MR. R. T. BURGE AN INTERVIEW WITH THE 'E. A. STANDARD'

There are given the views of Mr. R. T. Burge on a subject of vital interest to the European nations... The interview is given in the 'E. A. Standard' and is a most interesting one.

Advocate for Constitution.

What Mr. Burge said was that the present position of the Union is not a satisfactory one... He is in favour of a more liberal constitution.

Delicious Wholesome & Refreshing Non-Alcoholic BEER

Though immediate action in the matter may not be possible, there are some steps which should be taken... We certainly wish to come to some good and durable work...

RUBBER NEW SCHEME TO RESTRICT PRODUCTION.

The position in Java, Africa, so far as rubber production is concerned, is a rather strange one... The scheme which would limit production in Java is a most interesting one.

Objections.

The scheme which would limit production in Java is a most interesting one... It is difficult to understand how a scheme which prohibits British producers from selling their rubber in the Union can be a benefit to the Union.

Belated Solution.

Production at present is little, if at all, in excess of consumption... The scheme which would limit production in Java is a most interesting one.

New Stocks MAY WE QUOTE YOU!

FORESTRY IN KENYA A Strong Plea for Systematic Forestry

METHODS TO SECURE NATURAL REGENERATION IMPORTANT PART OF FORESTRY ART

In the following article Mr. St. Barbe Baker puts forward a plan for systematic forestry. After describing several methods of reforestation he explains at length the method which in his opinion may be found best not only on silvicultural grounds but also in the interests of the miller.

Here the professional speaks in language so simple that any layman can follow him.

Generally speaking the timber stands of the country should be managed as an estate. Foresty can be carried on in a systematic way. It is not a haphazard affair. It is a business. It is a science. It is an art. It is a profession. It is a career. It is a life.

It is a career because it is a profession. It is a profession because it is a science. It is a science because it is an art. It is an art because it is a career. It is a career because it is a life.

It is a life because it is a career. It is a career because it is a profession. It is a profession because it is a science. It is a science because it is an art. It is an art because it is a career. It is a career because it is a life.

It is a life because it is a career. It is a career because it is a profession. It is a profession because it is a science. It is a science because it is an art. It is an art because it is a career. It is a career because it is a life.

It is a life because it is a career. It is a career because it is a profession. It is a profession because it is a science. It is a science because it is an art. It is an art because it is a career. It is a career because it is a life.

It is a life because it is a career. It is a career because it is a profession. It is a profession because it is a science. It is a science because it is an art. It is an art because it is a career. It is a career because it is a life.

It is a life because it is a career. It is a career because it is a profession. It is a profession because it is a science. It is a science because it is an art. It is an art because it is a career. It is a career because it is a life.

It is a life because it is a career. It is a career because it is a profession. It is a profession because it is a science. It is a science because it is an art. It is an art because it is a career. It is a career because it is a life.

It is a life because it is a career. It is a career because it is a profession. It is a profession because it is a science. It is a science because it is an art. It is an art because it is a career. It is a career because it is a life.

It is a life because it is a career. It is a career because it is a profession. It is a profession because it is a science. It is a science because it is an art. It is an art because it is a career. It is a career because it is a life.

Why Goodyears Wear Longer Than Other Tyres

Many people wonder why Goodyear tyres and tubes last so long and give such high mileage.

All Goodyear tyres, both cord and fabric, are built up carefully and painstakingly by hand by the most expert workmen in the world.

The finest and most expensive long staple Sea Island cotton is used in the construction of the fabric and cords.

The purest and highest quality of latex and crepe rubber is employed regardless of price.

High chemical, research and experimental departments are maintained, the most complete and modern of their kind in the world.

With the exception of the tread, a Goodyear may resemble another tyre in general appearance. The methods and principles of construction of Goodyear tyres, however, are different. The method of vulcanizing is different. The materials employed are the finest obtainable in the world and the inspection of all products is unusually rigid.

Obtainable at all Garages.

GOODYEAR RACING AT HOME A DAY TIME FOR OUTRIDERS AND THEIR BARRACKS.

This is an awful time for laymen at the Jockey Club, and still more for their bookies. Five more went down at Alexandra Park on Saturday and there is no assuming the tide of outsiders in the London Cup.

Regeneration by Artificial Seedlings.

Under certain conditions it has been proved by long experience that the best method of regenerating a forest is by the use of artificial seedlings.

COURT OF APPEAL.

THE ATTORNEY GENERAL VS. THE CROWN!

APPEARS FOR APPELLANT.

A rather remarkable incident occurred in the Supreme Court of Appeal yesterday when a appeal against a conviction under the Matrimonial Marriage and Divorce Ordinance, 1921, was heard.

