Tea Economy

The efficient packing of good Tea is of the utmost importance, BUT it is the CONSUMER who pays for this packing and every cent so spent deprives you of the same value in TEA.

LIPTON'S

popular square shaped airtight Tin fulfils the most exacting demands for a perfect Tea packer whilst the nominal cost all wide on mass production always equals the TEA VALUE. ALWAYS ASK FOR LIPTON'S TEA.

TO THE Motorist ARE YOU driving with the correct tyre?

TRY the U.S. NOBBY Tread. Where the going is specially heavy with mud and sand, in hilly country where maximum traction on the road is a factor, no other tyre tread yet devised is quite so effective, or so wholly approved by motoring opinion, as the U.S. Nobby Tread.

Its very simplicity—diagonal rows of oblong studs, interlocking in their grip on the road—is the result of all the years of U.S. Rubber experience with every type of road of the world over.

RUN ON I. L. O.

Its the Main Road to Economy.
Making a fast climb "on top" often depends more on the lubricant
than the gradient.

L. L. O. is the Ideal Motor oil for hilly country because it is a perfect
lubricant compounded specially to keep carbon deposit down to
absolute minimum.

Hence your engine will pull better and run longer without a need of
decarbonising.
