TO PLACE "IRON RING" ROUND RUHR.

Occupied Territory to be Cut off from Germany.

COAL MAGNETS FIED.

Which Labor Supports German Strikers.

CONTROL RAILWAYS AND SUPPLY WORKERS

French who are finding that despite their efforts to end a meeting in France have failed to get out of the occupied territory of Germany and to take fuller control of railways.

The article is not to increase British difficulties in the occupied zone.

Some industrialists who refused to carry out French orders are being threatened with fines and no general strike on the part of the French Government.

Some industrialists have declared their support of German strikers and have declared their support of German strikers.

PERFECT in grace of design, in balance, in beauty of appearance—the individuality of U.S. Royal Cord is apparent on sight.

And if you could cut an U.S. Royal Cord into sections, you would see the same individuality in the construction of the tyre—refinements of manufacture that make the performance of Royal Cord individual.

Strength and mileage is built up with layers of slinky cords, each insulated from the other by a coating of fine rubber, and each successive layer laid at right angles to those above and below—insulated in the same way. This internal friction is eliminated and an enduring resistance to lateral wear built into the tyre.

Build into the tyre. This is the point. That is why Royal Cord looks good and are good—giving greater mileage, more riding ease and perfect freedom from tyre-rot.

IT IS U.S. ROYAL CORDS —the Individual Tyre

INDIA PERTURBED BY KENYA EVENTS.

Agas Khan Asks Help of Victory.

SETTLEMENT UNLIKELY FOR SOME TIME.

The Present Hope.

THROUGH SEVITA'S AGENCY. Bombay, January 25. Reports from Kenya, depicting the possibility of white violence against the Indians, are creating perturbation.

The Aga Khan has telegraphed to the Viceroy requesting timely intervention to prevent countrywide resistance by Indians with disastrous effects to the political situation in India.

It is stated in official circles in London that the negotiations between the Colonial Secretary and Sir Robert Curzon, which were still proceeding, and a settlement is unlikely for some time; but the present there is reason to hope for a solution satisfactory to all parties.

SMUTS REPLIES TO CRITICS.

Thinks His Government Deserves Credit.

BOLESHVIZED MATTER.

THROUGH SEVITA'S AGENCY. Cape Town, Jan. 25. General Smuts the Premier, speaking in reply to the leaders of the opposition, was confident that his Government would be able to handle the situation in the country through vigorous and energetic action.

He declared that his Government was not present during the Bolshevik revolution in Russia and would eventually return to South Africa.

The Premier criticized the criticism of Smuts by a group of leaders of the opposition and said that his Government was not present during the Bolshevik revolution in Russia and would eventually return to South Africa.

Ex-Service Men to Resist Asiatic Claims.

THEIR POSITION AS SETTLERS.

Khale Meeting Resolutions.

THROUGH OUR OWN CORRESPONDENT. Khale, Jan. 25. The following resolution was passed by a meeting of settlers of the Trans Vaal and at Khale to consider the Indian position.

Resolved that we, the settlers of the Trans Vaal, considering the long and arduous settlement made by the Colonial Office in 1919 and the fact that the country was to be handed over to the Indians, we, the settlers, are determined to resist the Indian claims.

THE QUESTION OF THE DAY

YOU'RE IN A FINE PICKLE

(With acknowledgments and apologies to Messrs. Macmillan & Co. Ltd. for adapting their famous picture.)

"THE MAN ON THE SPOT"

NO INTERFERENCE FROM POWERED STREET.

Dromedary's Diet.

The India Department, Secretary of State for the Colonies, in reply to the least of his health at the Australia and New Zealand Club on December 27 last said, among other things, that the Government was aware of the fact that the dromedary was used in the Trans Vaal and that the Government was determined to resist the Indian claims.

VALUABLE TANGANYIKA REALTY.

"NEV ROSS" PROPERTY. We hear, says the Dar-es-Salaam Press, that the valuable real estate property, comprising a freehold (under the usual registered ownership) of about 420 hectares, on which are situated about 20 buildings, including a considerable large stone house, 2 stone bungalows, the complete water supply, as well as a small dam, is being offered for sale by the Government.

\$800 Damage By Fire

Ngoni Cotton Factory Burnt. Approximately \$800 damage has been caused by fire on the farm belonging to Mrs. Van Helle at Ngoni. At 11.20 p.m. on the 26th instant the fire broke out in the cotton engine room and at 11.30 p.m. the main factory building was also on fire. At 11.35 p.m. the flames and smoke billowed and the fire spread over the cotton engine room and the main factory building.

