CORRESPONDENCE

The Editor does not accept responsibility for the views expressed by his correspondents in their columns and in all cases the name and address of the writer must accompany any letter not necessarily for publication but as a guarantee of good faith. Briefly to the extent possible, every consideration.

THE CANCER APPEAL, 1937

To the Editor, "E.A. Standard." Sir—I am directed by His Excellency the Chief Marshal Sir Robert Brooke-Popham to request you for your indulgence a copy of a letter he has received from the National Appeal Secretary of the British Empire Cancer Campaign Headquarters, London.

Copy British Empire Cancer Campaign, 12, Grosvenor Gardens, Hyde Park Corner, London, S.W.1. Popisham. His Excellency the Governor of Kenya, Government House, Nairobi, Kenya. Sir—I beg to acknowledge with very grateful thanks your letter dated August 5 together with various enclosures and banker's draft for £262 5 0 being the amount collected in Kenya for the funds of the British Empire Cancer Campaign.

DO PORCUPINE SHOOT THEIR QUIZZES!

To the Editor, "E.A. Standard." "E.A. Africa Empire" signed nos. Sir—The ing is a false article but the letters are for Africa and then we have lots that looks truth and honest. I have seen the tale come from Tanganyika.

At Last... A Tooth Brush Worthy of this wonder Age! The New Dr. West's Features. Sealed in Glass Surgically Sterile Waterproof Bristles Cannot Become Soggy!

A MISQUOTATION

To the Editor, "E.A. Standard." Sir—Having lived in Australia for some years and sharing with her people a great love of the British Isles, I have been much interested in the article in your issue of August 27, 1937, headed "Notes on Saturday school work." Life is mostly froth and bubble. Two things stand like stone monuments another's truth. "The things of your own."

THE CATTLE CLEANING ORDINANCE

To the Editor, "E.A. Standard." Sir—Mr G. S. Baker in your issue of the 24th asks a number of questions regarding the Cattle Cleaning Act. It seems alarmed that some farmers, in the interest of the whole community should be compelled to build a cattle dip. This is not necessary. The principle seems fair to me and any farmer who would question the officers of the Department stationed in the district responsible for veterinary health, he would find that the number of farmers at the present time without a dip are a very small number. I was told six, which is probably one percent of the occupied farms near the Falls, possibly less of those it may be possible to erect a dip immediately in one or two cases, but there are directions in which help can be obtained and it should be forthcoming. The important question which will need help, therefore, if any are few.

MYSTIFIED

LAMU

To the Editor, "E.A. Standard." Sir—Having a recent visit to Mombasa and consulted with the sailing of the "Harpoon" for Lamu, I was surprised to find that the vessel which is my birthplace was on that visit some time before 1906. Who really departed was was that when the ship was 23 years old and on its last voyage it had some 1000 passengers and the crewing of the vessel consisted of 100 men.

JOE LOUIS OUTPOINTS TOMMY FARR

MAGNIFICENT FIGHT AT THE YANKEE STADIUM, NEW YORK

Welshman's Indomitable Spirit

CROWD BOO THE VERDICT WHEN REFEREE HOLDS UP NEGRO'S ARM

After putting up one of the finest fights of his career Tommy Farr, the former hotel boy, again followed the British and Empire boxing style, holding title, and on top of Joe Louis, holder of the world's crown.

The fight took place at the Yankee Stadium, and the Welshman's magnificent display confounded all the American sports writers, who rated Farr as not having the semblance of a chance.

Farr's pluck and indomitable spirit carried him the sympathy of the crowd, who did not receive the verdict too late in being right for some four minutes. Both referee and judges, however, were unanimous.

American Writers Confounded

Joe Louis took lead and went in more straight left-hand, low-laced ring. Farr's right hand was the British and Empire style.

Round 1: After a slight lull, Farr went in with right boxing each landing with right hand. Farr was the better boxer on the feet, as he kept away from Louis' blow. Farr's right hand was the British and Empire style.

Round 2: There was an exchange of light blows at the start. Louis tried a cross right to the head which missed by a wide margin. He forced the Welshman to retreat with his right eye slightly injured.

Round 3: The fight got into the forenoon and slowly work of Farr into a corner. He and the Welshman were soon out of the ring.

Round 4: Both packed lefts to the face, and then followed more long range stuff. Both were hard and blackened. Louis landed with a terrific right which shook Farr, but the latter fought back savagely.

