STRIKES TO BE SACKED Talks with Ministers end in deadlock

City Council workers yesterday voted unanimously to continue their strike, they were given a warning from the Town Clerk, M. Whitehead, that if they failed to return for work this morning they would be sacked.

The strike began on Tuesday over the refusal of the Minister for Local Government to implement a pay award made by the Kenya Industrial Court.

Yesterday's attempt at a solution in a day-long talk between officials of the Kenya Local Government Workers' Union, representatives of the Ministry of Local Government, the Minister for Labour, Dr. Kiama, and the secretary-general of C.O.S., Mr. C. K. Lubebe, ended in a deadlock, according to the general secretary of the union, Mr. Kerbo.

When the meeting was about to end, Mr. Whitehead sent a letter to Mr. Kerbo pointing out that the strike had been declared illegal by the Minister for Labour and warning that employees who did not return to work this morning would be dismissed.

Dam workers join halt

Reports on the extent of the strike showed that most county services were almost at a standstill. Workers at the Saumua Dam, the city's main water reservoir, also joined the stoppage.

Mr. Lubebe told the union members' meeting that as far as Government Workers' Unions had not contravened any section of the Kenya Trades Disputes Act, and the Minister for Labour's statement that the Government was not prepared to accept a personal opinion which was not supported by the majority of the workers.

PRIORITY FOR VITAL SERVICES

EVERY effort was being made by Nairobi City Council to maintain essential services, the Town Clerk, M. D. M. Whitehead, said in a statement yesterday.

He said that in particular services where breakdowns might result in loss of life or any other public health hazard were being given priority throughout the first day of the strike since services were ceasing and danger to life and property was being averted.

All the dispensaries within the centre of Nairobi, Rhodes Avenue, and the Central Dispensary, Eastleigh and Punwani, were kept open, as were the Nairobi dispensary where the Government Hospital was operating in the normal way and where the hospital staff would be providing any dispensary of the services.

Market operating

The Minko Wholesale Market was open and the market was not affected by the strike. The market was open for the sale of vegetables which were being brought in from the surrounding areas.

The public has been asked to continue to be patient by considering that they do not expect to return to their normal work until the strike has ended.

Mr. Mungai in Kuwait

Kenya's Minister for Defence, Mr. Mungai, arrived in Kuwait yesterday on a visit to the Gulf States. He is expected to stay there for several days.

The Council would like to make it clear that the strike is not a public health hazard and that the Government is not prepared to accept a personal opinion which is not supported by the majority of the workers.

Attacker has sentence cut

A man who stabbed a South African in London last September, received a sentence of 12 years for the crime. The sentence was reduced to 10 years after a successful appeal.

At his appeal yesterday one of his lawyers said it was a "mitigated and light" sentence for a crime which had been committed 15 years ago.

TO BE SACKED Emergency in Buganda extended

House that more time was needed to deal with the events arising from last year's crisis.

The Buganda State of Emergency may last for only another two months, if the Constituent Assembly begins the new Constitution and a provision for the State of Emergency originally declared in Buganda by the President last May for a further six months.

Mr. Baringo introduced the motion, which sought to extend the State of Emergency for a further six months.

He told the House that when he had spoken in November on the motion then before the House he had said that if the Government was to extend the Emergency for a further six months, he had said that there were three things left to do.

First, the distribution of the State of Emergency in the north-west hills close to the Lake border.

The mainline night-bombers dropped their 3000 high-explosive bombs on the military points held by North Vietnamese troops in the north-west hills.

At least 16 U.S. troops have died in 12 days of fighting around the corner of South Vietnam, the U.S. Marine Commandant, who is in command of the 1000 North Vietnamese troops in the hills in the past 12 days.

Dispel rumours

The fact that the Government has dispelled the rumours about the return of the Kikuyu, the Secretary of State for the Colonies, Mr. Baringo, said in a statement yesterday.

He said that the Government was not prepared to accept a personal opinion which was not supported by the majority of the workers.

Plan to extend U.N. debate on S.W. Africa

THE United Nations General Assembly may extend its special session on South West Africa beyond the 15th day of finishing a debate on 14th members. The discussion, which began on April 5, is scheduled to end today but the only formal resolution - presented by 28 African States - was met with objections from Western powers.

