ENCOURAGING NATIVES TO GROW COFFEE.

Sir H. Byatt's Latest Adventure in Tanganyika.

"WAIT AND SEE" THE EFFECTS.

A Curious Story of Two Interviews.

H. E. Sir Horace Byatt, the Governor of Tanganyika, has issued the declaration of his European settlers again by encouraging the natives to grow coffee, despite his latest "explanation" of his unconsidered Tanganyika speech.

The best vegetable, and which was the Agricultural Department had been removed long ago... The matter he said, was that as a rule in his own hands, but an explanation of a plan... to prevent itself by native... to be held in the future.

No Conjuring Tricks happen in this Tin.

The tropical climate cannot spoil Brooke Bond Red Label tea, vacuum packed in the round tin. At the factory good tea goes in; when you open the tin, good tea comes out. You can be certain of a cup of fragrant stimulating tea whenever you want it, wherever you want it.

Ask for Bond's. Brooke Bond vacuum packed Tea in the vacuum-packed tin. It costs no more than ordinary tea.

At the close of this remarkable interview granted by Sir H. E. the Governor to the natives of Mashiki, the only and... in fact, he presents... to be brought to the front later, the planting of the same type of tea... to be planted in the future.

The reports which appeared in the home press of anti-concomitance of the European... in view of the attitude of the real administrative... in Mashiki, stated with considerable clarity and confidence... that when H. E. is in Dar-es-Salaam... the natives have requested... that the Government not to press them to plant what they do not wish to grow.

It is to be hoped that the settlers in the Mashiki district will realize the obvious necessity of forming a Planters' Association, in order to coordinate their work with the Association at Arusha... to be formed in the district of Mashiki... to be formed in the district of Mashiki... to be formed in the district of Mashiki...

When the conditions that during the night or even day, a native... being, naturally, more... should easily remove... coffee than he would grow... and that practically every tree... by natives to-day has been... as seed or small plants, it is... to be held in the future.

What and the. At the close of this remarkable interview granted by Sir H. E. the Governor to the natives of Mashiki, the only and... in fact, he presents... to be brought to the front later, the planting of the same type of tea... to be planted in the future.

The Interview. What actually happened at the interview granted by Sir H. E. to the natives of Mashiki... Before the settlers were allowed to enter to plant what they do not wish to grow...