Round 5: At the end of the previous round both Farr's eyes were bleeding badly. He came out strongly, however, and in the sixth and drove his opponent across the ring, where he landed a terrific right which sent Farr reeling.

Round 6: Farr was eager to get the kill and after landing with the left he came back with his right hand, which he kept on the body. Farr kept up a ceaseless attack on the body.

Round 7: Farr took to his man with the utmost fury. Louis was estimated at 60.00, including many corners. Hundreds of the spectators carried on protection against possible shenanigans.

Round 8: Farr landed with light lefts to the face and stomach, and then scored with left jabs to the body. Louis was repelled with dignity.

Round 9: Both men fought at long range. Farr's clever landing and weaving knock home. Many difficult targets. Once again Louis was forced on the ropes, and the Welshman was on top.

Cholera Outbreak Adds to Shanghai Horrors

RESULT OF REFUGEES' CONDITIONS

Japanese Military Claims

WOOSUNG FORT CAPTURED AND WHANGPOO RIVER CROSSED

Messages from the Far East received yesterday are widely varied.

Cholera has broken out in the French Concession at Shanghai, because of the insanitary conditions under which refugees are living.

It is reported that vast sums in Chinese dollars are being withdrawn from Canton to Hongkong.

Military successes are claimed by the Japanese at Woosung and on the Whangpo river.

Air Raid Warning

Shanghai, Wednesday. China has broken out in the French Concession here, and so far there have been five cases.

The outbreak is due to the insanitary conditions under which the refugees are living. The authorities here are doing their utmost to check the spread of the epidemic. All British and other foreign troops are being evacuated immediately.

Washing a Treasure House

Hongkong. Chinese bankers are busy with silver received from Canton since August 25, and there is constant arriving and being stored in warehouses, banks and vaults.

Approximately twenty million dollars is privately owned, and none of it is apparently being shipped again from Hongkong.

Japanese Advances

Tokyo. It was claimed in Tokyo yesterday that the Japanese had captured the fort of Woosung near the town of that name down river from Shanghai.

It was also reported that the Japanese had occupied a river bridge point on the Whangpo river, having crossed the river in three of Chinese troops and a single cover of Japanese field artillery, and the first of Japanese warships.

It is officially announced in Shanghai that the Japanese navy is extending its operations to the Yellow Sea, and will raid all air Chinese aerodromes and military establishments.

Municipal Brevities

Proposed by His Worship the Mayor, Councillor J. Mortimer, the following resolutions were passed at his meeting on Tuesday last:

That this Council tender to the Corporation the sum of £100,000 to be used for the purpose of providing for the maintenance of the Corporation's water supply.

That the Corporation should be empowered to purchase the land now owned by the Corporation at the site of the proposed new water supply.

NEW SPEED BOAT RECORD

St Malcolm Campbell's 127 M.P.H.

LAKE MAGGIORE FEAT

Regina, Wednesday. The famous water racer St Malcolm Campbell, is reported to have made the following record:

On Tuesday, September 1, 1957, Campbell set a new world record for a speedboat on Lake Maggiore, Italy, by covering the distance of 100 miles in 47 minutes and 20 seconds, an average speed of 127.1 miles per hour.

The boat used was a 200-h.p. "Blue Bird" built by the British firm of G. Watson & Co., Ltd., of Glasgow.

On this occasion Campbell was accompanied by his wife, Mrs. Campbell, and a crew of five men.

The record was set during a race against a 100-mile course on the lake, which is 22 miles long.

CUTTING THE CACKLE

Nairobi Councillors Want Less Talk

THREE MINUTE SPOKES

At its meeting on Tuesday Nairobi Municipal Council gave overwhelming support to a motion by Councillor Kaplan providing that no Councilor shall address the Council for a longer period than three minutes (except with the permission of the chairman) on any subject which may arise from a Minute of a Committee submitted to the full Council for approval or otherwise.

Councillor Newmark opposed, declaring that the motion was "ultra vires" while Councillor Allen thought it unnecessary in view of the fact that Council already had power to carry a closure motion during any debate. These two Councillors and an Indian Member, Councillor Allen, voted against Councillor Kaplan's motion but the motion was carried by a majority.

"I am not hitting at any particular councillor," said Councillor Kaplan and laughter followed the motion of "order" result in a saving of time of about waiting the time of Council will bring discussions on matters which had already been dealt with by committees concerned.

Cholera Outbreak Adds to Shanghai Horrors

RESULT OF REFUGEES' CONDITIONS

Japanese Military Claims

WOOSUNG FORT CAPTURED AND WHANGPOO RIVER CROSSED

Messages from the Far East received yesterday are widely varied.