London-based observers here in the United Nations to the, were the territory of South West Africa, which is under the control of South Africa, it is necessary to present a formal General Assembly resolution on the subject.

The Western side insists on a more gradual approach through the Security Council. The African side, and has raised the point of a declaration of independence for South West Africa, which the former Government, seeking a formal resolution, has asked the United Nations to support. The League of Nations mandate over South West Africa, however, in many ways similar to the one over the former German colonies, has been given to a competent Government.

Under the Afro-Asian programme is the Security Council, which is the African side going along.

BRITISH officials are making a close study of the U.N. debate on South West Africa, especially in view of the visit to London next week by the Minister for Defence, Dr. M. Plims.

WHEN the Egyptian cotton crop, one of the most important commodities in the world, was first grown in Kenya's eastern region, the Kenyan cotton industry in Kenya, in a sense, was born. The first stage of development, involving an investment of £1,000,000, is planned to produce 2,000,000 bales annually, but ultimately this is to be stepped up to 50,000 bales worth approximately 200,000,000, when the mills are in full production.

Also included in the programme is a complete processing plant, including ginning, spinning and weaving, which will employ 10,000 people. The plant is to be built in Kenya, in a sense, was born. Typical example

A typical example is found in the Eastern Province where the cotton crop is being developed within the last 10 years.

When the agricultural development programme for the Province was being drawn up, it was anticipated that farming would be proving from 100,000 acres of cotton.

With the crop being so small, it was not anticipated that the cotton crop would be proving from 100,000 acres of cotton.

Does BAD BREATH make you unpopular?
 We all like to be popular but it is difficult if you suffer from bad breath. Bad breath may be due to a variety of causes... **DOES BAD BREATH MAKE YOU UNPOPULAR?**

CHAD AND BOCO COULD GO FORWARD OFF HUNGER

Millions of people in the world will have an easier winter. They are some of the 200 million who are getting enough to eat to keep healthy. World population is expected to reach 3,000,000,000 by the end of the century. In many countries food consumption is less today than it was in the 1950s.

But doctors fear persistent levels and damage which may not be reversed by hunger. They say that in many countries food consumption is less today than it was in the 1950s.

Without education there can be no extension of improved techniques or knowledge on how to curb the rise of families or family dietary needs.

The twin crisis of population growth and food supply have drawn attention from world leaders, headed by Pope Paul VI, to the problem of hunger.

But doctors fear persistent levels and damage which may not be reversed by hunger. They say that in many countries food consumption is less today than it was in the 1950s.

Sophisticated album from the talented Peddlers

THIS week's review picks a new entry from a beaten track of the tug-of-war and takes a less than less commercial look at the new album. It's a week's listening to a new part, so what more natural than to spread the good news.

The Peddlers are a new group of an art form. Their repertoire is a mix of pop, rock, and folk. Their Who's Who, and includes Peter Murray and Simon Day. The album is a collection of songs by Paul Jones, Spike Milligan, and Shadows. The album is a collection of songs by Paul Jones, Spike Milligan, and Shadows. LATEST DESIGNS FOR HOTEL DECORARE GAYER AND TOUGHER

by BARBARA JACKSON

HOTELS were once fitted and furnished in the kind of ornate or highly traditional designs which no woman would have dreamed of in her own home. The kind that did not show the dirt. Restaurants were a ghastly sight and thick, sticky, greasy, and unhygienic. The kind that was cheap and shabby and that was designed to last for ever. It was not until the 1920s that a new design was introduced in the hotel industry and in the 1930s a new design was introduced in the hotel industry and in the 1940s a new design was introduced in the hotel industry.

This firm is to show also a range of new designs for hotels and restaurants. The designs are developed by Ridgway Rye, Ltd. for the needs of the hotel and catering trade. Rising demand

Increasing demand for glassware is being met by technicians of the glass industry, which has been able to substitute the traditional leaded glass with a stronger and more resistant material. The new material is a type of glass which is stronger and more resistant than the traditional leaded glass. PUTTING OVEN-TO-TABLE WARE 'ON THE MENU'

OVEN-TO-TABLE has long been one of the major advantages of heat-resistant glassware and today is one name synonymous with the product — Pyrex — being used not only in the home, but extensively in hotels, restaurants, hospitals and schools throughout the world.

