## BRITISH AIRLIFT OF TROOPS CONTINUES

### First liner ordered to avoid Suez

### INDIAN DELEGATE MEETS COL. NASSER IN CAIRO

The mass airlift of British troops to the Mediterranean continued yesterday despite heavy rain.

For the first time since the start of the Suez crisis, a British liner has been ordered to go round the Cape instead of through the canal. She is the 14,900-ton Large Bay, which left Southampton today for Australia.

While reaction in the West to Col. Nasser's refusal to attend the London conference on Suez was one of disappointment, although not of surprise, the Egyptian President's proposal of an alternative conference was welcomed in New Delhi and Moscow.

The Indian delegate to the conference Mr. Krishna Menon, Minister without Portfolio, who had talks with Col. Nasser in Cairo before flying on to London, is expected to attend a meeting of the Arab League Political Committee in Cairo, which has expressed support for the nationalisation of the canal. The committee called on the West to settle the dispute by peaceful means, in accordance with the United Nations Charter.

### Arab League support for Egypt's action

**SUPPORT** for Egypt's nationalisation of the Suez Canal has been expressed by the Arab League Political Committee, which is meeting in Cairo. The committee said that the Egyptian Government's nationalisation act was a "sovereign act".

The committee called on the West to settle the dispute by peaceful means, in accordance with the United Nations Charter.

### DENIAL BY SUZUKI COMPANY

The five destroyers bought from Britain by Egypt did not sink in the Mediterranean, a London spokesman has said.

The Japanese Government has always considered the Suez Canal as a free zone, and has always maintained friendly relations with the Egyptian Government.

# AFRICAN NATIONALISTS EYES ON THE GOLD COAST

### COMMENTING ON A THREE-MONTH STUDY MISSION THAT SHE MADE TO 24 AFRICAN COUNTRIES IN DECEMBER AND JANUARY, Mrs. Frances P. Bolton, a Republican member of the United States House of Representatives, has said that she believes the future of an independent Nigeria lies in the hands of the African people.

The greatest need of Nigeria today is to have a government which is not a puppet government, she said. She believes that the African people are capable of governing themselves and that they should be given the opportunity to do so.

### "Delightful figure"

Twelve daily and 14 weekly newspapers, all African-owned, are being published in Nigeria, Mrs. Bolton said. She noted that the number of newspapers is increasing rapidly and that this is a sign of progress.

## Mention in dispatches opened to Kenya civilians

### Emergency Service Award

CIVILIANS in operational areas in Kenya and who are eligible for the Africa Central Service Medal may be mentioned in dispatches for distinguished service. The Queen has approved this extension of the award, which up till now has been purely military. The award is signified by a bronze oak leaf emblem on the medal ribbon.

The names of civilians in whom the award is granted will be mentioned in the London Gazette. Categories of civilians eligible are: members of the British Red Cross Society and those of the British Red Cross Society who are "civilians" when serving on a merchant-ship in the field, but not in or from a ship in the first instance when approved has been given for a large number of additional categories of civilians serving in operational areas to be designated for the award.

## GAME PARK INTEREST ONE-SIDED

### Animals' dislike of tourists

TOURISTS might lose the opportunity of seeing wild game in National Parks because the game did not like to see them, it was stated by Mr. S. Davidson, Chief Game Warden of Southern Rhodesia.

He was speaking at a conference of game experts at East and Central Africa.

Mr. Davidson said that, while some animals accepted traffic and took little notice of it, others were fearful in areas where they could feed and drink undisturbed.

## Public confidence

It was said that there was a possibility of serious trouble in the Government of Southern Rhodesia because of the cover interest of the Government.

The conference, which was held in Harare, was presided over by the Administrator of the East African Parks, Mr. S. Davidson.

Mr. S. B. Beer, Director and Chief Warden, Uganda National Parks, said that the National Game Parks were not doing as well as they should be doing.

## Precious habitats

Young Africans will be encouraged to work on their own land, it was stated by the Administrator of the National Parks and Game Reserves, Mr. S. Davidson.

He said that the National Game Parks were not doing as well as they should be doing.

# Coast call for standard taxation rate

## CHAMBERSTRESSES NEED TO CAST NET WIDER

“Business” commentators have predicted a considerable increase in African wages that would result from the Kenya income tax net being less than profit for the employer, increased and only a small amount of the most would be paid to the Government.

In the Chamber of Commerce meeting which was held in Mombasa on August 11, the Chamber of Commerce stressed the need for a standard rate of tax, which would be levied on the introduction of a new tax system.

# German Fashions Create Two Basic Silhouettes

**B**ASICALLY in the German autumn collection, it is a question of two silhouettes: the trend towards the high bustling drawing on the Empire line for frock coats, and the very natural and unadorned line of almost traditional elegance as exemplified by the simple, air-tight dress.