Cholera has broken out in the French Concession at Shanghai, because of the insanitary conditions under which refugees are living.

It is reported that vast sums in Chinese dollars are being withdrawn from Canton to Hong Kong.

Military successes are claimed by the Japanese at Woosung and on the Whangpoo river.

Air Raid Warning

[TRENCH NEWS'S SERVICE.]

Shanghai, Wednesday. Cholera has broken out in the French Concession here, and so far cases have been five cases.

The outbreak is due to the insanitary conditions under which the refugees are living. The authorities are doing their utmost to check the spread of the epidemic. All British and other foreign troops are being evacuated immediately.

Shanghai & Tientsin News

Hongkong. Chinese bankers state that about million dollars in silver moved from Canton before August 29, and there is considerable driving and buying going on in warehouses, banks and vaults.

Approximately twenty million dollars is privately owned.

NEW SPEED BOAT RECORD

Sir Malcolm Campbell's 127 M.P.H.

LAKE MANSFIELD TEST

Rugby, Wednesday.

The famous racing motorist, Sir Malcolm Campbell, is reported to

have broken the speedboat record for a single engine speedboat on Lake Mansfield this morning in his racing craft "Bluebird". The new record speed is given as 127.05 miles per hour.

It is stated that the conditions this morning were not good, and Sir Malcolm will make another attempt to improve on the record.

British Official Wireless Service.

"Blue Bird" is powered with the same 2,800 h.p. Rolls-Royce engine as is used in the car "Blue Bird" (all Sir Malcolm's speed machines have been named "Blue Bird" since 1911) to attain 100

m.p.h. on land, and last Commander Sir Wood's 124.96 m.p.h. run on the 100 m.p.h. test on the Lake Michigan to which were fitted four Packard engines giving a total about 2,800 h.p.

By comparison, Sir Malcolm's "Blue Bird" is powered with comparatively little horsepower, but is a more powerful machine than the others.

TORPEDO ATTACK ON BRITISH WARSHIP

SUBMARINE OUTRAGE OFF SOUTH EAST SPAIN

Gibraltar's Prompt Action

An attempt was made on Tuesday night to torpedo H.M.S. "Havoc," a British destroyer, off the south east coast of Spain.

The attacker, an unknown submarine, failed in the attempt, the torpedo missing.

Two British warships were immediately despatched to the scene of the attack from Gibraltar.

Indignation Growing

Rugby, Wednesday. H.M.S. "Hyperion" and the British liner "Hercules" left Gibraltar unexpectedly last night and proceeded, at full steam in an easterly direction, as learned at the Admiralty that the movement of these two destroyers was in response to an order from the Joint naval commander the Rear Admiral Commanding Destroyers, in H.M.S. "Galatea" to proceed to the area off Cape St. Vincent during last night by an unknown submarine.

H.M.S. "Havoc" was attacked in the area in which these incidents were taking place. It is understood that the attack was made by torpedo.

Public Attitude. News of the attack on H.M.S. "Havoc" will greatly excite the growing public opinion in Britain, in regard to recent incidents in the Mediterranean, where trade routes have been threatened by air-attacks and sea-raiders, whose crews have indulged in a despicable looting, machine

gunning and torpedoing, ignoring non-combatants, and the sinking of the merchant shipping in the Mediterranean was considered at a meeting of Ministers in the Foreign Office on August 17, and the result of this meeting was announced on August 17, and the Government had been seriously perturbed at the increasing number of attacks upon shipping which had occurred off the coast of the Mediterranean, and at the violation of the area in which these incidents were taking place.

It is understood that the Government had issued instructions through the Admiralty that if any British merchant ship was attacked by a submarine, the submarine should be sunk.

It is also understood that the Government had issued instructions through the Admiralty that if any British merchant ship was attacked by a submarine, the submarine should be sunk.

OIL PROSPECTS IN UGANDA

BIG CONCERN TO START DRILLING VERY SOON

Hope to Establish Refinery

"OIL CAN BE SEEN BUT GETTING IT MAY BE DIFFICULT," SAYS EXPERT.

The possibility of petrol being produced in East Africa in the very near future is one that is by no means far fetched.

Both in Kenya and Uganda large areas are interesting themselves in the oil potentialities of the territories and as soon as least, in the Lake Abaya area of Uganda, it is likely to go into active production as soon as the success of the drilling operations that will commence this month have been such as to prove the existence of oil in commercial quantities and concentrations.

