Police ready for anything says Dr. Vogel

With the police ready for anything, says Dr. Vogel, the situation is not as serious as it appears. The police are well equipped to handle any emergency that may arise. The situation is under control and the police are confident that they can handle any situation that may arise.

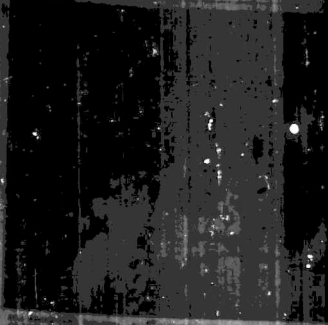

STAR TO BE NUN

After a long and successful career in the entertainment industry, the star has decided to take a different path. She has chosen to become a nun, a decision that has surprised many of her fans. She has spent the last few years of her life preparing for this new chapter in her life.

The star's decision to become a nun is a significant one. She has spent her entire life in the public eye, and now she is choosing to live a life of quiet reflection. Her fans are sure to miss her, but they will respect her choice. She has always been a private person, and this is a natural extension of that.

STEADY GROWTH OF INVESTMENT IN VINTAGE CARS

For the first time in the history of the automobile, the investment in vintage cars is showing a steady upward trend. The American Automobile Association reports that the number of vintage cars registered in the United States has increased by 15 percent in the last year.

The increase in the number of vintage cars is due to a number of factors. One of the main reasons is the growing interest in the history of the automobile. Many people are now buying vintage cars as a hobby or as a way to preserve a piece of history.

Another reason for the increase is the fact that vintage cars are now being used for a variety of purposes. They are used for racing, for touring, and for other recreational activities. This has led to a greater demand for vintage cars.

The speaker's first speech (above) and the vintage car rally of 1932 are shown here. The speaker, in his address, at the other end, they took part in a vintage race, Victoria, 1932, where they were in the driver's seat. The speaker's first speech was given at the Victoria Club held a members' conference of the City Hall, August 1932. in the Arctic wastes

The cabin had been moved this time. And on the contrary that the interior was a narrow, cramped space. The men were huddled together, some looking at the camera, others looking away. The atmosphere was one of tension and uncertainty. The men were dressed in heavy, dark clothing, and their faces were pale from the cold. The background was a vast, white, snow-covered landscape under a cloudy sky.

IN HOURLY PERIL

Anniversary passed last week for the first time in the history of the world. It was a day of great significance, a day when the world was united in a common purpose. The anniversary was celebrated in a grand ceremony, with millions of people gathered in a large stadium. The atmosphere was one of joy and pride. The anniversary was a day of great significance, a day when the world was united in a common purpose.

They were dressed in heavy, dark clothing, and their faces were pale from the cold. The background was a vast, white, snow-covered landscape under a cloudy sky. The men were huddled together, some looking at the camera, others looking away. The atmosphere was one of tension and uncertainty.

TOOK THE BLAME

He took the blame for the accident. He was the only one who was hurt. He was the only one who was injured. He was the only one who was killed. He was the only one who was mangled. He was the only one who was crushed. He was the only one who was broken. He was the only one who was shattered. He was the only one who was destroyed. He was the only one who was annihilated. He was the only one who was obliterated. He was the only one who was exterminated. He was the only one who was wiped out. He was the only one who was erased. He was the only one who was deleted. He was the only one who was removed. He was the only one who was eliminated. He was the only one who was excluded. He was the only one who was excluded. He was the only one who was excluded.

Langvikars also gave sigh of relief

Langvikars also gave a sigh of relief. They were the first to see the light. They were the first to see the sun. They were the first to see the stars. They were the first to see the moon. They were the first to see the earth. They were the first to see the sky. They were the first to see the world. They were the first to see the universe. They were the first to see the truth. They were the first to see the meaning of life. They were the first to see the purpose of existence. They were the first to see the beauty of nature. They were the first to see the glory of God. They were the first to see the love of Jesus. They were the first to see the power of the Holy Spirit. They were the first to see the kingdom of heaven. They were the first to see the life of eternity. They were the first to see the glory of the Father. They were the first to see the love of the Son. STAGE STORY NYA

The story of the stage is a long and colorful one. It is a story of passion, of ambition, of love, and of tragedy. It is a story that has captivated the hearts of millions of people for centuries. The stage is a place where dreams are made, where heroes are born, and where the human condition is explored in all its glory and its pain. The stage is a place where the past meets the present, and where the future is glimpsed in the flicker of a candle flame. The stage is a place where the world is made anew, and where the human spirit is tested to its limits. The stage is a place where the impossible becomes possible, and where the unimaginable becomes real. The stage is a place where the heart is broken, and where the soul is saved. The stage is a place where the world is made anew, and where the human spirit is tested to its limits.

