THE FEDERATION DEBATE IN THE COMMONS.

Commission Possibilities.

SIR SYDNEY HENN REPLIES TO THE WHITE SETTLERS.

"Rights as Well as Duties."

MR. J. H. THOMAS FAVOURS A COMMITTEE AS WELL AS A COMMISSION.

The following report of the debate in the House of Commons on the subject of Federation for the Colonies is reproduced from the "Standard" of March 7, 1954.

The debate (which is also referred to by our London correspondent elsewhere in this issue) was of a high character, the arguments being earnest and of great interest.

The Secretary of State for the Colonies favoured the appointment of a Commission as well as a Committee to report to the Colonial Office.

As is already known, the principle of the appointment of a Commission was accepted by Mr. Thomas.

Colonies was a great hindrance to the progress of the Empire.

REFUSAL TO APPOINT A COMMISSIONER.

London, May 3.—The Premier in the "Daily News" has today announced that he has refused to appoint a Commissioner to investigate the Kenya situation.

It is interesting to note that the Premier's decision is based on the grounds that the Kenya situation is not yet serious enough to warrant such a step.

## Tip-top quality and fresh!

You notice the tip-top quality of Brooke Bond Tea the moment you open the tin. Such fragrance! What a treat it is to get tea as fresh as it has just come out of the factory and in fact see it packed—thanks to the vacuum in which harbours the tea—free from tropical air. Everyone prefers Brooke Bond. In the tropics there's no tea like it.

See how fresh it is on the tin. The vacuum cover is so perfect that the tea is as fresh as when it was first packed. It is so fresh that it is as fresh as when it was first packed. It is so fresh that it is as fresh as when it was first packed.

## Average Rainfall

over 14 years	644	9.87	5.74
1921	232	2.82	1.59
(through year)	307	4.63	2.17
1922 year	336	4.93	2.17
1923	975	14.00	7.29
1924	10,20	15.12	8.22

The above figures will be seen that during March and April we should have had nearly 10 inches of rain, whereas we actually only had 4.63 inches. The key to the whole situation lies in the amount of May, which is almost always good and that we have had a good season. In the average year we should get 21 inches, but we have only had 11.5 inches. We should have about 11.5 inches of rain for next week. I will not say that the weather is any other part of the season.