These two main tendencies apply to all leading model houses, but all designers show their own individual interpretation, with many variations, in coats, dresses, suits, advanced models and evening dresses.

The simplicity of the Empire theme in all creations is a

proof that designers continue to find great inspiration in their own history, their production of art forms and their simple, well-proportioned lines. The latter, in particular, are expected to be a bright future.

Representatives of the English fashion period are never unduly exaggerated, but they are the general pattern of modern life. The bustles in the exaggerated and the waistline in the others - however, although the high-waisted look is often achieved by means of other devices, harmoniously and preferably faded, the contour belts, lace, folds and highlights a short and graceful line.

This Empire line character-

# THE MAGICAL SENSE OF SMELL

**R**IGHT between you and the world you are carrying around of the most marvelous gadgets in the world is your nose.

Man has been fascinated by his nose since the dawn of time. He has tried to prevent evil from coming out of his nose. He has tried to prevent it from coming in. He has tried to prevent it from coming out of his nose. He has tried to prevent it from coming in.

stand of relying on her dual sensory system of smell and sight.

A simple quality of your nose is its ability to detect a wide variety of odors. It is this ability that makes it possible for you to detect a wide variety of odors.

**M**OST of us think of smell as a second sense, in the general list of senses - a sort of "sixth sense" that we use to detect things that we cannot see or hear. But the truth is that the sense of smell is one of the most important of our senses.

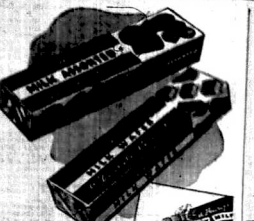

Some years ago a group of women were asked to describe their favorite kinds of clothing. Although they didn't know it, they were describing their sense of smell.

**A**s far as we know, there is no limit to the number of smells that the human nose can detect. It is estimated that there are over 10,000 different smells that the human nose can detect.

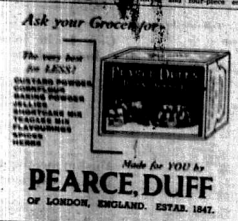

The way a smell can be pleasant or unpleasant depends on the way it is perceived. It is not the smell itself that is pleasant or unpleasant, but the way it is perceived.

**U**P to a certain point, pleasure knows pretty well how to distinguish between good and bad. It is only when the pleasure becomes too intense that it becomes painful.

It is not the smell itself that is pleasant or unpleasant, but the way it is perceived. It is not the smell itself that is pleasant or unpleasant, but the way it is perceived.

A youthful-looking dress in really natural, fish-colored wool features a simple neckline and has the same color throughout. It is a warm, comfortable, and elegant dress.

Incidentally, the influence of high-class fashion is noticeable in the trend of styling for the coming autumn and winter. The latest design is a simple, clean, and elegant dress.

As regards color, grey - with the exception of very dark tones - have been used in many shades and in many quantities.

As for the most important of our senses, it is the sense of smell. It is not the smell itself that is pleasant or unpleasant, but the way it is perceived.

LETTERS TO THE SPORTS EDITOR

English groundsmen must be psychic

I have pleasure in commenting on the health report of Mr. Kanter's opinion that the Australian players will be able to hold their own against the English players.

It is a pity that Mr. Kanter has not been able to see the evidence and has written his article in the manner in which the various county groundsmen's efforts in preparation for the tour have been through the window in the "sporting press" and the "sensible" press in U.K. with the exception of July and not on the basis of what has been heard about the "handling" of the soil.

What has Mr. Kanter not seen? The pitch on which the Australian players are to play? What of the pitches at Edgbaston and Brisbane which the home side has in each case secured on grounds of order?

TETRA PAK
PUREST MILK
Now you can be sure of the purest milk
Tetra Pak is the new way to buy milk - the one way to buy milk of absolute purity, wonderful cleanliness.
Introduced by Kenya Co-operative Creameries, the Tetra Pak method brings you milk in sturdy, leak-proof, hygienic containers.
They are easy to open - just split with scissors or tear with your fingers. They are easy to close - just flip the center over. They take up little room in your refrigerator, they can be tossed in a kitapo - handled in ways that bottled milk could never stand. And when the Tetra Pak is empty, it is simply thrown away - no bottles to wash, no sugar to return.
The unique process of pasteurizing milk is carried out by ultra-modern machines newly installed at Kenya Co-operative Creameries. High-grade pasteurized milk is mechanically hot-packed in plastic-coated paper. From the moment this distinctive package is closed, there is a vacuum, the milk cannot be contaminated, watered or spoiled in any way. It is untouched until you yourself use it.
The safe convenient way to buy MILK

## LONDON TALKS ON SUEZ

**Canal daily convoys reduced to three**

DAILY convoys through the Suez Canal have been reduced from four to three, it was announced today by the Egyptian canal authority.

