AIR FRANCE presents the Caravelle

Through limited time slots, with over the weather, the Caravelle more like a sculpture—whose sleek, streamlined set functional types it recalls.

MUSIC IN THE HEAVENS The Caravelle is the quietest plane in the world. There's no vibration in the cabin, only a murmur from the powerful jets pushed far back by the tail—and passengers are lulled by the music of Air France on an atmosphere calm as an alpine pool.

THIS IS NO DREAM... But really, for just summer the Caravelle will be flying on the European route of Air France—the Company's first stake in jet age and soon to be followed by the giant Boeing 707. Incomparable, featuring short & cost-effective programs costing nearly £100 million.

New, far-reaching design developments on the VESPA 150

The new Vespa 150 (just arrived in Kenya) includes several technical refinements, including a signal improvement in motor scooter design.

- A new type of carburettor in direct communication with the compression chamber reduces fuel consumption to an even lower figure than before.
- A new timing-gear system allows the use of a 2% oil mixture - further decreasing running costs, while preserving starting characteristics due to less oiling-up.
- Torque at slow running has been substantially increased, giving a very flexible "power" while engine noise has been even further reduced.

The technically minded enthusiast will not fail to appreciate these advances embodied in the new specification of the Vespa 150.

As the Queen Mother flew back to London, winds of East Africa asked - WILL SHE GO COME BACK AGAIN?

Three-week tour ends in triumph

HIS MAJESTY Queen Elizabeth the Queen Mother today flew back to East Africa, ending yesterday at the end of her three-week visit which has gladdened the hearts of people of all communities.

As she sped in the Comet IV to London Airport, the wish apparent in their thoughts was: "Will she ever come back again?"

The Queen Mother's tour has been regarded in full eyes as one of the most successful. The impact of her radiant personality has left unforgettable impressions wherever she has been on her journey through the two territories.

Farewell message

The Queen Mother arrived at London Airport at 9 p.m. (E.A.T.), after a stop of an hour at Tripoli. The Queen, Princess Margaret and members of the British Government met her at London Airport.

In a message sent from the Royal Comet to the Governor of Uganda, the Queen Mother expressed her "heartfelt thanks for the loyal welcome and great kindness shown in her during her tour. In his reply, Sir Frederick Crawford said that the Queen Mother's visit to the Protectorate had given tremendous pleasure and happiness to everyone in Uganda."

Against a background of fluttering handkerchiefs, the Royal aircraft took off into a chiselled sky from Entebbe Airport yesterday morning. Senior officials and Government Ministers were at the airport to say farewell, and senior airport staff were presented to the Queen Mother before she left.

'Outstanding success'

Amateur photographers, with cameras poised, lined the barriers and filled the enclosure as the Queen Mother's car drove on to the tarmac just before 11 a.m. As she white accessories and a white, elegant, patterned hat, the Queen Mother smiled to the crowd.

The Queen Mother shook hands with a number of people, then paused to speak to Sir Frederick Crawford for a moment at the doorway of the Comet to wave and cheer good-bye, disappearing inside.

After the Queen Mother's departure, the Governor of Uganda said: "The visit has undoubtedly been an outstanding success and I should like, as Governor, to express my warm personal thanks to the very many people who have contributed to this success by their hard work over many months."

FINAL wave of farewells for East Africa as the Queen Mother stepped out of the Comet to wave to the crowd before she flew back to London yesterday. She was accompanied by Sir Frederick Crawford, the Governor of Uganda, and other officials. The Queen Mother's visit to the Protectorate had given tremendous pleasure and happiness to everyone in Uganda.

Do you still miss him like this?

The great thing is that you are not alone in missing him. You will great him with a heavy sigh, you will yearn for his presence, you will think of him as the "what" that is missing from your life.

Your clothes are not the same. You think of the perfume that he used to wear. You think of the things that you used to do together.

I agree, but then these days it isn't. World competition means that you've got to go for world markets. That's where I can help. As a farmer man, my job is to link up with the world's greatest agricultural countries—the United States—with essential producer countries such as East Africa. You often see machines and other goods from the United States. The Farrell Line provides a fast, efficient link between the supply of East Africa and the demand of the United States. The Farrell Line is a man of experience. When called for, his advice is reliable, his knowledge of freight problems unsurpassed. Your cargo is safe in Farrell hands.

Evidence heard at Kitale

MO KENYATA, who was arraigned on charges of kidnapping three white students in the Macharia case, was called by the defence to give evidence at the Kitale court today.

