A WHOLESALE MESSAGE

Having dealt yesterday in general terms with the principles of the Bill for the control of Immigration and Unemployment we return to the subject today in an endeavour to set out the details of the measure in their true perspective and in due proportion.

THE IMMIGRATION MESSAGE

The Immigration measure, as it stands in draft is an attempt to secure as far as is humanly possible, the sound economic development of this new Colony.

CHINA'S HOPE

During a rehearsal of the opera "The Goodbye" at the Theatre, Signor Chialini was asked to address the audience on the subject of China's hope.

ST. ANDREW'S SERVICE

On Sunday there will be a service at St. Andrew's Church, Nairobi, at 11 o'clock.

THE GOVERNMENT BILL

The Government Bill is a measure of the Government's policy in relation to the control of immigration.

TRIFOL COMPOSITION

Trifol composition is a type of music which is composed of three parts, usually vocal, instrumental, and vocal.

INDIAN POLITICS.
There is no relief to be obtained by turning either to the House of Representatives or to the Senate in the hope of seeing signs of greater stability and a more energetic future. The political outlook in Great Britain is obscure and, until we know what passes before us in Kenya will be able to see behind the cloud which has gathered there. In an indication, at the moment, unfortunately, that the Conservative Party whose policy has brought us New India in Kenya, is in no way isolated and on the other side, we have had as a leader of the Labour Party, denouncing the addition of the Liberals with whom lies their hope of spending the present session of the Conservative unless laid therein lies the danger to the Labour Party. It is not so to the working classes that they, even at this period, would a step that they will place them in power.

In India the position is given in the extreme and Kenya stand levels, take there was a passing moment of great stability in our country between the end of the last and the beginning of the present session. In the past, the progress which was made for us in Kenya was assured for us in Kenya as well as in the United Kingdom. The cabinet secretary which we published this week detailing the progress of the Government which has attended the election campaign.

campaign but every indication points to the truth of the statement that the recalcitrance in Kenya or with the position of the Aduis there! their sole object in the so-called of pure destruction animated by bitter hatred of the British Government. If the authority of the British Government firm representative measures and at the same time lead their people and the loyal body of the Majesty's subjects in India, their strong hand used for the general good will be appreciated and the agitation will be met with the desired punishment. In India today there is no place for idealistic reforms because the reality of the semi-educational political class is incapable of recognizing the truth. What is required is the fostering and encouragement of the welfare of the people as a whole and Government ceased with justice but with absolute and increasing firmness and responsibility of purpose. The only people, people such as the masses of India, recognize as Government and discipline in the fullest sense of the word. No unstable weak hand will bring order and stability and discipline in the fullest sense of the word. It is India's National Day. It is a day when we must work more as a nation in a few weeks time. We venture to express the hope that they will consider their business in the peripatetic activities of the Aduis and will attend their duties in India and will attend their duties in India and will attend their duties in India.

OUR WOMEN'S PAGE

The Gleaner of the Moment

Every one who reads this page will find that she is getting a good deal of information in regard to the latest fashions in dress. It is a very useful page, and one which every woman should read. It is a very useful page, and one which every woman should read.

The golden variety of gloves provided by this best manufacturer...

Very often the glove supplies the most of our attire in a lady's wardrobe. Recently French art has been busy with the most beautiful and delicate designs for the glove with its very many uses.

Our Paris Letter

The more one sees of the new fashions in dress, the more one is impressed with a certain quiet dignity that pervades them. Like the garments of a certain past, they are simple and dignified. The frequency with which black velvet occurs has something to do with this feeling of dignity, or the frequent presence of navy blue.

BETTER DRESSED WOMEN

In some respects the high price of clothes does not make a better dress possible, for if our purse only allows us to buy a few articles, we are likely to spend all the more care in selecting them. The wise but not the wealthy woman can manage to look her most charming this season.

A New Lingerie finish

Admire the soft material finish of the new lingerie. It is a very beautiful finish, and one which is likely to be the appearance of a well-made article. It is a very beautiful finish, and one which is likely to be the appearance of a well-made article.

These are the new lingerie finishes...

What is New in Handbags.

Many who expect great popularity last season to have continued to exhibit the distinctive charm in the new type of handbag.

The Paris Surprise Party.

Paris has once again given us a surprise party. It is a very beautiful party, and one which is likely to be the appearance of a well-made article.

