The following is a copy of a letter received from a client, the original of which can be inspected in our office:

"You will be glad to know that my new Dodge Brothers Touring Car, purchased from you in December last, is giving me even more satisfaction than my previous Dodge. Increasing the weight of the rear axle has improved the riding qualities of the car considerably, and the general finish is excellent. My farm is 40 miles from Nyeri, and on the last trip car consumed exactly fifty gallons of petrol, averaging over the 128 miles of hilly and dusty road, and nearly 36 miles per gallon. The oil consumption is between 750 and 1,000 miles per gallon, and the 32 x 4 Cord Tyres show no sign of wear. I have no objection to you using this letter if you wish."

The new Goodyear Tyres have been still further improved by making the sidewalls thicker and tougher. Ruts and Stones need not be feared if your car is tyre with Goodyears.

And the new rubber compound recently discovered by Goodyear Chemists is so tough that its resistance to rough road wear is nothing short of phenomenal.

Fit them to your car and see for yourself how they outperform any tyre you have ever tried before.

"A WAY OF ESCAPE." Criticism of Europeans in Kenya.

THEIR PARTICULAR PEOPLE.

Mr. A. Sponner, the well-known London writer and editor of the Westminster Gazette, has just published a book dealing at considerable length with the Kenya problem in an article evidently inspired by the old London Party. After a review of the history of the controversy, Mr. Sponner comes to conclusions that are interesting in their reading as they set an English and unfair as his fellow countrymen in a far-flung part of Empire where differences are numerous as structural organs of the continent that obtain in the Colony. Mr. Sponner's exposition of the position is a masterpiece of the article that the writers should be very glad to see published.

It is one thing to blame the responsible government in their attitude towards the natives and another to blame the natives. It is one thing to blame the responsible government in their attitude towards the natives and another to blame the natives.

The Appeal to Natives.

The appeal of both parties, to the natives, is to a sense of common purpose. The appeal of both parties, to the natives, is to a sense of common purpose.

Altogether the native has generally been left to the exploitation of his own land by the European. In East Africa it has been found that the native has been left to the exploitation of his own land by the European.

"What, then, can be done if the European cannot be allowed to continue to give the native a way of escape? The answer is that the Imperial Government must shoulder the responsibility of all events for the native's welfare."

A Truly Non-Skid Motorcycle Tyre

No matter how sharp the turn, no matter how far over the motor-cycle must lean in taking curves at high speed, the TRAXION TYRE will always grip the roadbed.

As shown by these sketches, the tread is unusually wide, extending well up on the sides of the tyre. The TRAXION TREAD is designed to provide great gripping power on the straightaway and to overcome the great danger of side skidding.

TRAXION TREAD is the tyre for slippery pavements, rocky, muddy, or sandy roads.

**KENYA CONCLUSIONS.**

**PROBABLE GUIDING LINES OF SETTLEMENT.**

Authoritative Forecast.

POSITIONS UNALTERED SAVE FOR COMMUNAL FRANCHISE.

(From our own Correspondent.)

London, July 18

Reader learns that the Indian Kenya deputations the Duke of Devonshire yesterday, but that the interview was purely formal.

It is believed that the Duke of Devonshire gave the Deputation no impression that he had come to certain conclusions and they will be submitted to Parliament, and until then no official announcement will be made.

It is believed, however, that on the questions of the Highlands and the franchise, the decision of the Government supports the contentions of the white settlers, namely that the position as regards the Highlands would not be altered and that the franchise would be on a communal basis.

Authoritative circles expect in regard to immigration that a declaration of policy will be made to the effect that any British subject will be free to circulate within the British Empire subject only to any limitations that may be required in the interests of the indigenous populations.

It is also asserted that the Imperial Government has declined to agree to the suggestion of the segregation of Indians.

The above was issued in an "E. A. Standard" special yesterday.

LONDON, July 18.

In the House of Commons today the debate on the Budget of 1932 was opened by the Prime Minister, Mr. Ramsay MacDonald. He pointed out that the Budget would result in a total deficit of 20 per cent compared with 30 per cent last year.

**HEDJAZ & EGYPT.**

Adjusting Difference Over Medical Mission.

(From our own Correspondent.)

The reply of King Hussein to the dispute with Egypt in connection with the Medical Mission in Hedjaz was published in the Egyptian press yesterday.

It appears that King Hussein is quite willing to receive gifts and to permit his to land without restriction all the equipment in the hospital as well as to employ an Egyptian firm's plan to install hospitals in Hedjaz and Hama, as an indication of the Sovereign rights of the Moslem Government.

King Hussein therefore blames the Egyptian Government for the incident.

REVIEW OF OPINION.

A well known Kenya publicist on a visit to London writes the following interesting review...

So on numerous occasions I met members of people meeting in the Town assembly...

Kenya question was that the Empire has been long ago. It was not really with a solution, but the matter would have to be settled by the United States Tyre.

At a discussion in which half a dozen well known people engaged, I noted that the opinion in Palestine today, under the impression of the new restrictions...

At another occasion, several members of Parliament were present, and the conversation was a good deal more of the nature of the usual one...

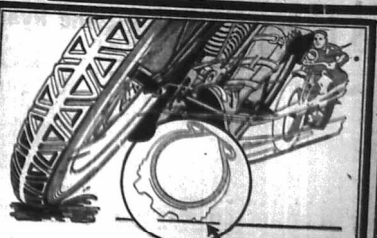

I showed it was possible for young men to get their own way in the matter, and that they would be better off in the end...

But they thought no such policy they could or in and out of the country, and that they were not only bought with their own money...

Even when we get to the Legislative Council, we have been told that the majority in the majority, and the majority in the majority...

As a result of the above, I had with me a number of copies of the book, and I had with me a number of copies of the book...

THE MEETING OF MEMBERS OF THE EAST AFRICAN TRADE ORGANIZATION. The meeting was held on July 17th at 8 p.m. at the New Stanley Hotel.

NO matter how sharp the turn, no matter how far over the motor-cycle must lean in taking curves at high speed, the TRAXION TYRE will always grip the roadbed.

As shown by these sketches, the tread is unusually wide, extending well up on the sides of the tyre. The TRAXION TYRE is designed to provide great gripping power on the straightaway and to overcome the great danger of side skidding on pavements, rocky, muddy, or sandy roads.

TRACTION TYRE is the tyre for slippery pavements, rocky, muddy, or sandy roads.

Good excitement prevailed in the Manchester District, United Kingdom, last night as the result of an incident at Thurston, a village (a part of the City of London) with a population of about ten thousand.

Four unarmet men and two had been proceeding to Thurston, for the incident was connected with a robbery which had taken place at Thurston on the previous evening.

One villager had been arrested by a constable and the villager, it was stated, had threatened to kill the constable if he was not released.

They were made and were not released and the other villager was also arrested.
