Original Macdonald Permanent Waves in Kenya
MODERN EFFICIENCY. NEW IDEAL.
Mr. C. C. Carver will be in charge of the permanent waves in Kenya. He is a professional hairdresser and has been in the business for many years. He is now in Nairobi at the Hotel on Friday and Saturday, April 13th and 14th for Ladies and Gentlemen's Hairdresser.

CORRESPONDENCE.

The Editor does not accept responsibility for the views expressed by his correspondents in these columns and is not bound by the names and addresses of the writers. He is, however, glad to receive letters and notices for publication but as a guarantee of good faith, strictly correct names and addresses should be given.

Wishes Kenya?

SETTLEMENT AND INDUSTRY.

To the Editor, "E. A. Standard," Sir.—Now and then in the Press there appears an expression of opinion indicative of a certain antagonism between the farmer-settler and the native. Nothing is more than unfortunate. Nothing is more than unfortunate. Nothing is more than unfortunate. Nothing is more than unfortunate. Nothing is more than unfortunate.

There is commonly supposed and this becomes a most grave matter when it is realized that any such meddling is not merely with seed and coffee and grain, but with the actual existence of both, woman and children.

This is the kind of production costs are brought the most serious. This is the kind of production costs are brought the most serious. This is the kind of production costs are brought the most serious.

Marketing is now assuming the place of the utmost importance and it will be by a radical improvement in the returns for our products, or by a greater use of our raw material where it is produced, or by both that the essential security and progress of Kenya can be insured.

Yours etc.
J. G. DAVIDSON.
Nairobi.
April 7, 1934.

LEGISLATIVE EMBROIDERY.

To the Editor "E. A. Standard," Sir.—Now that the formal is over I would ask your permission to use your columns under the heading of the Editor in the District Commissioner, Major Blandford, has the idea of the inevitable. They have given all concerned during the time of the formal.

It is only to those who are closely associated with the work that it is apparent what a tremendous amount of work is done. It is only to those who are closely associated with the work that it is apparent what a tremendous amount of work is done.

Yours etc.
D. NEWMARK.
Nairobi.
April 6, 1934.

THE ELBOWED MEMBERS.

To the Editor, "E. A. Standard," Sir.—The report of my speech in the Nairobi Assembly published in your issue of the 2nd inst. is inaccurate as regards the last two paragraphs starting "The need and following. I did not make the remarks there but the opinion therein expressed."

Yours etc.
J. HIBBELD.
Nairobi.
April 6, 1934.

The two paragraphs referred to read:

"The need for more adequate representation had been felt since especially at the time when the agricultural community were undergoing a severe attack when the Government was under no opportunity of making any real effort to secure wider representation."

Yours etc.
"HATEWAYER."
Nairobi.
April 6, 1934.

THIRD PARTY INSURANCE.

To the Editor, "E. A. Standard," Sir.—With reference to your correspondence Mr. Morris's letter on the subject of Third Party Insurance, compulsory Third Party Insurance has been introduced.

Yours etc.
"HATEWAYER."
Nairobi.
April 6, 1934.

There would be very few vehicles on road. With regard to premiums charged by commercial underwriters, the present rates would naturally be adjusted, all premiums are well-earned and competition is a constant factor in the market.

Another settlement for the loss of a life has been settled for £25. There can be no definite amount of compensation laid down for personal injuries, each case must be treated on its merits.

Another case of Mr. Morris has been overruled as that the majority of third party claims are in connection with motor accidents and not personal injury. Although it is possible to reduce the present rates for third party, it is not possible to reduce the present rates for third party.

It is interesting to note that the Government has decided to provide for the loss of a life has been settled for £25. There can be no definite amount of compensation laid down for personal injuries.

Yours etc.
B. G. MOULTON.
Nairobi.
April 5, 1934.

To the Editor "E. A. Standard," Sir.—I have read with considerable interest Mr. W. O. Morris's letter in the "Standard" of the 2nd inst. The first paragraph of the letter Mr. Morris says that the objection to an agreed party legal maintenance is on account of the present financial circumstances of the taxpayer.

Mr. Morris has an idea that compensation of a certain nature should be paid to a certain extent dependent upon the amount of the loss. Mr. Morris has an idea that compensation of a certain nature should be paid to a certain extent dependent upon the amount of the loss.

Yours etc.

THIS QUEER WORLD
WHERE THE FILES GO—MIXED ATHLETES
A RARE FEAT—HANGING UP A HORSE
SHOE—COSTLY ERROR

If you do want to know where the files go, the water tank, the woodpecker of the comic, Sussex, he knows.

The one who had been seen pecking at the steeple of Barrowby Parish Church in which the Rev. H. W. Partridge, the Rector, had been refused permission by the Ministry of Agriculture to shoot the woodpecker to protect the fabric, other members were taken.

When the alms-house trustees of the church were told of this they were found hiding behind them.

Widespread opposition has been shown among school authorities and clergy to the decision of the Council of the National Association of Public Schools to hold a conference on the subject of the school's financial position. The conference is to be held in London on the 15th and 16th of the month.

Report of the Medical Officer of Health.

"POTENTIAL MOSQUITO FARM" IN NAIROBI.

Marked Increase in Malaria.

HIGH INFANT MORTALITY RATE AMONG ASIATIC COMMUNITY.

That 1923 had the second lowest rainfall for the 37 years for which records are available; that 1923 was an unhealthy year with a marked increase in the death rate of all races; that there was a large increase of malaria, despite energetic anti-malarial measures, and that Nairobi contained a potential mosquito farm are facts verified in the annual report of the Medical Officer of Health to the Nairobi Municipality.

The report covers sanitary circumstances, sanitary administration, vital statistics and other matters of a health nature. The Local Government (Municipalities) Ordinance came into force on the 1st of January 1924, and the Municipal Council has been the local public health authority for Nairobi.

Interesting Rainfall Statistics.

There has just been published the 37th annual report of the Medical Officer of Health of Nairobi Municipality. It deals with the year of his appointment, the year of his departure and the year of his return. The report contains a great deal of interesting information, especially in regard to the health of the community. The report shows that 1923 was an unhealthy year with a marked increase in the death rate of all races. It also shows that there was a large increase of malaria, despite energetic anti-malarial measures. The report also contains a great deal of information regarding the health of the community, including a list of deaths and a list of births.

Marked Increase in Malaria.

The report shows that 1923 was an unhealthy year with a marked increase in the death rate of all races. It also shows that there was a large increase of malaria, despite energetic anti-malarial measures. The report also contains a great deal of information regarding the health of the community, including a list of deaths and a list of births.

Stock Exchange.

The report shows that 1923 was an unhealthy year with a marked increase in the death rate of all races. It also shows that there was a large increase of malaria, despite energetic anti-malarial measures. The report also contains a great deal of information regarding the health of the community, including a list of deaths and a list of births.

A PLEA FOR CLOSER ALLIANCE.

Between Rotary and To H.

Similar Principles.

Rebuilding a World Destroyed by War.

The principles of the two organizations, and their members hold the same path of action. Weakened by the War, Owen, Walker, C.M.G., C.B.E., etc. of the two administrative bodies of To H, at the recently meeting of the Nairobi Rotary Club on Friday, when he addressed to Rotarians to inaugurate a program of work for To H movement.

Week-end Subscriptions.

For instance, came for the collection of money for the children as well as from Nairobi. The whole Colony is helping out the enthusiasm for the children is perhaps never been seen in this knowledge that depression in unfortunate children is stimulating the sense of generosity.

Alleviating Duties.

Cases had occurred in the past which had caused a great deal of trouble. Some of the duties were so onerous that they were being neglected. It was suggested that the duties should be alleviated so that they could be properly performed.

Population and Vital Statistics.

The population of Nairobi has increased from 2000 in 1900 to 20,000 in 1923. The vital statistics show a marked increase in the death rate of all races, especially in the infant mortality rate among the Asiatic community.

Infectious Diseases.

The report shows that 1923 was an unhealthy year with a marked increase in the death rate of all races. It also shows that there was a large increase of malaria, despite energetic anti-malarial measures. The report also contains a great deal of information regarding the health of the community, including a list of deaths and a list of births.

CAN WE MAKE IT AT 1500?

A New Aim for This Week's Appeal.

The Children Calling.

Domains Coming in from All Districts.

The Children's Funds Roll Day, supported by nearly £10 during the week-end and the generosity of the Kenya public, continues at the same rate. Another £10 during the week-end, making the total for the week £20. The children are calling for help, and we must answer their call.

Not Guilty Plea.

A Great Road Race Through Italy.

FIVE CARS CRASH DURING THE "MILLE MIGLIA"

Wet and Difficult Conditions.

STEERING WHEEL COLUMN PIERCES DRIVERS' CHEST.

The "Mille Miglia," one of Italy's, or rather one of Europe's, most important road races, was marked this year by an unusual number of accidents, due it is believed to wet and slippery roads.

One particular wet, only 30 miles from Brescia, the starting point of this race, was responsible for three motorcycle crashes, two Alfa Romeo and one Austin Martin, coming to grief. Of the six drivers involved, only one was very seriously hurt, the steering wheel column entering his chest.

A well-known British racing driver, Earl Howe also crashed. Driven in a M.G., he collided with a telegraph pole, which necessitated his withdrawal from the race. Another M.G., one of the drivers of which was a woman, also had to withdraw.

