FRANCE REJECTS BRITISH PLAN OF REPARATIONS. Says it will Wash Out Peace Treaty

POSSIBILITY OF A RUPTURE OUTDOUSING STILL PROCEEDING. BELGIUM SIDES WITH FRANK

The fatal Paris Conference, held as it had before the Allies were to agree upon reparations and the latest exhibits show very possibility of ending in a rupture, though discussions are still proceeding.

Mr. Bona Law replies that the French proposals would make the recovery of Germany impossible, and says it is useless to discuss a plan unless it will bring practical results.

I had the third case in two weeks reported to me a few days ago. Mr. Knapal was returning from Port to Tika on the 19th December. When he left he had a very good run and had his tyre nearly worn out...

In view of the other similar cases I have mentioned, it is probable that those tyre drops off of their own accord, or are blown out by the heat of the sun...

I have had two queries this week from owners of the following motor cars, who are desirous of a transmission in common trouble which can usually be attributed to a lack of the lubricant. When a lubricant of this kind is used, the motor usually breaks through its way through, and the lubricant often becomes solidified, changing the texture of the lubricant often in the bearing.

# The Road Tests The Story

Look down at the surface of any road or trail. The well-known All-Weather Diamond Tread Signatures of Goodyear tyres predominate.

Notice how distinct the Goodyear Signature is in the dust or mud—every diamond mark clearly and sharply impressed.

Notice how much sharper and more distinct they are than the occasional marks of other tyres. This is striking proof of the superior gripping and non-skid qualities which Goodyear tyres possess.

The diagonal grooves between the diamond-shaped rubber blocks afford the most effective cooling device, the air passing through these grooves as the wheel rotates, cooling the tyre in the same manner in which air cools a motorcycle engine in passing by the fins on the outside of the cylinder.

## \$10,000 GOVERNMENT GUARANTEE FOR EMPIRE EXHIBITION

### Decision made by Legislative Council

#### GOVERNOR THINKS PUBLICITY OFFICE MAY NOT ENLIGHTEN THIS YEAR

#### A LIST OF REASONS FOR DELAY

The Legislative Council yesterday agreed to a Government guarantee of £10,000 for Kenya's part in the Empire Exhibition. That there is likely to be delay in opening the urgently required Publicity Office is evident in the view of the situation but under the new Ordinance the Minister of the Department of the Interior and the Governor of the Colony will be empowered to make such arrangements as may be necessary for the purpose of the exhibition.

It is also considered that a provision should be inserted in the Bill for the appointment of a committee to inquire into the progress of the exhibition.

The Colonial Secretary pointed out that the Bill would be introduced in the next session of the Council.

## Nairobi's Premier Motor House. BATTERY SERVICE.

If your Battery needs repair, we can loan you a battery of nominal charge, whilst we are carrying out the work. We can advise you as to the proper care of your battery. We will inspect, test and "top" it up with distilled water if necessary. For this service we make absolutely no charge whatever. If your battery needs any repairs other than the "free service" mentioned above, we can do the repairs for you in an expert manner at a moderate charge, and to the minimum of time. We have the tools, the materials and the skill. If you need a new battery we can tell you the best—it does not matter what type of car you are driving. We can tell you, too, the particular type that you require. Our charges are based on a uniform scale, and you will be glad to hear we shall be glad if you will tell us. If there is any other way in which we can help you, we shall be glad if you will tell us. We make you feel, in our promptness, fairness and dependability—as we have said before good service will secure your goodwill.

PRESS COMMENT ON PARIS BREAKDOWN

Britain apprehensive of France's Action.

FRENCH PRESS WELCOMES FREEDOM STRIKE.

AMERICA WITHOUT HER HELPING HAND FROM REPARATIONS A TERRIBLE SITUATION.

The Press of Britain is apprehensive at the result of the rupture at Paris. It is thought that the many cables withdrawn from Continental politics.