A Silver Cleaner

Many a person of silver silverware is worn out by the use of water without rubbing the articles with a special cleaner. It is a very beautiful cleaner, and one which is likely to be the appearance of a well-made article.

MISSING WORD COMPETITION

KNOWING the pronunciation many people in Kenya, Uganda, and Tanganyika have for competition, the following prizes are being offered by the local Agents for the correct missing words:

FIRST PRIZE OF 215/- in cash.
SECOND PRIZE OF 17/10 in cash.
THIRD PRIZE OF 12/10 in cash.

£25 For Missing Words

RULES OF THE COMPETITION:

Fill in the missing words, and send your solution, together with the top of a capsule taken from a bottle of Black & White Whisky, to Box 268, Nairobi, marking the envelope: "Missing Word Competition."

Send in as many attempts as you like, of course, sending a capsule with each.

This competition will run for three months, and the best will be changed every fourteen days, i.e., six problems.

Mr. Galton-Tunst has kindly offered to judge, and his decision will be final.

The Competition closes December 1st. Seven extra days will be allowed for Uganda and Tanganyika replies to be received.

Winners' names will be published in the "E. A. Standard."

THE GOLFING WORLD.

Hunter to become Citizen of America.

DRIVEN BY ENOBIENNESS

(From Our Own Correspondent) London, Nov. 27. Oxford and Cambridge golfers were engaged in team competition at Oxford last night. The Oxford team proved successful. The Oxford team was led by J. F. Ireland, the Oxford leader. The Cambridge team was led by J. F. Ireland, the Oxford leader. The Oxford team was led by J. F. Ireland, the Oxford leader. The Cambridge team was led by J. F. Ireland, the Oxford leader.

A Catastrophe

It has not surprised many sportsmen here to learn that W. T. Hunter the amateur champion of 1911, has decided to become a naturalized American citizen. The truth was known from the outset of his candidature on the part of certain individuals prominent in amateur circles here who rather regretted the loss of a potential winner of the amateur championship.

Fortunately that sort of bad sportsmanship is falling out of vogue and will not prevent in amateur row the career and the real golfers of England make no such silly distinctions. A fair field and no favour and may the best man win will still be the sentiment among good sportsmen.

We report the loss of Hunter, but wish him the best of luck in a country where a man is not considered of handicapped or amateur circles because his father happened to be a professional.

Rifle Shooting.
BOY SCOUTS TAKE PART.

Heavy rain early on Sunday morning gave the impression that shooting would be impossible. However, it was very agreeable to see many young and old sportsmen there was quite a good number when shooting commenced.

The light was not too good and the practice was confined to the short range.

Prize money of No. 2 National Patrol attended this practice and the following were the winners for preliminary instruction in marksmanship.

WHAT ADVERTISING DOES

Little Expenditure brings Much Success.

The last English mail brought with it an interesting booklet... "The East African Standard" is a newspaper... It is so easy to get good tea...

It's time to lose your temper—

No man deserves to have a temper who doesn't lose it now and then. And if ever an explosion is justified, it is when you are offered, day after day, a feeble, gnat-stinging liquid masquerading as tea.

Secondly, insist that your tea is made with freshly boiling water. This is the secret.

Tea that is bought right and made right will never disappoint you. Remember, it must be Brooke Bond.

AFFAIRS IN SPAIN.

Anxious Problem for King Alfonso.

MONARCHY IN DANGER.

Advice from Madrid, that it is generally considered a very serious political situation exists in Spain under the new military Junta, and that an explosion might at any moment occur which would almost inevitably prove fatal to the monarchy.

The opportunity for the military coup d'etat is really furnished by the monarchical corruption and the scandalous mismanagement of the King's affairs. The monarch is unpopular with the Spanish masses, who see their own and more important national interests neglected and supply service worthy of the name, even in the foreign service. A weak, the military direction of the country is the result.

And now the anxious problem for King Alfonso, who is personally deeply committed to the monarchy, is how to get out of the present situation without any further adventures.

The King is now in a difficult position. He is being urged to resign, but the military direction of the country is a renewed campaign.

LONDON MARKET REPORT.

The mail to hand has brought the following report dated London, November 14, from the *Alta* and *Commercial* L.L.D.

Cotton.

The market continues fully steady to firm, consequently the general, both for export and for Home Trade being well maintained. Arrivals are not so very much made, with the result that both options and actuals are respectively small. Prices for all descriptions of cotton are being fairly steady to some extent firmer.