The appeal was brought on the instance of the Attorney General and Mr. Law, counsel for the respondent.

Uganda Railway.

VISIT TO A QUEEN

The American Consul's Varied Tour in Uganda.

THE COLONISING GENIUS OF THE BRITISH

A SEARCH FOR FIRST KNOWLEDGE OF GREAT BRITAIN. The American Consul for Eastern Africa, Mr. Jenkins, has just returned from a varied tour in Uganda, and the historical genealogy of the country is being studied by him.

By way of Kampala and Jinja he reached Kasesa where the earliest traces of the native people are to be seen. Mr. Jenkins made the acquaintance of the people of the region, and was particularly struck by the primitive atmosphere and the primitive which ought to be the home country of the people.

Mr. Jenkins discovered that the making of a very important market rapidly extending over the province of the province. He found the first traces of the native people in the region of the province.

Mr. Jenkins visited the region of the province, and was particularly struck by the primitive atmosphere and the primitive which ought to be the home country of the people. He found the first traces of the native people in the region of the province.

Mr. Jenkins visited the region of the province, and was particularly struck by the primitive atmosphere and the primitive which ought to be the home country of the people. He found the first traces of the native people in the region of the province.

These Goodyear Tyres Ran from 11,000 to 15,000 miles over the rough, stony roads and trails of this country.

It should be borne in mind that these records were made, not with Goodyear cords, but with Goodyear fabric tyres.

Goodyear cord tyres under similar conditions would have delivered even greater mileage than these fabric tyres.

Reports of mileage records from all parts of the world give striking testimony to the unsurpassed strength and ruggedness of Goodyear tyres, both fabric and cord.

GOODYEAR

Actual photograph of Goodyear Fabric 32 x 4 over treads running 11,000 miles on a heavy cut highway in A. V. White, Fla. No skidding. Treads excellent. Tread holds.

Goodyear Cord Tyres

The Goodyear Tyre and Rubber Company has been manufacturing cord tyres for the past ten years and is a point where they are the "Rolls Royce" of motor car tyres in quality and also a point where they can be sold at a price no greater than cord tyres of less merit.

A cord tyre of surpassing excellence cannot be created at once. It has taken years to develop the Goodyear cord tyre and the experience of these years coupled with modern and secret methods of cord treatment and processes of vulcanizing have placed Goodyear cord tyres in a class completely superior to ordinary cord tyres.

It took ten years to bring the Rolls Royce and the Ford car to their present stage of superiority in their own respective fields. Just so it has taken years to perfect and develop Goodyear cord tyres to a point where they are the "Rolls Royce" of motor car tyres in quality and also a point where they can be sold at a price no greater than cord tyres of less merit.

Actual photograph of Goodyear Fabric 32 x 4 over treads running 12,000 miles on an Overland 10 belonging to A. V. White, Fla. No skidding. Treads excellent. Tread holds in side wall.

They Lead All Others in Mileage and Durability.

Any Garage or Tyre Dealer will supply you with Goodyears, either Cord or Fabric

Giffitts & Company, Limited—Importers.

GOODYEAR

ANDREW OF GREECE SENTENCED TO PERPETUAL BANISHMENT. MILITARY DEGRADATION.

ATHENS, December 2.—The latest arrivals at the League of Nations Conference on the subject of Greece have been charged with informing the League of Nations of the Greek Government's attitude towards the French Government through the Minister at Athens. The Greek Government has not yet decided whether to accept the French Government's proposal to send whole-hearted with any steps which may be taken to protect the Prince's life, as France is desirous of doing his utmost to prevent the shedding of blood and to avoid any hasty action.

ATHENS, Dec. 2.—The semi-official account of the trial of Prince Andrew at Athens, says he was charged as commander of the Second Army Corps, with refusing to obey the order of the Commander-in-Chief to attack the enemy during the advance on Saragura.

The Prince pleaded that his corps had been ordered before attacking to await instructions from the Chief of Staff, which instructions had not arrived.

Colonel Ryzak, Deputy Chief of Staff Officer to the Commander-in-Chief, M. Papagos, and the reply of the second corps that an attack on the northward was impossible owing to the enemy's defence works was interpreted that the Chief of Staff at first thought it was meant for a joke.

If Prince Andrew had executed the order the battle of Saragura would in all probability have been won. General Papagos has admitted that the Prince had been dismissed from his command because he was the King's brother.

ATHENS, December 3.—Prince Andrew was sentenced to perpetual banishment and military degradation.

The House of Parliament was absolutely crowded with well-wishers including his mother and other officers.