As last year, an Italian was again successful in the race. Signor Vanni in his Alfa Romeo winning with an average speed of 77.6 miles per hour. Last year the first man to finish was driven by Alfa Romeo, the first being driven by Signor Nuvolari, whose average speed was 67.43 miles per hour.

Earl Howe's Story.

(Special Service's agency.)
Brescia, April 9.—Five and six days increased the dangers of the "Mille Miglia" Home Races. A hundred miles per hour and through towns and villages for which 50 competitors, including five M.G. Racers, entered.

A sensation occurred near the start, three cars crashing into the water, 500 yds. from Brescia. An Austin Martin, driven by Macaulay and Anthony, crashed into the water from the right. Another Alfa Romeo, driven by Fernan and Augustin, fell from the road and the steering wheel of the driver, who had to be taken to hospital in a critical condition. The second driver was critically injured, and seriously injured, finally another Alfa Romeo, driven by Bonelli and another Alfa Romeo, driven by Fernan and Augustin, fell from the road and the steering wheel of the driver, who had to be taken to hospital in a critical condition.

The Winner.

An Italian, Signor Vanni, driving an Alfa Romeo won the "Mille Miglia" in an average speed of 77.6 miles per hour. The following is a list of the winners:
1. Signor Vanni, Alfa Romeo, 77.6 m.p.h.
2. Signor Vanni, Alfa Romeo, 77.6 m.p.h.
3. Signor Vanni, Alfa Romeo, 77.6 m.p.h.

Racing in Italy.

There is probably no country in the world where the sporting...

"IMPROPER SUGGESTION."

Appel Court's Comment on Appellant's Plea.

The appeal of Sohan Singh, a conviction by the Magistrate at Fort Hill, Bombay, before the Acting Chief Justice of the Bench, Mr. Justice Harrow, in the Sessions Court, Nairobi, yesterday...

That the judgment of the lower court is given with the approval of the Public Works Department.

That on the Acting Chief Justice was not a proposal of appeal, it was merely an improper suggestion.

That the appellant had been had been awaiting the opportunity to present on this...

That the appellant had been had been awaiting the opportunity to present on this...

That the appellant had been had been awaiting the opportunity to present on this...

That the appellant had been had been awaiting the opportunity to present on this...

HOUSE OF COMMONS RE-ASSEMBLES.

Important Programme of Legislation.

To AVOID CONGESTION.

Members to be seated in the House of Lords.

[By WIRES.]
Nairobi, April 9.
The House of Commons re-assembled today after the Easter recess and an important legislative programme has before Parliament as the next few weeks.

An outstanding item will be the discussion of the Budget by the Chancellor of the Exchequer on the 17th and later discussion on Budget resolutions will occupy a considerable number of sittings. The opening of the Budget is awaited with keen interest and, in view of the satisfactory revenue returns of the past year, substantial reductions in burdens imposed on the 1933-34 tax are anticipated.

Two important Bills. Other measures which will come before Parliament will include the Road Traffic Bill, of which the second reading will be moved in the House of Commons tomorrow, when Major Oliver Stanley, the Transport Minister, will deal with the measure. It is expected that the demand that road permits should be abolished.

To avoid congestion of business in the House of Commons, three Bills to be introduced in the House of Commons, two of which are important in the Betting and Lotteries Bill, will be introduced in the House of Lords. This measure will reach the House of Commons at a later date. The Session will close in the House of Commons.

RAILWAY DISASTER IN WALES.

Five people were killed and four were injured when a passenger train from Cardiff was derailed near Aberystwyth.

PICKPOCKET CAUGHT.

The new Minister of Education, Mr. S. G. Langford, has been appointed to the post of Minister of Education.

It is thought likely that Smith will be sent to America on board the "Alicante" Executive" on Tuesday.

RATES OF EXCHANGE.

The following rates of exchange were announced by the Nairobi Banking Association...

Further Step Towards Disarmament Convention.

EFFECT OF FRENCH REPLY TO BRITAIN.

The Position of Russia.

POSSIBILITY OF SPECIAL FREEDOM IN THE FAR EAST.

As a result of the French reply to the British note on disarmament, there are hopes that the Disarmament Convention will be revived.

It is considered likely that under a localized European agreement for the stabilisation of armaments that Russia will be granted special freedom in armaments in the Far East, in the event of Japan refusing to sign relevant treaties.

America and Suez Canal.

Further discussion with a view to Suez Canal's opening at Geneva.

A European agreement for the stabilisation of armaments that Russia will be granted special freedom in armaments in the Far East, in the event of Japan refusing to sign relevant treaties.

Another treaty, by which the United States would be a party to the Disarmament Convention, which would give to the United States a general control and supervision of armaments in the Far East.

Germany's position in the Far East is a subject of great interest to the British Government, which has been studying the problem for some time.

The French Government proposes a further amendment to the British question, but this measure is...

SCOTLAND'S INTERNATIONAL VICTORY.

England's Half Time Lead.

AN UNBROKEN RECORD.

[STANDARD'S CORRESPONDENT.]
London, March 27.
(By Air Mail.)
After having been two goals in arrears against England at the interval, Scotland rallied by 3-2, thus maintaining their unbeaten record.
The Scots pressed in Glasgow, with the result that Lodge, the England goalkeeper, was not called upon to deal with the direct goal during the first half. England took the advantage in weight. They applied constant pressure and their forwards were all given opportunities.
W. H. Webster, the Scotland, opened the scoring in five minutes from close range, and Alf Brown provided a surprise goal, Smith left his change to deal with a cross shot, but before he could reach the ball Finlay ran and pushed it into the net.
Subsequently, play saw Scotland provided with a number. The opposition, but the forwards attempted to walk the ball in, and made the task of the English defenders very easy. Both the Scots were poor and finished, and did not get any support. He tried to open up the game frequently, but was held back by some of his own.
The Scottish right wing justified itself after the interval, and Whitehead was given a chance to show what a special centre he can be when receiving very encouragement. Within twenty-five minutes Scotland had scored a successful deficit into a one-goal lead, all three goals being scored by the centre forward. He headed the kick after two minutes, when Mackay placed a corner ten minutes later, and scored in front of goal.
The third was a splendid effort. Whitehead assumed the ball when he was about to fall, but managed to guide it into the corner of the net with his foot. Whitehead is undoubtedly one of the finest centre forwards seen in Scotland in recent years. He has a wonderful ball control, and is a real opportunist, as his three goals clearly indicated. The teams were:

GOLDEN MILLER'S ROMANCE.

Career of Dazzling Success.

BOLD AS TRAVELLING FOR HIM.

[STANDARD'S CORRESPONDENT.]
London, March 27.
(By Air Mail.)
No more romantic story has ever been told of the adventures of a famous boxer than that of Golden Miller. In 1904, when he was declared a young fighter quartered in Ireland, he was the owner of a County Meath farm, with whom he had had some interesting business. He said he had been mobilised and was going to France, and would the farmer being a mare for him until he returned? The farmer did not even know the name of the officer, but he said he would keep the mare. The officer went to France and never returned, and was the farmer ever able to trace him.
Some years later the mare was put to the stud, and also foaled the horse that has now achieved considerable fame as Golden Miller. Not thought much of as a yearling, he was sold for something like £100 to a Limerick farmer, Mr. Quinn. This gentleman kept him a couple of years, and Mr. Robert Gray, who has won Grand Nationals with Jerry M. and Government went to Ireland to buy him, but found he had been sold to Mr. Galway Green, who bought him for £200. Mr. Road Breane, who had just come down from Cambridge, was starting training and he asked his friend, Mr. Dick Farmer, the well-known Limerick breeder, who was going to Ireland, to buy him. Mr. Farmer saw Golden Miller and bought him for £300. Mr. Breane was not impressed by the horse, but he was a great lucky scavenor-like individual. He began to pick up, however, and when he had about some twelve months Mr. Breane sold him to the late Mr. Philip Carr.
Not long afterwards Miss Page was bringing some of the Whitton millions, which also included the two American steeple chasers, into racing, and she gave £2,000 for Golden Miller. His career since has been one of dazzling success, for he has won here no fewer than three Chatterton Gold Cups and now the Grand National. His victory in recent time stamps him as one of the great steeplechasers of the century. Miss Page's luck is a strange contrast to that of her cousin, Mr. John May Whitton, whose Thoroughbred finished third. It was the third time in five years that he had a horse placed in the Grand National and he has yet to win it. American wealth played a great part in this Grand National for Mr. Snow, the owner of Danvers, who had finished second in the United States, at though he was a big level in England.
E. C. Collins (Levon), J. W. Lewis (Walthamstow Avenue), E. D. H. Shauer (The Cavalry), W. B. Webster (Cortinas) and J. C. Finch (Barnet) forwards.

SURPRISE IN THE BOXING WORLD.

Harry Milder Beaten.

HIS UNKNOWN CONQUEROR.

[STANDARD'S CORRESPONDENT.]