Wool.

Since we last wrote, no Nairobi has been offered, consequently there is no business in quotations, although the tendency is firmer.

We quote:
Medium to good 85/- to 100/-
E. W. good 85/- to 95/-
Medium to good 78/- to 85/-
C. W. good 80/- to 90/-
Medium to good 65/- to 75/-

LINENS.

Good to fine 85/- to 95/-
Medium to good 80/- to 85/-
Common to medium 75/- to 80/-

Flax.

The better tone referred to in our last has continued, and U. S. flax is being offered in a very satisfactory manner. The Home Trade is better and the country from America more extensive, though the amount of demand which has been carried through is not much increased.

There is still a little demand from the Continent, mainly for small and fine lots of Flax and Tow. We quote:
Linen Linen 80/- to 85/-
85/- per ton c.i.f. for shipment.
Slightly lower first sort 85/- per ton for shipment.

East African raw cotton grades 100/- to 120/- per ton in world London.

Grade 2 120/- to 125/- per ton in world London.

East African Tow medium quality is worth about 20/- per ton in world London.

Rubber.

The market is still dull and in spite of the fact that the freight of Malacca has been increased by 25/- per ton from the 1st November term. We quote No. 1 in German October to December contract 22 1/2 in C.K. to Commercial Ports and for No. 1 in 20/- to 22/-

Lead.

EXPERT OPINION

During the last two years we have been in London with London millers experts of world-wide repute who obtain advice for the improvement of our produce and with regard to the latest method of weighing our flour we have given much advice which we have naturally received our methods have been completely revolutionized.

With regard to the flour we are now producing we are in our OPINION THIS BEAUTIFUL FLOUR THE BLOSSOM OR YELLOW CAP OF THE BEST ADAPTED AND MOST CONSERVATIVE. THE INHERENT QUALITY OF THE WHEAT IS THE BEST FAVOR OF THE MILLER.

This is the opinion of experts whose business it is our flours, which they have always done in a most careful manner.

FRIDAY, NOV. 30, 1928.

FLORENT KENYA!

The deliberations of the Imperial Economic Conference, and the recommendations made to the British Government, have borne generous fruit. In another column today we publish the welcome official announcement that the Home Government agree to remit the local administration as being sound anticipation of normal development. Furthermore, the British Government agree to remit three quarters of the interest charge for a period of five years and the offer is open for consideration during the next three years.

exercise of a policy designed to make the fullest possible use of the potentialities of the underdeveloped portions of the Empire. Moreover, no matter what may be the result of the general election it is unlikely that any political party coming into power will dilatorily refuse to give effect to the specific purpose of creating employment in British. The future Government may differ in its opinion on matters of detail from its predecessors but the general principle must command itself so strongly to the British nation that it is unlikely that any political party coming into power can afford to ignore a step which already has been taken.

empire, attacks, and brings not entirely in the interest of the financial support from the British Government. It is altogether a good thing that the Government of British should have a direct investment in the industries of Kenya because the need for safeguarding their holdings will tend to increase the practical interest programme which they may follow.

There are many suggestions we might make on the subject. They are for instance, the problem of the provision of cold storage plant to save the cattle and dairy industries of this Colony from eventual dereliction. Government is not in the least taking advantage of this offer of cheap loans and it may be the case that they will use in the present proposal a mass transfer of the establishment of cold storage facilities in Mombasa. On the other hand any private individuals who are convinced that the Government will stand an equal chance of obtaining the necessary capital in a year is a long protracted period for any industry and the most likely projects are those which themselves to be able to bear the brunt of interest charges which the British Government will have to support. There are also some suggestions for irrigation schemes which would be undertaken to bring in fertile valuable areas of Kenya for settlement in a properly distributed water supply. There are also suggestions for the provision of electrical power and lighting for a township which Kibera is on the brink of a prosperous era in its history; water is the possibilities of a new dam and extract the Lumbwa area; cooperative schemes of production and many other schemes themselves immediately to be carried out. Only yesterday we announced that an important Shs. 100,000 loan to Kenya, Messrs. Dalrymple & Co. were of an order to be introduced, which they are not in doubt, which their wide experience, to apply to financial aid to establish an industry in Kenya. While the Government is raising money for the construction of important main lines of railway, presented to private enterprise to extend the usefulness of the new line by building light railways on the "Dutton" principle as feeders to the main route.
