THE PRINCE.
His Excellency the Governor, on behalf of the people of Kenya, has again received His Royal Highness to visit this country, marking him of a hearty welcome from all communities in the Colony.

The visit is the third undertaken attended to the Prince of Wales to make personal acquaintance with the East African territories and it is fitting that Kenya, as the home of the British, on this part of the Empire should again take the lead and as the risk of another disappointment, prove upon the "Ambassador of the Empire," very genuine desire to extend to him our hospitality.

As yet only at the bank of Nyasa, a ruler of the Standard, seeing the news of the constitution of the visit of H. R. H. to South Africa hurried to the Post Office and covered to the suggestion that the Prince be asked again to find time to come amongst us.

It is not an original thought but the intense enthusiasm which demands that an industrial scheme be conceived in an industrial scheme to be very intense which the visit to Kenya display in the proposal that the Colony should be honoured by a visit from the Heir to the Throne. We feel that such a striking example of the enthusiasm

of Canada, the attractions of Kenya would prove so strong that the Prince would be induced to take a practical and permanent interest in the country in the form of one of those agricultural or stock breeding investments which have made his ranch in Ontario a spot to which he has returned on occasions when the duties of the Prince become so onerous that a change of scene is a vital necessity.

It is not surprising that the Governor's telegram and the news which accompanied the last visit was met with such a warm and loyal response to the Prince and our ambassador for his visit on a future occasion. Similar intentions with the circumstances being his toward in this course.

Descendant of Napoleon.
DEATH OF PRINCE LOUARD BONAAPARTE.

[FRANCOSI PRESS'S Agency.]
The death is announced of H. H. Prince Louis Bonaparte, Grand prince of the Empire, who was born at St. Cloud on the 16th of July, 1857, a third son of Napoleon's brother Prince Louis Bonaparte.

The deceased Prince was married to the Princess of Monaco, who is a descendant of the Emperor Napoleon and has published several volumes of interest.

To-night's Eastern Zoster.
Members of the East African and Uganda National History Society are invited to meet on Monday evening at 8 p.m. at the Club. The subject of the evening will be "Some Common History of Kenya." The speaker will be Dr. G. E. L. Turner, who will read a paper on "The East African and Uganda National History Society." The meeting will be held at the Club, where our friends are invited to bring their own contributions to the memory of the fallen.

3,000,000

Housewives are now using **"NEW PERFECTION"** Oil Cooking Stoves. **WHY?**

Why do 3,000,000 housewives prefer the New Perfection Oil Cook Stove? It is the famous Long Blue Chimney Burner stove as you see in the picture. And here is the reason: The Long Blue Chimney Burner stove does not burn gas or kerosene, it burns clean oil and does not waste a drop. It is so simple and so easy to use that a child can use it. It is so light and so portable that you can take it with you wherever you go. It is so cheap that you can afford to have one in every room.

SPEDDY
Takes a match to the burner. No fire to build, no time-consuming flame to wait for. The Long Blue Chimney burner gives you as speedy a start as a gas stove.

STEADY
Set the flame where you want it—you can always do so. It stays just where you set it. It makes no difference whether you use the low, medium or high flame, there's a steady flow of clean hot flame directly at the burner.

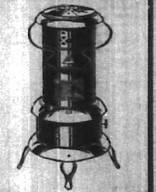

CLEAN
Does not blacken pots or pans. The Long Blue Chimney burner does not give off any smoke, so there is no soot or grease on the walls or ceiling.

HOT
For every cooking purpose there is always an abundance of steady, clean, intense cooking heat directly at the burner.

GLASS OIL RESERVOIR
(Patented)
The reservoir glass oil reservoir on the New Perfection Oil Cook Stove is so built that you can see at a glance how much oil is left.

FLAME CONTROL
The New Perfection gives you a wide flexibility of flame adjustment. A simple turn of the wheel sets the flame at just the height you want. No waiting for the flame to grow, no gas or kerosene waste.

NEW PERFECTION
This is the latest and best of all oil cooking stoves. It is so simple and so easy to use that a child can use it. It is so light and so portable that you can take it with you wherever you go. It is so cheap that you can afford to have one in every room.

NEW PERFECTION HEATER
As illustrated above, The Perfection gas glowing wrennet at the touch of a match. Holds up the coolest room in a few minutes. Burns ten hours on a gallon of oil.

Light, strong, air-tight burner; easily carried about. It is a wonderful convenience on road motor-trips.

New Price: Shs. 65/-

NEW PERFECTION OVER-SINK BURNER
This is the really portable oven. Quicker and more uniform in heating and easier to use than any other. Like the New Perfection stove, their distinctive advantages are built-in features.

Why do 3,000,000 housewives prefer the New Perfection Oil Cook Stove? It has the famous Long Flame Chimney Burner—That's why! And here is the reason. This Long Flame Chimney Burner takes every drop of kerosene oil into clean, harmless heat and drives it right through, it gives you exactly the right light for every purpose.

As the touch of a match you have a flame that will do your cooking fast and without the dirt of wick or kerosene. You can buy almost anywhere a single tin of the best wick doing it. The flame is always in plain sight through the glass door.

STEADY
Tough a match to the burner and the New Perfection Oil Cook Stove is ready for use; instantly. No fire to build, no smoke-generating flues to wait for. The chimney burner gives you an steady a burner as you ever see.