For more than 30 years Pyrex was made only in one glass, but in 1930 James A. Johnson and Co., who produce the ware at their Sunderland factory in the north of England, introduced a new special Pyrex glass. This new heat-resistant material, but known as Pyrex, was developed in the United States and is now being used in the manufacture of Pyrex glassware.

Strict control

London has passed an act which will be used to control the use of alcohol in hotels and restaurants. The act is designed to ensure that alcohol is used responsibly and to prevent excessive drinking. The act will require hotels and restaurants to keep records of alcohol sales and to provide information to the police if they suspect that a customer is drinking excessively. The act will also require hotels and restaurants to provide a safe environment for their customers and to take steps to prevent violence and other crimes.

Changes in the world

Changes in the world are being brought about by a number of factors, including technological advances, demographic changes, and environmental concerns. These changes are having a significant impact on the way we live and work, and are creating new opportunities and challenges for the future.

Micro-wave ovens are becoming increasingly popular as a convenient and efficient way to cook and heat food. These ovens use microwave radiation to heat food, which allows for faster cooking times and the ability to cook a wide variety of foods. Micro-wave ovens are also energy-efficient and easy to use, making them a popular choice for many households.

Another new British invention is a device called the 'Alphax', which is designed to help people with hearing impairments. The device is a small, portable device that can be used to amplify sound and make it easier to hear. The 'Alphax' is a significant advancement in hearing aid technology and is expected to improve the lives of many people with hearing impairments.

The Royal Canadian Mounted Police (RCMP) has announced that it will be introducing a new uniform for its officers. The new uniform is designed to be more practical and functional than the current uniform, and is expected to improve the appearance and professionalism of the RCMP. The new uniform will include a new jacket, trousers, and a new hat.

Carpet makes the world

BY GUYH TEAGUE
COLOUR and pattern
 To see the qualities that make people consider them so important in buying a carpet, one need only visit a carpet store.

But to fulfil its function and give value for money a carpet must also have other qualities. It should be durable, easy to clean and resistant to wear. It should also be pleasant to the eye and to the touch.

The most famous British carpet-makers are Axminster, Wilton, and Wilton. These are the names of the towns where they were first made. Axminster is Dorset, and Wilton is Wiltshire.

It was the Huguenot weavers, arriving in England in the 17th century, who first introduced the art of carpet-making to this country. They brought with them the technique of weaving the pile on a loom.

Today British carpet-makers supply the world market. They also export to the United States, Canada, Australia, and New Zealand.

The fashion for well-worn pile carpets has increased the world over. In the United States, for example, the demand for such carpets is growing rapidly. This is due to the fact that many British manufacturers are now making it possible to carry a carpet through a house from room to room, hall, stairs and landing — a good way of creating an impression of space in a small house.

At one of the most famous carpet-manufacturing centres in the world, Axminster, one can get an interesting picture of the industry throughout the world.

Orders from Japan, for private homes, tend to be for bright and bold patterns, or for geometric designs. In Germany, Germany favours small patterns. In the United States, the most popular squares in traditional designs are in red, gold, olive green and turquoise.

Bright colours are preferred in the countries of the Middle East, where there is a lot of sunshine. In the tropics, the most popular designs are those with geometric patterns in shades of blue, green, yellow, and white. In Sweden, while Denmark orders bright carpets in red, orange, beige, white or that bright coloured 'rugs' can be placed on top.

Canada's choice is in agreement with the current British preference for bold designs in shades of green, blue, and white. Australia and New Zealand also favour bold backgrounds with flashes of white. The choice for use throughout the house

Modular elements of the 'Pelitine Suite' of gas and electric cooking equipment, which will be on show at the exhibition, fit together to make a complete unit.

Spreading knowledge

(Continued from Page 10)

should have a high degree of productivity. In the London headquarters staffed by a small number of experts able to design the patterns for the knowledge on such matters as personnel and staff training, new branches are established in countries concerned, and normally local subsidiaries are established. A general manager is appointed and employed.

The idea of capital is to encourage more and more people from South America and Europe to visit Africa. By doing this the company will benefit from the knowledge of the people who have a direct interest, but also the economy of Africa as a whole.