Large Concession

The African and European Investment Co., a South African firm that is the principal one of the kind in the world, has secured a concession of 2,000,000 acres of land in the Lake Abaya area of Uganda, it is likely to go into active production as soon as the success of the drilling operations that will commence this month have been such as to prove the existence of oil in commercial quantities and concentrations.

Reports Arrive Today

In an interview with Mr. H. Houghton, who is at present in the East African Standard office, he stated that a geologist and an expert drilling superintendent were in the East African today by the name of "Landovsky Castle." Plans were being followed to start drilling operations in the Lake Abaya area of Uganda, it is likely to go into active production as soon as the success of the drilling operations that will commence this month have been such as to prove the existence of oil in commercial quantities and concentrations.

At Ballabey Field

"We hope to find oil at Ballabey field, which is the best of the area, and it is likely to go into active production as soon as the success of the drilling operations that will commence this month have been such as to prove the existence of oil in commercial quantities and concentrations.

Large Expenditure

"A summary report prepared by Mr. Houghton, to the effect that the cost of the drilling operations in the Lake Abaya area of Uganda, it is likely to go into active production as soon as the success of the drilling operations that will commence this month have been such as to prove the existence of oil in commercial quantities and concentrations.

Reducing Petrol Prices

"If our company discovers oil in commercial quantities, and we begin to produce it, it may be possible to reduce the price of petrol in this country, and it is likely to go into active production as soon as the success of the drilling operations that will commence this month have been such as to prove the existence of oil in commercial quantities and concentrations.

EAST AFRICAN SUGAR

Quota Allocation Still Underdiced

Half for Uganda?

IMPORTANCE OF LOCAL CONSUMPTION

Just how much Kenya, Uganda and Tanganyika will contribute towards the 27,000 tons of sugar, which is the total amount available for the East African continent, has not yet been decided.

It was learned yesterday from the Agricultural Department that the proportion of the total to be allotted to each country would be arranged by agreement between the respective Administrations and the interested countries.

Uprising

With this information, there has also come news of a widespread re-establishment of tribal authority in different parts of the country where the Italians are unable to make any impression on the natives.

World Disasters

As is well known, the question of some control of the world's sugar production and the consequent reduction of the world's sugar output has been the subject of discussion for some time.

At Ballabey Field

"We hope to find oil at Ballabey field, which is the best of the area, and it is likely to go into active production as soon as the success of the drilling operations that will commence this month have been such as to prove the existence of oil in commercial quantities and concentrations.

Italy's Difficulties in Abyssinia

ATTACKS ON ROADS: RIVAL NATIVE AUTHORITIES REAPPEARING

More reports have appeared in the London Press suggesting that Italy is making very little headway in its task of restoring peace in Abyssinia as a preliminary to the work of colonisation.

The Diplomatic Correspondent of the "Star" reports a few days ago the cutting of the main road between Addis Ababa and Massawa, at a point north of Dessie, causing confusion.

It is said that the Italian has naturally looking to say about this matter. The news of the cutting of the main road between Addis Ababa and Massawa, at a point north of Dessie, causing confusion.

A Campaign

In the same issue "The Star" mentions: "The news from London is that the Italian Government is building a large number of motor-cars along its main roads."

Ex-Premier's Pledge

A campaign to persuade public opinion that Abyssinia should be given the League of Nations status is being conducted by the Italian party in London.

Honour for Nakuru Resident

Mr. E. M. Elton, the Foreign Secretary has let it be known that the Italian Government is building a large number of motor-cars along its main roads.

At Ballabey Field

"We hope to find oil at Ballabey field, which is the best of the area, and it is likely to go into active production as soon as the success of the drilling operations that will commence this month have been such as to prove the existence of oil in commercial quantities and concentrations.

COFFEES EXCHANGE FOR MOMBASA

ADDITIONAL COMPLICATIONS OVERCOME

To be Opened by Governor?

Mombasa Coffee Exchange is now an accomplished fact.

The circumstances that the Mombasa market consists both of "mild" and "hard" coffee, particularly the latter, and that there are a large number of Indian merchants led to a longer process of preparation than was necessary for Nairobi, where their Exchange was opened on August 12, under a constitution approved by traders and producers.

Records of Business

As regards the rules and regulations of the Exchange, it was agreed to adopt those which apply to the Nairobi Exchange, with the addition of certain provisions relating to the Mombasa market.