London, March 27.
(By Air Mail.)
There was a boxing sensation at Liverpool this week when Harry Milder of London, the British lightweight champion, was beaten by a practically unknown man in James Walsh (Irester), who won on points over twelve rounds. It was the first time Milder had been defeated in his professional career. The champion afterwards testified to the superiority of Walsh, but he was criticised for that he could not have should they meet again. Walsh said "I am after Milder's title. What I have done since I can do again. He blows never once hurt me."
Walsh who is a featherweight, weighed about 6 lbs in weight. He was more aggressive and boxed well throughout with left and right.
It was not until late in the fight that Milder came into his own, for in the sixth round Walsh used his right hand brilliantly, and showed a better career of punches. The Chester man started towards the end, but he had sufficient courage to make a splendid rally to the last round. In the eighth Milder was warned by the referee for an up and up of the glove. Afterwards the Chester man made the championship round frequently, and in the last round Milder lost his habitual calm and fought like a fox, against a tough opponent. Walsh however, rallied gallantly and won a popular victory at the end.
Consultation between Home Office officials and a committee of chief constables are proceeding to draw up a standard police uniform all over the country. It is said that the advantages of one uniform are that it would be economical and promote uniformity. There is an intention of actually compelling all forces to obtain standard traditional dress, but the advantages of uniforms are being strongly urged.

LONG LIFE IN YOUR CAR BATTERY

If you would make sure of the utmost stamina in a car battery—get an Exide. Its sturdy construction ensures ample power for starting the heaviest engine without undue strain. This means longer service and greater economy for you.

If it did not have ALL THESE VALUES it wouldn't be the 1st CHOICE CAR

When the public acts in judgment you can be sure the best car wins. And the World's new car buyers have given Chevrolet outstanding leadership in sales over all its competitors. Chevrolet's annual sales almost equal the combined total of its two closest competitors. Can there be any stronger recommendation than this?
And here are some of the values without which Chevrolet would not be the 1st choice car! Knee Action wheels—Fisher No Draft Ventilation—Air stream styling—synchromesh silent gear shift—safety glass—cushion balanced engine mounting—knockless Octave Selector—steer plus Starter—six cylinder Blue Streak Engine—80 Horsepower—80 mile per hour top speed.

AND CONSIDER THE RECORD. Thousands of owners have proven Chevrolet's ability to give more for the money. So we confidently say, "Drive it five miles and you'll never be satisfied with any other low-priced car."

FEATURES

THE CHILDREN'S NURSE.

by A **Kenya Mother.**

It is a strange thing that the most womanly career for girls, that of a children's nurse, in these days is held in such low esteem. The more or less trained nursery-maid, or even the fully-qualified Noreland, Truby-King or Pincocks Christian nurse. There are positions in the profession, as the position of child nurse, just as there are for a girl who is genuinely fond of children and home life there are many advantages. There, in a happy atmosphere, would far outweigh the disadvantages.

The greatest stumbling-block in the mind of a girl setting out to earn a living by the choice of the children's nurse as a career is the supposed lack of social status, and this seems to be rather by the way. There are many girls just leaving school who are of a high social status, and who are of a high social status, and who are of a high social status.

It is unfortunate and distressing that work which brings out every quality in the right type of girl, work which requires an intelligent mind, a sympathetic nature and the patience of a mother should be considered a less than desirable job. It is a mechanical job of an ordinary office type.

The qualities required in a nurse in these days are rather more than in the days before the war. In the days of our parents' war, the nurse's chief duty was to look after the bodily health and cleanliness and the good humour of her charges. We have now the dear old nanny, and the nurse is expected to understand feeding, the handling and up-bringing of an infant.

for WOMEN

The Return of the Cool Neck

The most needed kind of garment that a woman can have in her wardrobe is a woman's suit. It should be comfortable, it should be elegant, it should be smart enough for the most pleasant occasions when she is called upon to appear. Just such a garment is seen in the photograph. It is the Miss-Goldwyn-Meyer style.

Look at it carefully. It has an unusual draped effect. The fashionable high-necked collar is made of a soft material, it is simple, but elegant. The other air is half covered by a shawl. An attractive feature is the high, white collar. It is a beautiful feature that without detracting from the beauty of the dress, it is a descending charm. The neck would look beautiful in a white, white collar of the same material. The neck would look beautiful in a white, white collar of the same material.

Creating Materials. The return of the cool neck does not mean the return of the cool neck of the smart woman. It means a return to a more comfortable and elegant style. It is a return to a more comfortable and elegant style.

In several of the materials, they are made of a soft material. They are made of a soft material. They are made of a soft material. They are made of a soft material. They are made of a soft material.

Don't choose shiny materials for your new frock. If you are always inclined to have a shiny frock as a novelty, you should choose a material that is not so shiny. If you are always inclined to have a shiny frock as a novelty, you should choose a material that is not so shiny.

Many women make the mistake of wearing dark colours in the winter. They should be wearing light colours. They should be wearing light colours. They should be wearing light colours. They should be wearing light colours.

Remember that dark colours are not so smart as light colours. Remember that dark colours are not so smart as light colours. Remember that dark colours are not so smart as light colours.

The deeper effect of an informed dressmaker is illustrated by the evening dress made for the Countess of...

CLOSE UP OF BORDOM BOGEY - A JUDGE ON KNEES MAN THE MASTER - CHEAP DIVORCE SON OF AN EMPEROR.

ON THE STAIRS

What is the girl factory workers in an effort to dispel the boredom which comes of doing the same work over and over again day after day after hour, day after day? And what is the girl factory workers doing so to increase both their happiness and their efficiency? The latest report by the Industrial Health Research Board under the not too attractive title, "Incentives in Support of the Work." It is claimed to be the first "close-up" psychological picture of its kind taken in this country.

For 54 weeks ten factory girls between 15 and 16 were watched by psychologists, their remarks, appearance and output before learned men who were personally experienced in the following operations:

Chocolate by machine; Wrapping of chocolates in foil; Packing of coffee tins; Washing and wringing 45 lbs. of linen; Sewing 100 pairs of trousers from 1 to 5; and the last two months the girls were devoted to answering questions on feelings and the like.

In the first 12 weeks of close-ratio period the girls were heard discussing the following number of discussions: The opposite sex 27; The future 22; The present 18; The past 10; The future 11; The past 11; The future 11; The past 11.

When Judge Case was asked in Whitehall County Court 2 of the 50 in a divorce suit for £100,000 for injury to her leg, he said he would not award her anything.

Connel for the girl pointed out the fact that she was a permanent scar on her knee. The Judge asked what was the scar for? He said a permanent scar on each of his knees.

Way Attitude to Cotton Seed Position.

PROBLEM MAINLY ONE OF ROAD TRANSPORT COSTS IN UGANDA

K.U.R. Not Approached.

WOULD LIKE THE TRAFFIC IF COST FACTOR CAN BE SOLVED.

The Kenya and Uganda Railway Management replied yesterday to Major Grogan's criticisms upon the cotton seed position in Uganda.

The Railway would like to have the traffic but the Management was not consulted regarding any reduction in rate.

In any event, the Railway authorities emphasize that the problem is not that of cotton seed near the Railway and steamer routes but the much larger proportion inland which no reasonable reduction in Railway rates would cover. A view of road transport costs and the low market price.

Reply to Major Grogan.

The East African Standard discussed with the Acting Director of the Kenya and Uganda Railway, yesterday, (Mr. A. J. Major Grogan's statement of the cotton seed position in Uganda. Several interesting facts emerge. The Kenya and Uganda Railway have not been asked to consider the position of the Cotton Seed from the point of view of the Railway rates. The Management was not, in fact, approached in any way with any request which followed the request by Uganda officials to consider the cotton seed problem of the marketing of Cotton Seed this year.

The Rail Rate.

It is presumed that Railway Headquarters that the Uganda Government's view of the cotton seed problem, considered it to be the lowest the Railway could afford to offer. "That rate, which works out at about three cents per ton mile, is not a high rate, but it is not a rate which would result in a loss to the railway company.

No Threat to Market.

The only case which the Railway Authorities would consider at the moment is that of the cotton seed. It is not a threat to the market, but it is a problem which must be solved in the future. According to the Secretary of the Railway, the cotton seed problem is not a threat to the market, but it is a problem which must be solved in the future.

Without a close examination of Major Grogan's figures, it is clear that there would be an indirect gain in revenue.

It is explained that the greater proportion of Cotton Seed is in the hands of the Government.

At present, low market prices, Cotton Seed on the railway for or within four or five miles can be shipped at a profit.

This Year's Traffic.

Seven thousand tons of Cotton Seed were already being transported and the Railway anticipates that at least another 10,000 tons will be transported. It is expected that an improvement in market prices will result in a higher volume of traffic. The Railway anticipates that at least another 10,000 tons will be transported.

A Road Problem.

The main problem of the Cotton Seed is the lack of a road for transport. The Railway anticipates that at least another 10,000 tons will be transported. It is expected that an improvement in market prices will result in a higher volume of traffic.

The Route.

It is stated that according to advice from Uganda, the only route on which Cotton Seed could be transported is that of the Uganda Railway. It is expected that an improvement in market prices will result in a higher volume of traffic.

A Warning for Shos.

During Saturday night the Uganda Railway on the ship of Nathan Yalton. It is expected that an improvement in market prices will result in a higher volume of traffic.

SEARCH FOR GOLD IN WATERLESS DESERT.

Attempt Abandoned by Sir Malcolm Campbell.

SEARER BY ENDING SAND DUNES.

Reached Eliza Ford Base, Distance 124 miles.

THE "FRANCOIS" (By air mail).

Sir Malcolm Campbell has abandoned his search for the lost gold reef in the Namib Desert. He has had to leave behind by sea-plane. He had the gold reef, which he had been searching for, but he had to leave behind by sea-plane.

A Waterless Area.

The reason for the abandonment of the treasure hunt is that there was no landing ground. The reason for the abandonment of the treasure hunt is that there was no landing ground.

