AMERICA'S OFFER TO WORDS ANGLI-GERMAN RELATIONS.

Will Abandon Weapons If All Do Likewise.

UNITED STATES SUPPORTS BRITISH DISARMAMENT PLAN.

President's Dramatic Message.

HUMANITY'S DEEP-ROOTED DESIRE TO LIVE AT PEACE.

President Roosevelt has intervened in the disarmament crisis. In a message addressed to 44 nations participating in the World Economic Conference he proposes the adoption of the British Plan which Mr. Ramsay MacDonald submitted in March at Geneva.

Mr. Roosevelt declares that the deep-rooted desire of Americans to better living conditions and the avoidance of war is shared by the mass of humanity in every country.

In words which are regarded as a hint to Herr Hitler, the American President adds that it is time every nation understood that invasion can only be prevented by the complete elimination of weapons. America will give them up freely if the rest of the world will do likewise.

Hint to Hitler. The Disarmament Conference on the question of configurations of arms, which is to meet in Geneva, has opened its work on an appeal to the rest of the world.

The statement upholds the necessity of the German equality of arms and draws a contrast between the arms of the United States and the arms of Germany. It questions the wisdom of health-creating new obligations without any compensations in return.

The Equality Clinic. It is learned that Herr Hitler, in the Reichstag, announced his intention of signing a declaration with Germany's admission to the League of Nations.

Favorable Reception. (By wireless.) Mr. Roosevelt's message has been received with a generally favorable reception. Most newspapers make a point that it is important to note that the statement on German arms which Herr Hitler is to make in the Reichstag will be generally favorable.

The Only Way. Mr. Roosevelt emphasizes that it is his hope that every nation should be free to live in peace and that the destruction of international sovereignty should be avoided.

GERMAN'S POLICY. Hitler Expected to be Moderate. Berlin, May 16. It is understood that the German Government is preparing to accept the British plan.

AMERICAN'S OFFER TO WORDS ANGLI-GERMAN RELATIONS. The British delegate to the Disarmament Conference, Anthony Eden, left London by air for Geneva this afternoon.

Block Markets. (By wireless.) Stock markets generally are good today. The London market is particularly active.

JAPAN'S TRADE IN AFRICA.

Decisive Action by Britain.

Try to find. HERE POLITICAL FAITH.

["STANDARD" CORRESPONDENT.] London, May 16. Lady Cynthia Mosley, wife of the Duke of Devonshire, is expected to arrive in London today after being operated on for arthritis.

["STANDARD" CORRESPONDENT.] London, May 16. The Anglo-Japanese commercial treaty will be terminated in as far as it applies to British West Africa.

This step is being taken in consequence of Japanese commercial penetration particularly in regard to piece goods, to the serious detriment of the British market.

Mr. Raymond Bunciman, President of the Board of Trade, announced the Government's decision in the House of Commons this afternoon amid cheers.

The resolution, which provides for the termination of the agreement is being given forthwith.

NEW WEEDY. To Supply the Coast Trade.

Tanganyika Breweries, Ltd., has just been formed to produce beer in which Kenya Breweries, Ltd., holds the controlling interest.

As stated in yesterday's issue, the East African Standard has just now been published in advance of its regular issue.

Every parent's "I was stated" is all that is needed to get the job done.

A selection of the amount of work which has fallen to arrears is given in the difference between the estimated revenue from fees for school pupils and the actual revenue.

["STANDARD" CORRESPONDENT.] London, May 16. The action now taken by the Education Department was not unexpected.

Significant Reference by The Premier.

IMPOSSIBLE TO IGNORE SPEECHES AND ACTIONS.

The Peace of Europe.

The Prime Minister speaking at a dinner arranged in his honour by the Anglo-American Association characterized President Roosevelt's declaration as one which in time to come would be regarded as a great landmark.

In a striking reference to Anglo-German relations, Mr. Ramsay MacDonald said British people could not close their eyes to the effects of speeches and action in Germany; they could not remain indifferent. The Peace of Europe was the peace of the world.

Not Against The German People.

["STANDARD" CORRESPONDENT.] London, May 17. The President's declaration was in time to come regarded as a great landmark.

Replies are sent only to those who enclose their own return address.

KAKAMEGA.

To the Editor, "E.A. Standard," Sir—We have had many columns relating to the Kakamega gold fields but up to the present have not seen one giving what I should describe as a really true review of the situation. I do so write this letter in any disgruntled "damning" spirit but with a view to placing before your readers—many of whom have probably subscribed to small enterprises with a view to making some money—a few shilling facts as I have actually known.

At the outset, let it be clearly understood that I am only a Kenyan. I am not a foreigner. I hold no special qualifications in mining or geology. I am a layman whose only association is an official capacity with the Geological Survey of the largest gold platinum and diamond regions in the world. I am not a geologist. I am not a geologist. I am not a geologist. I am not a geologist.

My only present I have imported many propositions and what I did find with the exception of the Pwani Gold area which may be described as a mineralized granite, practically nothing. Much capital has been expended with little result and with nothing to show for it but huge holes down which the money has been sent. I do not think that I blame the agents of the expeditions for lack of energy, or persistence. They have in their hands language simply tells down to the fact, that everything else in a profession or business is the result of their own energy. Many of those agents who were sent out came down here before having seen a gold mine or even a vein of gold. As an alternative means of their life will never see that actual profits will repay a syndicate of men. I am not a geologist.

Sir Alfred Kitson, I believe, was paid £3,000 for his report, a masterpiece of work and summing up. He is to say nothing and stupidity. But reading between the lines anyone with any previous training in geology and so that the recovery of gold-bearing rocks is a matter of fact. Many of those agents who were sent out came down here before having seen a gold mine or even a vein of gold. As an alternative means of their life will never see that actual profits will repay a syndicate of men. I am not a geologist.

Sir Alfred Kitson, I believe, was paid £3,000 for his report, a masterpiece of work and summing up. He is to say nothing and stupidity. But reading between the lines anyone with any previous training in geology and so that the recovery of gold-bearing rocks is a matter of fact. Many of those agents who were sent out came down here before having seen a gold mine or even a vein of gold. As an alternative means of their life will never see that actual profits will repay a syndicate of men. I am not a geologist.

To some back to our first. Suppose you, Sir, were here and read—I have not seen a good one yet; they are mostly straggling, a moderate red-ochre line to be opened up and proved thoroughly before you would have the best of the world. I am not a geologist.

There is no doubt there is gold here, but as far as I can see, it is widely distributed, the reefs are no broken up and there is no continuity and no uniformity. Of course, we know that all gold mines are a gamble, but in my opinion for the small man there is a super-gamble. It is a gamble. It is a gamble. It is a gamble.

PROGRAM & CO. LAWN MOWERS THE TOWEL HOUSE

MAIZE PRICES

To the Editor, "E.A. Standard," Sir—It is proposed, I notice, to draw a Maize Marketing Bill with a view to stabilizing prices, which ought to be of interest to consumers.

The proposal is, I understand, to pool all the maize grown in the country into a central pool, and the native Government is to appoint a single selling agent or agents to be directed by a Board consisting of a majority of growers.

It will be interesting to know how Government propose getting the maize through the ports, and how they will fare under the price scheme. I am, however, in Kenya to trade his maize for goods to be used for the feeding of his starving flocks.

Another objection of mine is to the Kakamega area. In Kenya Consolidated Goldfields, Ltd., is reported by the Standard to have been granted blocks of claims of the Sublette Syndicate in some 1,000 acres. According to the company's prospecting engineer, one of the best leads has been struck.

Yale River, May 10, 1933.

To the Editor, "E.A. Standard," Sir—May I call attention to two points which seem to me to be subjects in which the police authorities might make useful notices? No swatopaka, rifle and so on can be imported without the permission of the Police Commissioner. This permission does not, however, make it compulsory for all results to be advertised in the Press.

Yale River, May 10, 1933.

SOUTH AFRICA TOBACCO AND CIGARETTES are of THE FINEST QUALITY

making a solid block of some five feet and interposed with countless bands of pure limestones carrying Hindustani fossils for a risk for which no man would be prepared to take responsibility. Hindustani fossils found on economic grounds are nothing more than a piece of paper for the time to come.

When Government publish a sufficient amount of evidence to deal with the problem of overstocking of Hindustani fossils, by the erection of meat works, then and then only will it be possible to start a serious campaign of Hindustani eradication.

