Priority passage for Governors

For children — Requests.

Last previous Paper.

Mr. Gilbe

I do not know of any case in which we have recommended a nurse or governor except on medical grounds — Mr Corbett's remarks make me think that perhaps he was wrong in recommending him as his case cannot be so pressing.

I regret that in view of the large number of our requests cases the Governor cannot be recommended.

Mr Corbett's recommendation of the 13th Aug, 1919, is not correct. Corbett's letter dated 10th Aug, 1919, is not correct. Corbett's letter dated 10th Aug, 1919, is not correct. Corbett's letter dated 10th Aug, 1919, is not correct.

Mr. Carter

Mr. Carter called on the 15th August.
He came to urge that priority should
be given to the Government, for whom
he asked ^{for} ~~priority~~ recommendation on
the 10th of August. He said that
in his opinion the education of the
rising generation was of as great
importance to the nation as the money-
making of a number of merchants
and farmers in S. Africa.

I told him that I could hold out
very little hope of the Government being
granted priority, as none but the
most ~~urgent~~ ^{serious} cases were recommended,
and ^{seeing that} his children have been 2 years
without one (they have been at a
Govt school) a further delay of a few
months would not seriously affect
them. He explained that the education
they were receiving was unsatisfactory,
& that they had already picked up bad
accents, & the children with whom they
were at school had quite different

Mr. Cabell

Mr. Cabell called on the 15th August.
He came to urge that priority should
be given to the Government, for whom
he asked ^{for} ~~priority~~ recommendation on
the 10th of August. He said that
in his opinion the education of the
rising generation was of as great
importance to the nation as the money-
making of a number of merchants
and farmers in E. Africa.

I told him that I could hold out
very little hope of the Government being
granted priority, as none but the
most urgent cases were recommended,
and ^{seeing that} his children have been 2 years
without one (they have been at a
Govt. school) a further delay of a few
months would not seriously affect
them. He explained that the education
they were receiving was unsatisfactory,
& that they had already picked up a bad
accent, & the children with whom they
were at school had quite different

Mr. Coates

Mr. Coates called on the 15th August.
He came to urge that priority should
be given to the Governor, for whom
he asked ^{for} ~~priority~~ recommendation on
the 10th of August - He said that
in his opinion the education of the
rising generation was of a great
importance to the nation & the money-
making of a number of merchants
and farmers in S. Africa.

I told him that I could hold out
very little hope of the Governor being
granted priority, as none but the
most urgent cases were recommended,
and ^{seeing that} his children have been 2 years
without me (they have been at a
Govt. school) a further delay of a few
months would not seriously affect
them. He explained that the education
they were receiving was unsatisfactory
& that they had already picked up a bad
accent, & the children with whom they
were at school had quite different

ideas of right and wrong from ^{those} which he
shared like his own children to
develop. He asked that the question 439
might be ~~again~~ raised again -
before I did
Sir H. Read also ~~said~~ ^{said}, and, I understand,
held out little hope of the governess being
recommended.

I do not think we can add governesses
to the persons qualified for priority the
lists are already much too long, and
the children in this case will have both
their father & mother with them; so I
think we can? only reply that the Sops
after due consideration regret that he
cannot recommend the governess for
priority.

As regards Mr Corbett's letter of the 13th
of August, I think it should be enough
to send a copy to the Dist. Com. & refer
them to our note of the 7th of August
I fear, unless he in our reply that we have done so.

my humble thanks to his
