THE EAST AFRICAN STANDARD
 NAIROBI AND MOMBASA OFFICE.
 FRIDAY, JANUARY 27, 1922.

We do not regard our article of yesterday as an appeal on the question of the local allowance as in any sense a reiteration of our plain case for increase and a constant from article. We believe that which action takes now will either create or lead a very long and costly conflict in the future, and we ask the Government to see to it that when possible, we are willing to accept the fact that almost every statement in the Chamber to which we referred was a challenge, that which indicates the support of all the plumes on members' skirts and further conditions of the service and its needs in Kenya, and that some of the statements (notably those of Messrs. G. H. and J. H. G. of a common-sense appeal against an enhanced national salary—this is entirely wrong and should be left to those from whom it should be left to those who are entitled to it; and in which from establishing the national official service and to those of the clear knowledge of "East African" Government, and the importance of the Hon. Secretary to the benefit of officials and the country

to their communities. We ask the Government to face the matter squarely and without affectation. The local allowance—whatever its origin—is a sum granted to meet the cost of living. It corresponds in theory to the wages granted in many Dominions and Colonies and in the Imperial Civil Service itself. It is that, and no more than that, and is acceptable here to precisely and only the same considerations as those that stoppage its payment. It is not a matter of consideration in England and elsewhere is the fact that the amount of the cost of living allowance should be in inverse proportion to the amount of consideration for the staff and the respective principle that the cost of the man's maintenance of this system—should be borne by those most able to bear it. This is the principle operative in every civilized country. Details of which are available to us; it operated in Kenya in 1914, and was not only applied but was revised and improved by the Government. The cost of living allowance granted in Kenya in 1914 was the world's highest—higher than in any other country. It was granted by the Government. It took an hour's pay of the "Cost of Living" for the Kenya official was fixed by this measure, and the fact that the Government had to pay more than the other officials, knew little or nothing of the cost of living, and

WITHOUT RESERVE.

Favored with instructions from W.B. Thompson Esq., Manager, Nyman Farms Ltd., I will hold the first ANNUAL DRAFT SALE of Stock on Saturday 28th January at Athi River Station, at 10.30 am.

STOCK TO BE OFFERED.

- 10 Grade Friesian heifers by Mr. Harvey's imported Friesian Bull.
- 4 Black Native heifers

The prime feature of this Sale is the Grade Friesian heifers. These are being sold as they do not cross well with A. shire bulls. None of them have been covered, the cows are picked for the same reason, that they are not mixing with Ayshire Bulls. Full details will be given at the Sale.

A Train will leave Nairobi Station at 9 am. for the sale. Light refreshments will be provided.

ENGAGEMENT. GRANTVILLE HOOD, LISBAUER. The engagement is announced between Alfred (transferred) Hood of Nairobi and Miss Eleanora Margaret daughter of Mr and Mrs. Lew. Lisbauer, Victoria Beach Africa.

THE EAST African Standard. SATURDAY, JANUARY 28, 1922. (Our correspondent who reports on the week for opening indicates the real need of the Colony for an imaginative and wide-spread commercial effort as it is not properly the function of the Treasurer to initiate during sessions or to open himself primarily and always with methods of protecting or initiating industries. He is in any case less than a final authority on the matter, and technical matters as affecting other Departments restrict the operation and effectiveness of the most inspired flights of Treasury imagination. In this connection, it is very earnestly to be hoped that the successor of the late Mr. Kempster who is one who will take something less than all administration for his province, and who will learn from the shining example of the late Treasurer to do his one job thoroughly, and to leave specialties work to specialists. But he should have a wide knowledge of "just his job."

supervision been made in higher quarters. Kenya needs that possession of capability in its administrative, too. It has been assumed that there is an inherent quality in the office of a man who holds that depositions of the Government and the public can safely and fully rely on the Government having the measure of infallibility on which the Government and the public can safely and fully rely. The Government have willingly, and the public involuntarily, so relied on a record that has proved a broken one, and if it is not ending too much of human nature to suppose that the able death of Mr. Kempster would call into their councils one who shall unite with Mr. Kempster's untiring zeal and conscientiousness with the still wider acquaintance and principles of economy with the late Treasurer so that the work the late Treasurer has so nobly achieved may be continued and developed rather than discarded and wasted. The latter disaster is not unthinkable. The Government have an opportunity for bringing to bear on the grave financial problems of the Colony a new and real force which high since it might save Kenya. We believe that there will be a success and that they will accept. They should have learned the extreme anxiety and desire of the people for the most part to be successful in their efforts to be by the conventional considerations that often distract the attention from an office. The Government need someone to whom they and their entire confidence officers can go to school, and in whom they can entrust the demonstration of their entire confidence and replace it with something sane and safe and simple. Let them do this, and in future appointments the adoption of the same principle avoid the necessity for party corrective commissions. Let the careful succession of unbiased politics from which we suffer to-day.

The Annual Meeting of the Nairobi Political & P.A. Association will take place on February 4, and it is to be hoped that a good attendance will influence into the members of the Association to face and a crisis they have recently lacked. We urge support of this body not as an organization, ideal and incapable of improvement of the moment, but as one that contains the promise and possibility of great value and increasing influence. In the past it has borne a most satisfactory record in the interests of the Colony, and has contributed not a little to the value of the debates of that body and the reforms and policies initiated by it. We believe that that good work can be infinitely extended and deepened, and that in the future, for more than in the past, the alert and modern intelligence of the Capital can bring to bear on pressing problems sound common sense, and vigorous ideas and practical creative activity. Each of the country and the town associations needs for its balance, the sustenance and assistance of all the other and nowhere is this cooperation and balance more necessary than in the operation of urban and rural opinion on the main interests of each. We are very anxious that the Capital should not fall behind in any way in the influence it has gained in the deliberations of the Northern Parliament, and we invite all those in Nairobi who take any interest in the progress of the country to lend their support and experience to what is, after the one living political organization in Nairobi. A strong, vigorous and vigorous membership would quickly correct any of the minor glaring defects of the organization and methods that characterize a shoulder the heavy burden of responsibility lies and who are supported by a wide public. Nairobi is a real interest, largely unshared as yet in Nairobi today, and the energy of the political association.

STANDARD NOTES. The latest mail information states that the a.s. "Molana" arrived the mails on Saturday, and that the mails are due in Nairobi today. A debate on "Wild-fire Meetings" will take place to-day at 6 p.m. sharp, in Sirri-Banani Drama Hall, Nairobi. The Rev. Dr. ... of the service rendered by Sirri-Banani Theatre. All are cordially invited. A number of questions on agricultural matters have been received and will be answered next week.

Cycle vs. Car

COLLISION IN GOVERNMENT ROAD. WELL KNOWN CYCLE INJURED.

An accident occurred in Government Road yesterday, which might be termed a rather serious one. At about 11 o'clock, one Henry Armstrong, late of Messrs Newland and Co., was proceeding up Government road, when he was overtaken by a motor car, driven by Mr. C. F. Smith, who was returning from home.

Mr. Smith was heavily injured, and it was at first feared that he was seriously injured. But on being sent to the hospital, it was found that he was not injured from cuts and grazes, although his wounds were bleeding freely.

Mr. Newland was soon upon the scene and took the injured man to his home. Upon examination it was found that he had sustained a number of cuts on the face, but a cut on the nose, a lacerated eye, badly grazed hand, and a cut on the right knee. In addition to these, he was also suffering from a fractured leg. Capt. Smith is taking a leave from his position in the Government, and is returning to his home in the evening. He is now lying in bed, but is expected to recover. It is understood that his injuries will not affect his appearance in the future.