In the meanwhile we must not allow any outside interference to stampede us into a dangerous position, however well it may look on paper.

Yours etc., GILBERT COLVILLE.

May 16, 1933.

To the Editor, "E.A. Standard," Sir—We would be grateful if you will allow us to place our views on Mr. McCall's attack on our C.V.R.O. Mr. Dawson, and the Hindustani policy of the Government. It is a man who should be immune to the sort of attacks which it is his duty to make.

Mr. McCall's claim that the absence of Hindustani in the South Africa is due to the misadventure of the Tanganyika Veterinary Department is finding more and more confirmation.

The facts are that after the big epidemic in 1926, Hindustani was introduced into the greater part of Kenya and the northern portion of Tanganyika. The Government granted double inoculation making use of goats and sheep, branding their immune cattle "B."

Mr. McCall's claim that Tanganyika has time and again proved to be free of the disease since the last thirteen years. The reports show a lesser loss during the first four months of 1932 than for the whole of 1931.

The method adopted by Tanganyika although not very efficient and decidedly expensive, is not unduly dangerous to the stock in the area they are dealing with as long as the area is free of the disease and non-vaccinated bovine

SCHEME TO HELP MAIZE
INDUSTRY.

(Continued from page 1.)

...and give a decision upon all
contingencies in connection with the
management of the pool. To
approve the plan and to carry out
the same to the best advantage. To
recommend to the Government
from time to time the selling price
with reference to the pool. To
recommend from time to time to
make such interim payments as
the Board might think fit to
carry out generally such other
duties as the Government in
connection with the scheme may
require. The next provision made
by the scheme is for the appointment
of an agent to carry out the
scheme. The Government in
connection with the scheme may
require. The next provision made
by the scheme is for the appointment
of an agent to carry out the
scheme. The Government in
connection with the scheme may
require.

The duties of the agent include
receiving all maize offered
at the specified delivery
points, paying the producer
purchaser or dealer on delivery
the specified amount and
withholding of the maize as might be
desired with power to sell the
maize in the event of non-
payment. In disposing
of maize for consumption
in the Colony the agent
may, at his discretion, sell
to any class of other
person, at any price, or
to any other class of other
person, at any price, or
to any other class of other
person, at any price.

A Complete Pool.
The K.P.A. scheme further
provided that the pool would
include on the date of its establishment
all maize in the hands
of any purchaser, dealer or miller
in excess of a normal two
months' supply and all maize in
the hands of any grower in excess
of his requirements for his
own use for the following year.
It would not, however, include any maize
grown and used by a grower
for his own use, or any maize
grown and used by a grower
for his own use, or any maize
grown and used by a grower
for his own use.

Contracts.
The K.P.A. scheme also stipulated
that all contracts for the
purchase or sale of maize entered
into after a certain date
would be null and void, except
the normal two months' supply
previously referred to; such date
to be well in advance of the
scheme coming into operation.
It further provides for the
prohibition of contracts for the
purchase or sale of maize entered
into after a certain date
would be null and void, except
the normal two months' supply
previously referred to; such date
to be well in advance of the
scheme coming into operation.

...of sale of maize by producers
and for the delivery of
all surplus to the agents. Any
producer, however, might
sell or otherwise dispose of maize
produced by him, either to any
other native, for his own
consumption, or to any licensed
purchaser.
Another provision is that all
maize of maize sold, either to the
Colony shall be delivered to the
agents to be dealt with by him,
the importer being permitted to
dispose of the maize as he may
think fit. It is added that the
amount would be paid to the
exporter and it is explained
that this provision is necessary
to prevent the Government and
Uganda maize Kenya in
order to obtain the higher Kenya price,
thus swelling the exportable
Kenya price, thus swelling the
exportable Kenya price, thus
swelling the exportable Kenya
price.

All contracts for the sale or
purchase of maize made under
the scheme shall be null and void
if the scheme is not put into
operation. The agent is
empowered to make all
regulations for the conduct of
the scheme, and to make all
regulations for the conduct of
the scheme, and to make all
regulations for the conduct of
the scheme, and to make all
regulations for the conduct of
the scheme.

Costs of Production.
The scheme also provides for
the payment of a subsidy to
the producer of maize, based
on the cost of production.
The subsidy is to be paid to
the producer of maize, based
on the cost of production.
The subsidy is to be paid to
the producer of maize, based
on the cost of production.

The "Wiley" Mechanical Cherry Measurer

Manufactured by R. G. Vernon & Co., Nairobi.

A Kenya Invention—thoroughly tested and proved during the past picking season. A simple but accurate measuring device for cherry. It is a simple affair, consisting of a hopper for receiving and measuring the cherry. A series of round plates or wheels, which are rotated by a hand crank, measure the cherry as it passes through them. The plates are graduated in actual "dabbi" and its use is acceptable to native growers, the coffee being measured in full bush. It is of robust construction with nothing to get out of order. It is supplied with long legs for use in shade.

PRICE: Shs. 125/- or Shs. 117/50 for cash.

BIRTH.

JOHNSON—On May 16th, at Newmarket-on-Tyne, in Durham, the wife of Mr. and Mrs. J. Johnson, of the firm of Messrs. J. Johnson & Co., Ltd., of Newcastle-on-Tyne, has had a son, named John Nicholas, a son.

The East African Standard WEDNESDAY, MAY 17, 1966.

A Main Pool.

A special Committee of the Board of Agriculture, appointed with the straightforward term of reference: "To consider the measures necessary for promoting the Main Industry of the Colony" has proposed the adoption of a scheme prepared by the Kenya Farmers Association. The scheme, which is modelled on one operating "with a fair measure of success" in Southern Rhodesia, provides for a compulsory pool, a Governing Board, a receiving and marketing agent and a fixed legal price designed to give the reasonably efficient farmer his costs, above which these costs, above which the Committee had some difficulty in agreeing upon the 4.87 per bag on an average production of eight bags to the acre. The added costs of operating the pool, providing bags and transporting the maize to the station, would bring the figure up to Shs. 6 per bag. To enable this price to be paid, it is considered necessary to raise the external price to Shs. 3 per bag—i.e. to fix the local price at Shs. 1.25 between Shs. 7.50 and Shs. 8.50 per bag, according to the production of the acre. The balance of the exportable surplus. It is a notable feature of the scheme that the Board of Agriculture did not have the right of veto. It has not been issued officially, yet it appears, wherever it is based upon a borrowed precedent, that it is a very desirable delay in that connection and application as to the real merits of the scheme have already been throughout the Colony and there is every indication that it will be accepted.

The Air Mail.

The first passenger service to be established by air from Nairobi to Mombasa is expected to start on May 17. It will be operated by the East African Airways Corporation.

New Shipping Line.

There have been proposals to start a new shipping service between Nairobi and Mombasa, which would be operated by the East African Airways Corporation.

Gold Production.

The April production of gold was 90 ounces more than the production in March. The total production for the first four months of the year was 360 ounces.

Main Railway.

The following are returns of maize graded at Kilindi during the week ending at 4.15 p.m. on May 17: 17,212 bags received, 12,235 were graded as follows: 1,677 bags in class 3; 2,639 in class 2B; 7,936 in class 1A; and 4,960 in class 1B.

The Weather.

The British East African Meteorological Office reports that the conditions as reported from various stations in East Africa, up to 4.15 p.m. on May 17, were as follows: Nairobi, 64°; Mombasa, 64°; Kisumu, 64°; Malindi, 64°; Lamu, 64°; and Berbera, 64°.

The Coffee Board.

The action of the Coffee Board of Kenya, which opened at 10 a.m. on Monday, May 16, was to consider the proposals for the regulation of all maize grown in the Colony and its sale through a central agency, which would be controlled by a board of representatives of all maize growers in the Colony.

Brought in Laidies.

A correspondent states that the following article from the Daily Mail, London, dated May 17, 1966, is reproduced here for the interest of our readers.

Main Pool.

At a general meeting of the East African Soil Growers' Association held in Nairobi on Monday, the following resolution was passed: "That the proposal for the establishment of a main pool of maize in the Colony is a step which is being taken by the Government which is in the interests of the maize growers of the Colony."

Main Pool.

At a general meeting of the East African Soil Growers' Association held in Nairobi on Monday, the following resolution was passed: "That the proposal for the establishment of a main pool of maize in the Colony is a step which is being taken by the Government which is in the interests of the maize growers of the Colony."