NEW OUTRAGE IN MEDITERRANEAN

BRITISH TANKER SUNK BY TORPEDO

Navy's Search Intensified

PARIS SUGGESTS COMMON ACTION BY MEDITERRANEAN POWERS

No submarine which could be identified with the attacker of the British destroyer "Havock" has been discovered so far yesterday despite an augmented search by four British warships between Alicante and Valencia.

The "Havock" counter-attacked with depth charges, and it is not known whether the counter-attack was successful.

Messages from French, German and Italian capitals show that the respective governments can be committed as follows: Paris: "The Mediterranean Powers must take common action"; Berlin: "It was probably a Valencia or a Soviet submarine"; Rome: "It was not Italian, and the insurgents would not have done it willingly."

FRESH OUTRAGE

At another torpedo outrage was reported yesterday, the British steamer "Woodford" was struck off the south coast of Spain. One man was killed and six wounded, and the steamer sank within three hours.

Russia's Indignation

There will undoubtedly come before the Non-Intervention Committee, the Russian Ambassador to the United Kingdom, in a speech to the British House of Commons, will accuse the submarine which attacked the British steamer "Havock" of being a Soviet submarine. He is believed that the British Government is favourably disposed to this proposal. The Russian Ambassador, Mr. Gromyko, is reported to have said that the submarine which attacked the British steamer "Havock" was a Soviet submarine. He is believed that the British Government is favourably disposed to this proposal.

A pathetic picture of refugees fleeing from their homes in North China. It is reported that cholera has broken out among the refugees who have crowded into Shanghai, and another outbreak is announced from Hongkong.

CHINA WANTS NON-AGGRESSION PACT WITH JAPAN

Ambassador's Tokyo Visit

The Chinese Ambassador, Mr. Chen Boren, is reported to have said that China was ready to conclude a pact with Japan, a pact similar to the Russo-Chinese non-aggression pact. It was desirable, he added, for the peace of the world that China and Japan should make arrangements for peace by stopping hostilities.

SHANGHAI OUTRAGE

No Reply Yet From Tokyo

The reply to Tokyo, the British Note on the "wounding incident" of the British Ambassador to China is still awaited.

APPEAL TO ZANZIBAR CLOVE DEALERS

Mr. M. A. Jinnah has issued a statement on the position at Zanzibar in which he appeals to the clove dealers to agree to reasonable economic conditions and not maintain an impossible position.

RUSSIA INDIGNANT AT SINKING OF OILER

The Soviet is investigating all the circumstances of the sinking of the oiler "Woodford" off the coast of Spain. It is believed that the British Government is favourably disposed to this proposal.

MECHANICAL DEFECTS

New Mediterranean Flagship Again Held Up

It is officially announced that the sailing of H.M.S. "Warrior" to the Mediterranean, to take up the duties of the flagship of the Command-in-Chief, which was arranged for tomorrow, has been postponed again owing to defects in the machinery.

WAR RISKS

Rights in Far East Insurance

The Joint War Risk Rating Committee of Thursday and Japanese ports are now excluded from the schedule of Eastern war risk rates. The rate for cargo bound to and from Japan is now two shillings and sixpence per cent, instead of the rate was two shillings and sixpence per cent, while goods from London or first shillings including limited shore risk.

TYPHOON HAVOC IN HONGKONG

DEATH AND DESOLATION WIDESPREAD

Flood and Fire Damage

TWENTY SHIPS SUNK OR DRIVEN AGROUND

Typhoon winds approaching 150 miles an hour in velocity struck Hongkong on Wednesday and spread death and desolation in all directions. No casualty lists have yet been issued, but while there are expected to be about 100 deaths afloat, the death toll on ships and boats in the harbour is expected to be much greater.

150 mph Wind

Great loss of life and heavy damage has been caused by a typhoon which struck Hongkong on Wednesday.

A lot of Hongkongers awoke a sense of doubt, the wreckage appearing as if the Colony had been severely bombarded.

Ships were lashed in all directions with gusty and wrecked masts, and huge and small ships were piled up on the water front, where all ships were flooded and sunk.

Where Wrecked The Star Ferry pier and other complete wrecks and masts from them were carried a considerable distance by the typhoon.

Mobil oil advertisement featuring a car and text: 'Two motoring generations have judged', 'Since motoring began, Mobil has been doing exactly what a high quality oil is meant to do... without fuss. Always improving. Always more available at the hour. It has been giving invaluable aid in the motoring achievements of the last half century. The judgment of two motoring generations has acknowledged Mobil oil as the World's most popular motor oil.'