COMMERCIAL VEHICLE OPERATORS

Cut Operating Costs

WITH LIGHTWEIGHT G & R BUILT BODIES ON WORLD-RENOUNDED AUSTIN CHASSIS

Taller-made for tough East African roads. Today, your transport can be tailor-made to your individual requirements—chassis to fit new and highly successful design services set up in Nairobi by Galley & Roberts Motors in conjunction with the Austin Motor Company. Streamlined-light bodies reduce risk of chassis damage.

Best African roads take a heavy toll of all too many vehicles because of excessive vehicle body weight. The usual result? Chassis damage. But G & R bodies built with the correct main rails on world-famous Austin chassis have changed all that.

Economy and safety all the way. G & R designed vehicles can be produced far more cheaply here in East Africa than those imported. You get greater tyre mileage and more m.p.g., too. Add to this the much greater pay load capacity and the increased safety factor these vehicles afford, and you'll realise why more and more transport operators in East Africa are using this flourishing local industry. How about you?

Quick Delivery. The ready availability of top-quality materials makes it possible for G & R to deliver just the vehicles you need only 3 weeks after the specifications have been agreed. That, of course, means almost zero local industry can reduce your vehicle operating costs.

Conflicting views on documents

TALKS between the Colonial Secretary and Kenya's Minister of Education on the final constitutional conference and independence were again heated last night without a settlement being reached.

The Minister, Mr. Moya, Director of Constitutional Affairs, Mr. Mariani, Director of State Affairs, and Mr. Sandys, were continuing the discussions which have taken place during the week.

Mr. Sandys said: "The talks will naturally be conducted on a confidential basis and I am sure that both sides will be satisfied with the results. The Minister has three days to complete his proposals for the final conference."

Mr. Obote invited

Uganda's Prime Minister, Mr. Obote, is to be invited to meet with the Kenya Ministers on the final constitutional conference. Mr. Obote was due to visit Kenya last night.

Mr. Sandys was expected to meet the Kenya Ministers on the final constitutional conference in the morning. The conference is expected to start on the afternoon and last night.

Somali unity must come first, says party leader

AFRICAN unity must take second place to the unity of the Somalis and the formation of one Somali state, the General Executive Officer of the Northern Frontier People's Progressive Party, Mr. A. W. Daye, said in Nairobi.

Mr. Daye said that the Somali people must first unite themselves into a single state before they can join with other African states. He said that the Somali people should not be distracted by the problems of other African states.

ACADEMY CALL FOR SUPPORT

THE East African Academy, which has completed its first symposium and general meeting at Malindi, has attracted wide international attention, but has not received the recognition it hoped for from East Africa.

The academy's general meeting was held in Malindi from January 15 to 25. It was attended by delegates from 15 countries, including Kenya, Uganda, Tanzania, and the United Kingdom. The academy's main objective is to promote research and scholarship in East African studies.

DROP DEMANDS CALL

The executive committee of the anti-secessionist United African Association has called for a drop in demands for secession in East Africa. The committee said that the demands for secession were unrealistic and that the people of East Africa should work for unity and development.

MASTER'S RAISE FOR PARENTS

The Government has announced that it will raise the master's rate for parents. The new rate will be 10% higher than the current rate. The Government said that the increase was necessary to cover the rising costs of education.

Suppression of Kalenjin denied

ALLEGATIONS that the Government was suppressing the Kalenjin people have been denied by the Government. The Government said that the Kalenjin people were being treated fairly and that there was no suppression.

Pyramid' plan to Kenya agriculture

KENYA'S agricultural industry has a "new look" administrative structure as a result of changes published in an Order in Council which assigned important parts of the Agricultural Department.

These changes have become necessary since the Department has been reorganized and re-structured since the end of the last parliament in January 1962.

