Every Goodyear Tube is Complete. It contains a Neat Oil and Water Proof... Every Goodyear Tube is Complete. It contains a Neat Oil and Water Proof...

When you buy air tubes, be exacting for a leak tube may rain an expensive cover.

Taking a Chance on Tubes Costs Money.

When you buy air tubes, be exacting for a leak tube may rain an expensive cover.

One feel of a Goodyear Red Tube and you will be convinced of its quality.

They are larger now than formerly, you will always want them.

Through and through they are made scientifically. Built up of layer upon layer of thin sheets of rubber the tubes completed the processes far greater strength than ordinary tubes which are composed of solid rolled sheet rubber.

They are perfect in shape. Not a wrinkle. Not a kink. Even the valve patch is vulcanized into the tube. It is not just stuck on.

Mr. J. H. HARRIS ON A MISSIONARY LEGISLATOR.

[From Our Own Correspondent.]

London, July 15. The Legislative Council has just passed the bill which will give the Governor of Kenya the power to appoint and dismiss the members of the Executive Council. The bill is a very important one, as it will give the Governor the power to appoint and dismiss the members of the Executive Council. The bill is a very important one, as it will give the Governor the power to appoint and dismiss the members of the Executive Council.

The bill is a very important one, as it will give the Governor the power to appoint and dismiss the members of the Executive Council. **MOTOR NOTES**

**Use with Carburetor**

The reputation of Pilsener has been mentioned so far, including the fact that it has been the most popular beer for many years. It is a fact that in 1903 it was the most popular beer in the world.

It has, however, found many admirers in this country. It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

to be looking just like the other. But their bearings. These were not good, only on one side of the pack. They were not in line, and we both thought our countrymen were not good. These things were not good, but we thought we were not good. These things were not good, but we thought we were not good.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

It is a fact that it is a most refreshing drink in this country. It is a fact that it is a most refreshing drink in this country.

**The Seals Training Camp**

The first day of the Seals Training Camp was held at the camp. The camp was held at the camp. The camp was held at the camp.

MORE ABOUT OILS

Of Special Interest to Motorists.

Regardless of price oil is the cheapest item of maintenance about a motor vehicle; it represents less than one per cent of the cost of operation. Good oil cannot be too priced but it is always an absolute economy. Unfortunately few owners give the subject of lubrication sufficient attention. The authenticity of this statement is attested by the fact that half the money spent for repairs could be saved by using the proper oils at the proper time.

In Our Booklet "MOTOR LUBRICATION"

We Have Placed Before You 50 Years of Experience in the Lubrication of Internal Combustion Engines.

A remarkably fine photograph of Her Majesty, the Rumanian wearing full coronation dress. This picture recently taken.

A HAPPY NEW YEAR

BEFORE.

AFTER.

[Photo: CLARK.]

**PETROL.**

**Further Reduction in Price Expected.**

**LOWER FREIGHTS**

Following on the recent announcement by the Uganda Railway of a further reduction in the freight charges on petrol, as Mr. A. Standard representative called on the agents for the brands of petrol used in Kenya in order to ascertain the position of the consumer in the matter and whether the latter would reap the benefits of the reduced freight.

It was definitely stated by the "Shell" agents that the charge for that particular brand would be reduced as soon as the stocks at present in Nairobi, and upon which the old rate of freight was paid, are exhausted, which would be about the end of the current month.

The "Pegasus" agents were unable to give any definite reply to the query, not having yet received instructions from their head office as to future prices. The opinion was expressed, however, that the reduction in freight would probably come about as a natural consequence.

**NAIROBI GOLF.**

**Record for the Course Beaten by Two.**

On Saturday last, Capt. Nisenson beat Mr. Whitelaw's previous Record for the Course of 78 by recording a Gross Score in the President's Cup of 76, and incidentally took the President's Cup for the month.

His score was made as follows:—  
Out: 5, 5, 6, 2, 4, 5, 6, 5=39.  
Home: 3, 5, 4, 3, 4, 6, 6, 2, 5=37.

Total 76.

The score is almost unique in constituting three 3s, and in the fact that the four short holes Nos. 4, 8, 13 and 17 were done in a total of 9 or 8 under par; A 8 at the 10th and especially a 4 at the 14th, both holes, are very fine performances.

It is no mean accomplishment to win the first three holes badly with a 3, 2, 5 (one each over par) and then to finish the round 16 holes in one under par.

All congratulations to Capt. Nisenson and the Handicap Committee are not in any way flattering him when they promptly brought him down to 4.

The Competitions Committee have made an innovation, which, it is hoped, will meet with the approval of the long Handicap Section of the Club, by dividing the President's (Stroke) and Ceans (Bogey) competitions into two divisions which, for want of better titles, have been styled Senior and Junior. The Senior Division consists of members with a handicap of 12 or under and the Junior with handicaps of 13 or over. The two divisions will play on separate days and one member from each division will qualify each month and get the Club Cup. At the end of each 12 months the 24 qualifiers will play off on Handicap to determine the holder of the cup for the year. The first of the competitions under these revised conditions will take place next Saturday when the Senior Division will play for the Ceans' Cup followed on Sunday by the Junior Division and later in the month. As yet the juniors will play for the President's Cup on Saturday and the seniors on Sunday the 20th.

The Club International Cup will be played for on September 16th and the Committee has deputed Major Gray to select a further two Englishmen as a committee to choose the English side and Mr. Peter Whitelaw to select two Scotsmen and choose a Scots side of eight. England see the holders of the Cup but it is understood that Scotland rather more than favours its chances this year; however, with that proverbial caution which will be known here, the 1929 class of old clubs in view of the ex-

pressed opinion, one would imagine should be obtainable, is found on applying to be extremely difficult if not impossible to procure. But what matters is—the game that counts! The recollections, very very pleasant recollections, of last year's meeting make for keen competition for the place in this year's issue and running the finger lightly down the list of the probable starters, there's all the makings of a hot day's hot contest!

**Not on the "Horseman."**  
Mr. B. Haslewood, Secretary of the Convention of Associations has received a letter from Mr. O. Kenneth Archer to say he will return by the s.s. "Damianthos Castle" in October.

**Railway Traffic.**  
The following is the approximate statement of public coaching and goods traffic on the Uganda Railway for the month of July:—  
Coaching Traffic, Sh. 500,534; Goods Traffic, Sh. 1,532,502; total Sh. 1,912,827. The figures for the corresponding month of previous year were: Coaching Traffic, Sh. 410,379; Goods Traffic, Sh. 1,250,299; total Sh. 1,660,678. This, therefore, is an increase of Sh. 100,152.

**MANNING CUP.**

**Scores Made in This Year's Competition.**

**NYABALAND'S VICTORY.**

The following are the scores made in the Manning Cup Competition as received by telegraph:—

**FACTS.  
FOR THE WISE**

- (1) The total quantity of wheat flour and meal, local and imported consumed in this country (including Uganda and the hinterland) is now at the rate of about 42,000 bags per annum, requiring about 170,000 of wheat.
- (2) The quantity of wheat available for milling this year was estimated to be about 25,000 bags. It is hoped that next year there may be about 35,000 bags.
- (3) The capacity of Unga Ltd. Mill exceeds 60,000 bags of wheat per annum, and there are two other roller mills now at work in the country. The total capacity of all roller mills is 80 per cent. in excess of the total consumption.
- (4) In the United Kingdom the milling capacity is 80 per cent. in excess of requirements and the millers all say they are running at a loss. British millers probably know as much about milling as any millers in the world, and wheat is cheaper in England than it is in Kenya Colony, yet American, Canadian and Australian flour is being imported into England.
