WHAT MAKES a Good Tyre?

A Tyre is not necessarily a good Tyre just because it is a Good Tyre.

Good Cotton? Best rubber? Good construction of the kinds of good work?

A manufacturer might have all of these things and still produce a poor tyre if he lacks the one thing that experience.

U S Royal Cord and Nobby Tyre were first introduced many years ago. But years before that were spent in research, in experiments, and in tests. It took experience to build the first Royal Cord and Nobby Tyre and to place them at one in the position of leadership. It is the experience of to-day that has held established that position.