The Order in Council, which was signed by the Governor, has assigned the following functions to the various departments:

- Agriculture:** The Department of Agriculture will be responsible for the general supervision and control of the agricultural industry in Kenya.
- Plantation:** The Department of Plantation will be responsible for the general supervision and control of the plantation industry in Kenya.
- Soil Conservation:** The Department of Soil Conservation will be responsible for the general supervision and control of soil conservation in Kenya.
- Extension:** The Department of Extension will be responsible for the general supervision and control of extension in Kenya.
- Research:** The Department of Research will be responsible for the general supervision and control of research in Kenya.
- Education:** The Department of Education will be responsible for the general supervision and control of education in Kenya.
- Health:** The Department of Health will be responsible for the general supervision and control of health in Kenya.
- Labour:** The Department of Labour will be responsible for the general supervision and control of labour in Kenya.
- Finance:** The Department of Finance will be responsible for the general supervision and control of finance in Kenya.
- Public Works:** The Department of Public Works will be responsible for the general supervision and control of public works in Kenya.
- Transport:** The Department of Transport will be responsible for the general supervision and control of transport in Kenya.
- Water:** The Department of Water will be responsible for the general supervision and control of water in Kenya.
- Electricity:** The Department of Electricity will be responsible for the general supervision and control of electricity in Kenya.
- Telecommunications:** The Department of Telecommunications will be responsible for the general supervision and control of telecommunications in Kenya.
- Information:** The Department of Information will be responsible for the general supervision and control of information in Kenya.
- Legal:** The Department of Legal will be responsible for the general supervision and control of legal in Kenya.
- Parliamentary:** The Department of Parliamentary will be responsible for the general supervision and control of parliamentary in Kenya.
- Public Relations:** The Department of Public Relations will be responsible for the general supervision and control of public relations in Kenya.
- Stores:** The Department of Stores will be responsible for the general supervision and control of stores in Kenya.
- General Administration:** The Department of General Administration will be responsible for the general supervision and control of general administration in Kenya.

Extra mileage with MICHELIN X

Hundreds of tests—in all climates and on every type of road—have proved that, with a given amount of fuel, vehicles cover greater distances when running on Michelin X tyres.

Because of their special design and manufacturing techniques, Michelin X tyres have less rolling resistance and therefore less energy is required.

WORLD REPORT ON FUEL SAVING TESTS

LOOKING AFTER YOUR HOUSEHOLD PETS

ONLY too often the first pet is housebroken. It is a common mistake to think that a pet will learn to behave on its own. It is better to start with a puppy or a kitten that is already housebroken. This way you can be sure that the pet will learn to behave on its own. It is better to start with a puppy or a kitten that is already housebroken. OPINIONS ABOUT THE AZANIA-GREEK FOR THE SCORCHED EARTH

OPINIONS ABOUT THE AZANIA-GREEK FOR THE SCORCHED EARTH

Letters to the Editor

Dear Editor: I am writing to you to express my opinion on the Azania-Greek for the scorched earth. I believe that the Azania-Greek is a very good idea and that it will be a great success. I think that the Azania-Greek will be a great help to the people of Azania and that it will be a great help to the people of Greece. I think that the Azania-Greek will be a great help to the people of the world and that it will be a great help to the people of the future.

WORLD WIDE OLYMPIC CAMPAIGN

Letters will be invited in at Eldoret meeting

By JAMES DOUG

The world will have their first African who will be invited to compete in the Olympic Games in Tokyo, Japan, next year. It is a new idea, organized by Dr. Robert Keane, who has been the Olympic spokesman since 1964. He has decided to have all the African athletes in the 1968 meeting in Eldoret, Kenya, in the East African, Central African and South African States.

TASK FOR OFFICIALS

The task of sports organizations facing the 1968 Olympic Games in Tokyo is to find out how to compete in the best way possible.

Trueman captures vital wickets near close

FRANKLIN TRUEMAN bowled England into an unenviable position when he captured five West India wickets for 66 runs on the first day of the second cricket Test at Lord's yesterday.

At the close the West Indies, who won the first Test, were still in a wicketless position 219 for four and looked set for getting out on

CASH IS KEY TO SUCCESS

AN appeal for funds to help raise the standard of Kenya soccer and sports clubs was launched yesterday by the P.A. President, Mr. John Karanja, Victoria's deputy mayor.