GOODYEAR TREAD
GREASER STRAP
DURE RUBBER
CRACKING STRAP
SCAP FOLLY
LAYERS OF COPPER (8 IN ALL)
THREE HUB HOLES

There is a difference
Manufacturers of cord tyres place each layer of cords so that it lies at right angles to its neighbour. They do this in this order to obtain a strong, flexible carcass.
Goodyear Tyre and Rubber Company experts have found by experiment and experience that even greater strength and flexibility is obtained if groups of two layers of cords are laid at right angles instead of each individual layer.
This important principle of building cord tyre was immediately patented by the Goodyear Tyre and Rubber Company.
No other manufacturer may employ this superior type of construction.
This is one of the reasons why Goodyear cord tyres are stronger, more flexible, and run cooler.

U.S. Royal Cord The Individual Tyre

PERFECT in grace of design, in balance, in beauty of appearance, the individuality of U.S. Royal Cord is apparent on sight.

Strength and mileage is built up with layers of starchy cord, each cord insulated from the other by a coating of live rubber...

Do it with the tyre. This is the point. This is why Royal Cord looks good and ever-acting giving greater mileage, more riding ease and perfect traction from start to finish.

IMPROVEMENT IN THE COASTAL SERVICE.

Major Robert Emden's Observations.

(From Our Own Correspondent.)

Lynn, January 20. Major Robert Emden, a three-months' tour of duty in the coastal service, has just returned to the mainland, and has written a report on his observations...

The main recommendation for improvement is the provision of a regular and frequent service of motor launches...

It is suggested that a motor launch should be provided for each of the main harbours...

It is also suggested that a motor launch should be provided for each of the main harbours...

DEFENCE FORCE BILL

To the Editor, "E.A. Standard." The Bill for the Defence Force Bill... The principle involved, namely that of a Government of those elected representatives to be elected in the history of our civilised world...

There have been many indications that the Government are not prepared to accept the Bill... The Bill is a very important one and it is to be hoped that it will be passed...

To the Editor, "E.A. Standard." I have just received your issue of the 12th inst. and I am glad to see that it contains the Bill for the Defence Force Bill...

Weathering

In the course of years weather will wear away rocks. A few days of exposure to it are more than sufficient to ruin them in the ordinary package.

It is Brooke Bond tea in the vacuum tin.

Unless it is struck by lightning the weather has no effect on it. One tin only is perfectly protected.

Insect Food

There may be some tea food—or had enough for insect food, but Brooke Bond tea, the choicest of the Indian tea crops, serves and now receives better treatment. The new patent vacuum tin is not only an absolute protection against all insect attacks, but is also proof against all climatic influences. Carefully packed under these conditions, Brooke Bond tea preserves its delicious freshness, fragrance and flavour for any length of time. No matter what the circumstances, a demand, unimpeded cup of tea can always be served. Special Brooke Bond Tea in the vacuum tin, which costs no more than ordinary tea, and is the long run is cheaper.

Brooke Bond Vacuum packed in the vacuum-packed tin. No more than ordinary tea. In the vacuum-packed tin. In the vacuum-packed tin. In the vacuum-packed tin.

London, January 4. A thrilling narrative, enthralling in its nature, is told in a remarkable manner by Captain E. T. Phillips, M.C., of the Royal Air Force, who has just returned from a journey across the deserts of Africa on foot. His remarkable expedition, which he describes in his new book, "From the East Coast to the West," is a story of adventure and discovery. Phillips, who is a member of the Royal Air Force, was sent to the East Coast of Africa to investigate the possibility of a new route to the West. He set out on his journey in 1911, and after a long and arduous journey, he reached the West Coast of Africa in 1912. His journey was a remarkable feat of endurance and courage, and his discovery of a new route to the West is a significant contribution to the knowledge of the continent of Africa.

Manufacturers of cord tyres place each layer of cords so that it lies at right angles to its neighbour. They do this in order to obtain a strong, flexible carcass.
Goodyear Tire and Rubber company experts have found by experiment and experience that even greater strength and flexibility is obtained if groups of two layers of cords are laid at right angles instead of each individual layer.
This important principle of building cord tyres was immediately patented by the Goodyear Tire and Rubber Company.
No other manufacturer may employ this superior type of construction.
This is one of the reasons why Goodyear cord tyres are stronger, more flexible, and run cooler.
