unable to show a license.

She told the magistrate she was the driver to enter the car at the time. The magistrate asked who was driving, and she said she was in the driving seat and she had the steering wheel, and his hand on the wheel and she said she had complete control of the car.

10,000 MILES

IS GOODYEAR TYRE AVERAGE.

Where road conditions are ideal naturally pneumatic tyres will give longer and more satisfactory mileage. Rough, rutty or stony roads increase both tread and fabric wear. But a pair of Goodyear tyres can average from all kinds of roads in all parts of the world if given by a survey recently completed where cars from all parts of the world were consulted and facts obtained. This data showed the average life of Goodyear tyres to be 20,444 miles.

10,000 MILES IS GOODYEAR TYRE AVERAGE. Where road conditions are ideal naturally pneumatic tyres will last longer and more satisfactory mileage. Goodyear, risky or easy roads increases both tread and fabric wear. But a pair of Goodyear Tyres may average from six to eight miles in all parts of the world is given by a canvas recently completed where owners from all parts of the world were consulted and facts obtained. This data showed the average life of Goodyear Tyres to be 9274 miles.

CHILD & JOSEPH AGENTS. All weather tread covers. Heavy Tread Tyres. 30 x 3 1/2 1/2 10 14 30 x 4 1/2 1/2 12 16 30 x 6 1/2 1/2 14 18 30 x 8 1/2 1/2 16 20 30 x 10 1/2 1/2 18 24 30 x 12 1/2 1/2 20 28 30 x 14 1/2 1/2 22 32

Goodyear pamphlets tell you how to obtain maximum mileage from your covers and tubes. We have made use of this information and advice and have added thousands of miles of service to their tires. These pamphlets are free. Call in or write for them. E.A. PANTING ART STUDIO GENERAL AGENCY. Opp. Victoria Hotel, Nairobi.

COFFEE

Some Notes on Its History and Progress

A SHEEP'S DISCOVERY

(Continued from Yesterday's Issue)

Professor Adams was the first writer to give any account of coffee, and in his work "The Coffee of the World" published in 1893 he speaks of visiting Egypt and seeing the coffee plant in the mountains of the "Blue" Mountains...

The first of exporting the beans does not appear to have been discovered until 1811...

It is possible that the beverage first used was actually introduced to us by the Arab...

THE WILKINSON THEORY. The history recorded in the "Condensation" and approved by Yoccoz...

It was about this time that coffee was first to be prepared from the berries...

Some authorities state that it was at about that time coffee made from the roasted beans was first prepared...

It is also stated that the coffee was first prepared from the berries...

It is also stated that the coffee was first prepared from the berries...

It is also stated that the coffee was first prepared from the berries...

10,000 MILES IS GOODYEAR TYRE AVERAGE. Where road conditions are ideal naturally pneumatic tyres will give longer and more satisfactory mileage.

Where road conditions are ideal naturally pneumatic tyres will give longer and more satisfactory mileage. Rough, rutty or sticky roads increase both tread and fabric wear. But a fair trial of what Goodyear tyres can average from all kinds of roads in all parts of the world is given by a canvas recently completed where tyres from all parts of the world were examined and facts obtained. This data shows the average life of Goodyear tyres to be 9774 miles.

Table with columns: All weather tread covers, Heavy Treaded Tyres, and various tyre sizes (e.g., 30 x 34, 32 x 34, 34 x 34, 36 x 34, 38 x 34, 40 x 34, 42 x 34, 44 x 34, 46 x 34, 48 x 34, 50 x 34).

CHILDS & JOSEPH, AGENTS.

Goodyear pamphlets tell you how to obtain utmost mileage from your covers and tubes, others have made use of this information and advice and have added thousands of miles of service to their tyres. These pamphlets are free. Call in or write for them.
