DRIVER V. CARAGE.

The Question of Repairs.

FROM TWO POINTS OF VIEW.

A commercial man took me to a garage on a morning to repair one of his motor-cars. The car was brought to me to be repaired, and I had arranged to start on a business trip to have his car in good order. The mechanic, however, who had been waiting for me to take the car to the garage, had been informed that the car would not be ready till the end of the week. This was a very annoying, but not unusual, thing. I was very anxious to get the car repaired, and I was very anxious to get it in good order. I was very anxious to get it in good order. I was very anxious to get it in good order.

BODING PROMISES.

Nothing remarkable about such an incident? On the contrary there is something very remarkable about it. The remarkable thing about it is that it is so common. It is so common that it is almost boring. It is so common that it is almost boring. It is so common that it is almost boring. It is so common that it is almost boring. It is so common that it is almost boring.

TELEGRAMS: "ADVALORNE."

Phone: 178. P. O. CO. 855, NAIROBI.

visibly bored through. I had been with his car. He is a long-established man. He is a long-established man. He is a long-established man. He is a long-established man. He is a long-established man.

TEA THAT IS ALWAYS YOUNG

Alchemists of old sought the Elixir of Life, the secret of perpetual youth. For tea at least this secret has been found. It is the vacuum tin, which preserves Brooke's Tea as fresh and as fragrant as the day it was packed.

MILK CLEANLINESS!

For your health's sake buy from the best and you can't be satisfied.

MILK CLEANLINESS! KARUNA FRESH MILK. Bubbles fresh with milk and germ proof caps. Scientifically cooked. Delivered to your door morning and afternoon.

P. O. Box 489 KARUNA FARM DAIRY TELEPHONE 157.

Sealed! to protect Buick performance

Buick's Chassis is sealed. Iron and steel housings protect the operation of all driving parts—seal them in to safeguard Buick performance. A striking triumph of Buick engineering.

Some cars have some of this protection, but only Buick has a wall of defense continuous from fan belt to rear axle against road dirt, stones, water and loss of lubricant. Only Buick's close coordination of driving units and Buick's torque tube drive make possible this important improvement.

Come in and see why Buick performance is so consistently good. Why Buick parts so seldom need replacement. And why Buick owners are saved so many of the ordinary repair and lubricating annoyances.

Here are the vital points at which Buick engineering provides this extra protection:

- 1 Fan Hubs—Fan bearings totally enclosed—lubricated by its own gear pump.
- 2 Motor—Steel cover keeps water from short circuiting spark plug. Steel cover over valve-in-leak mechanism keeps dirt out of it.
- 3 Igniter-Generator—Buick's single-shaft motor-generator completely housed in single housing, bearing gear sealed with fly wheel.
- 4 Fly Wheel—Completely housed. Pointing teeth protected from road damage and accumulation of mud and dirt.
- 5 Clutch—Multiple disc—completely housed.
- 6 Transmission—completely protected. Shifting mechanism holes sealed.
- 7 Universal Joint—Completely enclosed in ball joint at front and of torque tube—lubricated entirely from transmission.
- 8 Propeller Shaft—Buick's third member drive, which is a torque tube, completely encloses the propeller shaft. It is impossible for road dirt to work from the shaft into the universal joint or rear axle.
- 9 Rear Axle—Sliding type, totally enclosed in rear axle housing.

BUICK

ALL MODELS EQUIPPED WITH FOUR WHEEL BRAKES

Standard	Size 20 Sp. 2 passenger	Tracing \$225
Master	Size 20 Sp. 2 passenger	Tracing \$250
Master	Size 20 Sp. 2 passenger	Tracing \$250

Note—The motor springs are close and parallel to the axle—the axle is automatic and correct very ideal for heavy duty extra strong springs are absolutely essential.

Note—The great depth of the frame members—and the strong cross bracing.

Note—The thick steel shell over the rear portion of the petrol tank—on extra protection against possible damage.

There are thousands of Buicks between 10 and 12 years old that are still in service, a remarkable testimony to the long wearing qualities of these wonderful cars.

RYTHING FOOT TENNIS COMPETITION.

A good deal of surprise, not to
say interest, will be concerned by
the fact that Miss Joyce Welford,
the greatest lady golfer player of the
present day, has decided not to
contest in any of the important
competitions in the coming spring
and summer of the important
Open Ladies' Championship.
The news has caused a good deal
of comment.

The reason for Miss Welford's
decision was not to be that she does
not see why she should be expected
to enter competitions in a manner
of which she is sure that the attitude
of the supporters of the Ladies'
Championship would regard it
as a disgrace. It is Miss Welford's
policy that she will only appear
in the event of her being asked
to do so, and that she is a great
lover of the game.

Has He Reached His
Limit?
Pavo Humil.

Has He Reached His
Limit?
The following are the results of
football matches, played at Ground
Stadium during the week:

A meeting of the Executive
of the Rugby Football Union
was held at London on April 17.
The meeting was presided over
by Mr. J. H. Cantell, Secretary.
The minutes of the meeting of
the 10th inst. were read and
approved.

The Secretary reported that
Mr. J. H. Cantell had been
appointed to the position of
Secretary of the Rugby Football
Union for the year 1925-26.

The minutes of the meeting of
the 10th inst. were read and
approved.

The minutes of the meeting of
the 10th inst. were read and
approved.

The minutes of the meeting of
the 10th inst. were read and
approved.