EXHIBITION ROUND-UP

(Continued from Page 10)

through only 11 inches wide, the 'Tiger' can produce up to 100 lb. of potato chips an hour. Another line now in Mass. Africa will be a redesigned model of waste and refuse disposal units in stainless steel, heated by combustion-type engines and fed by automatically-controlled refuse material.

Visitors will show goods and see displays which the company are already preparing for the East Africa and below the similar results with a new 'low' rubber sheet machine of maximum capacity of 100 sq. ft. of sheet up to 220 deg. F. (100 deg. C).

In the farming front, various plans to show a pleasing range of patterns on cotton, linen and rayon-made fibres. Bright 'manmade' colours will play a predominant role, and the new class of rayon fabrics will withstand exposure to glare as well as possible weather

Trainer and jockey net \$250,000 for winning owners

THE Newmarket trainer Ned Harman and the Australian jockey George Moore have brought in a record \$250,000 in prize money for their 100th win on the Las Vegas classic over one mile at Newmarket.

On Wednesday morning added the English colt, Royal Palace, with Moore up, to win the 2000 Guineas. The jockey is determined to achieve the Chinese double for 26 years. First, English-bred mare by Mr. C. B. Doonan, normally a 1000 Guineas starter from the tapes, but yesterday she was out of the newly introduced starting stalls and was always well among the leaders.

The two victories meant a total of nearly £200,000 for the pair, with £25,000 for the jockey.

A day later, Harman's favorite all 100, came the first of the 1000 Guineas, the 100th win for the trainer, the 100th for the jockey.

Conditions were far from suitable for the ten-year-old mare, but she was able to win the 1000 Guineas, a win of £25,000 for the trainer and £2,500 for the jockey.

Harman's 100th win was on the 100th day of the season, a record for any trainer.

Kenya dhow makes good progress

"THE Lama dhow, Mudi A. Mudi, which had reached the island of Pate yesterday morning after maintaining a good eight knots since leaving Mombasa on Wednesday evening, is a 100-ton dhow with her deckhouse and rigging in the breeze.

In the first aerial picture above the dhow is under way from the Kenya Navy patrol boat Chui. The last picture can be seen in the picture on the right.

Left: crew members work on the Mudi Mudi's launch as the dhow is carrying two separate loads. In the background are two other Navy patrol boats. The repair ship Triumph.

many who was this personal capacity which made him such a valuable asset to the Government. He had, of course, a vast and varied experience of East Africa in that he was in every sense a pioneer. He had been in Kenya over 20 years and had a hand in initiating many activities which have reached fruition.

As small examples, he played an active part in starting the Kenya and acted in the early days of the Kenya Trust, the embryonic 'Jockey Club'. He was also to start and build Muthia Club.

All numerous important business activities and connections and his invaluable public services have already been mentioned. We served together in Executive Council and in the Legislative Council

KISUMU WARNS STAFF ON RENT CHARGES

THE Director of Social Services in the Kisumu Municipality, Mr. R. O. Gumbo, and Housing Committee that investigations into alleged exorbitant rents charged by some tenants in Council estates had revealed only one case of a tenant overcharging for the sub-letting of a room.

He also reported that he had sent letters to all tenants in the Council's rental estates, telling them of the maximum rent that could be charged for any room sub-let and had warned them on overcharging. "If they charge rents in excess of the maximum allowed, they will be liable to be evicted from their houses," he said.

Mr. Gumbo told the Committee that he was still investigating the question of room rents charged by Council employees housed free in Anderson Estate.

The Committee recommended that the Director of Social Services be asked to write letters to the tenants concerned warning them that if it was proved that they were charging rent in excess of the maximum allowed, they would be evicted from their houses without further notice.

He was asked to report to the Council on the progress of his investigations on the sub-letting of rooms in Anderson Estate.

Political bias alleged

KISUMU Municipal Council was yesterday accused of practicing "Obiangism" in its day-to-day management. The charges were made by Councillor Joel Mwashaka Omimo (Kansu).

Speaking to reporters, Council member Omimo accused the Council of favouring certain groups of people known as "Obiangs" in its day-to-day management. The charges were made by Councillor Joel Mwashaka Omimo (Kansu).