The place where the reef is indicated on Sir Malcolm's map.

is about 100 miles north of Swakopmund and the Northern Territory. It is a waterless area. It is a waterless area.

Sir Malcolm Campbell stated that this was impossible.

to land on the dunes. The reason for the abandonment of the treasure hunt is that there was no landing ground. The reason for the abandonment of the treasure hunt is that there was no landing ground.

Ships Companies have already written their assistance could be obtained.

It is not known whether the shipping authorities were consulted by the Government.

The maximum quantity of Cotton Seed in the country is approximately 17,000 tons.

including the 7,000 tons already exported. It is not known whether the shipping authorities were consulted by the Government.

Internal Rate.

The reason why Cotton Seed is carried at a higher rate than is transported to the Coast, is that the cost of transport to the latter and the general rate for fertilisers. It is not known whether the shipping authorities were consulted by the Government.

The Railway Management do not believe it is part of their function to consider proposals of the Government of Uganda in the present circumstances.

General advice received by the Railway from exporters do not favour the position as Major Grogan's article suggests.

EUROPEAN FINED.

Offences Under the Game Laws. A Frenchman, a European, was fined for hunting without a license. The reason for the abandonment of the treasure hunt is that there was no landing ground.

A RECORD GAME TROPHY.

Hunter's Harbetsene in Lower Tana. A record game trophy was secured by a hunter in the Lower Tana. The reason for the abandonment of the treasure hunt is that there was no landing ground.

A Clear Responsibility.

After lengthy consideration of the evidence from many points, I have come to the very definite conclusion that the responsibility for the accident is clearly and unmistakably that of the driver. The reason for the abandonment of the treasure hunt is that there was no landing ground.

TODAY'S CAUSE LIST.

- Before Mr. Justice Hereby. In Court No. 1 at 10 a.m. 1. A case of appeal from the District Court. 2. A case of appeal from the District Court.

A TOWN COUNCILLOR WHOSE VIEWS ARE WORTH HEARING.

MAJESTY'S COMMENT.

Consider What Affair He Represents.

Judgment was given against Mr. David Nassau, in the Second Class Magistrate's court yesterday morning in the case in which he was charged with having withheld the wages of two Kilgus. The reason for the abandonment of the treasure hunt is that there was no landing ground.

"Truth Will Out."

"Granted that the Game Department is all understood, they still have a very good idea of what has happened on every point which has returned to civilization, the news coming from the native gun hunters and servants, who are passing on information. The persons themselves are generally full of chas as to what they have done, and the 'truth will generally out.' The reason for the abandonment of the treasure hunt is that there was no landing ground.

A Test Case.

"The suggestion regarding the first trial is not a new one, but the person who signs a bill is necessarily responsible. The reason for the abandonment of the treasure hunt is that there was no landing ground.

Use of Poison.

"Essentially, poison should be used as a means of control. The reason for the abandonment of the treasure hunt is that there was no landing ground.

Shooting parties.

"Shooting parties, nowadays seldom shoot the animals which they license permit, though a few very few do so. Most good sportsmen of this age are not so ignorant that the game has not decreased. The reason for the abandonment of the treasure hunt is that there was no landing ground.

A Friendly Arrangement.

"The accused has admitted an agreement—whether written or oral—between him and the deceased. The reason for the abandonment of the treasure hunt is that there was no landing ground.

DEATH OF VETERAN SOLDIER.

Service in Zulul and Boer Wars. A veteran soldier died of old age. The reason for the abandonment of the treasure hunt is that there was no landing ground.

MUNICIPAL VOTERS' ROLL.

Claims and Objections to be Heard This Month. The Municipal Council will hear claims and objections to the voters' roll. The reason for the abandonment of the treasure hunt is that there was no landing ground.

SUGGESTED DANGER TO HEALTH.

Subject Referred Back for Further Consideration. The Municipal Council has referred a subject back for further consideration. The reason for the abandonment of the treasure hunt is that there was no landing ground.

STANDARD CORRESPONDENT.

Monday, April 5. The present Southern Hemisphere cruise of the "Francia" left London at midnight on Tuesday, January 9 from New York and will conclude at the same place on the afternoon of May 13. Prior to visiting Mombasa, the cruise will visit the following ports: New York, London, Cape Town, Durban, Swakopmund, Windhoek, Walvis Bay, Port Elizabeth, Cape Town, Mombasa, Damaru Aires, Santos, Rio de Janeiro and Barcelona. In addition to the main party of all there will be many other passengers. Excursions arranged which are open to the public. The passengers will understand what they see and will appreciate the views of the various parts of interest and will explain particular interest. The cruise is being carried out on the "Francia" which is called "A Voyage of Rediscovery" and is organised by the Cunard Line in association with Messrs. Cook and Son. The "Francia" herself weighs 20,710 tons, 600 feet in length and has a speed of 18 knots. She has visited Kilindi in 17,544 gross tons. She is a very fast and comfortable ship. She is a very fast and comfortable ship.

Make the charms of East Africa known

The East African Standard wishes to photograph East African interest in exhibitions more particularly such as Africa City still 9 a.m. yesterday stating that no rain fell at Kisumu, Mombasa, Nairobi and Kampala. Rabote recorded 0.05 and Hualaba 0.18 inch. The maximum temperature recorded in day 7. were as follows - Rabote 82 and 80; Kisumu 80 and 77; Mombasa 81 and 79; Nairobi 84 and 61; Butuba 84 and 70; Kampala 79 and 60.

Further Step Towards Disarmament Convention.

New York reports indicate that American policy will remain unchanged, namely that America is prepared to join in a convention if peace is threatened and if there is an agreement with regard to treaty.

The Bureau Meeting

The British delegation, headed by the Lord Privy Seal, Mr. Anthony Eden, left London this morning for Geneva to attend to matters of the Bureau of the Disarmament Conference, at which Mr. Arthur Henderson, the President of the Conference, will preside.

Support for French View

From messages from Geneva consider is beyond all doubt that such a proposal will be put forward. It is stated that the French view, that a new mandate is required from the General Committee, is being supported by the majority of the Bureau.

RESISTED ARREST.

Aakar's Tussle with Kikuyu Burglar.

A Kikuyu who was described in our columns as having very bad teeth, and who appeared to have embarked on a career of crime, was sentenced by the Resident Magistrate, Nairobi, on Saturday, to two years' hard labour.

An aakar this gave evidence that at about 10.4 p.m. on that night, he saw accused in the compound of the Omer's house, and in going to arrest him, accused struck him on the arm with a knife, causing some injury.

The weather. The British East African Meteorological Service in its report on weather conditions as reported from selected stations in East Africa, says that on April 14, yesterday, it was a day of rain, with a total of 0.7 inches.

DEATH OF NOTED ZULU LINGUIST.

Link with Early History of Natal.

The death has occurred at Margate, of Mr. Robert Charles Anderson, a noted Zulu linguist, who took a prominent part in the great events of Natal.

Prince George.

Not Recognized at Victoria Falls. Latest Reports by Cable.

MARKET QUOTATIONS.

RESISTED ARREST.

Scorning a machete blow and scowling, Prince George walked through the Rain Forest on April 2, and was drenched to the skin by spray from the Victoria Falls.

The AllIndia in the title of the Magazine of the AllIndia View High School, Mombasa. It is printed and published at the School Press, and contains a number of eight articles and illustrations contributed by its school members.

USE LIQUID SOAP & DISPENSERS with liquid soap there is no waste, pilfering or stoppage of the pipes. The soap is kept clean and tidy in the dispenser.

TOUR OF INSPECTION.

Port Manager Complied to Beach His Boat.

The Port Manager, Mr. Norman, who accompanied by Mr. W. J. King, Inspector of Customs, has just completed a tour of inspection of the coast between Margate and Durban.

Notice of Appeal.

The District Officer who intimates that he intended sending the matter up for review, but Mr. Newmark interposed to ask for stay of execution as he wished to appeal.

MARKET QUOTATIONS.

Messrs. Dalrymple & Co., Ltd. state that by a cable from their office in London, dated April 6, they received the following quotations:-

THE ANGLO BALTIC TIMBER COMPANY Limited. NAIROBI. Haridings St. Box 200

A TOWN COUNCILLOR FRIED.

(Continued from page 7).

"In this transaction the second has, in my opinion, not only conspired to evade the legal obligations of his predecessor as an individual, but has furthermore endeavored to take advantage of the ignorance of the local jurist in order to have himself a free pass in a man of such standing, a town councillor, to flaunt the highest principles of justice which will be expected of him, the whole affair most regrettable.

Notice of Appeal.

The District Officer who intimates that he intended sending the matter up for review, but Mr. Newmark interposed to ask for stay of execution as he wished to appeal.

MARKET QUOTATIONS.

TRAFFIC SIGNALS.

To the Editor, "E.A. Standard,"
In view of the fact that the signal now rigorously observed by our drivers in Kenya than extending the right arm to indicate a stop at the right. It is so easy, yet not used, that it is a pity that the signal is not used more vigorously. If there is a car coming up behind, will it not be better, the driver will have a clear view of it, than will have to make a turn, going off the road is clear in both directions or if it is not waiting until it is seen to occur to free drivers in Kenya. In England it is the universal custom to make before turning right, except at junctions in town traffic where different conditions prevail.

