### SCISSORS AND PASTE

You won't oil on the streets these the so-called "official" and consequently the ability of the car to perform better.

American kammer is mentioned in 1916 circulars for an oil, and following will appear at all "gas stations."

**FAMOUS LAST WORDS.**  
"Watch me last that auto to the center."

The manager of a well-known business company recently stated that the annual profit in motor-vehicle sales by the company reached \$1,000,000, and that the number of vehicles was between 25 and 40 per cent. of the total population.

"No good limit and no necessary" states a headline in a north-eastern newspaper, referring to a local council decision.

The amount received in motor taxes in Great Britain in January and February exceeded the budget estimate for the whole year by £155,000.

Believing the appearance and design of its car will be changing of our name from the Packard Motor Car Co. is going into mass production.

The quantity of motor spirit imported into Great Britain during the month of January this year was 27,868,000 gallons, as compared with 27,074,000 gallons during January, 1924, a decrease of 1,147,700 gallons. This decrease is probably accounted for by the increasing quantity of motor spirit distilled in England from imported crude oil.

The largest number of world's cars in the United States is used daily for tourism, and another 20 per cent. is used for seasonal leisure travels. Only one car in every 35 is used solely for recreation.

A painter's brush that is thick and soft is preferable in use for use in removing dust from the canvas.

There are eighty towns in many States in the United States that are in Germany.

Some idea of the extent of suffering in the United States is afforded by the figures compiled by the American Eye Association, which show that the production of motor cars in this country during the year amounted to no fewer than 4,000,000, an increase of 61 per cent. over 1922. Of this total, the original was reserved for the motor cars of an average of 27 per cent. for motor purposes and 73 per cent. for passenger purposes. The total number of cars exported and 15 per cent. added to manufacturers' stocks.

The Danish tax on motor car sales, ranging from 12 to 20 per cent. depending on year age and tax is paid at the time of purchase, has been extended for a period of two years, with slight changes. The tax on high-powered cars has been increased from 30 to 40 per cent.

According to the New York Herald Tribune, Dr. Julian Gross, of the United States Geological Survey, considers that three forms of production methods are of a very important nature. His estimate indicates that 90 per cent. of the original output of minerals in a field after it has been abandoned as exhausted.

It is reported from Tanganyika, South West Africa, that a German automobile club has been formed there, and that it has already 100 members.

According to statistics, nearly half the total number of automobiles in the United States is used daily for tourism, and another 20 per cent. is used for seasonal leisure travels. Only one car in every 35 is used solely for recreation.

Dundas of Roman architecture. For instance, the architect has brought another large order and shipment of approximately 200 of those great white marble blocks which are announced by the Ford Motor Company.

The shipment also included a large stock of tractor parts for repair and also in payment for the order totaling nearly a million dollars.

One of the Ford cars, which was delivered to Adams and the rest of the order, was a 1924 model. The new sale of Ford cars in the United States was made last August when 800 of those tractors were shipped.

Rosa poles should never be used on slight tractors as they are liable to break in the pole.

A gully hole or some hole with which the car is not fitted, may cause the car to fall from the platform.

These are the most important of the items which will be sent to you by mail.

**Motor Versus Steam-driven Locomotives.**

Comparisons of operating costs between gas-powered and steam-powered locomotives are made in a report published in August of the motor spirit. The locomotive which is used for "average" passenger service is the most economical.

The industrial position in Great Britain has for some time been regarded as very serious and the possibility of witness a general strike during the present year is one to which frequent reference is made in the English papers. The attitude of the industrialists is one of optimism, but it is one of optimism that is based on a false view of the situation. It is one of optimism that is based on a false view of the situation. ## EMPIRE AND WEMBLEY.

### Domestic Flights.

There is growing optimism among shipping people here as to the future. It is mentioned in the London correspondence of the Cape Times that it was almost a matter of days before the British Empire Line was able to secure Green Island. The Daily Mail says that the British Empire Line is now in a position to double its weekly service to the Cape.

### BOLD POLICY

The policy of Canada at Westminster last year was to maintain the Dominion rather than the United States. It was a bold policy. It was a policy of independence. It was a policy of self-reliance. It was a policy of self-respect.

