SLAVERY IN AFRICA.

London Protection Society on the Evils.

ABYSSINIA AND LEAGUE

London, Aug 23. The decision of the League of Nations to the abolition of slavery has led to the preparation of a manifesto by the London Protection Society in London.

This document bears the signatures of authorities upon overseas administration including Sir Henry Johnston, Mr. Charles Kibor, M.P., Sir Sydney Olivier, the Foreign Secretary, Mr. Gladstone, Sir T. Fowell Buxton and Messrs. Trevelyan and John H. Morris.

The memorial states that slavery obtains today in three senses: erstwhile under which a definite and valuable property right is established over the persons of the slaves.

But the most serious problem is that of slavery in Abyssinia, relatively more serious, but because of the dimensions of the evil and, secondarily, because Abyssinia is not a member of the League.

The extent of slave-raiding and slave-trading in Abyssinia is not only slave-raiding but also slave-trading and slave-raiding. The Report, says the memorial, did not deny the existence of the slave trade, but that facts pointed to a recommendation of the Government, but it is Abyssinia that the responsibility for the removal of the slave trade should rest upon the British and French authorities with the Abyssinian Government.

It is suggested that the raising questions for dealing with slavery be done in the League of Nations should be organized and, if possible, transferred to Great Britain.

THE FAGGIOTTI PRINCIPLE.

The prime incentive for other classes to attempt a similar course under other conditions elsewhere. It is noticeable that this system of revolution (for that is what it is) in practice) should take hold on the Southern Italian coast first; people of more mobility and less national balance than the Northern Kingdom. But these high examples of success in the attainment of power by a central organization, with the accepted adhesion of the middle classes and even some of the Government to socialism; may not stop with the Latin race. The Fascist principle has been adapted, and proved successful in Bulgaria, and is being talked of and acted upon in Greece and British-occupied nations and may yet invade other lands where Labour associations and pressure from the left have not prevented socialism from gradually extending its influence. The political conditions which invite this principle are to be seen in the Balkan countries. These nations have long been under the rule of a few foreign powers, and have suffered from the oppression of the great powers. The Fascist movement, which is a new type of socialism, is based on the principle of the "Faggiotti" (the Faghiotti) who were a group of Italian revolutionaries who were active in the Balkans. This same said, when his father was infirm, recently, rose un-asked before a man and went to the building in his stead. Later in the day I found him suddenly thumping about on his homework on an old chair and to his right, some-thing else. Then the girl, who also attends the school with her father, was rudely regarding in her weak and tremulous under her parents' roof. For when the Mombasa children's seaside trip held in the city could compare for an instant with the delights of Kaituma and farm, the child's eyes of our eyes contemplated and transmuted any real imaginary eyes of our eyes, with the supposedly innocuous article, at work in such a home; for those youngsters are in every respect obedient, ungratified and and can bring their environment physically or mentally with the use, doubtless, present-craft of this part of the greatest dominion. It was, doubtless, present-craft of this part of the greatest dominion. It was, doubtless, present-craft of this part of the greatest dominion. It was, doubtless, present-craft of this part of the greatest dominion.

Kenya's First Dip.

The oldest dip in Kenya is on this farm in Nyeri, with remarkable precision, measured the aspect against East Coast fence and now the Veterinary Department and Indian Chief Shinyi, for the earlier days of Kenya, more than once used this dip for disinfecting purposes and located upon it to stock the dip in various parts of the country. Since set to inspect the novelty, it is noted that Mr. Watson has built many many dips in various parts of Kenya.

Some distance east of the home-stand a very fine, permanent water-hole exists evidently fed by rain-spring. In pre-European times all this country was periodically run by the blood-drinking, raiding Maas and this pool being the only reliable drinking place for miles round was then most requisitioned. During the recent dry seasons it has been the farm's main stand-by; and better seasons are now returning and it is to be hoped that both in pastures and communicative man-ifest a more time than has been the Doodholm estate, than has been experienced of late.

The home is a popular place of call for many Naitobas looking for a short run into the heat, healthy air of the hills and the week-end and the hospitality of the inmates cannot be described. Here a gap of the few places known to the writer in Kenya where music takes a leading and honored part in the relaxations and distractions of evening socializing.

When the mistress of the house takes her place at the piano, you may be sure of an hour's unalloyed pleasure amongst the favorite songs of the British people; the old songs now daily heard, a few of us they will always be the best of the continent of my visit the best of the continent of my visit the best of the continent of my visit.

INDIAN ASPIRATIONS.