The French newspapers on the other hand appear to welcome with relief the fact that France will be enabled to control by Britain and on paper declares that "France's hour for action has struck."

America has decided not to proceed with her intention to call an international conference to settle reparations.

It is reported that the Cabinet in London is being criticised by the press on the subject of the withdrawal of the British Embassy from Paris.

There is another matter which will need to be considered by the Cabinet, and that is the withdrawal of the British Embassy from Paris.

France's next move is anticipated with the greatest interest in all the circles in this country.

The "Daily Mail" writes that the Government are confident that they will be able to bring about a settlement of the reparations question.

ASK FOR BROOKE BOND TEA

When there's a change in the weather

Hang a piece of seaweed up to ward off any impending change in the weather by all means, but don't use your tea for this purpose!

There is no surer indicator than ordinary tea kept in the ordinary tin. The moisture in the air soon makes it stale and tasteless. Milder will spill it in a single night.

You'll never see any weather prophesies out of Brooke Bond tea in the patent vacuum-packed tin; but you'll always get a cup of really good tea. However damp or hot the climate, nothing can spoil the fine flavour of the tea in the vacuum tin. It reaches you as fresh as the day it was packed.

EAST AFRICAN AFFAIRS IN LONDON.

Attitude of E. A. Section of London Chamber.

UGANDA'S CUSTOMS VIEWS NOT SUPPORTED.

Zanzibar Difficulty.

(From Our Own Correspondent.) London, January 9. The East African Section of the London Chamber of Commerce has decided to support the protest made by the Zanzibar Chamber of Commerce against the change made for the Portuguese "Certificates of Value" and is urging the Colonial Office to make representations for reduction.

The Customs Union. The E. A. Section has also supported Sir Humphrey Logan's opposition to the Uganda Chamber of Commerce's request for a differential system of Customs duties.

The Cotton Tax. The Section also regrets the failure to follow the recommendation of the Special Committee and the advice of the Government of Uganda in favour of abolition of the Cotton Export Duty and decided to call the Colonial Office to make an announcement as early as possible in regard to other intensions in that respect during 1923 and 1924.

E. & Trade Association. The East African Section has also approved of the proposed formation of the new East African Trade Association with which it will cooperate.

H. M. Trade Commissioner. The reported decision of the selection of Colonel Freckle, H. M. Trade Commissioner, this month is regarded sympathetically by those who have followed events.

Kenya Produce Brisk. Activity in Chillies and Rubber.

Body Sale for Ivory.

(From Our Own Correspondent.) London, December 7. To-day I made one of my periodical visits to the London markets.

Our thing, however, saw in rather slow demand was Zanzibar, Mozambique, Madagascar and Abyssinian bows.

There was a big demand for Marbles and Zanzibar shells but there was only small quantities available.

"Room" conditions appear to indicate the rubber market on the whole, and there is activity to be seen everywhere.

Everything in the way of ivory finds a ready sale and I am glad that at the last meeting the ivory lots were offered practically everything was sold.

A BIG AMALGAMATION. The firm of Messrs. Bhand, Mulla and Co., Ben. agents of Messrs. Bhand, Mulla and Co. in the East African region, have been taken over by Messrs. Mervin, of Green.

COINAGE DEBASEMENT. AROUND THE TOWN.

COLONEL WEDGWOOD'S IDEAS ON CURRENCY. Effect on the Native.

(From Our Own Correspondent.) London, December 11. During the debate in the House on Supply Estimates, on December 11, Sir Colonel Wedgwood, alluded to the debasement of coinage.

"How is it that, whereas in previous years we made a profit on coining good silver coin, we are now coining a loss on coining bad silver coin?" It is not a question of the artistic merits of the coinage that really interests it is of importance.

The real cause of this debate is that in all our Crown Colonies, particularly in Africa, the Native now find themselves receiving no good value, but coins that they know are bad coins.

Let us, therefore, go back to good silver coinage as soon as possible, to the coining of good silver money out of which we make profits, instead of the coining of bad silver coins from which we make only losses.