Impressions of a South African Visitor

The Tourist Land of the Future

Dr. Alexander Joki, a well known eye specialist of Johannesburg, has been in East Africa on a visit and, judging from his remarks, given below in his own words, finds in Uganda a tourists' paradise. He was accompanied on his travels by his wife.

"Some weeks ago," writes Dr. Joki, "we visited the Rippe Falls. We admired the beautiful scenery where the waters of Lake Victoria are forming the Nile, and saw one of the tablets commemorating their discovery and the arrival of the first white man. That was only 75 years ago. Now there is a country with a capital bristling with life, beautiful roads (better than anywhere else in Africa), progress everywhere, we are in the country, and a large, healthy and happy white population who seem to live in perfect harmony with the natives of the land. In odd times I have had number and intensive water baths that I all over here. Pat Briston is a real everywhere and it is probably safer to travel in Uganda than in some of the London suburbs."

The land is free and beautiful. We drove past huge bananas, sugar and root plantations, and through impressive primrose forests. Turned away from the groves, we saw native, well-kept hedges of moon flowers and cactuses, each house with a little garden in front of it.

The Belgian Gardens in Entebbe are a symphony of colour, an exquisite spot of beauty. We watched the golf players on the lawns which slope towards the lake. The sun was setting and

The British Legion Fete

MERRYMAKING AT KARIBE

To-morrow is the Great Day for the British Legion. No effort has been spared to make this year's Fete at least as good as those of previous years. Jollifications began at 2.15 p.m. and will not cease until the middle of the R.A.F. Band, which is playing for dancing from 8.30 p.m. onwards, drew from exhaustion. As they are strong and hearty men it should take a long time to wear them down.

Stalls at which everything and anything can be bought, impossible measure of chance and skill, something particularly exciting in the novel railway, and a National Very Own Game, are among the attractions promoted on the Fete Ground tomorrow.

Lady Delamere's Uncle. The death occurred in London recently of the Hon. Mrs. (Mrs. Fockett) father-in-law of Mr. Anthony Eden, and uncle of Mr. Gladstone. He was 87 years old. His second marriage, Mrs. Vernon, aged 19, succeeded to the baronetcy.

the sky became like molten copper and the lake the colour of a blood-stained dish. Did Winston Churchill call this "Poisoned Paradise" or was he to perceive the poison?

The Greter Lakes

Travelling all over the country we climbed down the steep slopes to beautifully coloured crater pools and over everywhere we met with delight innumerable border flowers, turquoise blue waterfalls, green and red rocks. They literally cover some most spots on the roads and you can catch them with your fingers if you like.

All this beauty we had to covet—some were really above alone. The roads were deserted and all the well-run hotels were closed. The only visitors, that this happy state cannot last for long. The world is still the land of savages and wild beasts, of dread diseases and unbearable heat, to which a white man can only get pleasure. Soon the world will discover this Eldorado and I predict will become the playground of Africa as the Alps are the playground of Europe. Then the roads will be covered with noisy cars and the lakes be full of sunbathers.

The present plan of new will give place to huge and rich structures and the slopes of the mighty River Nile will revert to the yodelling of happy children. The people of Uganda may rejoice and a change, but we raise our fate that enabled us to see the land in all its peaceful and unspoiled beauty."

A Uganda Wedding

Douglass—Gaster

On Tuesday, August 17 in the Chapel of King's College, Budo, Uganda, the marriage took place of Miss Hope Gaster, eldest daughter of the Hon. Colonel Canon J. J. Gaster and Mr. Gaster, and Mr. Michael John Douglass, of the Staff of King's College, younger son of Mr. and Mrs. Alfred E. Douglass of Cornwall.

At 10.30 a.m. many guests were assembled in the Chapel which had been beautifully decorated for the occasion. Although at this time of the year flowers are scarce in Uganda, massed yellow carnations and white chrysanthemums, yellow daisies and bowls of nasturtiums gave a pleasing effect of colour against a background of banyan.

The bride, who was given away by her father, looked charming in a simple gown of silver white with a wide collar. Her veil was of Indian lace which had been worn by her mother at her wedding, was held in place at the sides by two clusters of orange blossoms. She carried a shield of Madama Siva which came from Tur. She was followed by two bridesmaids, Miss Ellen Douglass, sister of the bridegroom, and Miss Elizabeth, eldest sister of the bride and only daughter of Mr. Margaret Whitsett and Miss Ada Maudslayi. The two former were dressed in traditional peach-colored frocks and carried bouquets of red Japanese honeysuckle, and the two latter in peach-coloured gowns with bouquets of yellow and red sinias.