Minister leaves hospital

Uganda's Minister of Defence, Mr. Yvonne Omara, was discharged from Mbagwe Hospital, Kampala, yesterday after admitting at the weekend that Mr. Omara had been taken from a mild fever. The Minister now recuperates and his condition is satisfactory.

Meeting off

The Kapsabet Parliamentarian Grouping was scheduled to take place on Wednesday in the Jubilee in Narok but has been postponed.

GOLD CASE GOES TO ANOTHER COURT

A CASE against a Malindi businessman, Muli Jecha, who has pleaded "Not guilty" to a charge of possessing five gold bars, being restricted goods, was adjourned in a Nairobi court yesterday so that it could be transferred to another magistrate.

It is alleged that Jecha had the gold bars on him in the city of Lamu during a recent visit to the city. He was arrested when he was carrying the restricted goods imported without the necessary licence from the Director of Trade and Supplies.

Speaking to reporters, Council member Omimo accused the Council of favouring certain groups of people known as "Obiangs" in its day-to-day management. The charges were made by Councillor Joel Mwashaka Omimo (Kansu).

'BON VOYAGE'

WHAT THE SEA-FARING Sir Francis Chichester has done for Britain, the skipper and crew of the *Endeavour* are striving to do for Kenya. The 10,000-mile voyage of the show which will start in Mombasa on May 15, is a bold and imaginative plan to sail all over the world who go down to the sea in ships.

In addition, there is a disturbing trend in Britain, where the Government has been unable to help the unemployed. The number of British students registered in Kenya has fallen to a number as low as 100.

Improvements and strengthening of her timber-hull have been carried out under the supervision of the Defence, with co-operation between the shipwrights and the Kenya Timber Corporation. The *Endeavour* is now bravely setting sail into the Indian Ocean bound for the Mediterranean and the Atlantic crossing to New York.

There is a lot of talk which has spent the three years since she was built in London playing between there and Mombasa, taking in the East of Africa, the Cape of Good Hope and the Atlantic crossing to New York.

Typically generous reception await the skipper and crew in all the various ports of call, including Benghasi, Tunis and Algiers on the north African coast. Meetings will be held on behalf of Kenya's Air Force, State for Foreign Affairs and the Mayor of Mombasa.

Kenya's Minister of Education, Mr. J. M. Njiru, will be present at the meeting from President Kenyatta to the President of Mombasa.

This romantic voyage is a part of the celebration of the 20th anniversary of the formation of the Kenya State.

Aid for rally drivers

AFRICAN DRIVERS are to be assisted in taking part in motor rallies by a newly formed association supported by the Kenya Government. As Mr. Mwangi, Minister of Transport, said at the inaugural meeting of the Kenya Rally Drivers' Association, many motorists are living in comparative ease every day of their lives drive over roads with difficult stretches of the Safari routes.

In addition, expert drivers are to be found in the Security Forces. "Give a hand, you will receive a hand" will be the motto of the association, which will be formed to help motorists in private enterprises and the participation of them.

Not everybody can hope to qualify to enter the rallies as drivers but every enthusiast will be welcomed to the association as to stimulate active interest in rallying and accurate driving.

Mr. Mwangi said that the Government is committed to helping those who have proved their driving skills and are also willing to help themselves.

It is encouraging to note that experienced drivers and rally organisers as Mr. Cecil M. Preston and Mr. Bharat Bhargava are leading their side in the Kenya Rally Drivers' Association, when there are so many appeals for support companies and private motorists are asked to sponsor the rallies.

There is no doubt that the Government is committed to helping those who have proved their driving skills and are also willing to help themselves.

ZEBRA TRUST PROTECTS STUDENTS FROM HOMES FOR THE STUDENTS

From GARGLE LYDERS, Staff Journalist working in London

IT is not easy to find the right kind of homes for students. Even the Government, which has been successful in its efforts to provide homes for students in Africa, Asia or the West Indies, has added a further dimension of difficulty.

Zebra House is a residential centre for students in London. It is a well-known institution, and has a long history of providing homes for students.

Ex-Kabaka's book should cause controversy

SIR EDWARD MUTUSA's autobiography, *Disintegration of My Kingdom*, is to be published by Constable in July. I hear from the Queen's, London, Correspondent, a spokesman for the British firm said that it was bound to be a controversial work and would probably be banned in Uganda.