With the P.A. still struggling to meet its 200 million shilling deficit, Karanja announced that every month out of the Kenya fund for sports should be set aside to help improve the country's standard of sports. He urged the Government to help in this regard.

There is a lot of money out there for sports in Kenya, but it is not being used to the best advantage. The Government should help in this regard. Karanja said that the Government should help in this regard.

E. AFRICAN UNION WELCOMED

Federation the aim not confederation

...proposing for East African federation, the Government was prepared, if necessary, to call another election to prove to the world that the people of Kenya wanted a federation and did not support the "party specialists", the Minister for Justice and Constitutional Affairs, Mr. Njiru, told the House of Representatives in Nairobi yesterday. The Government intended to press for a federation and not a confederation.

BRITAIN PLEDGES FULLEST SUPPORT

...British Government will give the fullest support to the East African Federation...

Mr. Njiru was replying to a motion by the Leader of the Opposition, Mr. Njiru, calling upon the House to welcome a federation this year and urging the Government to negotiate on the basis of creating one East African nation embracing, amongst other fundamental aspects, one flag and one Prime Minister.

Mr. Njiru said that he would like to thank the appreciation of the Kenya Government and people to Dr. Nyrop and Mr. Chose for their invitation and interest in planning themselves to the union of East Africa. In doing this they were reaching for the unity of Africa, and the Kenya they were prepared to support the government of the East African Federation.

There was a general feeling of optimism in the House, especially those who had been in the opposition.

Good starting point

In approaching the East African Federation, the Government has made a better starting point than the East African Commission followed by the East African States.

Racialism the great danger - Lord Home

The British Foreign Secretary, Lord Home, said in a speech that racialism is the greatest danger to the world today.

Lord Home stressed the Commonwealth character of the British Empire, saying that it is the only way to ensure peace and stability.

He called for a new spirit of co-operation and understanding between all peoples of the world.

Lord Home's speech was widely welcomed, particularly in the Commonwealth countries.

The speech is seen as a significant statement on the role of the Commonwealth in the world.

It is hoped that Lord Home's words will inspire a new era of international co-operation.

The speech is a landmark in the history of the Commonwealth, marking a new chapter in its development.

It is a testament to the strength and resilience of the Commonwealth, and a call to action for all its members.

The speech is a clear statement of the Commonwealth's commitment to peace and stability.

RELEASE MOTION REJECTED

THE House of Representatives yesterday rejected a motion for the release of four ministers who were arrested on charges of receiving money from Somalia to hire killers.

The motion was introduced by the Opposition and was supported by several members of the House. However, the Government's majority was sufficient to defeat the motion.

The Prime Minister, Mr. Kenyatta, said that the Government would not release the ministers until they had been cleared of the charges against them.

Cut Operating Costs
 WITH LIGHTWEIGHT
G & R BUILT BODIES
 ON WORLD-RENOVED AUSTIN CHASSIS

Tailor-made for tough East African roads
 Today, your transport can be tailor-made to your individual requirements—thanks to a new and highly sophisticated design service set up in Nairobi by Galley & Roberts Motors in conjunction with the Austin Motor Company.

Aluminium-light bodies reduce risk of chassis damage
 East African roads take a heavy toll of all too many vehicles because of excessive vehicle body weight. The usual result? Chassis damage. But G & R bodies built with the correct materials on world-famous Austin chassis have changed all that.

Economy and safety all the way
 G & R designed vehicles can be produced far more cheaply here in East Africa than those imported. You get greater tyre mileage and more m.p.g., too. Add to this the much greater payload capacity and the increased safety factor these vehicles afford, and you'll realise why more and more transport operators in East Africa are using the flourishing local industry. How about you?

Quick Delivery
 The ready availability of top-quality materials makes it possible for G & R to deliver just the vehicles you need only 3 weeks after the specifications have been agreed. Find out more about how this local industry can reduce your vehicle operating costs.

In "A Weight for the General" a new exhibition places various medals upon the General and Lord Louis Mountbatten's biography. The medals represent the medals for a career transfer from the general's unparaphrased medals which contain medals not awarded by British awards. Below: General Mountbatten — Robert Duvall — presents to one his son during a home movie from one of the general's "home" parties.