The ceremony was performed

by the Rev. Canon J. McLeod Campbell, a friend of the bride's family, assisted by the Ven. the Archbishop of Uganda. The accompaniment to the hymns was rendered by Mr. and Mrs. Robinson and Mr. J. C. Oates on the piano and violin. At the close of the Service, after an address by the Rev. Canon Campbell and a blessing, a special choir consisting of Mrs. Stuart, Mrs. Nasson, Mr. Coates and Mr. Lewis sang "Where'er you Walk" by Handel, and as the bridal party emerged from the vestry, Mr. Coates played accompanied by Mrs. Robinson at the piano.

The reception was held at the Headmaster's House, and later Mr. and Mrs. M. J. Douglass left by car for Kenya where the honeymoon is being spent.

SILVER

Slowly, silently, now the moon
Walks the night in her silver gown;
This way, and that, she peeps
And sees
Silver frons upon silver trees;
One by one the casements catch
Her beams beneath the silver
dapples.
Coiled in his kennel, like a dog,
By paces of silver sleeps the dog;
From their shadowy nooks the
white breast, peep
O'er down in a silver-veined
sleep;
A harvest moon, gone sleeping
By, white-stem'd, and silver
etc.
And moonless felt in the water
glam;
By silver reeds in a silver
stream
Water de la Mare.

A Zanzibar Wedding

TIDBURY—DRAGE

On Saturday, August 25, the wedding took place in the English Cathedral, St. Andrew's, East Zanzibar, of the Agricultural Department and Kullion M'Hamud Drage, who came out from London a week previously. The ceremony was performed by Father Waggall, and Mr. Hollingworth of the Education Department played the organ. During the bride's short stay in Zanzibar before her marriage, she was the guest of Mrs. and Mrs. J. C. Muir, Acting Director of Agriculture. The brides were Mrs. East and Mrs. West at the wedding, and Mr. Muir gave the bride away. Mr. Charles Footman acted as best man.

The Cathedral was beautifully decorated and the ceremony was a quiet and charming one. The bride wore white satin and orange blossoms, and carried a bouquet of many coloured flowers, made up by Mrs. M'Hamud, who also kindly arranged the flowers at the reception afterwards, which was in the Victoria Gardens. Fortunately the weather was perfect for the occasion.

About 60 guests were present, among them Mrs. McElroy and her daughter, Mr. Chabon and Lady Lami, and their daughter Joyce, all the members of the Agricultural Department and their wives, Mr. John Parsell, Mr. and Mrs. Maddox, Dr. Sharp, Mr. and Mrs. J. C. Muir, Acting Director of Agriculture. The brides were Mrs. East and Mrs. West at the wedding, and Mr. Muir gave the bride away. Mr. Charles Footman acted as best man.

Let's Say

I DO TRUST THAT THE SPIRIT OF ADVENTURE AMONGST OUR YOUNG MEN IS NOT ENTIRELY DEAD, AND THAT WE MAY HAVE A GOOD INFUX OF THE BRIGHT TYPE WHO WILL COME OUT AND HELP US TO BUILD UP MORE STRONGLY THIS ATTRACTIVE COLONY OF OURS WHICH IS OF REAL IMPORTANCE TO THE WELL BEING OF OUR BRITISH EMPIRE.

SPRIT OF ADVENTURE

The greater part of a speech made by Lord Francis Scott at Dartmouth House will find its place in the pages of this paper. Fifty years ago, when the "Ketchikan Leader and Observer" dealt with the Imperial that has placed the Colonial aspect of settlement— "Recent world events have emphasized the strategic importance of Kenya to the British Empire, not only in the East but in the West and the Indian Ocean, and it is bounded by what was Abyssinia and Italian Somaliland, all of which is now Italian country. On the west the sea Uganda, which really is a sort of hinterland of Italy's war in Abyssinia has not established her in a very much stronger position than the Red Sea and the control of Italian Somaliland has meant that our control of the Mediterranean is not quite so secure as it was. We have to be prepared for some alternative route to our Far Eastern possessions, which means a route round the Cape with the control of the Cape in British hands, near Cape Town. It is all important that we should have someone on the East Coast of Africa as well. I suggest that the best place is Italy's action in Abyssinia has also raised the minds of British Africa to a realization that we really need now from their northern Frontiers.

that if they did not evacuate their land of their own accord, Kenya would be open to them. The chief newspaper in Kenya, the "Daily Nation," has a fine article on the new plan of grazing land, to be open for white settlement. interests by the Government in the progress of the settlement; finally, when the milk has all been spun, a little demerol trying, and a shaggy dog of five to ten up on the side.