As a result, a northbound convoy of three American destroyers, which was expected to arrive at Port Said on Wednesday night, was delayed.

Storage of pilchard in London essential from 1st August. The fish, which is being stored in a certain quantity, will be used for the production of fish oil and fish meal.

Reservists 'intruder'. Mr. George Frost said that if more than 100 reservists were sent to the Canal in the last week, it was not because of a shortage of men but because of a shortage of equipment.

Low diesel oil. The Egyptian claim that the Egyptian diesel oil was of a lower quality than that of the United Kingdom, which would result in a higher consumption of fuel.

## OPENING TODAY

**Mr. Dulles confident about outcome**

**24-HOUR STRIKE CALLED THROUGHOUT EGYPT**

THE 22-nation conference on the Suez Canal will be opened in London this morning by the Prime Minister, Sir Anthony Eden.

In Egypt, a 24-hour strike was due to begin at midnight last night as a gesture of support for President Nasser. The strike will not affect the telephone and telegraph systems.

The U.S. Secretary of State, Mr. Dulles, is expected to arrive in London by air yesterday for the conference. In a brief statement at the airport, Mr. Dulles said he hoped that the peace and well-being of all the world.

**50-strong Soviet delegation**  
Before leaving Washington, Mr. Dulles had a last-minute meeting with President Eisenhower. He said that the United States believed a formula could be found to ensure a dependable international operation of the Suez Canal consistent with the rights and dignity of Egypt.

The Soviet Foreign Minister, Mr. Dimitri Shepilov, arrived at the head of a 50-strong Russian delegation. Mr. Shepilov said he would do everything possible to help to bring about an agreement by all States concerned, and in particular, with Britain.

**Egyptian official given British visa**  
President Nasser's chief aide, Mr. Kamel el-Dokki, was granted a British visa to attend the conference. Mr. el-Dokki is expected to arrive in London on Wednesday.

**Mr. Lloyd TO TAKE CHAIR**  
The opening of the London conference will be presided over by the Prime Minister, Sir Anthony Eden. Mr. Lloyd will take the chair at the opening of the conference.

British officials would not be allowed to attend the conference. The British Government has decided to send a small number of officials to observe the proceedings.

## Ministers stand by Lyttelton proposals

**CONTINUATION SUPPORTED**  
DECISIONS to be made by European representatives during the next few years were far too important to be prejudged by squabbling over words and details, the British Foreign Secretary, Lord Lyttelton, said today.

The Foreign Secretary said that the Lyttelton Plan was not a blueprint for the future but a starting point for discussion. He said that the Government was determined to continue to work for a settlement of the Suez Canal question.

**Hailing internationalisation**  
The Foreign Secretary said that the Lyttelton Plan was a proposal for the internationalisation of the Suez Canal. He said that the Government was determined to continue to work for a settlement of the Suez Canal question.

# Special Colony patrol to stop speeding

## ONLY SOLUTION TO A DIFFICULT PROBLEM

POLICE measures to combat speeding include the formation of a special patrol which will make periodic visits to all corners of the Colony, the Assistant Commissioner of the Traffic Department, Mr. R. W. Hoyle, told members of the Nairobi Eastern District Council yesterday.

## DUST KILLS EVERYTHING—AND TOURISM

Mr. Hoyle said: "It is the only solution I can think of to a problem which is, from the police point of view, almost insurmountable. We have only ten patrol cars in the whole of Kenya. I think a special patrol, working on the ordinary police strength at each corner of the Colony, will definitely produce results."

The Council chairman, Chas. W. Mwangi, commended the idea and said that he would like to see the police force on a more regular basis. He said that he would like to see the police force on a more regular basis.

# GOODS BY ROAD CANCELLED

## Sequel to lorry fines

REGULATIONS which impeded a Nairobi road transport operator in his efforts to open up trade between the Colony and the Rhodesias were deprecated yesterday by Mr. K. P. Kelly, deputy chief manager of Kenya Cement Ltd. Unless a solution was found to support new transport in the Rhodesias would have been cancelled.

Mr. Kelly-Harvey said that the regulations were deprecated because they were too restrictive and would have prevented the opening up of trade between the Colony and the Rhodesias.

NEW BREED OF UGANDA COTTON

Rival to Egyptian product for export

IMPROVEMENTS in the breeding of cotton mean that it should be able to compete for the export market with high quality Egyptian cotton. A new strain of UG 22 cotton, which is the first to be bred in Uganda, has been developed by the Uganda Cotton Research Institute, Kampala. It is a medium-staple cotton, and will first have to be tested in the field before it can be recommended for export to the textile mills of Europe.