Kenyi still waits to hear date of independence

Kenya's three-year wait for independence is still being prolonged by the British Government, it is believed. The country has been waiting for a date for independence to be given.

The date of independence was announced by the British Government in 1962. However, the British Government has not yet given a date for independence to Kenya.

The British Government has been delaying the date of independence for Kenya because of the political situation in the country. The British Government is concerned about the stability of the country and the possibility of a civil war.

PROTESTS OVER MEMBERS' PAY INCREASES

Members of the Tanganyika Legislative Council have protested against a proposed increase in their salaries. The increase is believed to be the highest in the history of the Council.

The members of the Council are angry because they feel that the increase is unfair. They believe that they should be paid less than they are currently being paid.

POLEY AND SPOTTY AT THE CIRCUS

By ROBINA WRIGHT

It was very early, dawned the horse slowly, and I heard a faint snoring. I've never seen another snoring like it.

"Another horse?" I said. "Spotty?"

"No, it's Poley," I said. "Spotty's snoring is a snoring, but Poley's snoring is a snoring."

"What's a snoring?" I asked. "It's a snoring," Poley said. "It's a snoring."

Women students reflect the New Africa

This is the first time that so many students from all over the world are congregating in Nairobi for the inauguration today of the University of East Africa.

The students, however, have gone down. The short and gown, so familiar to British, were put away last Wednesday for the long traditional.

And the 59 girl students, who lived for the past year in the Women's Hall of Residence, have gone to their widely different homes.

Rise and fall of the battleships

By JOHN C. BITTING

The Meeting of June 3, by RICHARD HOUGH

December 19, 1941, the heaviest battle of the war had begun. The British, American, Japanese and other world powers were in a deadly struggle for the Royal Navy's two great ships, the old battleships *Princess Alice* and *Princess Elizabeth*. They were both with heavy losses, but the *Princess Elizabeth* was the only one to survive.

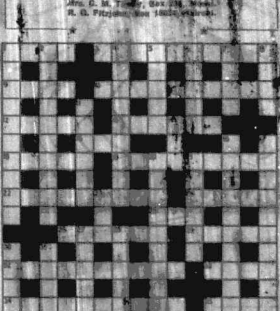

Days numbered. The *Princess Elizabeth* was the only one to survive. The *Princess Alice* was the only one to survive. The *Princess Elizabeth* was the only one to survive.

KENYA STUD HORSES HAILED IN S. AFRICA

A pair of one of Kenya's most prominent studs has been sent to South Africa to be bred with the entire stud herd. Mrs. H. D. Taylor's imported pair of Moko, and the arrival of the stud has been hailed in South African newspapers as a 'great gain to this country'.

One surprising factor has been the rapid sale of the imported pair. The stud has been shown in Johannesburg and has been sold to a South African breeder.

WALTER BROWN, chairman of the National Trotting Association, says that the arrival of the stud is a 'great gain to this country'.

Wall fails to curb Berlin's economy

By Frederick Steyn

HOW has the Wall in Berlin failed to curb the internationally interesting economic growth seen in the German Democratic Republic (DDR) since its formation in 1949? The DDR's economy has grown at an average rate of 7.5 per cent per annum since 1949, compared with 3.5 per cent per annum in the Federal Republic of Germany (FRG).

Berlin — city of politics and culture

BERLIN, July 20 (AP)—Germany's capital city is a city of politics and culture. It is a city of contrasts, where the old and the new coexist. The city is a center of political activity, and it is also a center of cultural activity. The city is a city of contrasts, where the old and the new coexist. The city is a center of political activity, and it is also a center of cultural activity.

The German Government has announced that it will be sending a mission to East Africa to study the possibilities of co-operation with the countries of the region. The mission will be headed by a German industrialist, Dr. Kurt H. Schmidt, who is a member of the German Parliament. The mission will consist of a number of experts in various fields, including agriculture, industry, and commerce. The mission will be sent to East Africa in the near future, and it is expected that it will return with a report on the possibilities of co-operation with the countries of the region.

