A LAMP FOR EVERY PURPOSE WITH A LIGHT THAT IS UNEQUALLED  
 That's the Story, briefly told, of

### THE DIAMOND LIGHT.

No. 103-G  
 The Prof. Lantern  
 with Heavy Glass  
 Globe

No. 52/50  
 The Diamond  
 Lantern will  
 give a fine  
 beam of light  
 instead of a  
 dim glow.

The Diamond  
 Lantern will  
 give a fine  
 beam of light  
 instead of a  
 dim glow.

**CONVENIENT AS ELECTRICITY.**  
 The turning of an electric button appeals to everyone as being the ideal method of lighting. The operation of The Diamond Light is almost equal in convenience and the result is far more satisfactory.

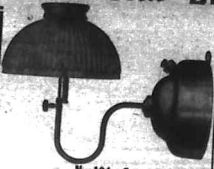

No electric light made for ordinary use can begin to compare with the brilliancy of The Diamond Light.

It gives a greater volume of light at less cost than any other known method of lighting.

**A LAMP AND LANTERN THAT GIVES 300 CANDLE POWER GLOW.**

The ordinary lamp gives from 5 to 6 candle power; an ordinary electric bulb gives 16 candle power while the new modern bulb with tungsten filament gives 60 to 60 candle power.

The Diamond Light is almost a "white sun in captivity" for it sheds a glow equal to 300 candle power—greater than any other portable light.

No. 104-G  
**WALL LAMP with handsome 10-inch Opal Shade. 300 Candle Power. Shs. 59/50-**

No. 105-G  
**Chandelier Hanging Lamp with Handsome 10-inch Opal Shades. Two Twin-Handle Burners give a total volume of light equal to 600 Candle Power. Shs. 97/50**

Turning Night into Day  
 WITH A LIGHT AS WHITE AS DAYLIGHT.

**DEPENDABLE AS DAYLIGHT.**

The pale, yellowish glow of ordinary artificial light is only insufficient. It tends to distort the eye and give false impressions of colors, etc. In matched contrast to the above is the soft, rich glow of The Diamond Light that is as white as Daylight, making it possible to distinguish colors as easily as by day.

The Diamond Light does not merely light one's little spot but throws its brilliancy in every direction until it turns darkness into daylight. No matter where the light is placed, every part of the room is thoroughly illuminated.

The Ideal Illumination for Homes, Offices, Bars, Public Auditoriums, Workshops, Show-rooms, Cottages, Camps, Indoor and Outdoor Day and Even Week and hundreds of other places where a brilliant, glowing light is needed and appreciated.

No. 102-G  
 Table and Hanging Lamp with Beautiful Diamond Opal Shade. 300 Candle Power. Twin Handle Burners.

No. 101-G  
 Table and Hanging Lamp with Handsome 10-inch Opal Shade. 300 Candle Power. Twin Handle Burners.

No. 101-G  
 Table and Hanging Lamp with Handsome 10-inch Opal Shade. 300 Candle Power. Twin Handle Burners.

No. 101-G  
 Table and Hanging Lamp with Handsome 10-inch Opal Shade. 300 Candle Power. Twin Handle Burners.

Be sure your tyres are British. DUNLOP and BE SATISFIED.

Important Notice

U. S. TYRES

Coming to early change of premises we shall be unable to handle the U. S. Tyre business ourselves for the present. We have therefore disposed of the whole of our immediate stocks of tyres, repair material and spare accessories to Messrs. Carr, Lawson & Co., Ltd., from whom you clients can continue to draw their requirements.

We hope, in the near future, to be able to make arrangements to carry on the U. S. Tyre business ourselves to the satisfaction of our customers.

HAMILTON STAYBIE.

KENNEL NOTES

Margaret Cuyler

There is another who is a standard winner of my "Breeders' review of his line." I now know who was the sire of the dog that I had bought. I get acquainted with him in the "Breeders' review" of "Glenhurst."

Mr. Major has had the advantage of the limited facilities that is England. It is possible to give their puppies just as good a home as they can get in this country, and had I had the same facilities I should therefore be obliged to give one more of my pups than I have done.

The position covered the "Breeders' review" of my pups, and the now for a time they are all in the hands of the same people, and I am sure that they will be able to give them the best of care.

My pups are all in the hands of the same people, and I am sure that they will be able to give them the best of care.

My pups are all in the hands of the same people, and I am sure that they will be able to give them the best of care.

OUR WOMEN'S PAGE

Our Paris Gossip

(From PARISIAN COURIER)

Bobbed hair has given place to "shaggy hair," which is but a variation of the former, but the look proper being not in the shape of the head which is fixed frames the face with soft, straggling locks.

But Paris has already condemned and prohibits every conventional method of hair dressing. Straight hair is completely obsolete in the "bobbed" look from both above and below. Instead, the short locks are curled or waved "strongly," held up in one half from the crown of the head, and over this hair is allowed to fall loosely.

The great aim is to preserve the look of youth—that is why straightened hair is no longer considered smart. One hair that suffers least is the "bobbed" in the day City.

PRESERVING YOUTHFUL LOOKS

The great aim is to preserve the look of youth—that is why straightened hair is no longer considered smart. One hair that suffers least is the "bobbed" in the day City.

A Reliable Water Hose

There was a time when any hose was water hose. Water hose was used wherever hose was needed.

Today we know better. We have learned that, in order to be economical, a hose like anything else, must be made for the work it is intended to perform.

Water hose is used under varying working conditions and in often subjected to severe abuse.

It is dragged over rough concrete floors, over sharp edges

and corners, and it is walked on and run over by hand-trucks and carts.

Good Year Water Hose is made with a knowledge of these working conditions and how to resist them.

Its inner tube and its outer cover are made to resist wear and deterioration.

Its body consists of plies of cords whose exact weight and strength have been determined so as to give flexibility, strength and lightness.

When you get your Good Year Water Hose next time.

# DEVELOPMENT OF THE COAST.

## Tandland Criticism of the Recent Report.

### IMPORTANT OMISSIONS.

#### Implications of "Payment in Kind" System.

#### A STEP FORWARD.

From our own correspondence.

Mr. Tandland's criticism of the recent report on the development of the coast is a most interesting and timely one. He points out several important omissions in the report, particularly in regard to the proposed "payment in kind" system. He also discusses the implications of this system and suggests a number of improvements.

# Nerve Failure

Serious Afflictions of Insomnia, Indigestion, Headaches, and Nervous Exhaustion. Cured by Dr. Cassell's Tablets.

Here is the plain honest story of a man whose nerves had failed so completely as to render him almost helpless, yet who, by using Dr. Cassell's Tablets, recovered his health and found life as sweet as honey.

# Dr. Cassell's Tablets

PRICES IN SOUTH AFRICA. Not to be sold for less than the price shown on the wrapper.

Dr. Cassell's Tablets are a scientific preparation of the most potent and healthful substances known to man. They are the only tablets that contain the full complement of vitamins and minerals essential for the maintenance of good health.