Five-year shortage

It will be five years, however, before the Uganda Cotton Research Institute's improved cotton can be marketed in East and West Africa. The institute has already received orders for 100,000 bales of UG 22 cotton, and it is expected that the total quantity of cotton to be produced in Uganda will reach 100,000 bales by 1960.

'Naps' eliminated

When Nanyangoro attacked the UG 22 cotton, it was a serious blow to the Uganda Cotton Research Institute. The institute, however, was not deterred and eventually a strain of cotton was developed which not only gave the best yield but also gave the best quality. The new strain, UG 22, was able to resist the Nanyangoro attack and is now being marketed in East and West Africa.

MASAI CATTLE DELAYS SOLVED BY AUTOMATION

Sales registers speed business

THE Masai and the Hindi are coming up to date. For the first time in their territories, they are making use of automatic registers to record transactions at cattle markets. The volume of business has been speeded up two or three times—and totalling of the day's takings is done automatically.

Only one service on ship docks

Five men left their lives when the SS 'Tara' struck rocks off the coast of East Africa. The ship was carrying a large quantity of goods, and the loss was a heavy blow to the shipping company. The cause of the accident was attributed to a lack of proper navigation.

Bishop dies

The Rt. Rev. Bishop of East Africa, who had been in the East for many years, died recently. He was a prominent figure in the church and had made many contributions to the community.

"We ruined \$3,500 worth of other tyres on one trip"

BUT EVERY TRIPLE-TEMPERED 3-T CORD TYRE STOOD UP

urgent job, each trailer carrying a load of between 50,000 and 100,000 pounds.

This haulage contractor changed to Goodyear Triple-Tempored 3-T Nylon Cord Tyres at once. Since then his records show a 50% increase in tyre mileage obtained before retreading.

When an bit of traffic in made drivers must get their transport there in a hurry... before roads can be built to the site. No matter how terrible the terrain, the hauler must get there somehow.

The route was only 30 miles in length... but so rough that it cost this haulage contractor \$3,500 (Shs. 25,000/0) in tyres destroyed on the first trip... but it proved something that has since saved him many times \$3,500.

Your own operation may never call for such heavy loads or such rough terrain... but it calls for LEWIS TYRE-COST-PER-MILE. See your Goodyear Dealer and insist upon his supplying you with these new Goodyear Triple-Tempored 3-T Cord Tyres.

About half the tyres used on those 15 vehicles on this trip were Goodyear Triple-Tempored 3-T Nylon Cord... AND NOT A SINGLE ONE FAILED.

## Lancashire still chase champions

LANCASHIRE kept alive their hopes of retaining reigning champions, Surrey, championship, when they thrashed a thrilling win over Northamptonshire by 18 runs at Wellingborough on Tuesday.

## Queen's colt High Veldt made St. Leger favourite

QUEEN ELIZABETH's colt High Veldt was made 3-1 favourite for the St. Leger at the first Victoria Club meeting on September 12, in London on Monday. High Veldt, sired by the Italian champion Ribot in his richest race at Ascot last month, was only mildly backed in a season in which no exceptionally brilliant winners were seen.

**It's DANGEROUS to paint over RUST**

Steel exposed to the elements will inevitably corrode. Even if we protect steel by painting, this will not prevent corrosion unless the surface has been chemically pre-treated. Sanding is a unique process, which combines the removal of rust, self-cleaning action, and finally abraded, which re-exposes the surface, ready for paint adhesion.

## EOKA CALLS HALT TO CYPRUS VIOLENCE

**Appeal for truce in leaflet campaign**  
**GOVERNOR HOLDS TALKS ON 'GENUINE' OFFER**

EOKA, the Cyprus terrorist organisation, has called a halt to its 16-month campaign of violence against British rule in the island. Leaflets distributed to main towns said that the suspension of all EOKA activities had been ordered to avoid bloodshed. The leaflets bore the name of Digenis, son of Col. George Grivas, a former officer of the Greek Army.

The Governor of Cyprus, Sir John Harding, immediately called a conference of his advisers to discuss the move. The first reaction among British officials was that the leaflets were genuine.

Scores of excited Cypriots gathered at street corners to discuss the contents of the leaflets under the glare of spotlights. Possession of the leaflets is an offence, but normal Greek Cypriots openly shook hands.

The terrorist call for a truce comes after a period in which some Greek Cypriots have become increasingly outspoken in the violence in which their compatriots, the British, have been the chief victims.

It is expected that the move will be met with a mixture of surprise and relief. The leaflets are a new development in the Cyprus situation.

