BEARLY 100 MILES PER GALLON TOWN WORK
The Constructor on any Motor Cycle continues to give the most wonderful mileage results. I have not found the best "mileage" motor but what I did find it was very "easy" 100 miles to the gallon for putting about the same "oil" only, and I always give start, save push of in the road way.
This is an extract from a letter received by Messrs. J. W. MILLER & CO., Nairobi. The letter is headed "DOK ATYROS CARBURETOR" fitted to a Triumph Motor Cycle.
Write to your nearest Garage for full particulars of these Carburetors for all makes of Cars and Motor Cycles.

A CLEAN SWEEP
Last year we offered prices on the Anglian Sweep for the best swept, etc., made with "Dingo" floor. This year at Nairobi we offered improved floor in the open market. Many competitors, especially those who believed that they would have a better chance, were disappointed. "Dingo" floor, and their faith in the local product has been completely shattered. The first year price (in addition to many other points) offered for machines made with "Dingo" has been met by competitors. The only machine made with "Dingo" has been met by competitors. The only machine made with "Dingo" has been met by competitors.