INGRAME

Practical Hints

Other forms of H. T. & L. T. Supplies.

WHEN a filter is so situated that its one, three power, the set from the mains he is in the happy position of being able to dispense with batteries, although, which is a tremendous saving as well as a great convenience.

The actual power drawn by a set is very small and where mains are used the loss is almost negligible. Mains in themselves are hardly ever available for direct connection to a receiver which requires an extremely steady supply of both H.T. and L.T. in order to avoid any unwanted noise in the output. There are two types of mains to consider, the alternating current or A.C. mains and the direct current or D.C. mains, the former, I think, being the more usual and fortunately the best suited for conversion for use with wireless receivers.

The A.C. Main.

A.C. mains in these parts implies mains of 50 cycles per second, the direction of flow and by means of a transformer, having a primary and secondary winding the voltage of the mains can be stepped up or down as required, depending on the ratio of the number of turns in the primary to the number of turns in the secondary. At a later date, I hope to go into greater detail about transformer action but it is well sufficient to say that a ratio of two to one secondary can be wound on a transformer a high voltage mains current flowing in the primary can be made to produce in the secondary a conventionally low voltage alternating current in one secondary (the L.T.) and say desired A.C. H.T. voltage.

Rectifiers

Now, A.C. is quite unsuitable for the H.T. supply and milk these few are converted into D.C. or rectified. This rectification can be effected in a number of ways but the two most popular rectifiers at present are (1) the valve rectifier

which depends on the one-way flow of current from its filament to one or two anodes and (2) the metal rectifier by which the interlocking of two dissimilar metals allows current to flow much more readily in one direction than in the other.

Ideally one would like to use the half wave rectifier or the full wave bridge, the former calls only half of the complete attention, is used and in the latter the complete attention is called for. In either case, the result is not so steady D.C. supply but a series of D.C. pulses which must be smoothed out to a steady flow. This is accomplished by utilizing the property of large condensers and chokes in what is termed a filter.

Eliminating Noise.

A.C. current can be used directly on the filament of a valve provided it is used near the output end of the set. It is not suitable on account of the noise it produces. A type of valve known as the "indirectly heated" type has, however, been evolved for use with A.C. filament supply. In this valve a "Cathode" surrounding the filament has been introduced which when heated indirectly from the filament acts as the filament of an ordinary valve. This type of valve is used in many sets and noise is eliminated.

D.C. mains can also be used and the problem here is very much more simple. For the audio supply the mains are smoothed by means of filters and if necessary the voltage is dropped by a resistor. For the L.T. supply a special type of valve is used which taking a comparatively high filament voltage. These filaments are in turn connected together in series so as to form, in effect, one long filament which absorbs a large part of the available mains voltage, the rest being taken care of by a resistor.

D.C. mains are not so economical in use as A.C. mains, at least in terms of lighting power the

consumption is not large. It must be pointed out that the voltage available for the audio supply can never be higher than the voltage of the mains as no step-up transformer is or can be used.

There are a variety of methods whereby grid bias supplies can be fed from the mains, but they are somewhat complicated and I do not propose to go into them. As the various values of a set may require different voltages, adjustments in the leads to the anodes of the various valves are essential to reduce the voltage to the required value.

A Warning.

I would conclude these notes with a word of warning. Beyond a rather expensive modification, a battery operated set with a maximum voltage of up to 150 volts is nothing to be very afraid of, but it is quite a different matter when it is supplied with power, as will any from a 220 volt A.C. mains. If any adjustments have to be made, the set has to be disconnected.

Next Week.

There are yet other methods of obtaining power for the operation of a receiver and I will deal with those next week together with methods of "charging" the L.T. battery.

Notes of the Week.

RECEPTION conditions during the early part of the week have been unfavorable but towards the end they showed up a little. Atmosphere has been bad on the higher short wave bands and 7LD is still reported from our country as an indistinct signal.

Listeners' Queries.

"Codebook," Fort Hill.

Questions: I have an 130 volt D.C. lighting plant and wish to charge my L.T. battery from this, using a bank of lamps as a resistance. How can I ascertain the polarity of the battery?

Answers: There are several methods which can be used: 1. A voltmeter indicating polarity can be purchased locally for from 10/- to 15/-. 2. If you obtain some good finding paper, damp it and touch it with both leads at once, a red spot will appear where the negative wire touches.

A. If the two leads are connected in a container filled with a saline solution more bubbles will appear from the negative wire than from the positive. L.B. Kinross.

Question: I wish to utilize a very small condenser I have as a variable to my main tuning circuit. Should I wire it in series or in parallel with the existing condenser?

Answers: In parallel. Obtain the required station with the main tuning circuit with the variable set at about 90 degrees, then tune further with the variable.

TO-DAY'S PROGRAMMES.

INTER-CLUB GOLF MATCH. Muthaiga Defeat Railway Team. SIXTEEN ASIDE ENCOUNTER.

Unable to Play for County. Hendren Hits Out at Lords.

BOWLER'S PARADE AT HULL GROUND. [STANDARD CORRESPONDENT] London, May 14. Rain in the early part of the morning tended to interfere with the details of the County matches on Saturday. On the whole, however, Yorkshire are playing the home county, no fewer than twenty-two wickets fell during the day. Derbyshire were all out for the second time of 41 Victory was hardly unplayable. He was the man responsible for the collapse of the batting and in the end claimed six wickets for an average of two runs apiece. The wicket was proving a bowler's paradise, and Yorkshire failed to reach the century. Indeed, they were only 100 for a splendid innings by Mitchell, who got 54 of the 96 runs scored, the "Flycatcher" would have fared very badly indeed, but probably would not have reached the century. Town sent, although not returning anything like the average of Verity, he obtained six wickets for a cost of 38 runs. Derbyshire had a second knock-out for 21 runs. In the first innings, the famous Lancashire fast bowler was unable to play for Nottingham in their match with Leicestershire. It is feared that he will have to undergo an operation by the foot. Larwood is fit and ready to go against Australia. It is a very rare occasion indeed when the ball suspended lower under the ball of the large toe of the left foot. It is expected that he will be able to resume cricket after the commencement of the championship season, but apparently the injury has not responded to the treatment as well as was expected.

Main late in the afternoon force an early start. The Derbyshire batsmen were all out for 41 runs. Mitchell was the hero of the day, getting 54 runs. Larwood is fit and ready to go against Australia. It is a very rare occasion indeed when the ball suspended lower under the ball of the large toe of the left foot. It is expected that he will be able to resume cricket after the commencement of the championship season, but apparently the injury has not responded to the treatment as well as was expected.

FRENCH 2000 GUINEAS. Another Win for Rodosto. Certain Starter for Derby.

CONFIRMED FORM FOR YEAR'S CLASSIC. [STANDARD CORRESPONDENT] London, May 14. The French 2000 Guineas, the property of Madame de Lagrange, has followed up its success in the English 2000 Guineas by winning the French 2000 Guineas. Rodosto, an 8-year-old colt, was the winner, beating King Salmon in the 2000 Guineas by a length with three-quarters of a length away, third. He is regarded as a certain starter for the Derby on May 11. The Derby form is very condensed, but at present still favours Rodosto.

DAVIS CUP TENNIS. Australia Ousts Norway from Tournament. [STANDARD CORRESPONDENT] Oslo, May 13. Australian tennis player, Alf Hanse, was the second round by three matches to nil. In the singles Crawford (Australia) beat Hansson (Norway) 6-1, 6-2, 6-3, while Meltrin defeated Pinn-Smidt, 6-1, 6-2, 6-3. The doubles were Crawford and Turnbull beat Hagon and Hansson, 6-2, 6-3, 6-2. The other singles matches, according to the official programme, are: Crawford beat Hansson, 6-2, 6-3, 6-2. 5-7, 6-3. Queen's Club, where Great Britain plays, Finland, the home team won the first two singles matches.

Perry beat Orosendoff, 6-1, 6-2, 6-3, while Austria beat Gahn, 6-0, 6-0, 6-0.

Association football is likely to have its best season for some two or three years. The teams are more evenly balanced than has been the case for sometime.

Soccer on the Continent. England sent a splendid team over to the Continent for the first time since 1928, and it should do much towards removing not a little of the ill-feeling which exists on the Continent with regard to English football.

