The big question is to be asked in Foot Street."

Following on the lines of the Daily Mail Press, the London Standard, and periodicals, a distinguished group of writers, headed by the editor of the London Standard, have formed a committee to investigate the question of the value of the newspaper as a source of news.

The Press is called the "fourth estate" of the nation, and its value to the public is self-evident. It is the only source of news which is so widely distributed and so quickly accessible. It is the only source of news which is so widely distributed and so quickly accessible. It is the only source of news which is so widely distributed and so quickly accessible.

Such evidence as is available, however, is that the newspaper is a source of news which is so widely distributed and so quickly accessible. It is the only source of news which is so widely distributed and so quickly accessible.

A Certainty!

A lighthouse that closed down for a holiday occasionally would not be much use. Sooner or later its signals would be urgently needed, the very night it was off duty.

Tea that is in fresh condition only sometimes is much good. The chances are it will prove staid and flavorless just at the very time when you long for a cup of good tea more than anything else.

There is no need to take chances. Order Brooke Bond tea in the tins you like. You will not only get better tea. You will also be certain it is better when you get it.

Do not continue the ancient British custom of buying ordinary weak tea. Buy Brooke Bond. There is nothing else just as good.

FLAX IN KENYA. REPORT BY GOVERNMENT OFFICER FOR 1922.

Kabete Experiments. Fibre and Seed Types Which Improve in the Colony.

Mr. G. M. Hastings, the Government Flax Officer, submitted the following report on the progress of the crop in Kenya during 1922 to the Director of Agriculture, Kabete Experiments Farm being held for the year under the Government Department of Agriculture, and under the supervision of the Director of Agriculture, Kenya throughout the Colony. Owing to the constant changes on my time for grading purposes, the quantity of seed which I was able to examine was limited. It is, however, to be noted that the seed which was available for examination was of a very high quality, and that the crop was a very successful one.

Work Done. During the year arrangements were made to begin flax sowing trials in cooperation with the Government Department of Agriculture, and under the supervision of the Director of Agriculture, Kenya throughout the Colony. Owing to the constant changes on my time for grading purposes, the quantity of seed which I was able to examine was limited.

For the purpose of obtaining a better idea of the quality of the flax which was available for examination, it was decided to sow a number of plots of flax in the Government Department of Agriculture, Kabete Experiments Farm, during the year. The plots were sown on the 17th day of August, and the results were very satisfactory. The flax which was sown on the 17th day of August was of a very high quality, and that the crop was a very successful one.

The weather conditions for the first half of the year were very satisfactory from a flax growing point of view. The rainfall during March and April was remarkably good, and the sowing of the flax plots took place during the latter part of the year. The flax which was sown on the 17th day of August was of a very high quality, and that the crop was a very successful one.

The results of the flax sowing trials during the year were very satisfactory. Vital need for United States to Attend.

Illegality of French Occupation of the Ruhr.

WHAT GREAT BRITAIN SHOULD MAKE CLEAR.

The Empire That is Entitled to a Voice in Affairs of Europe.

The Empire which was entitled to an authoritative voice in the affairs of Europe, should... make it perfectly clear, in friendly but unmistakable language, to all whom it may concern, that in certain circumstances the country would have to take whatever steps were necessary to that end...

Great Britain's Duty.

General Smuts suggested that Great Britain and the Central European States could give Germany valuable moral support.

General Smuts made an unusually sweeping appeal for responsible States in the South African Dominion Club. He also alluded to the Imperial Conference and the Imperial Conference which the Government had already announced was going to be of very great advantage.

A Vital Need.

Dealing with the European situation as advocated a Conference of the Governments of Powers mainly interested in reparations and declared that the Reparations Commission set up by the League of Nations... possessed sufficient authority to carry out its duties.

Appeal to France.

General Smuts, referring to the military position that was being depicted... pointed out that the black borders of Africa had been called in to make good the political balance of this Mother Continent.
