PROSPECTUS.

THE Company was formed in January, 1922 under the name of East African Power & Lighting Company Limited and was incorporated in Kenya Colony under the Indian Companies Act, 1912-1916 as applied to that Colony.

THE Company is the sole owner of the distribution of electrical energy in and around Nairobi, comprising an area of approximately 200 square miles, and the whole of the District of Mombasa, including the Ports of Kilindi and Mombasa.

There is an increasing demand for supply in the Company's area in respect of the present plant, and in order to meet this growing demand it has been decided to raise the share capital to £2,000,000 (20,000,000 Shillings) and to issue 200,000 ordinary shares of 20 Shillings each.

London Financial Confidence in Future of Kenya Colony.

50,000 POUND PRIORITY SHARES TO R. A. INVESTORS Nairobi and Mombasa Amalgamation for the Supply of Cheaper Light and Power.

SUBSCRIPTION LIST OPEN FOUR DAYS ONLY

There is any amount of confidence in London for the Colony... Mr. Udell writes on this point...

It will be observed, by the way that the subscription list is open for four days only... A Big Thing.

Everybody knows that the old distinction of being electric light and power to Nairobi has paid itself... The new company has...

The London Journal of the Institution of Electrical Engineers, just to hand contains an interesting article...

The company under certain stipulated conditions may be demanded all authorized subscribers, and may supply energy to any person within its area.

It is generally supposed that a dividend of approximately three pence per share would be declared...

This company plans largely to increase the production of electricity in anticipation of the demand for power in connection with the new Government wharf at Kisumu...

These are the points which have been raised in London... The fact that the Government is not to be a shareholder...