But you should see what we do inside The Taunus 17M, that is. We don't make cars... that's the kid's job. We make cars... with 3-speed, 4-speed, 60, 67, 68 1/2 HP, disk brakes, sliding roof, bucket seats, sport packages, and et cetera (including station wagons). That's our job. A Ford Taunus dealer would be glad to cook one up for you - with a shell in your favorite color.

ACTING

The acting profession is a highly competitive one, and it is not always easy to get a job. However, there are several ways to increase your chances of success. First, you should have a strong portfolio of work samples. This should include a variety of roles, from small parts to larger ones. Second, you should be well-prepared for auditions. This means knowing your lines, being able to take direction, and being able to work under pressure. Third, you should have a good network of contacts in the industry. This can help you get the word out about your work and get you in front of casting directors. Finally, you should be persistent. It may take a long time to get a job, but if you keep working hard and staying positive, you will eventually succeed.

Youths ready to take knowledge overseas

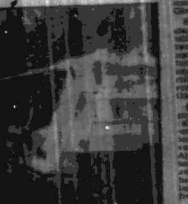

In the coming months West Germany is to take the first steps in training a peace corps to help develop the skills of the first young volunteers will be by the end of this year.

The project has the blessing of the German Parliament. A legislative committee last year will be used to send a bill to the Bundestag for approval. An association of German youth groups has been set up to coordinate the project. This association is expected to go into action this year. It will be responsible for recruiting and training the volunteers. The project is expected to be a success. It will help to build a better understanding between the young people of the two countries. It will also help to develop the skills of the young people of West Germany. This will be a great benefit to the young people of West Germany. It will also help to build a better understanding between the young people of the two countries.

The Ministry of Education and Science is expected to be interested in this project. It will be responsible for providing the necessary support for the project. FROM CABARET TO SCREEN FAME

The story of a young woman's journey from a cabaret singer to a screen star is a tale of perseverance and talent. She started as a cabaret singer in a small club, where she honed her skills and developed her unique style. Her talent was noticed by a producer, who offered her a role in a film. This was the start of her screen career. She went on to star in several successful films, earning a reputation as a versatile and talented actress. Her journey from cabaret to screen fame is a testament to her hard work and dedication to her craft.

Portrait of the actress mentioned in the text.

Her success on the screen has opened up many opportunities for her. She has appeared in several major films and has received numerous awards for her work. She continues to work hard and to take on new challenges. Her journey from cabaret to screen fame is a story of a young woman who never gave up on her dreams. She is a true inspiration to anyone who is pursuing their dreams.

Big output from small workshops

On the invitation of the German Federation for Development Countries, 13 Asian nations came to West Berlin to take part in an exchange of views on the promotion of enterprise and small business in those countries.

Special emphasis was laid on the furnishing of small firms.

The opening remarks, among the international speakers, the small factory units can bring about a big jump even in a highly industrialized country. More than 90 per cent of German industrial workers are employed in the small and medium-sized enterprises, but in the many hundreds of the small and medium-sized enterprises responsible for the industrial production.

A speaker underlined a routine of small enterprises, which the services of small credit institutions, of small insurance companies and of firms financing an enterprise while.

At the same time, a further point was made in the development of small firms in the developing countries.

In the discussion of the importance of the small firm, there were certain difficulties. The development of the small firm is not only a matter of financial resources, but also a matter of marketing and the small firm is often

GERMAN steel imports rose from 1,600,000 tons to 4,200,000 tons last year. A similar rise has continued in the current year.

It is not to be expected that this rise, confined to any single section of the domestic market, will be the result of any one of the following factors. The main reason for the increase is the fact that the steel industry has been unable to produce enough to meet the demand for steel in the country.

Production capacity has grown considerably and even when the market is stable it is not always fully used. The steel industry has a considerable margin of capacity and it is not surprising that production and investment should be restricted by the state of the world market. The steel industry has a considerable margin of capacity and it is not surprising that production and investment should be restricted by the state of the world market.

Some of the industrial firms have expressed their intention of increasing their production of steel. This is a very important factor in the steel industry and it is not surprising that production and investment should be restricted by the state of the world market.

15 RACES MINGLE IN ONE SCHOOL

By Syd Ross

THE West German Federal Republic's experiment in racial harmony is being carried out in a school in North Rhine-Westphalia.

The school is a primary school and the experiment is being carried out in the form of a 'mingle' where children of 15 different races are brought together in the same classroom.