The defence lawyer, Mr. J. M. O'Connell, called Kenyata to the witness stand and asked him to give evidence in support of his client's defence.

Kenyata, who was wearing a dark suit and tie, looked nervous as he took the oath.

He was asked to give evidence about the kidnapping of the three students, and about the role of the Macharia group in the case.

Kenyata's evidence was heard by the court, and the judge will have to decide whether or not Kenyata's evidence is credible.

The case is expected to continue tomorrow.

what makes specialised service cheaper

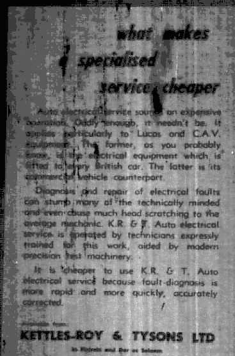

Auto electrical service costs an expensive percentage, today, through the modern use of apparatus particularly to Lucas and CAV. Appliances. The former, as you probably know, is the electrical equipment which is fitted to heavy British cars. The latter is its commercial vehicle counterpart.

Diagnosis and repair of electrical faults can share many of the technically minded and even cheap much head scratching to the average mechanic K.R. & T. Auto electrical service is provided by technicians specially trained for this work, aided by modern precision test machinery.

It is cheaper to use K.R. & T. Auto Electrical service because fault diagnosis is more rapid and more quickly, accurately effected.

NOVEL FEATURES IN CINEMA'S INTERIOR

The base of the cinema foyer is covered in grey rubber with a pattern of yellow. A huge screen, popcorn, soft and a novel feature is the lack of entrance curtains to the auditorium.

Other features include a screen of sea urchins, a screen of yellow, with numerous kinds of flower petals. The base of the auditorium seats is also like the screen.

On the outside and inside, opening doors are a masterpiece of art and design. The base of the seats is a space of green and this is

Comfort and service will be the Kenya's keynote

The Kenya, East Africa's most modern luxury theatre, sends this message to the people of Nairobi from the manager's office—

The Kenya has been inaugurated not only as a cinema where the best possible film entertainment will be offered to you, but where, of equal importance, comfort and service will be our keynote.

You will have read elsewhere in the supplement all about the finest workmanship available at the price you wish to pay and then to show you the choicest seats in the entrance door nearest which your seats are situated.

On behalf of my staff I offer you a complete service from the time you arrive at the booking office to purchase your seats until the time you leave at the end of the show.

TRAINED TO HELP

Our cashiers and front-of-house staff are trained to help you choose the best seats available at the price you wish to pay and then to show you the choicest seats in the entrance door nearest which your seats are situated.

Once at the door, our courteous ushers will help and direct you to your seats.

Before the show starts and during the interval, the best quality chocolate, cigarettes, ices and cold drinks will be served to you in your seats—so that you can refreshment, just as if an usher.

Our long bar in the mezzanine foyer will be open at normal licensing hours.

If there is anything that pleases you, tell your friends—but if anything displeases you, tell me.

I will be delighted to meet any of my patrons at any time, not only to discuss problems, but to pass the time of day and welcome any ideas for the betterment of our service.

Now here are a few items for your information. There will be two performances daily Monday to Friday at 8.15 and 9 p.m. and on Saturdays and Sundays there will be three performances at 3 p.m., 6 p.m. and 9 p.m.

The Advance Booking Office will be open every day from 9 a.m. onwards and you will be able to book seats for every 9 p.m. performance and also the Saturday and Sunday 3 p.m. and 6 p.m. performances, at least one week in advance.

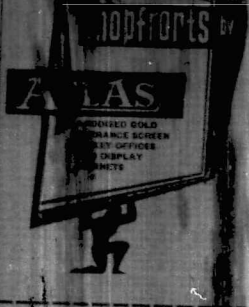

The 8.15 shows Monday to Friday will, however, be entirely unreserved and at special matinee prices, and tickets will be purchased three-quarters of an hour before these starting times.

For obvious reasons we cannot accept telephone bookings, but don't hesitate to phone for information at any time.

A REQUEST

Now here is a request that I am making so you, our patrons, from my staff. When you come to a show, we like to take you to your seats easily and comfortably, so please don't wait until the last minute to be seated; come at least ten or 15 minutes before the show starts so that there will not be a last-minute hold-up and then a tawdry rush.

ALWAYS AT YOUR SERVICE
The Manager.
