From our special correspondent.

At the last session of the Commercial Convention in London, the Associated Chambers of Commerce, in a unanimous decision, decided to send a representative to the East African Bank.

After a debate, the session passed a resolution of complete faith in the Hon. Humphrey Leggat, a statement in respect of the African Bank.

The following resolution was adopted: "That in view of the financial position of the East African Bank, the Government should take steps to ensure that the bank is able to meet its obligations."

AN ENGINE PROPOSAL.

The Allied Conference of Representatives now being held in London is making satisfactory progress towards a general settlement. There is in evidence a new spark, due it may be to some extent to the new force of personalities represented by the British and French Government delegates to the Conference and to the more clearly expressed willingness and intention of the United States to take a more active part than hitherto in the settlement of the world's post-war problems. Mr. Adams Jambani opposed the motion for the reason that the Convention was a political body and it was not a good thing to have a political body in a commercial association.

POST OFFICE FACILITIES.

When the Committee of Associates considered the proposals recently the delegates decided, after hearing the spirited protest made by the Postmaster-General in opposing the bill resolution proposed by the Delegation representative, understanding an opportunity to the administration of the Post Office. We expressed the hope before the Council and unexpected motion was passed information in support and in explanation would be available. The Convention was unprepared to debate and to justify its resolution and the righteous indignation which they apologized and manfully voiced Mr. Fitzgerald on efficient and long-enduring Postmaster-General.

The Associated Chambers of Commerce have approached the Council of the same department and have delivered to the public, while it explains much of their services to political arguments and the weighty public opinion which they have gathered from their own experience. The report of the proceedings published by ourselves yesterday included a number of strongly worded resolutions on the subject of the cable service. It is a truth that the progress of

Mombasa covers the whole of the district to the north of the Colony under the work of the various stations. The Mombasa Club is to be of very little practical use in the Colony under the present arrangement. The Club is closed apparently between 4 p.m. and 6 o'clock the following morning. On the same subject of Post Office facilities we mention that we had the instance of a French steamer to pick up mails at Mombasa on 22nd instant; the mails were expected to close in Nairobi on the 29th. Yet the steamer of 18th instant, the mails were expected to close in Nairobi on the 29th. Yet the steamer of 18th instant, the mails were expected to close in Nairobi on the 29th.

MUNICIPAL GOVERNMENT IN VARIOUS PHASES

Information For Nairobi Critics. ENGLAND, AMERICA AND GERMANY IN COMPARISON

Summary of Mr. J. A. Warren's Address

"In Germany a municipality may do anything which is not forbidden by law to do," said Mr. J. A. Warren, speaking at the opening phase of his address to the East African Municipal League on Municipal Legislation. The first, which dealt with the knowledge of Nairobi, was published in the J. A. Standard (in Friday).

Mr. Warren questioned Sir John G. L. Local self government in Germany means a great deal more than is often supposed. It is attached to that term in our own country. The Local Authority is credited with a better knowledge of the wishes and needs of the people, and has an extensive department for industrial and commercial purposes for the common good which few other countries possess. He pointed that:

Table of a town. Ordinarily a town retains Government administration of its affairs, and will not long open an interesting dispute between the municipality of Nairobi and the Nigerian Government but this is not the case.

An extension of country or consolidation of municipalities is not common in Germany. It is common in our own country. It is common in our own country. It is common in our own country.