In the past England has received nothing but a good name on the Continent by reason of the fact that her representative players have fallen much below the home standard.

How keen the interest in soccer is on the Continent can be gathered from the fact that over fifty thousand people saw the game at Rome, and among this concourse of spectators was Il Duce.

The result - a draw of one goal each - was indicative of the keenness of the game. It was no reflection on the English side that the game resulted in a draw. It only indicated that the game in Italy is played on a high standard of the game in Europe.

Milligan, Muthaiga's stand-off half, is perhaps the best player in the English side in Kenya to-day. He is certainly the most polished seen in Nairobi for many a long day.

Kenya Kenyas C.C. Kenyan Amateur Cricket Club have fixed their seasonal tour for August 28, until September 2.

CORRESPONDENCE

The Editor does not accept responsibility for the opinions expressed by his correspondents in these columns and in all cases the name and address of the contributor accompanying a letter, not necessarily the publisher, but as a guarantee of good faith. Privacy is also essential to every contributor.

DAIRY CATTLE—JERSEYS vs. GUERNSEYS

To the Editor:—E.A. Standen writes: "I am glad Captain Campbell Long has applied to my letter about Dairy Cattle in Kenya. Capt. Long will certainly appreciate that individual performance, however gratifying to the owner, is one of the most serious factors in average performance. After reading Captain Long's letter I determined to work out the results of the Dairy Shows of 1931, not knowing in the least how they would do in the milk test I found:—

Year	Jersey	Guernsey
1. Jersey	10.00	10.00
2. Jersey	10.00	10.00
3. Jersey	10.00	10.00
4. Jersey	10.00	10.00
5. Jersey	10.00	10.00
6. Jersey	10.00	10.00
7. Jersey	10.00	10.00
8. Jersey	10.00	10.00
9. Jersey	10.00	10.00
10. Jersey	10.00	10.00
11. Jersey	10.00	10.00
12. Jersey	10.00	10.00

It is the opinion of some students that nearly all farms are run on security and welfare; were founded upon a belief in common sense with the dead. These and the modern spirit of modernism and ancient wisdom are all included upon the feet by which (Stanley) guided me in Eden. You shall see the result of this in the day you set forth in the world.

It is therefore clear that Captain Long was very unfortunate. He had started away from the whole to the Editor. He had started away from the whole to the Editor. He had started away from the whole to the Editor.

SPiritualism

"ON THIS DAY"

MAY 16, 1933.

Felix Diller, Esq., May 16, 1933. This is just one more of the many instances of the power of the human mind in the realm of spiritualism.

LONDON CONTROL OF THE RAILWAYS.

(Continued from page 5.)

The past two years have been years of extensive activity in regard to the railway system in London.

We can say that by obtaining the most satisfactory form of financial control, the Government has suggested, I think, by the hon. gentleman, a solution which is not only a very fair one to all that is in the way of world affairs, but it is also a very sound one in that it gives the opportunity of making that which is the most important part of the railway, an managing director or manager of any business concern.

"Business Principles"

Section 15 of the Ordinance has been applied to one or two companies which are engaged in the business of operating and transporting.

"SAMPLES"

From South Africa to Kenya by Road.

Late on Monday night a train had started for Nairobi. The train was composed of a locomotive and a number of coaches.

Terms of Control.

Now, Sir, there is a certain form of control that can be regarded as the most satisfactory.

A Cattle Problem Of The Drought.

STOCK OWNERS' DILEMMA NEAR KAMUSIA RESOLVE.

Government Attitude.

NATIVES' ANIMAL WELFARE WHICH THEY REFUSE TO LIQUIDATE.

dependent in the course of a letter to the "East African Standard" directed attention to few days ago to the danger to which he as a stock farmer was constantly exposed through impounding by Kamusia with their cattle.

matter has been brought to the attention of Government and it is revealed that the natives move their cattle from the reserve to Lake Sufa with official permission. The reserve is suffering from serious drought conditions.

In the opinion of the Veterinary Department, however, the whole question which is not limited to the Lake Sufa problem—but is widespread throughout Kenya—demands from a serious overstocking of the native reserves and extreme reluctance of the tribes to sell or otherwise dispose of their cattle.

Government has allowed Kamusia to impound while the settled area is in search of water and invite farmers to be held to impound trespassing stock and hand them over to the police, a provision which in Nairobi cannot work to full capacity because it has insufficient material and the natives, although faced by conditions of depression will refuse to sell their stock at a price which will show an economic return for such a plan.

A Nairobi Factory's Need.
The apparently insupportable burden is related by a communication to the "East African Standard." Mr. P. W. Jones, who, of Lake Naivasha, has written in the last three years by an impounded possession of Kamusia, that the Government has allowed him and neighboring unimpounded areas. Having failed to obtain further relief, Mr. Jones had been advised through the police to take the matter to the public through the "East African Standard."

The Official View.
As the Veterinary Department has been advised by the Government, it is the opinion of the Government that the stock on hand is not excessive, and that the Government will continue to support the stock on hand for the last three years.

Deposed the Animals.
As a preliminary general Government action was in the form of a letter to the "East African Standard" directed attention to the fact that the Government had been advised through the police to take the matter to the public through the "East African Standard."

IMPROVEMENT IN EAST AFRICAN TRADE.

Figures for Month of February.

DECREASED OVER PREVIOUS YEAR.

Imports into East Africa decreased the month of February last greatly the month of February of the corresponding month of 1929, amounting to £249,867 as against £287,147 in February, 1929, making a total of £729,872 for the first two months of 1930 as compared with £649,113 in a year earlier.

The United Kingdom had about the largest share in the exports to the continent of Europe, with an increase as compared with February, 1929, of 40 per cent. Exports to the United Kingdom were valued at £1,186,000 against £1,065,000 in the corresponding month of 1929.

Principal Exports.

The following were the principal exports in origin with the values of imports and exports, and with comparative percentages: United Kingdom Value of imports, £260,124, and of exports, £1,186,000 (100 per cent). Value of imports, £149,701, percentage 54.

EPIC OF THE SERPENT THE PYTHON.

Found Asleep in Piccadilly.

Arrested.

Big Game Hunting in "DANGER LONDON."

London, May 13. Last week in London, it was stated by a policeman in Piccadilly early in the morning that he had found the body of a python in the hands of a London hotel. The General Manager of the Hotel in the Strand, Piccadilly, where the python was found, is a man of the name of "John Smith" and he is a man of the name of "John Smith" and he is a man of the name of "John Smith."

A Mystery.

It is now known that the python was found in the hands of a man of the name of "John Smith" and he is a man of the name of "John Smith" and he is a man of the name of "John Smith."

Policy Unchanged.

First of all, Sir, if I may I should like to say that the Government's policy is unchanged. The Government's policy is unchanged. The Government's policy is unchanged. The Government's policy is unchanged.

FORECASTING BRITISH WEATHER.

Signs Which May Mean a Good Summer.

OR OTHERWISE!

London, May 2. (By air mail.) Countrymen, you are gradually becoming impatient of the exceptional power of forecasting the weather, are predicting a fine summer. Birds, insects, trees and old sayings attached to particular days such as Palm Sunday and Good Friday are among the auguries fancied by country dwellers.

Among favourable signs were said to be nesting high in the sky. The presence of the cuckoo, the robin, the wren, the thrush, the sparrow, the lark, the swallow, the blackbird, the magpie, the crow, the raven, the owl, the bat, the fox, the hare, the rabbit, the pig, the cow, the sheep, the horse, the dog, the cat, the mouse, the rat, the spider, the fly, the bee, the wasp, the ant, the mite, the tick, the flea, the louse, the worm, the bug, the mosquito, the tick, the flea, the louse, the worm, the bug, the mosquito.

The Oak and Ash.

Less hopeful is the tradition about the oak and the ash, the oak being a sign of a wet year and the ash being a sign of a dry year. The oak is a sign of a wet year and the ash is a sign of a dry year.

Policy Unchanged.

First of all, Sir, if I may I should like to say that the Government's policy is unchanged. The Government's policy is unchanged. The Government's policy is unchanged. The Government's policy is unchanged.

KENNEL NOTES

My Collier, *Gilgy*, to who call her *Penelope* in connection with "Kennel Notes" will be addressed, does not hold herself responsible for accuracy of statements made by her which are, in the main, based on information received by her correspondents.