General Trivizas in giving evidence for the defence vigorously asserted that the Prince's officers were not practically contradictory; he said that Prince Andrew ever disobeyed orders.

M. Cavranis the Greek War Correspondent declared that Prince Andrew was an extraordinary soldier who showed the hardships of the sea and horse work adventures of his position.

Prince Andrew read his own defence which was obviously prepared by himself.

He pleaded that it was unfair to treat a Prince like a common soldier as he was only a figurehead and occupied his position as Chief of an Army Corps under the command of his brother of the King Prince Andrew's Counsel M. Lambrinos recommended the judge, as a good soldier, to judge the accused as they would any other soldier.

Princess Alice, the wife of Prince Andrew when informed of the sentence by friends said it was related by speaking a heavy sigh over the trial.

THE CONFERENCE. A NEW DELEGATION CLAIMS INDEPENDENCE.

ATHENS, December 2.—The latest arrivals at the League of Nations Conference consist of a delegation of Greek Cypriots, claiming independence and opposing the Greek Government's attitude towards the Turkish Government. The Turks are most displeased with the Greek Government's attitude towards the independence of Cyprus. The Greek Government has not yet decided whether to accept the Turkish Government's proposal to send whole-hearted with any steps which may be taken to protect the Prince's life, as France is desirous of doing his utmost to prevent the shedding of blood and to avoid any hasty action.

ATHENS, Dec. 2.—The semi-official account of the trial of Prince Andrew at Athens, says he was charged as commander of the Second Army Corps, with refusing to obey the order of the Commander-in-Chief to attack the enemy during the advance on Saragura.

MOTOR ACCIDENT

A CAR CRASHES INTO A CURB.

The top of Swamp Road, on the Parklands side, was the scene of a terrible motor crash in the early part of yesterday.

The car was driven by one of the officers of the Northern Rhodesia Police, and was travelling at a high speed.

The driver was severely injured, and the car was completely wrecked.

SHIPWRECK

S.S. "NABU" SHORE AT RAIBOLD.

The s.s. "NABU" of the B. I. N. Co., which ran ashore last night, is now being refloated.

The vessel was damaged, but the crew and passengers were saved.

The ship is expected to be ready for service in a few days.

THE CUSTOMS CONFERENCE

During the recent visit of Sir George Clarke to the East African States, a conference was held.

The conference was attended by representatives of the Governments of Kenya, Uganda, and Tanganyika.

The main object of the conference was to discuss the proposed customs union.

The conference was successful, and it is expected that a customs union will be established in the near future.

FROM ATHENS

BRITISH MINISTER ARRIVES AT ATHENS.

KENYA COFFEE

Valuable Information for Local Planters

ALTER NAME "RAIBODI" TO "MUNDA"

MEANS OF IMPROVING ITS SIZE AND SHAPENESS

The following is a memorandum by the Director of Agriculture, Nairobi, Kenya, dated 10th May 1922. It deals with the question of the name of the coffee plant which is known in this country as the "Kenya coffee" and which is also known in the United Kingdom as the "Arabica coffee". It is pointed out that the name "Arabica coffee" is not a true name for the plant, and that the name "Kenya coffee" is more appropriate.

It is suggested that the name "Arabica coffee" be changed to "Kenya coffee" and that the name "Kenya coffee" be changed to "Munda coffee". This is because the plant is native to the region of Munda in the East African mountains, and it is believed that the name "Munda coffee" would be more appropriate.

The name "Arabica coffee" is a name which has been given to the plant by European planters, and it is not a name which is known to the natives of the region. It is suggested that the name "Arabica coffee" be changed to "Kenya coffee" and that the name "Kenya coffee" be changed to "Munda coffee".

The name "Munda coffee" is a name which is known to the natives of the region, and it is believed that it would be more appropriate. It is suggested that the name "Munda coffee" be used for the plant, and that the name "Arabica coffee" be discontinued.

The name "Munda coffee" is a name which is known to the natives of the region, and it is believed that it would be more appropriate. It is suggested that the name "Munda coffee" be used for the plant, and that the name "Arabica coffee" be discontinued.

AGRICULTURE THE ROCK OF KENYA'S PROSPERITY

OPENING SPEECHES AT THE NAKURU SHOW

REMARKABLE PROGRESS MADE IN 1922

PROBABLE GRANT OF £10,000 FOR EMPIRE EXHIBITION.

TROPICAL AGRICULTURE AND NATIVE PRODUCE.

The outstanding feature of the opening speeches at Nakuru Agricultural Show was the report of progress made by Kenya during 1922—indicated by Adamson Jingo, who was the first to speak. He said that the progress made in 1922 was remarkable, and that the Government was to be congratulated for the progress made in 1922.