**WELCOME BY GREEK PRESS**

## Western study of Suez plan support

**OPPOSITION BY SOVIET DELEGATE EXPECTED**

BEFORE the third session of the London conference on the Suez Canal began yesterday, the Prime Minister, Sir Anthony Eden, met the Foreign Ministers of the U.S. and France, together with the British Foreign Secretary, Mr. Selwyn Lloyd, to assess the prospects of support for the plan for internationalisation of the Canal.

The Australian Prime Minister, Mr. Menzies, also attended the meeting at 19 Downing Street, Russia, who is represented at the conference by the Foreign Minister, Mr. Dmitri Shepilov, is expected to criticise the Hoepf plan, provided by the British Foreign Secretary, Mr. Dulles on Thursday, as an unjustified interference in the affairs of an independent State.

After the afternoon session on Thursday, a British spokesman said there were four points on Mr. Dulles' plan, which, although not generally shared with the international community, had won the approval of the United States Government.

The four points were—

1. The operation of the Canal should be under the control of an international body, associated with the United Nations.
2. Working of the Canal must be governed by national principles.
3. The Suez Canal should be open to all ships of all nations on equal terms.
4. Full compensation should be paid to the real owners of the Canal.

The spokesman said that the British Government would be prepared to accept the plan, provided that the United States Government would also accept it.

The Russian delegate, Mr. Shepilov, made an impressive speech at the conference and it was expected that he would oppose the plan. It was expected that he would also criticise the Hoepf plan, provided by the British Foreign Secretary, Mr. Dulles on Thursday, as an unjustified interference in the affairs of an independent State.

## CANDIDATE FOR U.S. PRESIDENCY

**Victory by Mr. Stevenson**

AMERICA'S Democratic Party has once again chosen Mr. Adlai Stevenson, its candidate of 1952, to contest Mr. Eisenhower in Presidential elections in November. Mr. Stevenson scored a runaway victory over Averell Harriman, Governor of New York, and other 160 voters in the first ballot at the party's convention in Chicago—19 votes more than he needed for a majority and 865,000 more than Mr. Harriman, the nearest of his seven opponents.

# Uniform rents for Gorofani Africans urged

**CHAMBER OF COMMERCE MOVE**

UNIFORM rents for African housing on the Gorofani estate are recommended by a sub-committee of the Nairobi Chamber of Commerce, which claims that it is inequitable that some lessees should continue to enjoy the benefits of the estate at the expense of others and of the public generally.

This situation is particularly unfortunate in the case of the Gorofani estate where the few owners who provide their own African housing blocks, in most cases, could more than even an individual City Council, and a similar accommodation, the sub-committee report stated, has been made in some instances by some of the owners. It suggested that the City Council should take steps to subsidized rent but other parties might terminate the lease at any time by giving one month's notice.

**Cost per room**

The Council could therefore subsidize the rents under the existing scheme, which in some cases, could more than even an individual City Council, and a similar accommodation, the sub-committee report stated, has been made in some instances by some of the owners. It suggested that the City Council should take steps to subsidized rent but other parties might terminate the lease at any time by giving one month's notice.

# Gorofani Children 30 hours adrift in boat

TWO children have been adrift drifting for 30 hours in a rowing boat off the Devon Coast.

When they landed at Kenilworth, Kikuyu, said it described how he was in the boat, Vivian, aged 9, to console him as his mother in a rowing boat off the Devon Coast.

They set off in the evening from a beach near Kenilworth where their mother had taken them on holiday from London.

When the boat was about 10 miles from the shore, the children were blown overboard and the rowing boat drifted out to sea before a strong wind.

It was not until about 11.15 pm that the children were picked up in a boat which was then towed to the shore.

# Plans to end Nairobi's traffic jams

### TRAFFIC jams of vehicles leaving Nairobi become more and more difficult.

Although Nairobi is not affected by the traffic jams from those who leave the city for their homes, the traffic jams are becoming more and more difficult to cope with. It is now estimated that about 100,000 vehicles leave Nairobi daily for their homes. This is a very large number of vehicles and it is not surprising that the traffic jams are becoming more and more difficult to cope with.

The Government has decided to take steps to end these traffic jams. It has decided to build a new road which will bypass the city and will provide a direct route for vehicles leaving Nairobi. This new road is expected to be completed in a few months and will greatly ease the traffic jams.

The Government has also decided to improve the existing roads. It has decided to widen the roads and to improve the drainage system. This will help to reduce the traffic jams and will also improve the general appearance of the city.

The Government has also decided to improve the public transport system. It has decided to increase the number of buses and to improve the routes. This will help to reduce the traffic jams and will also provide a more convenient means of transport for the people of Nairobi.

The Government has also decided to improve the parking facilities. It has decided to build new parking areas and to improve the existing ones. This will help to reduce the traffic jams and will also provide a more convenient means of parking for vehicles.