Recently a driver on the Nyong Road solved the problem in many ways. He turned right before approaching a side road on the right hand side and was stuck and the car crossed over to the other side of the road and continued the use of the road until the turning and the driver accomplished the right of way. This is a most dangerous and a most annoying method of driving. The driver of a car behind crept slowly along in the fact that the waster might suddenly return to the side of the road.

THE NAIROBI WATER SUPPLY - THE KULUBI SCHEME.

Nairobi, April 9, 1934.

Sir - Referring to your report of the discussion which took place at the meeting of the Nairobi Municipal Council on the 24th inst. regarding the Kulubi scheme, I have the honor to inform you that the Municipal Council has decided to refer the matter to the Municipal Engineer for his consideration and to report thereon to the Council at its next meeting.

The Municipal Engineer has also been requested to advise the Council on the 24th inst. regarding the Kulubi scheme, I have the honor to inform you that the Municipal Council has decided to refer the matter to the Municipal Engineer for his consideration and to report thereon to the Council at its next meeting.

The Municipal Engineer has also been requested to advise the Council on the 24th inst. regarding the Kulubi scheme, I have the honor to inform you that the Municipal Council has decided to refer the matter to the Municipal Engineer for his consideration and to report thereon to the Council at its next meeting.

The local engineer referred to by the Mayor is Mr. W. G. Morris. Mr. G. E. Jones, who is a member of the Council on the Water Board, has been requested to advise the Council on the 24th inst. regarding the Kulubi scheme, I have the honor to inform you that the Municipal Council has decided to refer the matter to the Municipal Engineer for his consideration and to report thereon to the Council at its next meeting.

Mr. Morris refers to the meeting of the Council on the 24th inst. regarding the Kulubi scheme, I have the honor to inform you that the Municipal Council has decided to refer the matter to the Municipal Engineer for his consideration and to report thereon to the Council at its next meeting.

It is also interesting to note that the Municipal Council has decided to refer the matter to the Municipal Engineer for his consideration and to report thereon to the Council at its next meeting.

The Municipal Engineer has also been requested to advise the Council on the 24th inst. regarding the Kulubi scheme, I have the honor to inform you that the Municipal Council has decided to refer the matter to the Municipal Engineer for his consideration and to report thereon to the Council at its next meeting.

RUGBY GYMKHANA MEETING.

At Parklands on Saturday First.

LIST OF COMPETITIVE EVENTS.

Saturday will see the annual Rugby GYMKHANA the venue for which this year is Parklands Sports Club ground. This function may be taken as officially giving a send-off to the game for the season. Clubs from Nairobi and the surrounding districts compete at this event and this year it is hoped that some up country teams will be represented.

The events will be much the same as those of last year, including passing races for forwards and backs, punting, evening race, straight sprints for backs and forwards, a football race, and the usual rugby match to conclude the afternoon. This game is played with hockey sticks with a rugger ball, and invariably produces much good fun.

As in the past two years, the floating trophy will again be on April 29 at Manchester City. It will be held jointly by Mithaga and Nondescripts, but this year Mithaga made it their own. Competitors must wear Rugby kit, and must be wearing their caps as directed.

List of events as follows: 1. 110 Yards Race for Boys (entry limited to 4 from each school). 2. 110 Yards Race for Forwards (entry limited to 4 from each school). 3. Relay Race for Boys (Teams of 4). 4. Tag of War (Prem. hosts) 5. Passing Race for Backs (Prem. hosts) (Teams of 4 members). 6. Passing Race for Forwards (Prem. hosts). Limited to 2 teams of 2 from each Club. Tagged up from both ends on 75 yards. Running Rugby (Half Term of 3).

7. Stealing Race (Prem. hosts) (Teams of 4). 8. Relay Race for Forwards (Teams of 4). 9. Backs Passing Race—Final. 11. Tackling Race—Final. 12. Stealing Race—Final. 13. Tag of War—Final. 14. Rugby Match.

Civil Service Rifle Club.

Team for Hampshire Memorial Shoot.

Since the commencement of the year the attendance at the Civil Service Club shoots has been very good and very increasing. Many fine scores have been returned on occasion, and it is hoped that the coming season will be even better.

W. B. Wren registered his first point in the Hampshire Memorial Shoot (K.R.A. Inter Club) competition, and has been chosen as follows:—

Mrs. S. E. Bagley, Miss M. Long, M. J. Mackay, E. M. Warner and F. Mansington. The reserves are—Mrs. M. J. Mackay and Miss J. Bagley. Serge Major C. A. Christian has consented to team on condition that—

Members are requested to be on the Defence Force Hotel not later than 7.10 a.m. on Sunday, April 15.

SPORTS DIARY.

April 14. Rugby GYMKHANA at Parklands Sports Club ground. Morning 10 a.m. to Noon (G.C. April 15). Nairobi Golf Club vs. Njoro G.C. (Ladies and Men). Polo at Upper Society Club.

Sporting Brevities

Bugsy's start. Rugby made good beginning on Saturday when in their first game of the season, the champions defeated Nondescripts at Parklands.

Practically the same side as represented the champions in their first game on the occasion, and they hope to retain the title which they won last season.

There are one or two new faces on the side, but the most part of the side is composed of old and tried players.

The power clubs are getting down to it, and Commercial are doing the same in a few days. Most of the other clubs are setting their teams in order in preparation for the week ahead.

On the whole, the season has made a big improvement over last year's play. Credit should be given to the good work of the players, and the fact that they are able to keep their teams in good form.

It gives a big fillip to Rugby to see the under 17s score such good goals, and also to see them play so well. They have quite a promising side, and should do quite well.

Maintenance, their pack is on the right side, and have got to keep their backs in good form. It is forward to a marked degree.

Arthur Bryant, well-known in the rugby world, has been in Uganda for the past two years.

It is understood that he will be available to referee matches in the Nairobi District championship, as well as in the 'Enterprise' Cup tournament.

The Rugby GYMKHANA this weekend at Parklands should prove very successful. It will give a good send-off to the season.

One of the big features affecting Rugby to-day is the state of the ground. It is very dry, and it is difficult to get the grass to grow. It is to be expected that this will be a disadvantage to the players.

Several Nairobi players, it is understood, have just returned from the Cape. It is hoped that they will be able to add to their experience in the game.

There is a rumour which has been current for some weeks, that the British Government are to send a team to the capital of Kenya.

The Cornish Football Club has applied to the Football Association for entry to the English Cup Competition next season.

In July next the Cornishmen should participate in the withdrawal from the Cup for 1923-24, following the decision of the Association to open up the third round paper, the F. A. offered compensation for the first round paper.

The reason given by the club for their withdrawal was that they would be unable to place a representative in the competition for the season.

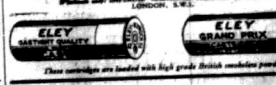

The standard of Cornish football can be seen from the fact that the participation in the Cup competition, which involves matches against professional opposition, and involves a good deal of travelling, is so popular.

It is recalled by the Club that when the club was first formed, they were unable to place a representative in the competition for the season.

Good! It's British! If the name Eley or Kynoch is stamped on the head of a cartridge you may be sure that it will accomplish all that a cartridge is expected to do.

Don't use inferior cartridges in your gun. Use ELEY OR KYNOC. BRITISH and BEST. OBTAINABLE FROM ALL DEALERS.

GERMAN DEFENCE SERVICES. KENYA LEGISLATIVE COUNCIL.

Britain's Uneasiness
of the
diplomatic representations
MADE IN BERLIN.

Increase in All Branches.
THE LEAGUE AND CONTEMPLATED BREACHES
OF THE PEACE TREATY.

The British Government has lost no time in taking up the matter of the German Military Estimates which were made public a short time ago. These Estimates, it will be recalled, show a very marked increase not only for the Army and Navy but also for the Air Ministry.

Sir John Simon informed the House of Commons on Monday that he had instructed the Ambassador at Berlin, Sir E. G. Phipps, to make an official enquiry concerning these increased Estimates.

As the League of Nations retains the right to exercise a supervision of armaments, the British Government is entitled to demand an explanation of this apparent breach by Germany of the Treaty of Versailles.

A later message from Berlin states that a German Official explained the increased Estimates as being merely for re-organisation and modernisation. He denied that they in any way represented an increase in the number of troops.

An Official Explanation
 (GERMAN PRESS'S AGENCY.)

London, April 9.
 Sir John Simon referred in the House of Commons to the increased Estimates for the Army by 12,000,000 marks and for the Air Force by 182,000,000 marks. He asked that the Government should give the most serious attention to this matter. "I have requested," said Sir John Simon, "our Ambassador at Berlin to make inquiries of the German Government and I hope to receive information during the present week."

Long Been Suspected.
 The action of the British Government in officially enquiring from Berlin as to the meaning of the increased defence estimates is based on the fact that the League of Nations retains the power of supervision and it is open to the British Government to call the attention of the League to any contemplated breach of the Peace Treaty.

ARGENTINA'S DEBTS.
Payment of Sterling Loans.

Veracruz Road Again.
WINDLIFT AT NAKURU.

Argentine's Debt.
 [By Wireless.]
 Buenos Aires, April 10.
 Referring to a statement by the Argentine Government to the effect that it was unable to pay the interest on its foreign loans, it is stated that the Argentine Government has announced that it has succeeded in raising a loan of 100,000,000 pesos in London.

RATES OF EXCHANGE.
 The following rates of exchange were announced by the Standard Bank of India, Ltd., London on Paris: 758.
 London on New York: 617.
 Bombay on New York: 174.
 1/26.

