**FORD LUBRICATION**

In East Africa, every FORD car is fitted with the most efficient lubrication system that the actual requirements make a certain mistake in the selection of their lubrication system.

The operating temperature is the one factor which must be considered when determining the lubrication system to use. The effect of the climatic temperature upon the operating temperature is so slight that it does not really influence the selection of the correct oil.

THE FAUNA OF KENYA

INTERESTING LECTURE IN LONDON BY MR. HOBLEY

THE WAR AND BIG GAME

PRESENT NEWS AND POSSIBILITIES

London, May 27. - Under the Zoological Society of London, Mr. C. H. Hobley, M.C., has given a lecture on the fauna of Kenya...

I have been asked to deliver a short address on some of the progress of British East Africa...

I am naturally diffident in addressing a large public audience and my only desire is attention to the subject...

It was fortunate enough to be following a lecture on the progress of the war...

I am not complaining, for I can only be too glad to see that the war will provide for me...

FORD LUBRICATION.
In Race Africa, many FORD car owners, who have satisfied requirements, make a serious mistake in the selection of their lubricating oil.
The operating temperature is the only heat factor which need be considered when determining the correct lubricant for an engine.

Gargyle Moblioi "E"
is a free flowing lubricant under all conditions, with only slight rise in the demands of the special features of the FORD car.

THE FAUNA OF KENYA. INTERESTING LECTURE IN LONDON BY MR. HOBLEY.

THE WAR AND BIG GAME. PERCENT NEEDS AND POSSIBILITIES.

In the third volume of his lectures to the Zoological Society of London, Mr. G. W. Hobley, D.L.O., deals with the distribution of game in Kenya...

SABLE ANTelope. The species is found in the border of Tanganyika territory...

WILDERNESS. In the plain near Kilimngoro through the borders of the neighbourhood of Danga Naba...

SOAS. The distribution of this antelope is very extensive. It is not so generally found here...

TOPY, DAMALS AND WILDERNESS. The distribution of this antelope is very extensive. It is not so generally found here...

WALLER'S GAZELLE. This species is another example of antelope distribution. It is found on the slopes on the south side of the Tana River...

GAMING AND DISEASE. Although of course there are numerous factors which enter into a strong food poisoning agency...

Antelopes of this genus still are more prevalent, and it does not necessarily follow that the species is in a state of depletion...

It is not usually so much shortage of food as shortage of water which leads to the death of antelopes...

GAME RESERVE. The game reserve in Kenya is a natural park which is maintained by the Government...

Service Motor Co. Motor Electrical and General Engineers. Repairs to any make of Cars and Motor Cycle carried by Rogers Mechanisms.

A CLOSE SHAVE. The Best Shave in the World can be obtained by the use of before-mentioned safety razor...

VIVADOU PEROXIDE SHAVING SOAP. THE 'PERFECT' SOAP. Its constituent and scientific properties make the product the most perfect shaving soap...

ROB ROY TEA. This famous blend of Tea was especially chosen by the Committee of the Madras Club and the Adyar Club, Madras...

THE TYRE FOR ALL WEATHERS. THE HOBBS TYRAD is a compound of natural rubber and synthetic materials...

OUTBALL FOOTBALL

FOOTBALL TEAM PLAY (1) THE NOTES OF HALF BACKS

(By 'Winger') Following on my criticism of the football game at the University of Cambridge...

Football started off in a very slow way in the first half but only the better of that...

By half time the score was 0-0. The game was very close and the result was a draw.

There is one other point that a half note not covered...

Collier mentioned in his article that the best way to win is to have a strong defense...

### PROPOSALS FOR PROTECTING AND CONTROLLING OUR GAME

#### ZOOLOGICAL SOCIETY'S INTEREST

##### MR. BOWLEY'S LONDON LECTURE

In the lecture given by him before the Zoological Society of London, Mr. C. G. Bowley, of the Game Department, most and suggestive proposals for the protection of our game are set forth in the following manner:

**GENERAL**

The number of wild game with which we are surrounded is so large that it is not possible to protect it all. It is necessary to select the most valuable and to protect them. The Game Department has been successful in doing this in the past, and it is necessary to continue to do so in the future.

## SATURDAY'S DOBBIE CUP MATCH

### PANGLANDS ONLY ABLE TO DRAW WITH K.A.R.

#### UNFAVOURABLE WEATHER CONDITIONS

It had a considerable influence on Saturday's Dobbie Cup match, which took place at Pangland. The weather was very poor, and the ground was very dry. This was a disadvantage to the home side, who were expected to play a hard game.

The match was a close one, with both sides showing good play. The home side were able to score a goal in the first half, but the away side were able to equalize in the second half. The match ended in a draw, which was a result of the weather conditions.

The game was very interesting, and the spectators enjoyed it. The players showed good technique and teamwork. The referee was fair and gave a good game. The match was a credit to both sides.

The home side were very brave, and showed a lot of spirit. They were able to hold their own against the away side. The away side were also very good, and showed a lot of skill.

The match was a very good one, and the spectators were very happy. The players were very good, and the referee was very fair. The match was a credit to both sides.