## TETRA PAK

Now you can be sure of the PUREST MILK

Tetra Pak is the new way to buy milk — the one way that is certain of absolute purity, wonderful cleanliness.

They are easy to open — just slip with scissors or tear with your fingers. They are easy to close — just fold the outer cover. They are easy to use in your refrigerator. They can be stored in a kitchen — handled in ways that bottled milk could never stand. And when the Tetra Pak is empty, it is simply thrown away — no bottles to wash, no empties to return.

This delicate process of separating milk is carried out by ultrasonics, machines newly installed at Kenya Cooperative Creameries. High-speed pasteurization in specially heat-treated plastic-coated paper. From the finished three distinctive products, there is a woman, the milk comes that is unadulterated, watered or spoiled in any way. It is available until you yourself use it.

Costs no more than milk in bottles. Ask your dairy for Tetra Pak milk.

## BRITAIN REJECTS 80 PROPOSALS ON SUEZ

### Conference deadlock facing delegates

## ATTEMPT BY MR. MENON AT COMPROMISE LIKELY

A decisive attempt to save the London talks on the Suez Canal from ending in a plan acceptable to Egypt is expected to be made today by the Indian delegate, Mr. Krishna Menon. The usual after the rejection by Britain on Saturday of a Russian counter-proposal to the West's plan for internationalization of the Canal, said to be put in a speech by the present conference should be interpreted as a "representative" meeting.

It is expected that a formal declaration of a compromise will be made by the Western plan, will be placed before the conference today. It is expected that the plan will not meet approval from the 23 delegates, but it is hoped that it will be a step towards a final settlement.

### Market brighter despite warning WEEK'S RISING TREND

The market for foreign exchange and commodities has shown a steady upward trend over the past week, despite a warning from the Bank of England regarding the pound sterling. The London market has been buoyant, with the pound rising against the dollar and other major currencies. This has led to a corresponding rise in the prices of various commodities, particularly those traded in London. The market's resilience is attributed to strong demand from the East African region, where economic activity continues to grow. Analysts predict that this upward trend may persist in the coming weeks, provided there are no major international events that could disrupt the market.

### Trade neglect by America

The U.S. Consul General in Cape Town, Mr. John Hill, has expressed his concern over the neglect of trade relations between the United States and South Africa. He noted that while the U.S. has a significant market for South African goods, the American government has not been doing enough to facilitate trade. Hill pointed out that many American exporters are unaware of the opportunities available in South Africa, and that the U.S. government should be more proactive in promoting trade between the two countries. He called for increased diplomatic and economic cooperation to ensure that both nations benefit from their trade relationship.

#### PORT PICTURE AT MOMBASA

The port of Mombasa has experienced a significant increase in shipping activity over the past week. The arrival of several large vessels has led to a surge in the volume of goods being imported and exported. This has had a positive impact on the local economy, particularly in the sectors of retail and manufacturing. The port authorities have reported that the infrastructure is well-maintained and capable of handling the increased traffic. The overall picture is one of a busy and thriving port, reflecting the strong economic growth in the region.

### TWO FINE TYPES FROM U.S. ROYAL

Two new and improved types of U.S. Royal tires have been introduced to the market. These tires are designed for enhanced performance and durability, making them ideal for both passenger and commercial vehicles. The new types feature advanced tread patterns that provide better grip and handling, especially in wet conditions. They are also known for their long life and low rolling resistance, which can help reduce fuel consumption. U.S. Royal tires are available at all major tire dealerships across the region.

### MORE SOUTH AFRICAN EGGS FOR BRITAIN

South African eggs are being shipped in larger quantities to Britain, meeting the demand for fresh produce. The eggs are of high quality and are being distributed to various parts of the United Kingdom. This trade relationship is beneficial for both countries, as it provides British consumers with fresh, locally sourced eggs and provides South African farmers with a valuable market for their products.

# Grant to combat TB in Kenya likely

**GOVERNOR ARRIVES AT COAST**  
**Change of plan at last minute**

## W.H.O. OFFICIALS SPEAK OF £45,000 FOR CITY

Two officials of the World Health Organisation on a tour of East Africa announced yesterday that they have had finalised the possibility of making a substantial grant towards the cost of combating tuberculosis in Kenya.

The officials, Dr. J. C. Camboiano, the Regional Director of Africa and the Eastern Mediterranean, and Mr. J. C. Camboiano, the Director of Tuberculosis, are in Nairobi, where they are spending some two weeks on a wide scale study of tuberculosis in Kenya. It is generally thought that the grant would be £45,000 for Nairobi.

Dr. Camboiano said that the grant would be used for the purchase of equipment and the training of personnel. He said that the grant would be used for the purchase of equipment and the training of personnel.

