#### THE HIDE INDUSTRY

The Agricultural Show is organized not only as an advertisement of the Colony's position and actual productive power but also, perhaps primarily in a country such as Kenya, as a medium for the education of the public. The show provides an excellent opportunity for taking stock of progress and one should see, without further delay, the achievements of the industry which the individual farmer has been unable to make of his own land. By the purchase of one's own hide of business by a particular individual, it is not only a matter of pride, but it is also a matter of business. THE EDUCATION OF THE AFRICAN

TEACHING THE YOUNG IDEA AT KIKUYU.

Literary and Technical Work. URGENCY ANXIETY OF THE NATIVE FOR SELF-BETTERMENT.

The Ideals of the School.

(C. A. STANFORD 'SPECIAL.)

(Continued from yesterday.)

Turning from the work which was controlled by the curriculum of the trade they were engaged in, I have seen the mass work made a practical necessity for the school. I did not find, in the whole of my examination, any ordinary education of the deliberate kind. I did not find, in the whole of my examination, any ordinary education of the deliberate kind. I did not find, in the whole of my examination, any ordinary education of the deliberate kind.

Among the first things I noted was the desperate state I have seen in the mass work made a practical necessity for the school. I did not find, in the whole of my examination, any ordinary education of the deliberate kind. I did not find, in the whole of my examination, any ordinary education of the deliberate kind.

Before I knew the subject of technical training I must deal with technical work as presented at Kikuyu. Although the plants are not so many as at the other schools, the work is not less thorough. I have seen a number of the boys who have been trained in technical work at Kikuyu.

A useful planning work is being done at Kikuyu. The mission proposes a five-year plan for the preparation of the land and the people. It is a plan for the preparation of the land and the people. It is a plan for the preparation of the land and the people.

**It's time to lose  
 your temper—**

No man deserves to have a temper  
 who doesn't love it more and than. And  
 if you are a patient in particular,  
 it is time you are advised that after days  
 of hot, fat-tasting liquid manufacturing  
 it is time to get good tea. In fact  
 nothing better than Brooke Bond vacuum-packed  
 tea in the first place. No other tea is  
 so packed to resist the attacks of heat  
 and damp.  
 Secondly, insist that your tea is  
 made with freshly boiling water. That  
 is the secret.

Tea that is bought right and made  
 right will never disappoint you.  
 Remember, it must be Brooke Bond.