A few weeks ago Mr. Charles Fenwick, K. P. A., Ltd., Nairobi advertised his winner bull-terrier dog "White Gladiolus" for sale in the "E.A. Standard". I also wrote of the incident in the column and gave full particulars of his dog.

I now get another letter from Mr. Fenwick who makes the following proposal: "I had better give it to you as it is to be sorry of getting it correct." I have another proposition to make. If there is anyone in possession of a good bull-terrier bitch, with a good pedigree, I would be willing to let him (or her) have "White Gladiolus" on condition that he would be mated to the bitch, and I should have two dog puppies from the litter. "White Gladiolus" would then belong to the owner of the bitch. Don't you think that this would be an attractive proposition to any one owning a good bitch? He, or she, would get a dog with good blood in him which would be a good advertisement for the "White Gladiolus" and there would be no need for me to pay, or purchase money to be paid.

It seems to me to be such an attractive proposition that I have written to Mr. Fenwick to tell him he will probably be answered with "degrams" and letters of the moment. It appears in my "Notes" of the remaining puppies and still difficulty in deciding who shall own the dog "Gladiolus". I don't think that it is fair to let him as a pal, and allow him to live the life of a gentleman in the house, combined with the fact that his promised wife will have to produce a pedigree of the blood of the bitch. I mentioned before that "Gladiolus" is a dog of charming disposition and used to children. Also he is a constant guard.

I am much obliged to learn that the lady little bitch "Bridget" has had four pups on the day she wrote. No particulars are given as to the breed and the kind of sex but it was noted that the bitch, under the circumstances, had I could give to have the dog's fate determined by the nearest doctor or veterinary surgeon. It is an unusual thing for a young dog to faint under the strain of her own litter, but it has lately occurred from some very severe nervous depression or distemper. The only breed of bull-dogs are the heavy blooded. I've seen some faint under any further cause than that the mother had, or that the show price was extra high and sudden. At the outdoor summer show at Richmond I have many times seen bull-dogs fall down in a dead faint in the ring but never any other breed.

Painting is usually the effect of a direct cause, after a bad accident, from pain, loss of blood, or shock. After a bad and protracted illness, including I have seen fainting take place. Great exhaustion will cause fainting. A fainting fit is another cause. But in this case where no possible cause is even mentioned, and in a young dog, it is the most alarming of the signs of life. I suspect, almost, actual valvular disease of the heart, a disease and a disturbance would be very necessary to consider in diagnosis the cause of the fainting, especially.

During the last 12 or 14 years I must have received many hundreds of letters about ailments of dogs and this is the only letter in which fainting has ever been mentioned.

PITBONS TO KEEP DOWN RATS

(Continued from page 1.)

It is a matter of the fact that the big African species in 1932. Meeting among mice was uncommon, especially of the bull and the black. The latter being also called the marsh antelope. Finally had gone received than that among the great West. Professional hunters were engaged to shoot them to supply the carriers of the mice.

These two factors, combined with the relatively large quantities of mice, resulted in a general decrease in game, throughout the region. The opinion of Captain Dismore, but for those two previous diseases, native weapons would have so little comparative effect that their danger would be negligible.

That the women are having a definite effect is shown by the fact that the smaller game tends to decrease, while the heavy, big game is increasing in numbers. The sheep, buffalo, bontebok (also to the top) are difficult to kill, to savage or too inaccessible to be managed by the muzzle-loading guns.

In the Kafir region, in the south, however, buffalo are used as an animal trap for the Mashukumbes, a section of the Kafir tribe, who are the father part of the dry season in August and September.

In fact, as Captain Dismore puts it, in 1922 some of these animals are recorded in the south of the country and seven, Heals.

During the last 12 or 14 years I must have received many hundreds of letters about ailments of dogs and this is the only letter in which fainting has ever been mentioned.

MOSQUE AND CLUB

For Moslems Visiting London.

[STANDARD CORRESPONDENT.]
London, May 24.
(By Air Mail.)
Plans are now being completed for the erection of a mosque and club for Moslems. The building is to be in the neighbourhood of Carlton House Terrace. The Moslems are supporting the scheme, and it is hoped too, to enlist the sympathy of King Fuad of Iraq when he arrives in London in 1936.

The purpose of the club is to provide Moslems residing in and visiting this country with a club of their own, where they can meet and talk with their fellow Moslems and with a mosque, where they can worship and pray.

The building is to be the centre of the mosque and club.

MUNICIPAL COUNCIL OF NAIROBI
ELECTION OF COUNCILLORS IN THE YEAR 1933.

Notice of Election.

The day of election of Councillors for the undermentioned wards of the Municipality of Nairobi is **Thursday, the 1st day of June, 1933.**

The names of the Candidates to be elected in each ward are:

For the CENTRAL Ward..... ONE.
For the HILL Ward..... ONE.
For the WESTLANDS Ward..... ONE.

Each candidate for election as councillor must be nominated in writing, and the nomination paper must be delivered to me by the candidate or his proposer or seconder on or before the time specified in the Municipal Officers, Government Road, Nairobi, between the hours of 11 o'clock in the forenoon and 12 o'clock noon, on Thursday, the 1st day of June, 1933.

Each nomination paper must be in the form prescribed in the second schedule to the Municipal Councils (Nairobi) Order, 1928.

Forms of nomination paper may be obtained free of charge from me at the Municipal Office.

A fee of 10 shillings is payable in respect of each nomination paper.

Each member of the Municipal Council is nominated for any of the said wards except the number of members to be elected for each ward, and the election will be determined for the purpose of taking a poll, of which due notice will be given.

Dated this 16th day of May, 1933.

Critical Situation in Europe.

OVER GERMANY'S ATTITUDE TOWARDS DISARMAMENT.

A State of Tension. DELEGATE RECALLED FROM GENEVA TO BERLIN.

Germany's attitude towards the question of disarmament has caused a good deal of tension in Europe, and the present week is regarded as a critical one for all countries concerned.

The proceedings of the Conference at Geneva have been postponed, while a meeting of the General Committee has also been postponed on the grounds that delegates desire to await a statement of Germany's definite position before further discussions are held.

Meanwhile, the German delegate to the Disarmament Conference, Herr Nadowitz, has been recalled to Berlin, while it is anticipated that a statement of the German attitude will be made by Herr Hitler in the Reichstag on Wednesday.

Conference Postponed.

The delegates to the Disarmament Conference at Geneva have been recalled to their respective capitals. The conference has been postponed until further notice. The German delegate, Herr Nadowitz, has been recalled to Berlin. The British delegate, Lord Halifax, has also been recalled to London. The conference is expected to be postponed until the middle of next month.

MORE BURGLARIES AT WESTLANDS.

Car Removed and Money Stolen.

Several burglaries have been reported at Westlands. A car was removed and money was stolen. The police are investigating the matter. The burglaries are believed to be the work of the same gang.

ENTERTAINMENTS IN UGANDA.

Criticism of Proposed Amending Bill.

The proposed amending bill has been criticized. The bill is expected to be passed by the Legislative Council. The critics argue that the bill will be detrimental to the interests of the people.

JOINT A.F. BOARD EXPLAINS.

Attitude Towards Local Problems.

Not a "Mere Echo." LETTERS TO THE UGANDA CHAMBER.

The Joint African Federation Board has explained its attitude towards local problems. It is not a mere echo of the views of the British Government. The board is concerned with the interests of the African people and will act accordingly.

PROBLEMS OF SURVEY.

Captain Pitman was asked to make a general survey of the problems of survey. He has been asked to report on the progress of the survey and the results obtained. The survey is expected to be completed by the end of the year.

THE KING'S HEALTH.

Shoulder Yielding to Treatment.

The King's health is reported to be improving. His shoulder is yielding to treatment. The King is expected to be able to resume his duties in the near future.

THE WORLD ECONOMIC CONFERENCE.

Preliminaries Before the Cabinet.

The preliminaries of the World Economic Conference have been discussed by the Cabinet. The conference is expected to be held in London in the near future. The British Government is expected to play a leading role in the conference.

DANZIG INCIDENT.

League Commissioner's View.

The League Commissioner has expressed his view on the Danzig incident. He has stated that the League is committed to the principle of self-determination and will act accordingly.

FIGHTING IN FAR EAST.

Big Advance By Japanese.

Chinese Rout. 3,000 Casualties in Three Days.