DEFENCE FORCE BILL. The Editor of "E.A. Standard" writes: "The Defence Force Bill, as it appeared in your issue of today is rather tedious.

In my opinion the Bill as laid down is not worth the approval of the public in Kenya. It seems hardly conceivable in a country where we have Generals and other ranks, who have given their best, that they should be suggested by subalterns in a District Commissioner.

It is a pity that we have been down by such a large body of Britishers, and that we should be brought down by such a large body of Britishers, and that we should be brought down by such a large body of Britishers.

LAND BANK FOR KENYA. To the Editor, "E.A. Standard" Sir—May I thank you for your issue of the 1st in my letter on the above. You have correctly put the ball a good kick off in your leading article.

When I wrote you I was not aware of the approaching general election next month. May I remind those interested in the question of a Land Bank that they now have an excellent opportunity of forwarding this important matter by demanding support for this scheme from any body seeking their vote at the election.

The elected members, backed by their voters, ought to be able to secure this great boon, which is likely to be supported by all Objectors.

Yours, etc. FLORETT KENYA. Nairobi, Jan. 6.

TO ROUND UP MASAI. No farther news has been reported from the Masai Reserve, but the officer in command of the E. A. B. operating in the Masai Reserve has been instructed by headquarters to split his troops up who remain in order to round up the Masai.

HOMEWARD MAILS. Mails despatched from Mombasa on December 27 and 28 last by the "C. S. S. Co. Coasting" and the "Nairobi" reached England on January 8 and 9 respectively.

AROUND THE TOWN.

A STANDARDIZED WAGON FOR THE FARMER. Interesting Specifications.

The desire not to be bothered by change and innovations is a very natural one; perhaps that explains why when our legislators have introduced an income tax we would not be bothered with it! It is true that we did not object to the result.

Inspired by this simple, standard legislation Messrs. H. W. Star Ltd., designed a new type of cart, or what should be called a tractor, as a type long overdue.

This is the full specification: Wheels 4 feet, axle 2 inches; tyre 3 inch; pole v. shape, underneath 10 inches, shaft 2 inches by 3 feet 6 inches, shaft four bags of maize laid flat; sides very light frame work of 1 1/2 inch by 1/2 inch iron riveted, except where necessary, body bottom of boards fitted longitudinally; bolts 1/2 inch through out, one size of spanner fits all.

standardized, and if a piece of the standard size is kept for spare it is simply a matter of saving off the length required, boring the necessary fitting same. No shaping or fitting is entailed in making replacements. If desired the makers will supply new parts at a very reasonable price, on receipt of order. Price £22.10.0. With screw brake of price £2.5.0 extra.

Messrs. H. W. Star Ltd., represent by supplied the Plains Main (Growers) Ltd with twenty heavy tractor wagons, completing the order within a month, which not only proved the standing of the firm and the quality of their products but shows that they are fully equipped to carry out any order however large and complicated.

All types of heavy and light truck wagons, mud wagons, ox and human carts are made and everything in connection with agricultural transport such as bushbuck, grass, yokes, chains, etc. stocked by the firm.

Peugeot car fitted with Goodyear Cord Tyres Wins Big RACE

NDRE BOILLOT is another of the world's famous racing drivers to adopt Goodyear Cord Tyres.

Fitted to his Peugeot car, these Goodyear Cord Tyres enabled him to drive to a decisive victory in the famous Coppa Florio Road Race without a single tyre change. This annual race, in which English, French, and Italian cars participate, is run over a particularly wet course in Sicily. The roads are rough macadam and on each lap of 97 miles there are 1,600 curves, more or less acute. Cars are divided round corners in order to maintain high average speeds, and it is this adding together with the severe braking preceding the corners, that imposes such severe wear and strains on tyres. That driving a Peugeot, also had his car fitted with Goodyear Cord Tyres, finished this without experiencing tyre trouble. That any car could complete this course with the same set of tyres is considered a remarkable performance.
