Nandi Conference

Reports result of - Two most troublesome sections of Nandi to be moved to a more peaceful area, military occupation of country absolutely necessary pending completion of route. Assembly who will consider it necessary to bring one company of Sikhs & one company native troops from Uganda.

(Minutes.)

W. Antrobus. The Nandi have given trouble for over year. It was desirable to effect a settlement now if possible. A party to negotiate was sent against them. They gained a small success which led them to think that they had been victorious. It can only generally be said that the troublesome were once in Sept. the A.C. Compt. reported that they had repeatedly committed depredations over the last 6 months. settlers in the valley & the main road near the Victoria Nyanga - among these included being soldiers of the K.R.R. platoons, others & bushmen. It caused anxiety & much trouble. The party returning to all white settlers & the district had to leave the former to face & attack. No expedition could be allowed as it would be impossible to get through. It was agreed to be left until July, provided that Nandi did not attack. This was done.

chief source of wealth. It is time for the world
to effect a permanent settlement of this
land. The local authorities propose to move
the two main "Kotterie" actions away from
the white settlers' country & away from the
railway into a corner to the north. I
think that there can be no doubt of the
soundness of this policy, which has already
been adopted in the case of the ~~Marine~~.
So long as turbulent natives go on the
white settlers, there is risk of murder &
development cannot proceed, & so long as they
are near the railway, there are bound to
be robberies. Mr. G. W. C. Elliot has pointed
out in his book on the S. A. P., it is evident
that flight & refuge for the Natives leads to
very moment made of life & death &
the Natives are paid the cost of war for