The Japanese have made a big advance in the Far East. They have routed the Chinese and captured 3,000 casualties in three days. The Japanese are expected to continue their advance in the near future.

BRITISH TRADE AGREEMENTS SIGNED.

Trade Agreements with Denmark, Norway, and Sweden.

Trade agreements have been signed with Denmark, Norway, and Sweden. The agreements are expected to be ratified in the near future. The agreements will be beneficial to the interests of the British Empire.

SEASONABLE FASHION GOODS AT WHITEWAYS KEEN PRICES.

The War Spirit in Germany.

STRIKING SPEECH BY AN EX-CHANCELLOR.

Reply To Lord Halifax. BATTLEFIELD A SUITABLE PRELIMINARY TO ETERNITY.

Significant of the recent revival of militarism in Germany is a speech made by Herr von Papen, an ex-Chancellor, in reply to the British Secretary of State for War.

The speech suggested that it was merely hypocritical to talk of sanctions in the event of Germany failing to carry out the disarmament obligations of the Peace Treaty when, he said, the League had failed to take action against nations actually waging war.

"League Hypocrisy."

The speech was a striking passage of his speech was that in which he declared that the battlefield was for a man what "motherhood" was to a woman.

INCREASE IN INTERNAL PRICE OF MAIZE.
(Continued from page 2.)

to the universal production of the maize.

With a substantially lower production than at present, the revenues of the railway and flour mills are reduced. The reduction in output to cover the very high overhead charges increases in many other agricultural products. It would be necessary to increase the price of maize to cover the increased cost of production. The Government is now doing its utmost to increase the production of maize. The Government is now doing its utmost to increase the production of maize. The Government is now doing its utmost to increase the production of maize.

The General Election in South Africa.

OUTSTANDING FEATURES OF THE NOMINATIONS.

Polling This Week.

FIRST WOMAN MEMBER OF THE HOUSE OF ASSEMBLY.

Following in the general election for the Union House of Assembly takes place on Wednesday, nominations having been handed in on April 21. Owing to the coalition agreement between the two major parties, some 67 members have been returned unopposed, as in many constituencies the party, led by Mr. Timman Roos, the Labour Party, and the Natal Republicans are fighting seats.

In the first time in the history of South Africa, women will vote in a general election and will be entitled to take their seats in the only one woman has been returned unopposed, as a Coalitionist N.A.P. for a Johannesburg seat.

A serious situation has arisen in the Cape where a number of "mental reservationist" Coalition members have been granted the official coupon, only to be opposed by unconditional Coalitionists, and in other areas unconditional Coalitionists with official support are being opposed by "mental reservationists."

The Roos Party.

Although the two leading parties in South Africa have led forces in a coalition, it has been the leader of the Union House of Assembly throughout the Union for the last 12 months. The Union House of Assembly was elected on April 15, 1935, and is a result of the agreement between the two parties in 1934. The coalition agreement was a result of the fact that the two parties in 1934 have been elected to 70 seats in the National Assembly and 40 seats in the House of Representatives. The effect of the coalition agreement was to bring the two parties in 1934 to a coalition, and the result was that the two parties in 1934 have been elected to 70 seats in the National Assembly and 40 seats in the House of Representatives.

The Women's Franchise.

The chief feature of interest in the election is the fact that the women will vote for the first time in a general election in 1936 which was introduced in 1930 which gave the franchise to women in the Union House of Assembly. The effect of the franchise was to bring the two parties in 1934 to a coalition, and the result was that the two parties in 1934 have been elected to 70 seats in the National Assembly and 40 seats in the House of Representatives.

With the general election, however, the women have taken the franchise to the Union House of Assembly. The effect of the franchise was to bring the two parties in 1934 to a coalition, and the result was that the two parties in 1934 have been elected to 70 seats in the National Assembly and 40 seats in the House of Representatives.

MURDER OF EUROPEAN AT NANTUKI.

Mr. Acting Justice Gantelo was in Nantuki on Monday morning in connection with the charge of murder against Agilo, a native of the district.

Trial of Accused Native.

The trial of the accused native, Agilo, was held at Nantuki on Monday morning. The accused was charged with the murder of a European.

Brighter Outlook During Last Month.

The statistics in Natal have pointed out the fact that the outlook for the month of April was brighter than for the month of March. The statistics show that the number of cases of malaria has decreased, and the number of cases of cholera has increased.

MONEY CONDITIONS IN SOUTH AFRICA.

The money market in South Africa is showing signs of improvement. The rate of interest has fallen, and the value of the Rand has risen. This is due to the fact that the South African Reserve Bank has increased the amount of money in circulation.

Minist's Remarks.

The Minister of Education, Mr. J. M. Goniwe, has made a statement in the House of Assembly regarding the state of education in the Union. He stated that the Government is committed to the improvement of education, and that it will continue to support the National Education Commission.

Increase in Internal Price of Maize.

OPPOSITION BY THE COFFEE INDUSTRY.

Objections To Proposed Scheme.

Burden Too Heavy.

A meeting of coffee planters at Kilmbe on Saturday unanimously adopted a resolution opposing proposed scheme to raise internal price of maize in order to preserve the maize industry. It was stated that the effect of increased price would be to throw an unbearable burden upon the coffee planters who formed the bulk of the maize consumers.

Under the new scheme this will be applied to the maize industry, and the resulting increase in price will be a heavy burden upon the coffee planters. The coffee industry is opposed to the scheme, and has expressed its objections to the proposed scheme.

The coffee industry is opposed to the scheme, and has expressed its objections to the proposed scheme. The coffee industry is opposed to the scheme, and has expressed its objections to the proposed scheme.

GERMANY RE-ARMS PEACE TREATY BECOMES EFFECTIVE.

Will Hitler Give In?

CRITICAL MEETING OF REICHTAG TO BE HELD THIS WEEK.

German Government has arranged for a meeting of the Reichstag this week, when it is expected that Herr Hitler will declare his attitude to the Disarmament Conference. German representatives are hurrying to Berlin from Geneva and London.

The mounting time is removed here that the Conference will survive the German threat.

Chairman, Mr. Arthur Henderson, has evolved a compromise formula which has been accepted by the five leading Powers. This will be discussed in Geneva on Monday.

The approval which has followed German leaders is believed to have surprised Herr Hitler and there are some indications that his Government will give way. America is also voting her influence in Berlin and the British Press points out very bluntly that if there is no disarmament the Treaty of Versailles must be made a binding document.

CORRESPONDENCE

The Editor does not accept responsibility for the views expressed by the correspondents in the Columns and in all cases the name and address of the writer must accompany a letter, and necessarily for publication but a promise of space is not a promise of insertion. It is essential to ensure consideration.

Kanama Cattle

A LAKE SOLAI COMPLAINT To the Editor, "E.A. Standard," Sir—Having traced every means to get the attention of the Government to stop the removal of the Kanama cattle, I have now decided to put this very serious matter which means ruin to me as a farmer and my family and the public through your esteemed pages.

For the last three years I have reported troubles of Kanama cattle from the Government by various means, but without success. Since the introduction of registration in the United Kingdom, these regulations already exist.

The critics of the Bill have shown in their correspondence in the "East African Standard" that they have not understood the provisions of the Bill and I take this opportunity to invite them to obtain accurate information from the Institute before committing themselves to print.

S. I. BLACKHURST, A.L.S.A., Hon. Secretary, East African Institute of Architects, Nairobi, May 11, 1932.

To the Editor, "E.A. Standard," Sir—Would you, of your courtesy, permit me to reply to my friend "Anti-Burns," whatever that name may mean.

First of all, may I thank him for emphasizing my point so clearly. As I said before I am a simpleton, particularly in matters architectural, and I fear most of us are likewise situated in dealing with experts and technicians.

It was my very simplicity which led me to ponder over the possibility of an unorthodox and possibly dishonest Architect specially depriving me of any money I may chance to possess by a rebuffing of an unscrupulous and petty-bribe contractor. Even if my friend's assumption in paragraph one of his letter were correct, I would but

NATIVE'S DEATH

Charge Against a Motorist.

Judgment was given on the 21st inst. by the Resident Magistrate, Nairobi (Mr. J. V. Burns), on the case in which James Kibwe, of Nairobi, was charged with negligently driving a motor car on the main Nairobi-Thika road, near Bura, on March 15.