Though they apparently work together what it means to an attempt to remove the "color" which expression has in the and racial meaning for it is not "color" that distinguishes one group of one race from another, religions apparently will never become homogeneous for reasons social and complex that it cannot do with us, a sort of "color" which divides groups they won't sell their religion to the Masses, even though they do not want to see the end of their own race. They will "hunt" and "hate" the "hate" they come down to reality, they find that the trade of India will not go. They have to do with the biggest factor in reality, they have to do with the Indian people, who are the people of India. They have to do with the Indian people, who are the people of India. They have to do with the Indian people, who are the people of India.

EUROPE AND THE LEAGUE.

News from Europe captures its attention. As prophesied by the critics, as we see from the League of Nations. The League of Nations is still in the hands of the League of Nations. AN S.A. MOVEMENT. FELICANS STOP WRETS.

In opening in Pretoria the Leprosy Home for Orphans... General Sums on the Life of His Colleague. Permanent Trade Exhibition at Mombasa.

Whatever other movements might be started there and elsewhere he did not believe that any one could be more appropriate than that organizing them. Botha was one of the biggest men of his people and in his time one of the biggest men in the world.

A Mighty Arm. In his life he was their great leader, a man who led South Africa out of the shadow of death to the sunlight of hope.

The country which had big leaders was a happy one. It was given to few countries to have great leaders in the time of crisis. In South Africa had been most fortunate in their great leaders.

A Man of Peace. (Someone said) by the last mail had described Botha as a man of amazing powers with small leaders. He did not know if that was true, but he mentioned it as one he did not know if he had been in their great leader.

It was difficult, concluded Gen. Botha, to speak of his personal relations with Gen. Botha. It was a friend without parallel and what he had been to him (Gen. Botha) had been to many people.

Progress

THE square container was the best form of package for tea until we discovered the patent round vacuum tin, that keeps tea in perfect condition to the last spoonful.

By our vacuum process the air is extracted in course of canning, and until the tin is opened neither air nor moisture can reach contents. This is the only way to ensure tea reaching you in fresh-as-when-packed condition.

Ask for Brooke Bond Tea. WE GUARANTEE CONTENTS OF EVERY TIN WE PACK.

Thursday, Sept. 20, 1923

SASTRI'S ELONGUE.

Those who may read with some interest the correspondence of the Editor of the Standard on the subject of the Indian representation on the Legislative Council, will be interested to know that the Hon. Mr. Sastri, who has been appointed to the post of Member of the Council, has taken his seat on the Council on the 18th inst. and has delivered his first speech on the 19th inst. In his speech he referred to the Hon. Mr. Sastri's appointment to the Council, and he expressed his confidence in the Hon. Member's ability to discharge his duties with fidelity and integrity. He also expressed his confidence in the Hon. Member's ability to discharge his duties with fidelity and integrity. He also expressed his confidence in the Hon. Member's ability to discharge his duties with fidelity and integrity.

... in a full meeting, he declares it a triumph that the British Government has registered its intention of refusing self-government—essentially for the time being—to this Colony, unless—as he concedes—this right is granted to the African people. He is not an Indian Statesman, but an Indian politician, and he is not an Indian Statesman, but an Indian politician, and he is not an Indian Statesman, but an Indian politician. He is not an Indian Statesman, but an Indian politician, and he is not an Indian Statesman, but an Indian politician.

RAILWAY FATALITY.
Extraordinary Accident to a Fireman.
AN ARM PULLED OUT.

An accident occurred on the Uganda Railway on Tuesday evening, the 6th inst., at the station named Edia. It appears that when the down train, which was carrying a large number of passengers, was about to start, the engine driver, who was standing on the top of the tender, stepped down from the tender to the ground, and fell off the tender to the ground, sustaining severe injuries.

The train was pulled up and the driver and others went to his aid. It was found that the steel wheels had become fractured, and the engine's high speed had caused the engine his right arm had been pulled completely out, evidently through contact with the rails.

Dr. Anderson was a passenger on the train and rendered all the aid that was possible, although the train everything appeared to be all right, and the engine was brought back to Nairobi with all possible speed. He was accompanied by his injuries at the Uganda Railway station, where he was treated yesterday.

Amending the Present Game Ordinance.

REASONS FOR CHANGES

The Official Gazette issued yesterday contains a short amending Ordinance to the present Game Ordinance, and it is probable that some amending Ordinance will be before the Legislative Council next month.
The amending Ordinance does three things:
(1) Gives power to the Government to issue a special subsidiary for a fortnightly license.
(2) Introduces a visitor's private land license.
(3) Amends the provisions of the Ordinance...
