**GOODYEAR
HEAVY RED TUBES**

Several Reasons Why You
Should Use Goodyear Tubes

1. Goodyear Tubes are laminated, that is they are built up layer on layer of high quality rubber. This eliminates the possibility of slow leaks.
2. The valve patch is a part of a Goodyear Tube. It is not just stuck on, it is vulcanized into the tube and becomes part of it. You can have no valve leaks with Goodyear Tubes.
3. The full method of construction is used in Goodyear Tubes. This eliminates all weak points and eliminates the possibility of leaks or punctures.
4. Goodyear Tubes are made long. This means less stretching when inflated and results in many extra miles of tube service.

These are but a few of the many reasons why Goodyear Tubes hold up and support your covers as no other tubes can.

EDUCATING ENGLAND.

Strong Support to Kenya's Delegation. LET THERE BE NO MISTAKES!

One of the most modern and important of London papers, The Times, has come to give strong support to the case of the Kenya Delegation in its recent article. It is the only paper in England which has done so. The article is a masterpiece of logic and fairness, and is a most valuable contribution to the cause of Kenya. It is a most important contribution to the cause of Kenya, and is a most valuable contribution to the cause of Kenya.

The Government of Kenya has been informed that the Delegation of Kenya has been invited to attend the Conference of the British Empire and Commonwealth in London. HOLD ON!

Little Doubt that Clouds are Lifting.

CAPITAL FOR KENYA.

The more South African look to the future of this great country, the more they are convinced of the necessity of the speedy raising of the money of the country. It is the fact that the money has not been raised to the extent that it should be. The fact that the money has not been raised to the extent that it should be. The fact that the money has not been raised to the extent that it should be.

NO BUD.

Interviewing the Editor of one of London's powerful dailies, the man was asked to press home the fact that the money has not been raised to the extent that it should be. The fact that the money has not been raised to the extent that it should be. The fact that the money has not been raised to the extent that it should be.

WARRIORS TO BANDITS.

Ministerial ranks will be cut to their minimum, and they will then be used to carry out their duties.

KENNEL NOTES.

Excellent Pick-Me-Up for Dogs.

'WARRANTED OF WARE.'

(By MANAGER'S CARE)
Miss Collier says she had been given a bottle of 'Warranted of Ware' and she says it has done her dog a great deal of good. She says she has been told that it is a very good thing to have on hand for all dogs.

Our East Omaha.

The Crokers, my sister at Kankakee, who are so near to me that I have three pups for disposal from the 22nd. One is a black and white, one is a brown and white, and one is a black and white.

'Warranted' was just a word that he used as a pick-me-up for his dog. He says it has done his dog a great deal of good.

My dog's name is 'Warranted.' He says it has done his dog a great deal of good.

GOOD YEAR RED TUBES

GOODYEAR HEAVY RED TUBES

Several Reasons Why You Should Use Goodyear Tubes

1. Goodyear Tubes are laminated that is they are built up layer on layer of high quality rubber. This eliminates the possibility of slow leaks.
2. The valve patch is a part of a Goodyear Tube. It is not just stuck on—it is vulcanized into the tube and becomes part of it. You can have no valve leaks with Goodyear Tubes.
3. The rolled method of construction is used in Goodyear Tubes. This eliminates all seams and also eliminates the possibility of leaks or punctures.
4. Goodyear Tubes are now made larger. This means less stretching when inflated and results in many more miles of tube service inside casing.

These are but a few of the many reasons why Goodyear Tubes hold air and support your covers as no other tubes can.

Ask your Garage or Dealer for the Goodyear Heavy Red Tube.

 FRIDAY MAY 19 1922

Under the title "REGISTRATION and Migration within the Empire," a small article has been printed for private circulation, by the Anglo-Parliamentary Association in London. The main message of an address given by Sir H. H. W. Lawson, Premier of Victoria, with quotations and answers to the subjects of migration to Australia, Mr. Oswald G. Reuter, President of the Overseas Settlement Commission, bears to the effect: "It is always of interest to visit the Dominions and Colonies to ascertain the right class of settler to be attracted to his far or in Kenya."

These are but a few of the many reasons why Goodyear Tubes hold air and support your covers as no other tubes can.

NOTICE
During the dry season in 1919 and 1920 we did receive water supply of the area between SULTAN HAROLD and MAKINDU.
Having since proved our findings we know the same will prove true in this area.
We have sufficient bore holes to supply the whole area and we are prepared to quote a rate per gallon delivered to any place. We will do great water supply at a very low rate. If you have any orders received it will be the advantage of you to have your appointments who intend to place contracts by notice.

MOTOR NOTES
by Carburettor

I wonder if it would be possible to get a little more information on the subject of the Carburettor. The Carburettor is the part of the engine which is responsible for the mixture of air and fuel. It is a very important part of the engine and its proper adjustment is essential for the best performance of the engine. The Carburettor is a very delicate part of the engine and it is very easy to get out of adjustment. It is very important to check the Carburettor regularly and to adjust it if necessary. GOOD YEAR RED TUBES
GOODYEAR HEAVY RED TUBES
 Several Reasons Why You Should Use Goodyear Tubes

1. Goodyear Tubes are laminated, that is they are built up layer by layer of high quality rubber. This eliminates all seams and also eliminates the possibility of slow leaks.
2. The valve patch is a part of a Goodyear Tube. It is not just stuck on—it is vulcanized into the tube and becomes part of it. You can have no valve leaks with Goodyear Tubes.
3. The rubber method of construction used in Goodyear Tubes. This is used in Goodyear Tubes. This eliminates all seams and also eliminates the possibility of leaks in punctures.
4. Goodyear Tubes are now made larger. This means less stretching when inflated and results in many more miles of tube service inside carriage.
5. You get but a few of the many reasons why Goodyear Tubes are so important your covers as no other tubes can.

Ask your Garage or Dealer for the Goodyear Tubes