# Kampala outplayed Enterprise holders

## All Blaeks take 2-1 Test lead

THE Enterprise Cup left Kenya for the first time on Saturday when at the Ngong Road Rugby Union headquarters, Kampala, appearing in their first final, defeated Kenya Harlequins, the holders, by a goal, a penalty goal and two tries (14 points) to a try (10 points). Despite the return of star three-quarter Dar Ross, Harlequins gave one of the most disappointing displays of the season in this final game.

## WEST HOLDS TALKS TO RESTYUEZ CANAL

### CONFERENCE session in London delayed

#### INDIAN PROPOSALS WIN EGYPTIAN APPROVAL

The resumption of the London conference on the Suez Canal was postponed for 45 minutes yesterday so that the Foreign Ministers of Britain, France and the U.S. could discuss proposed amendments to their plan for international control.

Several of the 22 nations attending the conference were engaged earlier in a flurry of private talks seeking modifications to the Western plan. The Soviet Union and India have alternative plans of their own.

President Nasser of Egypt is reported by Egyptian officials to have approved the Indian plan, which would set up an advisory body to help Egypt to operate the Canal and to ensure free navigation, although allowing Egypt to retain control over the general and financial administration of the waterway.

#### Premier calls meeting

Under the Western plan the Canal would be operated by an international board, established in treaty and associated with the United Nations, on which Egypt would be represented.

The conference opened yesterday afternoon in Prime Minister Sir Anthony Eden, called a special meeting of the "four great powers" Ministers to discuss the latest situation. Among those attending were the Minister of Defense, Sir Walter Monckton; the Secretary of State for War, Mr. Anthony Eden; the Secretary of State for Foreign Affairs, Mr. Harold Clegg; and the Secretary of State for the Colonies, Mr. James Griffiths.

#### REDUCTION OF CANAL TRAFFIC NORMAL

The Egyptian Embassy in London today reported that the Canal was not to suffer any reduction in traffic following the cessation of the Suez Canal following the Egyptian ultimatum to the West.

#### BAGHDAD PACT MEMBERS MEET

The Soviet Foreign Minister, Mr. Gromyko, has been a key figure in the behind-the-scenes maneuvering of the Baghdad Pact.

#### Again... it is Whitehouse for Quality

At Whitehouse, we have always felt that quality should never be subordinate to expense.

#### AGREEMENT IN PRINCIPLE

Mr. Shigeru said the official attitude of the Japanese delegation to the American plan for the canal's future had to be decided, but he was in agreement with the spirit embodied in the plan.

#### Africans on strike at two copper mines

Several thousand African miners and millworkers today went on strike at Ntshing copper mine and at the Ntshing mill.

#### Communist released

Communist released by the Jordan Arab Government after being held for several years in a detention camp in Jordan.

#### Debating crisis over Canal

A dramatic debate on a possible nationalization of the Suez Canal is being held in London.

## Contact with Communist unions 'a waste'

### T.U.C. CONTENTION FOR CONFERENCE DEBATE

BRITAIN'S Trades Union Congress told its 8,000,000 members yesterday that contacts with unions in Communist countries were a waste of their contributions.

The view was contained in the annual report of the T.U.C.'s General Council which will be submitted to the 88th annual Congress next month. Nine resolutions to be discussed are devoted to the single topic of automation.

Others criticized the Government's economic policies. The report urged that the Government should be urged to take steps to improve the position of the working class.

But the General Council still insisted that contact with Communist unions was a waste of their resources. It urged that the Government should be urged to take steps to improve the position of the working class.

Harsh criticism of the Government's economic policies was also contained in the report. It urged that the Government should be urged to take steps to improve the position of the working class.

## RED THREAT IN MALAYA ENDS

### Terrorists now 'an annoyance'

COMMUNIST Malays, who only a few years ago were virtually strangers, have by the end of 1955 become an annoyance—there a threat to the very life of the country, the Federation Government said in its annual report published in Kuala Lumpur. By the end of last year there were fewer than 2,000 terrorists compared with 4,000 in 1951 when the Communist rebellion was at its peak, the report said.

## ATTEMPTS TO SOLVE CRISIS IN E. PAKISTAN

### Karachi meeting

PAKISTAN leaders have begun an attempt to solve the political crisis that has developed in the eastern part of the country, the Federal Government said in its annual report published in Karachi.

The report said that the Government had been unable to solve the crisis through negotiations. It urged that the Government should be urged to take steps to improve the position of the working class.

## Death of Cardinal Griffin: Chosen as 44 for Archbishopric

CARDINAL BERNARD GRIFFIN, Roman Catholic Archbishop of Westminster and head of the Catholic Hierarchy in England and Wales, died early yesterday after a heart attack. He was 57. Cardinal Griffin, the son of a Birmingham bicycle dealer, served in the Royal Air Force in 1924 after a brilliant scholastic career.