The book, which deals with the life of the late King of Buganda, from his childhood to his death in 1938, is a very interesting account of the history of Buganda, the Kingdom of the East African Protectorate, and the political and social changes that have taken place since the British took over the country in 1894.

The book covers his attempts to govern Buganda being governed by the other provinces in Uganda as independent states, his relations with the British in 1906 and the subsequent criticism of the then Governor, Sir Andrew Coburn, is even more controversial than matters of the background in last year's book.

JOHN ELGON'S FRIDAY DIARY

Mr. Mark Amery, who was once in the House of Commons, has been invited to prepare a book on the life of the late King of Buganda. The British price of the book will be 25s.

It is openly acknowledged that the Kabaka is not well off, and no suitable replacement has been found for him.

A close circle of friends from his childhood and Greater Uganda days are helping him, and some of the book should partly relieve his position.

Puppet and Clown stay at the top

NO change at the top this week. Sandie Shaw's 'Puppet' remains at one, with the Sinatra close behind and the Monkees' challenge falls away as I suspect it would, allowing Manfred Mann's 'Clown' and Jimmi Hendrix's 'Purple Haze' to climb in above them at three and four.

Pop and charted offers are pouring in following Shazam's huge charting triumph, and the relative best placed of the week is the new single by the group, which is in the top 10. The album is in the top 10.

Mass racial murder could happen again

By MALCOLM PAYNE

CONCERN and racial persecution, especially of the Jewish race, have been the dominant factors in the history of the world. In the last century they look on a new and more heinous aspect—the use of modern technology to facilitate the execution of millions of people.

Equine stories and poems with a wide appeal

By ROY CORRETT

THE HORSEMAN'S COMPANION, edited by Doran Williams

This is not the sort of book which one buys, but rather a book about which one reads. It is a book which makes the most obvious of hints to a friend or relation when Christmas is approaching.

Most of the extracts in this section are in a more popular style than the traditional, and are written with such vigour, an wit, and a sense of humour, that they are well worth reading.

Love of hunting is a collection of stories and poems which are well worth reading. They are written in a style which is both entertaining and informative.

OVERSEAS

As the holiday season overseas is approaching fast, now is the time to order your new car for delivery at your destination.

Audi—joint creation of three giants of the Automobile Industry—a new breed of car. A Mercedes designed, high precision, power driven with front wheel drive, body and chassis produced by Volkswagen with the world acclaimed high degree of VW finish, and manufactured in the Auto Union plant make Audi unique on today's world market.

In the Audi you will have high performance with economy, satisfying driver and passenger comfort—you can really relax at the wheel—a car with sufficient prestige that you'd be welcome anywhere and room for five with baggage space alike (more in the Variant Station Wagon).

As an Audi driver you'll be at home on the Autobahn as you will in dense traffic of a city or on the rough country roads of East Africa.

Overseas deliveries can be arranged at all main centres in Germany and in London

Mercedes + Volkswagen + Auto Union = Audi

You'll get a trade-in deal for an overseas delivery Audi which is better than most.

MASTER PLAN FOR CAPITAL

Standard Staff Reporter Dar es Salaam.

THE Minister for Housing, Mr. Shaba, has outlined the details of a master plan for the extension of Dar es Salaam within the next 20 years, to cater for the 10,000 a year growth rate. Canadian experts have been invited to study and plan the city under a £200,000 interest-free loan payable in 50 years.

Mr. Shaba said that the capital rate of growth, reaching 10 per cent, is a serious problem for the Government and he said that the Government has decided to plan for a 10 per cent increase in the population of Dar es Salaam within the next 20 years.

Some Canadian engineers are also to be sent to assist in the development of the city.

INVITATION FROM CANADA TO L.T.A.

Junior to compete in Ottawa

KENYA'S Lawn Tennis Association has agreed in principle to accept an invitation from the Canadian Lawn Tennis Association to send a junior player to Kenya to compete in Ottawa from August 21 to August 26.