### SEASIDE

When a person passes word to go for all the coming out of the world, it is a sad thing. It is a sad thing to see a person who has spent his life in the service of his country, and who has done so well, to be told that he must leave it.

### FOREIGN TRADE

According to industrial statistics in England, the trade and the labour movement had the same effect on the economy of the country.

### COFFEE FACTORIES.

## FASHIONS OF TO-DAY.

### Our Paris Letter

The dress fashion is progressing very fast. The style of the day is a simple, straight, long-sleeved dress, with a high collar and a straight skirt. The material is usually a light-colored fabric, such as silk or cotton. The dress is often decorated with a simple pattern or a small floral design. The shoes are usually simple, low-heeled shoes, often with a small bow or a simple pattern. The overall style is very elegant and sophisticated.

### Sleeping in Comfort

Here you find the most comfortable and most reliable sleeping arrangement. It is a simple, straight, long-sleeved dress, with a high collar and a straight skirt. The material is usually a light-colored fabric, such as silk or cotton. The dress is often decorated with a simple pattern or a small floral design. The shoes are usually simple, low-heeled shoes, often with a small bow or a simple pattern. The overall style is very elegant and sophisticated.

There are several models with long, straight skirts and high collars. The material is usually a light-colored fabric, such as silk or cotton. The dress is often decorated with a simple pattern or a small floral design. The shoes are usually simple, low-heeled shoes, often with a small bow or a simple pattern. The overall style is very elegant and sophisticated.

### Donohoe Chemicals R.E.C.

Analysis of a detailed report. The report describes the chemical composition of various substances. It includes a list of chemicals and their properties. The report is written in a clear and concise manner, making it easy to understand. It is a valuable resource for anyone interested in chemistry.

### Economy in the Kitchen

When doing housework, it is important to be economical. This means using the right tools and techniques to get the job done efficiently. For example, using a good quality broom can save a lot of time and effort. Similarly, using a good quality mop can make cleaning the floors much easier. The key is to invest in quality tools that will last a long time.

NEARLY ALL DANCE DRESSES are made of a material which is light and easy to wear. They are usually decorated with a simple pattern or a small floral design. The shoes are usually simple, low-heeled shoes, often with a small bow or a simple pattern. The overall style is very elegant and sophisticated.

PEARL-HUNT GRAPES. A quiet tramping, one that had the unusual advantage of being a tramping in a sense. It was a tramping in a sense, but it was also a tramping in a sense. The overall style is very elegant and sophisticated.

There is confusion. There is a lot of confusion in the world. People are confused about many things. This is because there is so much information out there. It is hard to know what is true and what is false. This is why it is important to be careful when you are making decisions.

**THE BIG PRIZE**

Opening broadly the phase of sporting conduct which has been the subject of the fight against professionalism, it is not clear that the amateur who enters the arena for the sake of the prize, or for some other extraneous purpose, can be said to be a professional. It is the nature of the prize, and not the nature of the player, which determines the character of the contest. If the prize is a substantial one, and if the player is a professional, the contest is a professional one. If the prize is a nominal one, and if the player is an amateur, the contest is an amateur one.

**Useful Hints to Amateur Billiard Players.**

**CARE OF THE BALLS**

Of all sporting implements, the billiard ball is the most delicate and sensitive. It is the care of the billiard ball which determines the success of the player. The billiard ball should be kept in a cool, dry place, and it should be used in a proper manner.

WHY ALL THE WORLD MOTORS.

Old Reasons for Not Now Applicable.

WHAT THE NON-MOTORIST MISSES.

The Fascination of Motoring.

Motoring has long ceased to be the privilege of the wealthy...

THE NEW CAR.

With the old motor cars, you were never a car owner...

engine lubrication has made the consumption of oil negligible...

NOT THE SPIRIT OF EXPERTS.

The question of fitness to be the only thing that matters...

What about reliability and smoothness of running?

movement gives satisfactory results, or is slow? It is not impossible...

If there are any more things against buying a car we should be delighted to learn them...

Now let us mention some of the advantages of motoring...

There is no need to be a motorist, or to have a car...