STAY
Not the flame a mere you want it. The flame is steady as it through the glass door. It stays just where you set it. It makes no difference whether you use the low, medium or high flame, there's a steady flow of clean heat directly against the pot.

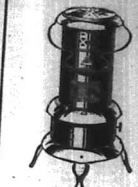

CLEAN
Does not blacken pots or pans. Burns clean. The chimney burner burns every drop of kerosene oil into cooking heat—more of it escaped as smoke or soot or disagreeable odors.

HOT
For every cooking purpose there is always an abundance of steady, clean, intense cooking heat directly against the pot.

GLASS OIL RESERVOIR (Patented)
The reversible glass oil reservoir on the New Perfection Oil Cook Stove is to be had only on stoves made by us.

The reservoir fits into a reversible carriage, and when pulling is necessary, the carriage is reversed, as shown in the illustration, providing the open end of the reservoir. A wide lip or handle is attached which permits you to lift it out without getting oil on your hands. This is the greatest improvement ever added to an oil stove since the Long Flame Chimney.

FLAME CONTROL
The New Perfection provides a wide flexibility of flame adjustment. A simple turn of the wheel adjusts the flame from low to high for the flame to gas-burner. They can make up many of your particular requirements. You can always get the best stove results with a New Perfection in your home.

NEW PERFECTION HEATER
As illustrated above. The Heater gives glowing warmth at the touch of a match. Its radiant heat warms the room in a heat of 1000. Burns ten hours on a gallon of oil. Light, strong and handsome; easily covered also. It is a wonderful convenience on cold mornings.

NEW PERFECTION OVEN
The ordinary portable oven. Quicker and more uniform in baking and roasting are secured with stoves. Like the New Perfection oven built for convenience.

WINES FOR WEMBLEY.

Australia Objects to Any Foreign One.

Australian wine growers are protesting emphatically against the proposed to use foreign wines at the Empire Exhibition. A Sydney cable to the Wembley wine states they regard this as a distinct breach of the understanding. The Exhibition authorities that protection would be made for Australian Empire goods products only to be served in restaurants at Wembley.

A Wembley official explains that the decision to use foreign wines was not made until after extensive without notice. The wine will be purchased, but if it is not satisfactory, Empire wine, he says, will be pushed, but if it is not satisfactory, Empire wine, he says, will be pushed, but if it is not satisfactory, Empire wine, he says, will be pushed.

Quite Another Story.
An ingenious scheme set on foot by Australian wine-growers to get Wembley to buy their produce at a minimum. It appears that an Australian wine-grower has decided to send to England to push Australian wine, and to propose an extra cargo of champagne to be sold to duty in suspension. But the scheme is being foisted by Lyons and Co., who are associated to purchase wine supplies from Burgundy.

BEGGANS IN LONDON.

Police officers have had to be placed on special duty in West End for the purpose of dealing with the London beggars who are flocking to the center of London from all parts of the country, and Quarter Court at the moment. After dealing with several of these men, Sir Charles Evans said: "These people must be starved, and it is a pity that London is generally thought of as the center of the country. I suppose that they are generally thought of as the center of the country. I suppose that they are generally thought of as the center of the country."

The Tin that "Delivers the Goods."

Here's the tea that never contradicts its advertisements. We advertise it as good and when you get it it is good.
The vacuum tin makes this a certainty. It harbours no tea-destructive tropical air.
When you open your first tin of Brooke Bond tea you will notice a wealth of fragrance which as only comes from good tea in fresh condition. When you take your first sip from a brew of it—Ah! this is the tea you must always get.
Enjoy a cup of tea from your first pound of Brooke Bond to-day.

THE SPIRIT OF QUALITY

DEWAR'S
WHITE LABEL

ORGAN AGAINST THE "WHALE DIC"

Plans Made by Rural Societies.

Government Help.

Appointment of Men to Fight Whale Dic.

It is very largely attended meetings.

to be held on Wednesday at the building operated by the "Whale Dic" there were 50 members present.

The meeting was presided over by the Rural Societies and the very large attendance indicates the interest which is being taken in this matter by the public.

In the absence of Mr. E. R. McNeil on an errand, Mr. W. M. McNeil presided over the meeting.

At the close of the meeting Mr. McNeil had already taken steps to secure the Government's assistance in this matter.

It is interesting to note that the Government will not only pay for the expenses of the expedition but will also pay for the salaries of the men who will be sent to fight the whale dic.

The expedition will be in charge of Mr. E. R. McNeil and will consist of about 50 men.

It is hoped that the expedition will be successful in eradicating the whale dic from the Hawaiian Islands.

The meeting was held in the evening and was well attended.

The speakers at the meeting were Mr. E. R. McNeil, Mr. W. M. McNeil, and Mr. J. M. McNeil.

A WARNING.
LAND OWNERS, OFFICIALS AND MANAGERS.
The attention of the Overseas Settlement Department of the Colonial Office has been drawn to advertising advertisements issued in the Press by companies or individuals claiming to be the official agents for the sale of land in the various Colonies and Protectorates and in foreign countries.

Experience shows that those who are persuaded to buy land by advertisements of this kind expose themselves to great risks. It is therefore felt necessary to issue a warning to all persons in this country who think of buying land overseas that they should be warned to do so unless they have satisfied themselves that the land is available to be sold by an authority who is a duly qualified and bona fide representative of the Government or the Landowners in the particular Colony or Protectorate in which the land is situated.