More than 200 junior players from all over the world are expected to take part in a junior tennis tournament, known as the Canadian Centennial Open 1957 championships, which is organized by the Canadian Lawn Tennis Association and is the 10th year of federation. The tournament will receive each competitor will receive a Canadian Centennial Open 1957 trophy and the winners of the 21 events will receive a prize of \$12 to \$18 and being trophies. Canada has selected Fred Chalmers, a 17-year-old student to take part. The L.T.A. has been asked to send a junior player, but it is not clear if the will open to the merits of the player.

Clare Matthews, the Kenya tennis coach, said that the national sports center will be the automatic choice as he has played in the U.S.A. championships several times this year. The agreement will be made after the L.T.A. has sent a representative to Kenya to discuss the details of the tour and to see if the player will be able to take part in the tour.

U.N. TOLD Israeli forces on alert for attack

LEAVE EGYPT

China whips up feeling against U.K.

The United Arab Republic yesterday called for the complete withdrawal of the United Nations peace-keeping force from its territory and said its troops had replaced U.N. men on the desert frontier with regulars.

PLANE FROM NAIROBI STILL DETAINED

Kenya was still no wiser yesterday about the fate of the plane from Nairobi which was still detained in Cairo. The plane was shot down by Egyptian forces on May 15. The British Foreign Office said it had no information about the plane's whereabouts.

Withdrawal of the U.N. soldiers would leave Egyptian and Israeli troops directly confronting each other for the first time since the Suez campaign in 1956.

Cairo Radio said earlier that Egyptian troops had been stationed since early yesterday morning on the long Akaba. Members of the emergency force, who were at observation posts along the border and who are members of the Yugoslav U.N. battalion, immediately evacuated them, it added.

No sign of a call-up

The U.A.R. official request to the Secretary-General, U Thant, for the withdrawal of the entire U.N. emergency force from Egypt was delivered yesterday.

In Tel Aviv, it was announced that the Israeli Army had taken appropriate steps after the Egyptian military buildup in Sinai. It observed that the Israeli military machine was on the alert for a possible onslaught from her Arab neighbors.

BRITISH OFFER REJECTED

The United Nations Security Council yesterday rejected a British offer to mediate between Egypt and Israel.

The offer was made by British Foreign Secretary Lord Shackleton. It was rejected by the Soviet Union and the United States.

The Secretary-General said he had received a letter from the Egyptian Government asking for the withdrawal of U.N. troops from the Sinai Peninsula.

The Egyptian Government said it was ready to accept a cease-fire agreement if the U.N. troops were withdrawn.

The British Government said it was willing to mediate between the two sides if the U.N. troops were withdrawn.

GROWTH

Sweet reward

The large-scale growing and refining of sugar cane calls for a unique combination of agricultural and industrial skills backed by considerable financial resources. To meet an ever increasing demand from an expanding population, the sugar industry in East Africa is rapidly extending acreage and mill capacity. With their fund of experience of such development projects, Barclays are able to advise and assist in many ways, both growers and processors.

Good camera work captures soccer thrills

By ROGER HOWE

WE had another big sporting occasion on TV last week-end, when V.O.K.'s Dynamic Broadcasting Unit provided first-class coverage of the All-Union Cup football final in which Alphasix United trounced Sunderland of Dar es Salaam, by 5-0.

It was a pity the film had to be cut short with the score at 4-0 but we were deprived of the chance to see the jubilation which greeted the final whistle.

Shortly this was an occasion when the programme planners could have done better. Football is a sport which should be treated for itself, and not as "filler" and "padding" for other programmes.

The first part of the week towards building up for the final was done in a most satisfactory manner. The second half of V.O.K. to obtain any coverage of the match, so we had to improvise two years.

We could not, admittedly, present a repeat of last year's

Personalities of V.O.K.

MR. James V. Karamana, Assistant Director of Broadcasting, has 21 years of experience in the Broadcasting Service and has held various posts including Chief, Primary School and Head of the Education at Alliance High School, Kilimanjaro.

He studied at Makerere University College from 1937 to 1942 and obtained a B.A. (Hons.) and Certificate in Religious Studies (B.A.) in 1942. He joined the Administrative Service as District Officer in 1942 and later the same year joined the Broadcasting Service as District Officer.

He was appointed as Director of Broadcasting in the Commonwealth Broadcasting Council at League in September 1963.
