THE FORD A QUALITY PRODUCT.
The low price of the Ford car and the Ford Truck is due only to the brains and organization and the high quality of the materials used to produce it. This may sound a paradox, but it is the truth and a fact confirmed by the number of Ford Cars and Trucks sold in excess of any other makes.

not the only dealer whose problems attend attention. They were America and 400 sales in Kenya. Great Britain about 4000 sales. They have no sales in Kenya to critic these debts. The settlement of these important questions is a matter which assumes to be quite underhand. The policy adopted by British to establish her dominance position as a satisfactory base has imposed a terrible burden, and the British taxpayer, who pays more in direct taxation than that a taxpayer any other country. Relief by reduction of taxation is an unjust remedy. In any case, relief is reduced enterprise in any form of industry must be studied.

INTER-ALLIED BERTS.
An announcement will be made in Paris today regarding the agreement said to have been reached by the various nations on the subject of inter-allied debts and reparations. The Conference, which has been sitting in Paris during the last six days, is thought to have arrived at a settlement of these questions which have proved so difficult of solution in the past. For more than five years after the end of the war the problem of inter-allied debts and of reparations were regarded as insuperable; as such they prevented small progress of solution. Last year, the question of reparations was handled separately and placed on a more satisfactory footing by the adoption of the Dawes Committee's recommendations. This allowed the field for solving the problem of inter-allied debts. The policy of the British Government is rigid in the question as for the latter to make arrangements with Great Britain without making provision for the payment of loans to British and to be repaid to British. The amount of these loans is estimated to be in the neighborhood of £100 million on a comprehensive estimate. In the meantime, when each nation receives a proportional share of the money paid, Great Britain holds the balance of the money, and the United States holds the balance of the money. This has placed on a definite basis the inter-allied debt. The balance has been placed on a definite basis. The balance has been placed on a definite basis. Not Surprising.

Some hundred and fifty years ago, tea was well a rarity in country places at home. So we must not laugh at the old lady who was given half a pound at Christmas.
 After boiling it up in a sugarcan the three away the water, and spread the leaves on bread and butter.
 She thought that tea was over-rated delicacy.

THE SHIPPERS' COMMITTEE.
Attitude of Conference Lines.

A meeting of the East African Section of the London Chamber of Commerce was held on December 3 under the Chairmanship of Sir Anthony Leggat.
Early important questions were discussed, among them the delay in formulating shipping documents, however not relevant topics, and the formation of a Shippers Committee.
The speaker's address was followed by a resolution in which the Conference Lines do not consider that the Committee established under the aegis of the East African Section of the London Chamber of Commerce is representative of East African trade and that they have refused to meet it.
The following extracts are taken from the address of the speaker:

EAST AFRICAN SHIPPING FACILITIES COMMITTEE REPORT
It was reported that the Association of East African Chamber had forwarded to the Shippers' Committee a report on the facilities available at the ports of East Africa. The report was prepared by the Chamber for submission to the Shippers' Committee.
It was reported that the Association of East African Chamber had forwarded to the Shippers' Committee a report on the facilities available at the ports of East Africa. The report was prepared by the Chamber for submission to the Shippers' Committee.

LEGGAT'S MESSAGE
The Chairman indicated that the question of lighters at the ports was one of the most important. It was pointed out that many of the lighters were in poor condition and that many of the lighters were in poor condition and that many of the lighters were in poor condition and that many of the lighters were in poor condition.

DELAY IN ISSUING SHIPPING DOCUMENTS
A second communication from the Association of East African Chamber concerning the delay in issuing shipping documents was received. The Chairman said that the delay was a serious one and that it was necessary to take steps to remedy it.

FORD PREDOMINANCE

Simply light weight combined with strength and standardization
are the pre-eminence features of the Ford, resulting in unrivalled
and all conditions, even in the hands of a novice, but best cost
estimated whipsy.

The reputation that the Ford enjoys almost internationally and
maintained ever since has been maintained by other manufacturers
having nothing other than an appearance in marketing their product.

BUT THE FORD STILL PREDOMINATES.
