Sun and rain help to grow good tea

But afterwards, they are so good tea. Enormous quantities of tea are raised every year in India owing to inadequate containers...

Whether on hill or plain, in camp or at home, you may depend upon a delicious cup of tea with all its qualities unimpaired.

Brooke Tea in the vacuum-packed tin. It costs no more than ordinary tea.

The lower lid of the tin is used for straining. If you strain the contents you may get the best tea.

**Congregation Hold Their Annual Meeting.**  
 The annual meeting of the congregation of All Saints' Church, held in the parish hall, on Wednesday evening, Jan. 17, was a most successful one. The Rev. Mr. ... presided over the meeting, and the Rev. Mr. ... acted as secretary. The following is a list of the members present: ...

**FRENCH IN MOROCCO.**  
**Another Little War Develops.**  
**TROOPS KILLED.**  
 (FRANCE'S MARCHING SOLDIERS.)  
 Paris, Jan. 19. (AP.)—The French troops have killed several hundred Moroccans in the latest of a series of small wars which are being fought in the Moroccan desert.

**U.S. Royal Cord**  
**the Individual Tyre**  
 PERFECT in grace of design, in balance, in beauty of appearance—the individuality of U.S. Royal Cord is apparent on sight.  
 And if you could cut an U.S. Royal Cord into sections, you would see the same individuality in the construction of the tyre—refinements of manufacture that make the performance of Royal Cord individual, too.  
 Strength and mileage is built up with layers of sisley cords, each cord insulated from the other by a cushion of fine rubber, and each successive layer laid at right angles to those above and below—insulated in the same way. These internal frictions is eliminated and an enduring resistance to internal wear built into the tyre.  
 Built into the tyre. That is the point. That is why Royal Cord looks good and are cool—giving greater mileage, more riding ease and perfect freedom from tyre-worries.  
**STRENGTH AND MILEAGE IS BUILT UP WITH LAYERS OF SISLEY CORDS, EACH CORD INSULATED FROM THE OTHER BY A CUSHION OF FINE RUBBER, AND EACH SUCCESSIVE LAYER LAID AT RIGHT ANGLES TO THOSE ABOVE AND BELOW—INSULATED IN THE SAME WAY.**

 Have you seen the transport going along the many roads which are being built in the Sudan? They are being built by the French and the British. The roads are being built to connect the various parts of the Sudan and to facilitate the transport of goods and people.

**Arrival of Railroad.**  
 A few hundred yards beyond the close cutting the trolley that had been sent for the purpose of carrying the rails and the engine, was waiting for the arrival of the train. The train arrived at the cutting and the rails were laid down. The engine was then started and the train moved forward.

**Mile 313, bordering harbor.**  
 The work on the railway is proceeding rapidly. The rails are being laid down at the rate of one mile per day. The engine is being used to pull the rails and the train is being used to transport the rails and the engine.
