INTERNATIONAL FINANCE.

French Debt to Britain.

ITALIAN POLITICS.

The Chamber has adopted the law which deals with the new taxation of the income tax. It is calculated that the Chamber will bring in thirty-seven millions of gold marks. Great Britain would receive, according to the first proposals, twenty-five million or about half a million of gold marks.

Two or Three Millions. The statement continues that, as British policy has been to support Italy in her efforts to pay her debts, it is probable that the Government will have to pay the difference between the amounts which appear not to be more than two or three millions of gold marks.

Britain's Share. Unofficial communications from the British Legation's office of representations made the Chamber about the year ending 1924 and 1925, at 20,000,000. According to the latest of the London and Paris, Great Britain's share is 20,000,000.

E.A. FREIGHTS. Association of Shippers. The Trade's City correspondent in an article dealing with the question of Shippers is credited as giving the opinion that an Association of Shippers is needed to bring about a foundation of common sense to the question of freight.

The Freisinnige Zeitung attributes Dr. Brüning's intention to postpone the meeting of the Reichstag until the end of the month, to the differences of opinion between members of the Cabinet, especially between members of the National and Centre Parties, in regard to the formation of the estimate to be made by the new Government.
