NEARLY 100 MILES PER GALLON TOWN WORK

The Carburator on my Motor Cycle enables me to give the most economical smooth running. I have not tested the consumption recently, but when I last did it was very little over 100 miles to the gallon for ordinary about the country, and I average less than that, even with it in the usual way.

This is an extract from a letter received by Messrs. J. W. Hillier & Co., Nairobi, from a satisfied user of a famous "COX ATOMIC CARBURATOR" fitted to a Triumph Motor Cycle.

Write to your nearest Garage for full particulars of these Carburators for all makes of Cars and Motor Cycles.

300% of Good Year Good Tires in use show an extra 10,000 on the road roads in 12 months.

Unequaled

No other tyre manufacturer in the world has produced as many Good Year records as Goodyear. This vast experience has led to the production and manufacture of a cord tyre of tremendous strength. No other make of tyre in the world has approached in performance the great Goodyear records which are delivered daily.

There is so much undoubted evidence of the superiority of Goodyear tires—so many records available—that the mileage claims of other tires, as good as they are, are literally smothered with actual facts and figures of Goodyear performance as supplied by Goodyear users themselves.