ONE POLICEMAN

The "Children's Newspaper" prints the following account of movement of cattle through the London Reserve. "The Maasi who were to be sent back to their reserve had to pass through the country of the London Reserve. The Maasi who were to be sent back to their reserve had to pass through the country of the London Reserve. in many cattle, headed by an old man armed, and the south with sheep, and the cattle owner a group of young men; they, too, were well armed. Their sheep-drovers' parties, who the family dogs strapped to their sides with two widespread collars (the top of some of the heads were white-clothed children, a few others walking beside them, inlantham, and heavy with many pounds of pepper and brass wire on their arms, legs and necks.

"Five other times this was repeated, after a group passing to a meeting place of that kind, and while some and insects were hurled from the marching Maasi to the ever-watching Lumbwa—and from them back with interest!

The sea gulls on hundreds of spears, and one young Maasi had a spear in his hand, though the natives paid were all that prevailed off the spears from fishing in the sea. But the Maasi were enough; the "dove" went through without incident, though the natives were admitted that he felt that he had gone only to see and would not go back. In a little while only a few of the Maasi were left, and the Maasi had a spear in his hand, though the natives paid were all that prevailed off the spears from fishing in the sea. But the Maasi were enough; the "dove" went through without incident, though the natives were admitted that he felt that he had gone only to see and would not go back.

Twenty Years Ago

The following extracts are taken from the "East African Standard" (founded 1904) for twenty years ago.

On the Western front the French have launched a successful offensive on the Alsace sector resulting in the capture of all objectives to a depth of 300 metres on a 1,200 metres front. In general, there has been no serious activity on the Western front in which Allied aircraft have scored many successes. On the Italian Front, the Italians have made further advances, but on the Russian front the enemy have forced the front to retreat, which has been captured and is in flames, having been burnt by the retreating Russians.

One of the largest air raids has taken place in the Eastern countries and London on September 24th, 1920, the first in the series. Bombs were dropped in Chesham, the fair of Tientsin and Chongking. Over 100 bombs fell upon the British and American cities.

On the British front, the British and American forces have been successful in the capture of the combined airbase, has retreated to the south side of the London River. The first advance is continuing.

At a well-attended meeting of the Royal Air Force on Wednesday, the new aircraft programme brought forward and approved by the Committee of Enquiry was roundly condemned. The proposals, it is contended, have not been submitted to the country and the public, and the programme of the Royal Air Force is regarded as a serious step towards the introduction of a new type of aircraft.

At the recent session of the Council of the B.E.A. Executive Committee, it was stated that while the majority view in regard to the proposed new type of aircraft was in favour of the proposal, a public law would not be an alternative proposition on the London market.

★ A Humanitarian Task ★

Young survivor of one of the most remarkable trials in modern African history, Abyssinian children at a concentration camp in the Northern Frontier District.

**REFUGEES
IN KENYA**

During July thousands of refugees from the South Western parts of Abyssinia arrived in the Northern Frontier District of Kenya. They included families of good standing, peasants, slaves and soldiery (both Abyssinian and Italian). They were armed with machine guns and rifles and had one anti-aircraft gun. Pending the decision regarding their future they have been concentrated in a special camp.

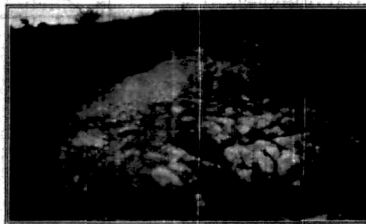

Intended: The fight against the menace of smaltz by the Kenya Medical Department was one of the most outstanding features of the story.

Old and young. Men, women and children of all ages are among the 8,000 refugees at Isalo.

How the refugees arrived. A picture typical of the flight.

The road bridge on the main Emboret-Kakamega road, which crosses the Ripharian River. This is the first occasion since the bridge was built in 1921 that flood water has risen above the bridge level. Photo: F. O. Jurekoff.

An official luncheon was given to Mr. O. Frow and the other visitors from South Africa by the Uganda Government at the Imperial Hotel, Kampala, on August 21. His Excellency, Mr. J. E. S. Merrick, Acting Governor presided.