It was alleged that on this date, Mr. Kibwe knocked down and killed a native in consequence of the excessive driving.

Evidence was given by a witness to the effect that when near the Thika Road he saw a motor car passing very quickly. It was followed by another car. He alleged that this car knocked down a native who was walking on the road towards Nairobi.

Children's

ROAD AND WEATHER REPORT.

Mr. Dallow-Paine writes as follows: From a most condition point of view your report this week is most abundant, as practically all roads throughout Africa are still very good.

It is well alleged that on this date, Mr. Kibwe knocked down and killed a native in consequence of the excessive driving.

Evidence was given by a witness to the effect that when near the Thika Road he saw a motor car passing very quickly.

It was alleged that on this date, Mr. Kibwe knocked down and killed a native in consequence of the excessive driving.

Evidence was given by a witness to the effect that when near the Thika Road he saw a motor car passing very quickly.

It was alleged that on this date, Mr. Kibwe knocked down and killed a native in consequence of the excessive driving.

Evidence was given by a witness to the effect that when near the Thika Road he saw a motor car passing very quickly.

It was alleged that on this date, Mr. Kibwe knocked down and killed a native in consequence of the excessive driving.

Evidence was given by a witness to the effect that when near the Thika Road he saw a motor car passing very quickly.

It was alleged that on this date, Mr. Kibwe knocked down and killed a native in consequence of the excessive driving.

Evidence was given by a witness to the effect that when near the Thika Road he saw a motor car passing very quickly.

It was alleged that on this date, Mr. Kibwe knocked down and killed a native in consequence of the excessive driving.

Evidence was given by a witness to the effect that when near the Thika Road he saw a motor car passing very quickly.

It was alleged that on this date, Mr. Kibwe knocked down and killed a native in consequence of the excessive driving.

Evidence was given by a witness to the effect that when near the Thika Road he saw a motor car passing very quickly.

It was alleged that on this date, Mr. Kibwe knocked down and killed a native in consequence of the excessive driving.

Evidence was given by a witness to the effect that when near the Thika Road he saw a motor car passing very quickly.

It was alleged that on this date, Mr. Kibwe knocked down and killed a native in consequence of the excessive driving.

Evidence was given by a witness to the effect that when near the Thika Road he saw a motor car passing very quickly.

It was alleged that on this date, Mr. Kibwe knocked down and killed a native in consequence of the excessive driving.

CHESS

(By A. H. Spencer Palmer, Life Member British Chess
Federation, P.O. Box 78, Nairobi.)

Letters relating to this column
should be marked "CHESS" and
sent direct to this.

PROBLEM No. 1437

By G. Z. SARGENT
BLACK MOVE

White to move.
1. What is White's best move?
2. What result should follow
his play by both sides?

PROBLEM No. 1438

By Haren Gottschall
BLACK MOVE

White moves in two ways.

PROBLEM No. 1431

By L. P. Berkeley
BLACK MOVE

White to move. In a competition
points would be deducted for
such incorrect replies.

PROBLEM No. 1435

By L. P. Berkeley
BLACK MOVE

White to move.

ON THIS DAY.

Problem No. 1435, Kunoep.
Rev. J. K. K. —
If Q-K1: 2 R-B6 mate.
If P-K1: 2 R-B4 mate.
If K-R: 2 K-R4 mate.
If P-Q: 2 K-P4 mate.
If Q-Q: 2 Q-Q4 mate.

Solved by Nicola Sings, W. R. M. Fowler, G. Tanner, I. S. P. Berkeley, and Hugh Spencer Palmer.

Problem No. 1436, Kinschall.
Rev. J. K. K. —
If R-R7: 2 R-R7.
If R-R7: 2 R-R7.
If R-R7: 2 R-R7.

Solved by W. R. M. Fowler, G. Tanner and I. S. P. Berkeley.

KENYA CHAMPIONSHIP.

The Indians are re-organizing
their Chess Club with a view to
putting up a very good team for
this year's Championship, which is
designed to afford them excellent
practice in making an heroic
effort at recovering the Lever
Silver Book at next year's Cup
Match.

In the Nairobi Chess Club
section of the tournament B. Bosh
has worked his way to a well-
deserved place in the semifinals
by beating A. H. Spencer Palmer
by two wins to one. After this
the language will need a little
attention!

The semi-finals therefore con-
sist of T. E. Davidson and B. Bosh
and M. J. M. Bosh and W. R. M. Fowler.
M. J. M. Bosh has an
unpleasant surprise in this as
Davidson has gone off to Tanganyika
for seven months after
managing to get past G. Tanner.

PRESIDENT'S PRIZE.

This journey, played on hand-
saw, resulted according to the
results in the championship up to
date, it open to all members of
the Nairobi Chess Club except

New Stanley Hotel... New Bedrooms... New Tariff... PRICE 20 CENTS.

Germany Removes The Mask. UNCOMPROMISING ATTITUDE TOWARDS DISARMAMENT.

A Blunt Statement.

NEWSPAPER ARTICLE WIDENS GAP AT GENEVA. German Foreign Minister, Baron von Neurath, has explained Germany's attitude towards the Disarmament Conference...

The effect of this article was to widen the gap already existing at Geneva, and the private negotiations which have been proceeding during the last few days have ended with no agreement having been reached.

The General Commission of the Conference will probably meet to-day to review the situation and it is thought that the last course would be to adjourn the Conference for some months.

A Warning by Britain.

BRITISH SECRETARY'S SPEECH. Berlin, May 11. A speech statement of Her Majesty's Secretary of State for Foreign Affairs, Mr. Herbert Morrison, was made in the House of Commons...

THE U.S. AGREEMENT. Geneva, May 11. A meeting of the Big Five Powers failed to reach an agreement on the question of procedure. It will, therefore, report to the Security Council...

WARNING TO GERMANY.

THE ORIGINAL INTENTION IN THE Disarmament Conference at Geneva had been to proceed on the basis of the Geneva Declaration...

THE BRITISH POSITION. The British position is clear. It is not to be expected that the British will accept a disarmament conference which would be bound by the provisions of the Geneva Declaration...

PROSPECTING LICENCES. To remain at Present Figure.

Government Commission. SELECTED MEMBERS AREA OF RESERVE OF MINERS. The Whitehall proposition may be brought again...

THE BILL WAS SENT BY THE Legislative Council to Select Committee in accordance with the Council's recommendation that the Bill be referred to the House of Representatives...

THE MINISTER FOR PRODUCTION. The Minister for Production, Mr. J. G. Duggan, said in a speech before the House of Representatives...

HIS EXCELLENCY. VISIT BY AIR TO THE PALMS. His Excellency the Governor of Kenya, Sir Joseph Breen, left Nairobi yesterday for Wilson Airway...

Captain the Hon. J. L. Collier has given a lecture on the situation of the country at the moment in the House of Representatives...

How did the other Commission imagine that that section of the (Continued on page 4.)

A SENSATION IN LONDON. German Wreath on the Cenotaph.

Thrown into Thames. Sir Samuel's Act of Protest. DECRETES TO "DISCERATION OF MEMORIAL".

London, May 11. The wreath which Herr Hitler's representative Herr Rosenberg placed at the Cenotaph in Whitehall yesterday, was carried today and thrown into the Thames by an ex-serviceman...

DEFEND CONVERTED. In a memorandum just received in connection with the proposed National Development Fund...

LEVY ON CIVIL SERVICE SALARIES.

(Continued from page 5.)
a thorough plan for the extension of the Salaries Commission. The Commission was unable to accept the view of the Financial Secretary that the Government should be asked to contribute to the Commission the amount that it had to contribute to the Commission.

Military Costs.

The amount of £1,000,000 was approved by the House of Representatives. It was a plan for a reduction of expenditure—£200 million to maintain one man of the R.A.F. on the field against almost twice the same amount in 1929. £100 million a year was taken out of the budget and a larger number of men while the Reserve was £100 million per annum. £100 million per annum. £100 million per annum. £100 million per annum.

To Reply.

In reply to the points raised by the Colonial Secretary said in answer to the question that the Government was not prepared to accept the suggestion that the Government should be asked to contribute to the Commission the amount that it had to contribute to the Commission.

The Official Reply.

