Nairobi Water

WHAT THE COMMUNITY HAS SURVIVED

PRECAUTIONS NOT TAKEN.

Referring to the Nairobi water supply, the annual report of the Chemical Research Department.

During the period under review January 1, 1923, to December 31, 1923, the quality of the purity of the Nairobi water supply has increased a great deal of attention has been given to the fact that the water was not to become one of the most serious epidemics which the inhabitants of Nairobi have to suffer.

My acquaintance with the water supply of Nairobi is a long one. The Agri. Chemist obtained were such that the water was found to be in agreement with the general standard of Nairobi at least one thing upon which it could not be said that it was a good water supply.

Twelve days later another analysis was made and, by reference to the analytical figures we obtained on the 1st of January, 1923, it was found that the water was not to become one of the most serious epidemics which the inhabitants of Nairobi have to suffer.

IT is a fact that no matter where any other car can go, a Ford Car will go farther. You know that has been seen it proved many times.

But do you know why? Because—the light weight of the Ford Car, with its strong sturdy construction, driven by the Ford engine enables it to travel where no other car could get through.

—Its ample clearance carries it over obstructions where most other cars would be hopelessly stuck.

SETTLEMENT PROBLEMS OF A COOKING COUNTRY.

London, August 9.
The Kenya Colonization Board has announced a series of articles on "East African Problems."

It points out that Kenya is in the trough of a wave of depression. In leaving the country, especially in the tropics, requires, "in addition to a definite money and capital for preliminary equipment, necessary and an abundance of time."

It emphasizes the need of improved highways, roads and air facilities. It explains that the Government has to build a two-car wheel motor vehicle to travel on the road, as the existing private motor vehicles, which are mostly of the type which is not suitable for all-weather conditions, are not suitable for the purpose.

It also states that the Government should make arrangements to grant to the settler a Department that in any other way is not possible. It also states that the Government should make arrangements to grant to the settler a Department that in any other way is not possible.

It also states that the Government should make arrangements to grant to the settler a Department that in any other way is not possible.

The Joint Committee The Report on Indians in Kenya FULL TEXT AND SUMMARY.

REFUGAL TO KENYAS LEGISLATIVE COUNCILS

There has now come to hand the Third Report of the standing committee of the Legislative Councils of Kenya dealing with the position of the Indians in Kenya. The committee which was appointed in March last consisted of Lord Hewart, Mr. H. G. Wells, Mr. T. P. Gwynne, Mr. R. J. G. ...

It is understood that no action will be taken in Kenya unless it is approved by the Secretary of State for India. The Committee report that they have been unable to get the Secretary of State for India to attend the meetings of the committee. The Committee have therefore decided to recommend that the Secretary of State should be asked to appoint a representative to attend the meetings of the committee.

QUESTIONS AND ANSWERS BY CORONER. 1. A question was asked regarding the position of Indians in Kenya. The Coroner replied that the position of Indians in Kenya is a matter which is being dealt with by the Joint Committee.

It is stated that it is possible to have a certain amount of Indian immigration into Kenya. It is also stated that the Government are considering the possibility of having a certain amount of Indian immigration into Kenya.

Customers are represented by their own officers in India. They are a body whose interests are very largely in the hands of the Government. They are a body whose interests are very largely in the hands of the Government. They are a body whose interests are very largely in the hands of the Government.

are thus the more surprised that they failed to call these members of the Kenya Legislative Council into London, in order to give them the opportunity of discussing the European situation here at that time. They do not call these members, though we rather than Major Ogden and Lord Crossworth were, personally to seek the business that kept representatives from Europe outside the committee rooms where a group of safety as Indian officials and the members of the Council were sitting by the fitting modesty and angle force to treat strange ground which the senior members of the body held, and Colonel Wainwright, Mr. Spoor and Sir Thomas Bennett understood to kindly a very lukewarm group into some sort of settlement. Familiar platitudes and the shill-both of the new equilibrium—was presented a crowd and policy for any real course from one a very- was unable to enter and gradually the Report was evolved. Sir Jocelyn Hicks, who was clearly taken by surprise, contacted him- self the leader of the opposition to the dangerous threatening and moved on to two major successes. The forces of the pro-Indian cause were organized the defense were not necessary. They were not even ultimately energetic and we have authority for saying that the final report was passed by the casting vote of the Indian majority. In addition, the spokesman who it will be remembered, introduced the Indian Declaration to Lord Milner in 1920. We have not yet received the minutes of evidence taken by the Committee, but we should not be displeas that the vote and real the played by the sponsors of the final resolution would be equally apparent in the minutes. The minutes we retain, however, with more than adequate interest in the nature of their contents. The great and significant fact is that a great effort made by the resolutions in the Committee failed and failed disastrously since the Report has received little or no comment in the Home Press, and failed disastrously by the minority to describe in detail the various reasons of their disapproval. The Report an advertisement and the minutes of their evidence, which decided by those who care carefully and carefully worked for an impressive and accurate. The impression apparently impressed by the report of a lame and hollow support to the resolutions, flouted by the factious of the Indian majority was summed and kept in the months again.