Cardinal Griffin was born at Carmarthen, where he suffered the heart attack just before midnight. He died eight minutes before 1 a.m. — his "name day", the Feast of St. Bernard. He went to the Polytechnic on August 7, to convalesce after his third attack of cardiac thrombosis since 1951.

Cardinal Griffin was born at Carmarthen, Birmingham, on 27 February 21, 1898. As a boy he was brought up in a steeply religious home and his brother and sister also were destined to enter the Church. He was educated at Coton College near Worcester, at St. Albans, at Cullinstown, Birmingham, and his studies were interrupted by the First World War.

**National vocation**

Returning to Christ after the war, he joined the Society where he became a priest in 1920. He then joined the Black College, and then went to the Pontifical Gregorian University in Rome where he was ordained in 1924. He was then sent to the Archdiocese of Westminster on the death of Cardinal Bright.

Through small in stature he was a great worker for sustained work and ever "working himself". As a result he had a reputation of being a very hard worker with serious overwork and his death was regarded as a tragedy.

He earned a national reputation by the way he never failed to re-state the Catholic view on social and moral problems and was particularly known as a champion of the temperance of the family life.

**BLOOD DONORS FROM KABETE APPROVED SCHOOL**

In response to an appeal by the King George VI Hospital, 72 boys from the approved school at Kabete have volunteered to give a pint of blood each.

Last year more than 500 African patients at the hospital were given blood transfusions. It is reported that the general response from the hospital is encouraging in the past.

About 100 blood donors are needed each month at the King George VI Hospital on the voluntary offer of 212 boys from the school.

The school was described by a representative of the hospital as an "extremely good school".

**France imports Polish snails**

MORE than 150 tons of succulent Polish snails will be arriving in France soon to meet the Frenchman's insatiable love of the "escargot" — the buttered snail eaten as an hors d'oeuvre.

The Polish snails are part of a £10,000 deal between the two countries.

**France imports Polish snails**

Poland heavy rains played a trick on the snail community and brought them out to make the most of the wet weather. The Polish snails will not be the only foreign snails to be seen in France this summer. About 100 tons have come from abroad. Annual imports total some 2,000 tons, mainly from Germany, Switzerland, Austria and Yugoslavia.

Fifty firms can snails in Paris alone. In view of the popularity of France's snail and cold meat shops, it is not surprising that many of these firms are now exporting their snails to other parts of Europe.

# STORM OF PROTEST OVER DENIS COMPTON'S RECALL

## Kent all out for season's lowest score

KENT all out for 45, the lowest championship score of the season, and Middlesex, dismissed for 10, provided a harvest of wickets for spin bowlers on Monday afternoon at Canterbury.

A fast-paced seventh wicket partnership between Keith Miller and Denis Compton, who put on 110 for Kent, did not prevent the batsmen from being dismissed for 45. The Kent batsmen were all out for 45 in 19.5 overs. Middlesex were dismissed for 10 in 10.5 overs.

## No real justification for Tyson instead of Trueman

THE Test team has been named that has not brought a storm of protest from one quarter or another and the 12 men selected for the Oval provide an exception. Two names — Denis Compton and Frank Tyson — have already caused some controversy and will cause the start of tomorrow's final Test to be a heavy one.

Trueman, despite his withdrawal, still at the tail end of the list, has done nothing that would justify his omission. He has been a consistent performer in the past, but has been out of form since the start of the season. Tyson, on the other hand, has been a consistent performer in the past, but has been out of form since the start of the season.

## Kongonis lose last match to Incogniti

KENYA KONGONIS' last tour is over. It ended on Sunday with the traditional final match against the Incogniti. The tour finished on a note of defeat when they lost their last match by a heavy margin of eight wickets.

## POINT LEVIS MOVES UP IN BETTING

POINT LEVIS, joined by Queen Elizabeth's High Velocity, was the favorite for the St. Peter's at Monday's Victoria Club callover in London.

## Fielding weakness

It has been observed that the fielding of the Kenya team is a weakness. This was evident in the final match against the Incogniti, where they lost their last match by a heavy margin of eight wickets.

## Trueman unlikely

It is unlikely that Trueman will be selected for the final Test match against the Incogniti. This is due to his recent poor performance in the first Test match.

## Letters to the Sports Editor

Hats off to new Kenya 'bowlers'

LETTERS read this week should be able to reach the Editor of the Standard. The Editor is pleased to receive letters from readers and will accept them for publication if they are of interest to the public.

## One bowler needed

Kenya needs a bowler who can bowl fast and accurately. This is a weakness of the team and it is hoped that a new bowler will be selected for the final Test match.