The first point was made by the Hon. Member for Nairobi South with reference to the recommendation of the Financial Members of the question of a levy. He would make it quite clear that it was not intended to say that the levy was only five or six per cent. The original levy had been five per cent and 10 per cent, and the present levy was six per cent, and 10 per cent. As regards the question of any addition to that levy at the moment, he could only inform Members that so far as Government was concerned, they were not aware that there had been any change in the present situation which would lead Government to alter the amount which had been recommended by the Hon. Member for Nairobi South had referred to three points. One was the question in which he had asked that some further should be obtained regarding the Terms of Service and three additional to the levy which had been placed more particularly in the hands of the Government.

was for looking in Kenya a legal and authorized manner. At the same time he would not put a word of criticism. It had been suggested to him that there was no objection to the service of the Government over the question of Service. He would not put a word of criticism. It had been suggested to him that there was no objection to the service of the Government over the question of Service.

Main Questions.

Colon G. B. Horne, (representing native interests) referred to a report which he had received from the Hon. Member for Nairobi South. He would not put a word of criticism. It had been suggested to him that there was no objection to the service of the Government over the question of Service.

A Government Difficulty.

Colonel J. G. Kirkwood (Finance) said that the Hon. Member for Nairobi South had referred to a report which he had received from the Hon. Member for Nairobi South. He would not put a word of criticism. It had been suggested to him that there was no objection to the service of the Government over the question of Service.

The Full Committee.

The full committee was held on the 15th inst. and was presided over by the Hon. Member for Nairobi South. He would not put a word of criticism. It had been suggested to him that there was no objection to the service of the Government over the question of Service.

Second Meeting.

The second meeting was held on the 16th inst. and was presided over by the Hon. Member for Nairobi South. He would not put a word of criticism. It had been suggested to him that there was no objection to the service of the Government over the question of Service.

Third Meeting.

The third meeting was held on the 17th inst. and was presided over by the Hon. Member for Nairobi South. He would not put a word of criticism. It had been suggested to him that there was no objection to the service of the Government over the question of Service.

Medical Salaries.

The only other two points had been made by the Hon. Member for Nairobi South. He would not put a word of criticism. It had been suggested to him that there was no objection to the service of the Government over the question of Service.

Further stated that he was taking the Hon. Member for Nairobi South into consideration. He would not put a word of criticism. It had been suggested to him that there was no objection to the service of the Government over the question of Service.

Another Point for Devis.

The Hon. Member for Nairobi South stated that he was taking the Hon. Member for Nairobi South into consideration. He would not put a word of criticism. It had been suggested to him that there was no objection to the service of the Government over the question of Service.

RAILWAY TENNIS CLUB.

The mixed doubles, comprising the Hon. Member for Nairobi South and the Hon. Member for Nairobi South, were the winners of the tennis tournament.

Levy On Civil Service Salaries. INCREASE URGED BY KENYA ELECTED MEMBERS.

Negative By Government.

HEAVY SACRIFICES MADE BY ALL SECTIONS OF UNOFFICIAL COMMUNITY.

It was stated in the Legislative Council on Wednesday that the Elected Members, although very reluctantly supported the recommendation made in the minority report of the Expenditure Advisory Committee that an increased levy on Civil Service Salaries was essential for 1934.

Captain Schwartz said the justification lay in the condition of other citizens in the Colony.

Referring to farmers, he declared that in many cases they hardly had the money properly to feed and clothe themselves. In the towns reductions in salaries of the majority of cases was at least 20 per cent., while husband men found their profits reduced from anything between 40 and 70 per cent.—if they had any profit at all.

In the course of his reply the Colonial Secretary declared that the Government saw to change in conditions which warranted a further increase in the levy on salaries.

It was also announced that the Select Committee on the Estimates had recommended to the Government press-ure of the Native Registration system by effecting economies through amalgamation of departments.

The Elected Members also urged upon Governor the urgent need for finality in the matter of terms of service and of Native Service and for officers engaged overseas.

Debate on the Budget.

The debate in the Kenya Legislative Council on the Budget was marked by the influence of the report of the Expenditure Advisory Committee, which had been presented on Wednesday as an important document in the course of the debate of the main opposition members of the House.

Captain Schwartz said that the Government had a number of proposals for increasing the revenue of the Colony and that the Levy on Civil Service Salaries was one of the most important. He said that the Government had a number of proposals for increasing the revenue of the Colony and that the Levy on Civil Service Salaries was one of the most important.

ES\$3,669 MORE THAN ANTICIPATED.

Continued Railway Improvement.

Encouraging Figures.

The partial recovery of trade reflected in figures for the previous month continues to be shown in the Railway figures for March this year. While an approximate increase of £12,000 was shown in February over the figures for February 1932, the March figures show an increase of £29,700 above the figures for the same month last year.

The total revenue for the quarter was £584,772 as against £521,981 for the first three months of last year. The local post-office firm is merely a case of vanity: once as the firm had already previously tried to make out for their own and their post-office, but the minutes, rightly enough, have been ordered to remain the family business.

The total public traffic dealt with by the Administration for the first three months of 1933 was £23,397 tons as compared with £24,165 tons for the corresponding period of 1932, an increase of 3.04 per cent. The total freight mileage run during this year's first quarter was £71,074 against £63,617 for the first quarter of 1932—an increase of 12.4 per cent.

The increase in the revenue of the railway department is due to the increase in the revenue of the department. The increase in the revenue of the department is due to the increase in the revenue of the department.

The increase in the revenue of the railway department is due to the increase in the revenue of the department. The increase in the revenue of the department is due to the increase in the revenue of the department.

DUCO POLISHING WAX

MAINTAINS THE LUSTRE OF THE "DUCO" FINISH

DUCO Polishing Wax has been specially produced by the manufacturers of the "Ducol" for use on cellulose or painted surfaces. It is specially suitable for motor cars as it imparts a finish which repels the weather and gives added protection to the surface.

"Ducol" Polishing Wax is also recommended for use on furniture, especially on lacquered surfaces. It should be applied as sparingly as possible in order to render the polishing operation easy.

Mr. Griffiths indicated that, as a British banker stated this week, the fact is on the face of it. Community powers are preparing. The budget returns are most promising though they have been for two years, the deficit has disappeared for the first time in the country. Though delayed on a little more promising last year, it is an excellent portion of the main coffee crop may yet be saved. The most serious action of the main crop are not declining and in Uganda, the coffee industry is moving rapidly. In view of the fact that the coffee crop may yet be saved. The most serious action of the main crop are not declining and in Uganda, the coffee industry is moving rapidly. In view of the fact that the coffee crop may yet be saved. The most serious action of the main crop are not declining and in Uganda, the coffee industry is moving rapidly.

The usefulness of the Select Committee system as a method of practical cooperation in the solution of the domestic problems of Kenya, particularly those related to agriculture, has been fully appreciated by financial considerations. It is admirably illustrated by the Report on the 1933 legislation which Government adopted this week. The Budget Ministry took the opportunity of appraising the work of the Committee during the proceedings of the Committee. This, in itself, a formal and perhaps rather uninteresting, but like the thoughtfulness of the Government in conveying the good wishes of Council to Lord Francis Sest at a time of personal trial, it is of constant interest in establishing good relations. There can be no question that the atmosphere of the meeting of very cordiality and the fact that it is a definite better mutual understanding which should not be again destroyed or even jeopardized in the conduct of the ordinary business of the Government. It is a fact that the Select Committee's recommendations will be taken into consideration by Government to adapt them with respect to them and their own qualifications should go far to rendering them of more value to the Service, whose interests are constantly threatened by the continuing need for rapid expansion in expenditure. The effect of the Budget is to make a further reduction of 20%—something like 20% in each of the services devoted to the work of the Select Committee and the one that requires a decrease in the appropriate deficit on the current year which will save an estimated 20% in the Government's budget. It is a considerable burden to carry but the details of the budget which have been laid out are the most thorough, although the absence of a public white paper in the past, the Budget Committee's Service contributions to the

Widows and Orphan Pension Scheme—The necessary of the Act of 1929 and is being reviewed in the month of October. An effort is being made to see their requirements met by Government for the relief of widows and orphans. There is a provision in the Bill that Government has apparently decided to abolish the "Bureau of Widows and Orphan Pension Scheme" and transfer its functions to the Department of Social Services. It is a provision that will be of great benefit to the widows and orphans of the late-war period. It is a provision that will be of great benefit to the widows and orphans of the late-war period. It is a provision that will be of great benefit to the widows and orphans of the late-war period.
