CAR CAUSERS

Speed Limits

AN UNUSUAL SUGGESTION

Considerable discussion has taken place here lately on the subject of the proposed increase of 15 miles per hour in the speed limit in the City of Nairobi.

USE PAPER ROOLS

In a view, rather than the speed limit has failed in other countries owing to various reasons, the two main ones presented being (1) the impossibility of the Police enforcing the law, and (2) the fact that other countries have not done so.

USE PAPER ROOLS

It is reported that the proposed increase of 15 miles per hour in the speed limit in the City of Nairobi is being considered by the Government.

USE PAPER ROOLS

The proposed increase of 15 miles per hour in the speed limit in the City of Nairobi is being considered by the Government.

R.F. EQUIPMENT

New Machines

MAST DEVELOPMENTS

A London correspondent has been sent to visit the great trust in England, which has been established in Australia. The question arises what the machine is to do, and of those things that are being done in the world for the purpose of increasing the production of the machine. The machine is to be used for the purpose of increasing the production of the machine.

MANUFACTURING

NUMEROUS OPERATIONS

DEFLECTED BEAM PRODUCTION

The first step in the production of a machine is the making of the machine. The machine is to be used for the purpose of increasing the production of the machine. The machine is to be used for the purpose of increasing the production of the machine.

BOOKS WORTH READING.

A GAME RANGER NOTEBOOK

By A. Murray Pritchard.  
It is a book which anyone who has ever had a book in his hand will find interesting. The book is a collection of photographs taken in the East African forests. As the book is a collection of photographs, it is a book which is a collection of photographs. The book is a collection of photographs.

TOUR OF INVESTIGATION IN EAST AFRICA

Guy Gaunt on Kenya. LAND AND INTER-COLONIAL CO-OPERATION.

Preparation for St. Stephen's.

Mr Guy Gaunt, who is a member of the East Africa Commission, is on his way to East Africa to investigate the land situation.

There is any quantity of labour in East Africa, but it is not being used to its full advantage.

It is not only the land but also the labour that is being investigated.

It is not only the land but also the labour that is being investigated.

It is not only the land but also the labour that is being investigated.

It is not only the land but also the labour that is being investigated.

Dora, S.E. Mahedi.

## THE COTTON TRADE

### Manchester Enquiry.

(From Our Own Correspondent.)  
The London Cotton Association has been asked to issue a statement regarding the demand for raw cotton in the United Kingdom for the year 1919. The Association has issued a statement to the effect that the demand for raw cotton in the United Kingdom for the year 1919 was 1,000,000 bales, or 100,000,000 lbs. of cotton.

On these grounds we have to recommend the Government to increase the duty on raw cotton to 10 per cent. This would be a fair and equitable arrangement, and would be in the interests of the cotton growers of the United Kingdom.

## RAY COTTON

Ray Cotton is a new variety of cotton which has been developed in the United States. It is a long-staple cotton, and is well adapted for spinning into fine yarns. It is a very valuable variety, and is well adapted for the needs of the cotton industry in the United Kingdom.

## BACON PIGS FOR UPLANDS

**PRESENT Price:** 10 cents per lb. Dred weight for all prices apply, plus the usual trade of weight, plus cost of railway freight.

**FUTURE Price:** Contracts are now being entered into with approval. Daily closed up to a minimum price of 10 cents per lb. from now to December 31st.

**PAYMENT:** As hitherto, all pigs are paid for within 10 days of delivery.

**NOTE:** During the present temporary shortage the Department will accept any quality of pig which is suitable for the purpose. The price for these pigs will be 10 cents per lb. plus the usual trade of weight, plus cost of railway freight.

All communications should be addressed to—**UPLANDS FACTORY, UPLANDS.**

**THE NAIROBI RACES.**

**Another Large Crowd at the Course on Saturday.**

**ANOTHER WIN FOR DEMOCRACY.**

Mr. C. H. Alexander Wins the Haters' Hurdle Cup with Taran.

The second day of the Nairobi race meeting was held under the most auspicious conditions. There was a large attendance and the first day had led up to a fairly satisfactory result on every point of view. The number of entries attending the races here is in no way approached that of any other day, but nevertheless the crowd was not so large as on previous days. The weather was in every way favourable for the racing and the spectators were well served by the excellent arrangements made for their comfort by Mr. Cohen of the Club's Lounge.

Like the first day, those who attended on Saturday, saw extremely good racing, with the hater's cup being held by Taran.

The double race took off at 10.15. The first race was the 100 yds. race, the winner of which was Taran. At the close of the race Lady Madeline presented the cup to the winner, Mr. C. H. Alexander, who was accompanied by Mr. R. F. White, Taran's trainer.

The winner was Mr. C. H. Alexander, who was accompanied by Mr. R. F. White, Taran's trainer.

**FIRST RACE.**

**DIVIDED OPEN HURDLE CUP (100 Yards).** 1. Taran (C. H. Alexander), 2. Taran (C. H. Alexander), 3. Taran (C. H. Alexander).

**THE MODEL "T" FORD MOTOR**

The simplicity, sturdiness and power of this engine have been proved by its success in the most severe conditions of automobile work throughout the world. Its soundness in design that while minor changes have been made since it was first introduced in 1908, no fundamental change has ever been found necessary.

The success of the Model T car has been one of the most notable in the history of the motor car. It has been the most popular car in the world for the last ten years and it is still being produced in large quantities.

THE Standard Stationery Store, SIXTH AVENUE NAIROBI.

## MOTOR SPIRIT COMPETITION.

### Analysis of Various Brands.

### GROWTH OF INDEPENDENT SUPPLY.

### How the Grades are Obtained.

The following events were held in connection with the competition for the Motor Spirit Competition. The first event was the analysis of various brands of motor spirit. The results of the analysis are given in the table below.

### MARKETING ORGANIZATION.

At the present time the supply of motor spirit is being handled by the Anglo-Persian Oil Co., the Shell Co., and the Esso Co. The results of the analysis are given in the table below.

### LOW MOTOR SPIRIT IN MALAYA.

Motor spirit is being produced in Malaya in quantities which are sufficient to supply the requirements of the country. The results of the analysis are given in the table below.

### THE REFINING PROCESS.

The refining process of motor spirit is a complex one. It involves the removal of impurities and the addition of stabilizers. The results of the analysis are given in the table below.

### GROWTH OF COMPETITION.