GERMAN DEBT PAYMENTS.
Trustee Account Suggested.

A Hint to Creditors.
FOR REDUCTION IN RATE OF INTEREST.

(GERMAN PRESS'S AGENCY.)
 Berlin, April 9.
 The creation of a trustee account for the payment of interest on Germany's debt is to be used to Germany's creditors according to the suggestion of the trustee, who is to be appointed on Germany's financial situation.

A Denial.
 Dr. Brüning denied that Germany would demand exchange was essential. He was convinced Germany would accept a reduction in the rate of interest which was still too high.

Bank of International Settlements.
 (GERMAN PRESS'S AGENCY.)
 Berlin, April 9.
 A profit of 15,000,000 marks as compared with 14,000,000 marks last year has been announced by the Bank of International Settlements at a meeting of the Governing Body. The usual six per cent dividend will be paid and a statutory amount paid to reserve.

DEATH OF U.S.A. MINISTER TO IRISH FREE STATE.
Collaps at Banquet in His Honor.

(GERMAN PRESS'S AGENCY.)
 Dublin, April 9.
 The new American Minister to the Irish Free State, Mr. McDowell, died at his official State Banquet given in his honor this evening and died shortly afterwards.

Veracruz Road Again.
 "Candalaria" comment was renewed last month when it was announced that Mr. McDowell, who had arrived at Dublin to take up his duties of U.S.A. Minister to the Free State, presented his credentials to Mr. De Valera and, as is customary, to the Government. It was quickly stated that arrangements were made some months ago when the Government had agreed to the road project. It is stated that the Government had agreed to the road project in future all representatives of Foreign Powers would present their credentials to Mr. De Valera as Foreign Minister instead of to the Government.

THE SINAI CODEX.
 [By Wireless.]
 London, April 10.
 The total of contributions received by the Trustees of the British Museum for the purchase of the Sinai Codex now amounts to 14,100. British Official Wireless.

WATER FEARS IN ENGLAND.
Prime Minister's Emergency Measures.

Help from Tribesmen.
CONFERENCE TO BE HELD AT MEOGA.

(GERMAN PRESS'S AGENCY.)
 Cairo, April 9.
 Emir Faisal, commander of the Saudi forces which had just been defeated, was invited to join the army in such large numbers that he had far more troops than were necessary.

Emir Faisal, commander of the Saudi forces which had just been defeated, was invited to join the army in such large numbers that he had far more troops than were necessary.
 It is expected that Arab delegations from Egypt, Palestine and Iraq will go to Mecca shortly to mediate the dispute.

Lighting between King Ibn Saud and the British.
 The Minister of Health, Dr. H. H. Young, is introducing a Bill to regulate, the text of which will be available this evening. The Bill is to be taken on Thursday.

Rural Supplies.
 [By Wireless.]
 "The Times" says that the Government have left the matter until too late and the necessity for emergency legislation should cause neither surprise nor undue alarm. The new Bill, it adds, is not the only measure which the Government has taken.

Obituary.
A Former Bishop of Zanzibar.

(GERMAN PRESS'S AGENCY.)
 London, April 9.
 The death is announced of the Rt. Rev. Dr. J. H. H. Ansell, Bishop of Lukenia (Nyassaland), Zanzibar and Northern Rhodesia.

ADMIRAL SIR W. A. MOORE.
 [By Wireless.]
 London, April 10.
 The death is now announced of Admiral Sir William Moore, who had been appointed that when he died the news should not be published until after his funeral.

ADMIRAL SIR W. A. MOORE.
 [By Wireless.]
 London, April 10.
 The death is now announced of Admiral Sir William Moore, who had been appointed that when he died the news should not be published until after his funeral.

ADMIRAL SIR W. A. MOORE.
 [By Wireless.]
 London, April 10.
 The death is now announced of Admiral Sir William Moore, who had been appointed that when he died the news should not be published until after his funeral.

RELIEF FOR DEBTORS IN RUMANIA.
Large Reduction for Quick Payment.

OPTIONAL CONVERSION.
Virtuality a Meritum for Fifteen Years.

(GERMAN PRESS'S AGENCY.)
 Bucharest, April 9.
 Debtors in Rumania will benefit vastly by a 75 per cent reduction on the debt, those paying within six months will receive a 65 per cent reduction, those paying within three years a 60 per cent reduction, and those paying within five years a 55 per cent reduction. Thereafter up to 15 years the reduction will be 50 per cent and the balance to be paid in three per cent payments.

State Bonds.
 The Government has announced that it will reduce by 25 per cent the interest on its State bonds which had been increased by 100 per cent to be repayable in ten years.

Merchants holding the bills of lading, which they had issued to the Government, will be reduced by 25 per cent and the balance will be repayable in ten years.
 The Kingdom of Saudi Arabia, over which King Ibn Saud is the ruler, includes the areas of the Nejd, Hejaz, and eastern Yemen. It is expected that Arab delegations from Egypt, Palestine and Iraq will go to Mecca shortly to mediate the dispute.

Portrait of a member of the Kenyan Legislative Council.

Additional Members to Represent Africa.
CHANGE IN CONSTITUTION ANNOUNCED YESTERDAY.
A Joint Committee Proposal.

By an alteration in the Royal Instructions, granted yesterday, the number of Nominated Unofficial Representatives of Native Interests on the Kenya Legislative Council will be increased from one to two.

It is no longer an obligation on the Governor, however, to nominate one Christian missionary for these posts.

Wider Freedom of Choice.
 In 1931 the Joint Select Committee proposed an increase from twelve to both Houses of Parliament, who considered the general provisions of the Bill, and the choice to Christian Missions might with advantage be removed. While keeping the door open, he did not think the time for appointing Africans to Council had been reached.

A special issue of the Official Gazette published yesterday contains the proposed amendments to the Constitution of the Kenya Legislative Council. There will be no addition to the Official side of the house.

At the same time, advantage has been taken of the opportunity to coordinate and reorganise all the Royal Instructions and Letters Patent affecting the Constitution. A minor alteration in the adoption of the new title "Director of Medical Services" to place of Director of Medical and Sanitary Services.

A Question You Cannot Answer.

The old saying "I can believe my own eyes" ought to be forgotten.

These other play tricks. One eye may be doing the work of two, yet you seem to be seeing darkly—until the over-work of your eye lets you down.

Sometimes, by continual straining, you can actually cause defective eyes to see fairly well. But sight at such a cost is dangerously misleading.

The greatest relief cannot answer vital important questions. "How do you see?" The answer can only be given when your eyes have been carefully examined by an optician specially trained for such work and thoroughly acquainted with the latest scientific methods.

NOTES FOR WIRELESS FANS

This page, devoted to the interests of Wireless, is conducted by "ARIAL," a technical expert in wireless knowledge of East African conditions.

Practical Hints ... **All About Aerials**

PRACTICALLY all branches of wireless are comprised in the one factor, one of which is the importance of the position of the aerial. In fact, another time the time is provided a good deal of the latter is available probably the greatest improvement which can be made to any receiver without undue cost with a really good aerial. One may differ as to which is the best type and kind factors which will give the best results. The factors mentioned in the following are those of the aerial, but the thing which is to have some sort of guiding principle on which to base experiments. Just as in our receivers we have tuned circuits, so in the aerial we have tuned circuits. The aerial is the part which is to be tuned to the frequency of the wave which is to be received. The aerial is the part which is to be tuned to the frequency of the wave which is to be received. The aerial is the part which is to be tuned to the frequency of the wave which is to be received.

EMPIRE STATION WAVELENGTHS

The frequencies in use at the time of going to press are shown in the list of the Empire Station Wavelengths. It is hoped that this list will be of use to all wireless fans. It is hoped that this list will be of use to all wireless fans. It is hoped that this list will be of use to all wireless fans.

Schedule of Wavelengths

Table with 2 columns: Call Sign, Frequency, Wavelength. Includes stations like GMA, GMB, GMC, GMD, GME, GMF, GMG, GMH, GMI, GMI, GMI.

