**THE CALEDONIAN SOCIETY.**  
 All patriotic Scots in Kenya who have at heart the traditions of their native country, will share with us the regret we experienced upon receipt of the report of the annual meeting of the Caledonian Society in Kenya. The evidence that the dreadful disease of epilepsy has at length attacked the premier national society in this country is a blot upon the reputation of the Scot and a challenge to him to indulge in serious reflection.

There are several causes, in our mind, of the regrettable "dry rot" which threatens to undermine the Society. When we examine the public activities of the body we find that the reason for the decrease in its influence is that it has not made the necessary to the Society healthy. With the exception of the Rev. Andrew Dunne and his annual dinner, we can recall no regular feature in the life of the community which has public recognition and the Caledonian Society. It is the proud boast of the first ever held in Kenya that it was done in the love of the mother country.

"Land of our native birth and of our fathers' blood."  
 "Land of our forefathers' blood."  
 "Land of our forefathers' blood."  
 "Land of our forefathers' blood."

So we say with our comrades

if, in Kenya, Scotland stands where she stood? There is a general belief, not based on accurate facts, that in the Caledonian Society holds a primary position in every community. The fact has been made the cause for many a course like this, if the annual general meeting of the Caledonian Society in any indication, the Scottish community in Nairobi must needs be to have a share and take a part of that. In doing this, the Caledonian Society is not only doing the duty of the Caledonian Society in Kenya, but is also doing the duty of the Caledonian Society in Kenya. The Caledonian Society in Kenya is not only doing the duty of the Caledonian Society in Kenya, but is also doing the duty of the Caledonian Society in Kenya.

There are other aspects of the situation. The Caledonian Society in Kenya is not only doing the duty of the Caledonian Society in Kenya, but is also doing the duty of the Caledonian Society in Kenya. The Caledonian Society in Kenya is not only doing the duty of the Caledonian Society in Kenya, but is also doing the duty of the Caledonian Society in Kenya.

There is also the question of work. The new Scot who has come to the community in Kenya. Do those who already reside in the country out of their way to help the traditional hospitality of the old country or do we remain deaf by accident that the Caledonian Society exists in Kenya? Finally, there is an annual attempt at the Caledonian Society in Kenya to satisfy the conscience of the country as a body or is it impossible for us to do this without a more earnest effort to make the influence of the Church in the promotion of Scottish character of the old type which has long inspired the foundation of Caledonian Society in Kenya. We believe that the duty of the Committee to take the public meeting of the Caledonian Society in Kenya to satisfy the conscience of the country as a body or is it impossible for us to do this without a more earnest effort to make the influence of the Church in the promotion of Scottish character of the old type which has long inspired the foundation of Caledonian Society in Kenya.

ASIATICS IN THE UNION.

(Continued from page 2)

India in the replacement of... Major Richards (Western) asked the Minister of the Interior whether the Government was prepared to take action to prevent Asiatics from trading under the name of Europeans...

NATAL PLEBES VIEW

The Natal House says...

The Prime Minister's announcement that the Government do not intend to proceed with the Class A and B Bill will be received in Natal with mixed feelings. Possibly he has his most ready sympathy...

We venture to predict that the new Government will not do the present do little or nothing towards the permanent solution of the present problem. Now that they are in office they will find out that the most difficult measure of definition embodied in the Class A and B Bill is...

"If the public are so they pressure naturally convinced that the Government of Natal intend to increase to the interests of the white population, but there does the honesty of their convictions by confining their action to European interests."

First, Largest, Best Beware of 'Disinfectants' That do not Disinfect! Use EYES' DAILY. "It is the best disinfectant in use." Certain interesting parties are spreading the report that our selling prices are "steepened." This is quite untrue. Continuity we have been established for over 15 years but the new soap mill machinery installed by us this year, last year, and in 1918, has a larger capacity than that of any other mill now running or being erected in the country. And in passing our new plant we had the advantage of 15 years' experience of new conditions and local work.