Notes of the Week

CONDITIONS have been good during the week under review and signal strengths have been high on most wavelengths. The length of an aerial transmission is the factor, even at which time the 20 metre band has been very good indeed. G.M.T. 20.00—Time Signal from Big Ben ... G.M.T. 20.00—Time Signal from Big Ben ... All leading Motor Car Manufacturers
are fitting these wonderful Goodyear
Airwheels to their 1934 models

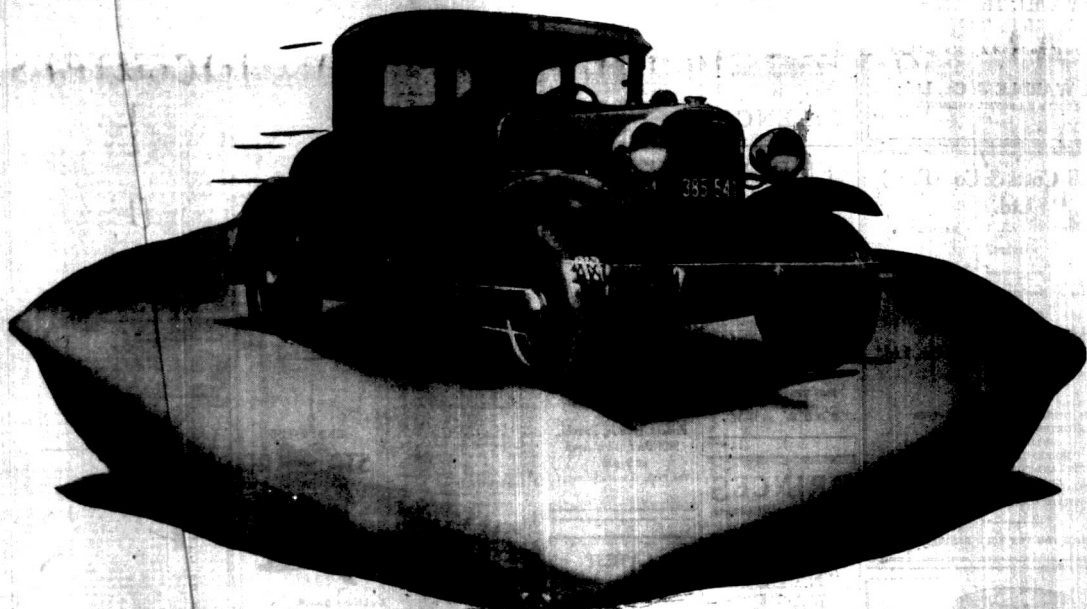

BUT—

If you are not buying a new car, we will make it possible for you to bring your present car up to the amazing new standards of comfort and safety by supplying the necessary, brand new and beautiful wire wheel equipment entirely without charge. The Airwheel Tyres themselves cost little or no more than the ordinary tyres you have been buying in the past.

Giffillan & Company, Ltd.
WHOLESALE IMPORTERS

*This unusual and generous offer is made to owners
of Chevrolet, Ford, Vauxhall and Bedford cars.*

NOW! RIDE ON A PILLOW OF AIR!

HERE'S comfort such as you never dreamed of in motoring before—» a tyre so big, so buoyant, so pillow-soft that you literally float on air!

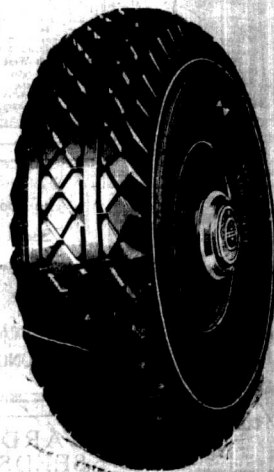

That's why it is called the **AIRWHEEL* TYRE** » because it holds three times the **VOLUME** of air used in ordinary balloon tyres » and runs on as low as 16 pounds **PRESSURE**.

Bumps and ruts just don't exist when you

ride on these big soft-rolling cushions of rubber. They flow over them » saving your car, and you, from jolts and jags that bounce right through ordinary tyres.

You can stop quicker, take curves faster, too, because you've more tyre on the road, more road-gripping traction.

Why not change over now? The cost is small considering the luxurious new comfort » the swashy air they add to your car.

AIRWHEEL* TYRES by

GOODYEAR

The world over more people ride on Goodyear Tyres than on any other make.

*Only Goodyear makes AIRWHEEL TYRES. AIRWHEEL is Goodyear's trade-mark, registered the world over and is used to denote that Goodyear is the exclusive maker of AIRWHEEL TYRES.

THE THIKA DUKA MURDER.

(Continued from page 7.)

had been freshly torn from a piece of American or a slink. He sent search parties out across the river and informed local chiefs and head men of the murder.

On September 26 he found what appeared to be bloodstains on some grass on the bank of the Ndarugu River. Nearby he found two pieces of cotton. On September 26, at Mithua's village at Otundu, he learned of a native who was wounded. On October 23 Chege was brought to him by Inspector Njoki at Thika, and he noticed injuries on Chege's left wrist and on the fore finger of his left hand.

On October 24, he took Chege before the District Officer, Thika, for remand. After delivering the prisoner he was asked to leave the office.

Cross-examined by Mr. Malik, he stated that the small pieces of material were not part of the big slinks. Two cash notes in the slinks were burnt and he noticed signs of a struggle having taken place. He did not think it possible for a person who had such a large amount of blood as was found in the bloodstained patches near the duka to have walked seven miles.

Loss of Blood.

Dr. H. D. Tonkin, official bacteriologist at the Medical Laboratory, Nairobi, testified to having found a small spot of human blood on the tail of a shirt brought to him by the police. The stain was an old one.

He examined Chege on November 2 and found partially healed wounds on the second's left hand and wrist. He formed the opinion that the wounds had been caused between four and seven weeks previously. He considered that the accused would have lost a considerable amount of blood from his wrist wound.

Under cross-examination, he stated that if an injury had been out, it would have less than a pint of blood, enough to cover a patch two feet square. He was

of the opinion that both articles in the wrist had been cut. However, he did not think that coffee and blood could have been on the accused to such an extent as to leave foot square patches on a shirt.

Assistant Inspector J. K. Kipka Estate said he was called to the Criminal Investigation Department station that he visited Kipka Estate on September 27, 1934, in the arrested Mukano and Karoti on February 21.

Shivram's Death.

Capt. E. Walker, assistant District Magistrate, said he was called to the station on September 27 and saw Mathabhai, a native of the same village as the man who was shot, to the shop he found both the slink and the fence and the door open. Shivram was inside and appeared to be unconscious. He was moved outside the fence and died at about 7 a.m. He had never been seen at the shop since that time.

Mathabhai, a Hindu, said he was shot on September 27 and took a seat next to the witness's stand. He said he saw the slink, a fence, a door open, Shivram, where he had seen the goods in the morning and saw 50 packets of King Stork cigarettes. Shivram was the assistant and in addition he employed a native servant the latter working only during the day.

From 8 p.m. on the day of the assault he and Shivram were in the shop. He had left earlier to go home. Witness said he saw Shivram in the shop and the two shop doors from inside. A helper was burning in the shop, where they sat talking to each other up to 10 p.m. They then went to bed. In the shop, one of the slinks was a bed seven feet from the flooring. He and Shivram slept in the same bed, Shivram being further from the wall. The latter was on a stiff neck on the bed.

They went to sleep but were awakened by noise, coming from the front door. They sat up and had been placed on the floor. In the dim light he saw from right to left the slink, the fence and the door and came into the shop. He could not recognize any of them, but they all carried slinks. They pulled Shivram from the bed and Shivram shouted "Oh Father, I die." He saw the Natives raising their hands and shouting "Oh Father, I die." He had himself been pulled out of bed by them. The Natives threatened to strike him and he

asked what they wanted. They did not answer, and he showed them where he had come from. He went to get his bed rolled through the door. Suddenly one of the slinks struck him on the head with a sound. As he ran out through the door he heard of Natives shouting, "Finished, dead."

Hidden in a Hole.

Some of the Natives followed him as he ran towards the river through the bush. He hid himself in a hole dug by an animal. Some Natives picked him up and took him to Capt. Walker's house. Mrs. Walker took him by car to hospital. The Natives in the slink were wearing slinks and slinks of slinks. He missed the 118, in slink and one of his 40 packets of King Stork cigarettes. He was in hospital about a fortnight. He did not know any of the accused.

Cross-examined, he admitted that Natives for the most part smoked King Stork cigarettes. The Natives who committed the assault demanded money in Hinda.

Macdonald, Kikuyu, said he had known Chege for the past five months or so. On a Sunday he saw Chege, whose left hand was bandaged. He said he had had a fight on Thika plain. Accused remained at Mathia's house from the Sunday until the following Friday.

At this point the case was adjourned till 9 a.m. today.

TODAY'S CAUSE LIST.

Before the Ag. Chief Justice in Court No. 3 at 10 a.m.
 In the matter of the Kenya Farmers' Association, Ltd.
 Before Mr. Lane Ag. Judge in Court No. 12 at 10 a.m.
 Criminal Sessions (E.A.) in Chambers at 2.30 p.m.
 C.C. Morrison, Esquire (E.A.) Ltd. vs. George Flowers.

Cotton seed is equal to that of 1.13 tons of maize.
 The following ratios are recommended by the American experts:
 For 100 lbs. of cotton seed:
 5 lbs. cotton seed,
 3 lbs. grass hay or maize fodder,
 18 lbs. Cowpea vine hay,
 For 100 lbs. seed:
 2 lbs. cotton seed,
 2 lbs. maize seed,
 4 lbs. wheat bran,
 6 lbs. grass hay or maize fodder,
 8 lbs. Cowpea vine hay.

COTTON SEED AND THE FARMER.

Feeding and Manurial Values.

Farmers who have read during the past few days of the cotton plant destruction in Uganda of a large quantity of Cotton Seed and who have also learned that it has a definite manurial value, will be interested to have more detailed information.

The facts which are given below regarding the potential value of Cotton Seed as a local product in the King Shikha provinces (the main local industry) will give for the producer (Kings and Uganda) a new significance to the artisan directed against the Government for its decision to destroy this commodity—valuable both in the Territories and in London.

The following analyses are taken from Lambers's book "Cotton Seed Products" published in 1904. The details were worked out by leading Agricultural Research Institute in the United States where there is, of course, a very large quantity of cotton seed, every season.

One ton of Cotton Seed (2,000 lbs.) contains:

Antonia	75 lbs.
Phosphoric acid	30 lbs.
Potash	45 lbs.
One ton of Cotton Seed meal (2,000 lbs.) contains:	
Antonia	170 lbs.
Phosphoric acid	50 lbs.
Potash	30 lbs.
One of Cotton Seed hull ash (2,000 lbs.) contains:	
Phosphoric acid	181.5 lbs.
Potash	468 lbs.
Lime	170 lbs.
Magnesia	150 lbs.

From the feeding value point of view, the analysis is even more interesting through the comparison with maize products.

The relative figures are—

Cotton Seed	Meal
100	100
Water	9.92% 13.0%
Lab	1.4%
Protein	19.38% 8.2%
Fibre	22.97% 1.9%
Carbohydrates	38.64% 68.7%
Fat	18.43% 3.8%

The feeding value of one ton of—

HEALTH

HERE is spiritual health for you, here at last is a tonic that will really conquer weakness of body and nerves—Sanatogen.

Vigour, radiant vitality—the very elements in Sanatogen consist of these. With Sanatogen you drink in new health. You give your vitality impetus day by day your troubles diminish and a new new life goes through your veins.

The feeling of youth returns, for youth is not a matter of years, it is a matter of health. Life again becomes a thing of joy—again will be that tired feeling.

It is recommended for General Debility, Nervousness, Sleeplessness, Loss of Vitality, Loss of Appetite, Anæmia.

SANATOGEN
 The True Tonic-Food
 Obtainable at all Chemists and Grocers

and irritability, that sleeplessness and anæmia. A few weeks and you will be full of vigour and glow with health.

Every Chemist and Storekeeper sells Sanatogen. Buy a package today, then you will soon enjoy the priceless pleasures of youthful vigour and radiant health.

Sanatogen has been recommended in writing by over 25,000 physicians because it is a scientifically reliable tonic food.

Being a food and in no way a drug it cannot possibly do harm, but must do you good.

CORRESPONDENCE.

The Editor does not accept responsibility for the views expressed by his correspondents in the columns and in all cases the name and address of the writer must be given and the article necessarily for publication but a guarantee of good faith, if necessary, is also demanded.

AGRICULTURAL FINANCE.

To the Editor, "E.A. Standard." Sir—Your leading article concerning the situation of Agricultural Finance should do much to direct serious attention to the most urgent problem Kenya has to face.

It is not only a matter of producing a solution of the problem of income credit or has the Government to take the most far-reaching steps and the general of the existing agricultural finance which should dominate the policy in Kenya today.

Let me recall some of the objections generally advanced. We are told, for instance, that a fallacious tradition to history, that well-entrenched economic institutions...

It is a matter of producing a solution of the problem of income credit or has the Government to take the most far-reaching steps and the general of the existing agricultural finance which should dominate the policy in Kenya today.

MARKETING OF LOCAL PRODUCTS. To the Editor, "E.A. Standard." Sir—In your issue of the 27th March, the Agricultural Commission, one of the chief recommendations at the present time is a drastic alteration in marketing methods.

It is a matter of producing a solution of the problem of income credit or has the Government to take the most far-reaching steps and the general of the existing agricultural finance which should dominate the policy in Kenya today.

THE WORK OF THE CHURCH IN KENYA. To the Editor, "E.A. Standard." Sir—In your column to-day under the heading of "The Work of the Church in Kenya," Archdeacon Law calls attention to the spiritual needs of our people and tries to explain it.

It is a matter of producing a solution of the problem of income credit or has the Government to take the most far-reaching steps and the general of the existing agricultural finance which should dominate the policy in Kenya today.

supplied the world. I have spent many years in asking the question, not only in Kenya but in other parts of the world, and I venture to say that I have never dispute that the spiritual need of our people overseas has never been so great as the day.

It is not only a matter of producing a solution of the problem of income credit or has the Government to take the most far-reaching steps and the general of the existing agricultural finance which should dominate the policy in Kenya today.

It is a matter of producing a solution of the problem of income credit or has the Government to take the most far-reaching steps and the general of the existing agricultural finance which should dominate the policy in Kenya today.

Gratuanted Poll Tax Bill in Uganda

POSITION BY THE CHAMBERS

Appeal to Joint E.A. Board

NO NECESSITY FOR FURTHER TAXATION AT PRESENT TIME.

proposals by the Uganda Government to introduce a new Native Graduanted Poll Tax Bill based upon the Ordinance in force in Kenya, is meeting with a good deal of opposition, chiefly on the grounds that there is no necessity for further taxation at the present time.

A meeting of the Uganda Chamber of Commerce, held at Kampala last Monday last, considered memoranda prepared by a sub-committee of the Chamber and by the Eastern Province Chamber. It was decided that resolutions of protest against the Bill be tabled to the Joint East African Board.

Government contention that the distribution of taxation between native and non-native is unfair, is strongly denied by the Chambers, who both suggest that a proper investigation be made into the subject, by a commission or committee.

Various details of the Bill are the subjects of criticism particularly the proposal that civil servants' housing allowances be to be deducted from the taxable income. It is suggested that this provision should be withdrawn, or extended to embrace housing allowances of employees of private firms.

The Surplus Balance.

Kampala, April 10. A meeting was held at the Uganda Chamber of Commerce yesterday morning to discuss the Non-Voting (Graduated) Bill. The chairman of the meeting was quite a little emphatic and in addition to the views of the Chamber representative of the Uganda Native Association were present.

The report of the sub-committee was presented and read by the chairman. He said that the Uganda Chamber of Commerce had not the least intention of opposing the Bill. The report of the sub-committee was read by the chairman, Messrs. P. L. Weston and G. D. T. T. were asked to discuss the Bill on their own behalf.

The report of the sub-committee was read by the chairman. He said that the Uganda Chamber of Commerce had not the least intention of opposing the Bill. The report of the sub-committee was read by the chairman, Messrs. P. L. Weston and G. D. T. T. were asked to discuss the Bill on their own behalf.

The resolutions.

The following resolutions were passed by the meeting:— "That in the opinion of this Chamber, it is not necessary for further taxation, on the contrary, it should be taken to reduce the tax."

It is also recommended in the memorandum that in order to secure arrears, it should be provided that a person could not leave the Protectorate without paying the tax.

Eastern Province Chamber.

The memorandum submitted by the Eastern Province Chamber of Commerce was a lengthy document covering a number of points of contention.

It is pointed out that two reasons were advanced by Government for the unfair distribution of direct taxation, a fall in the native and raising additional revenue.

It is pointed out that the Government has not proved that its proposal is necessary to pay its share of taxation. It is pointed out that it is not necessary to pay its share of taxation. It is pointed out that it is not necessary to pay its share of taxation.

PROFESSOR WIRTS EXPLANATION

Magnetics Against Reservoir.

DINNER PARTY INCIDENT.

Complete Details by Their Counsel.

[REPROCESSED NEWS' ASSOCIATION]

Washington, April 10. The allegations made by Dr. Wirt were generally disposed of today when Dr. Wirt, in the presence of a large crowd of spectators with anticipation, testified before the Congressional Investigative Committee at a dinner party, he said, Mrs. Knowland, an economist of the Agricultural Department, quoted Professor Turgill, the Executive Secretary of Agriculture, as saying "If we begin to plan nationally we must change our methods for our statistics and our statistics."

Professor Turgill denied that he knew Mrs. Knowland who denied that she had made any such comment.

BOOMB OUTRAGE IN SPAIN

[REPROCESSED NEWS' ASSOCIATION]

Madrid, April 10. Three shots were fired at a dance party held at the Hotel Ritz last night. The fatal shot killed a woman and another woman was severely injured. The police are investigating the case.

BRITAIN'S SUBSTANTIAL OBTENTION

[REPROCESSED NEWS' ASSOCIATION]

April 10. The Bureau of Government Conference meets in Geneva this afternoon and will probably adjourn to a later date after submitting the General Commission of the Conference on May 20.

THE BRAIN TRUST

On March 25 Professor Wirt said that he had been informed by members of President Roosevelt's "Brain Trust" that they were aiming to overthrow the existing social order and to replace it by a new order.

A GREAT LOSS TO THE EMPIRE

Counsel in Southern Abyssinia.

MAJOR A. T. MILES D.E.O.

Death in a London Nursing Home.

[REPROCESSED NEWS' ASSOCIATION]

The death occurred on Tuesday of Major Arthur Tremayne Miles, D.S.O., O.B.E., M.C. He was H.R.M. Counsel for Southern Abyssinia and was a representative of the British Empire.

LEGIION OF HONOUR.

Grand Cross for Retiring British Ambassador.

[REPROCESSED NEWS' ASSOCIATION]

London, April 11. Lord Tyrrell, the retiring British Ambassador in Paris, yesterday received from the President of the French Republic, M. Laroze, the rare distinction of the Grand Cross of the Legion of Honour in recognition of his services in the position of French-English Ambassador.

WORK IN ABYSSINIA.

Major Miles' acquaintance with Southern Abyssinia began in 1925 when he was appointed as Consul for the King of Abyssinia. Much of the work that he did, he was confident to devote his energy and the Foreign Office, but it was rewarded in 1928 with the rank of Major in the Territorial Army.

MR. BORN'S VIEWS.

Mr. Anthony Eden presented a bill on social services to the House of Commons last night. He said it was a bill and reasonable compromise which he said was in the interest of the people.

AIR MAIL DELAY.

The Imperial Airways Service was delayed yesterday owing to a strike by the staff. The aircraft were held up at the London Airport.

THE GREAT WAR.

With the war began the glorious adventures of the late Captain Frederick Tremayne Miles, the 8th Hussars Major Miles, died on the 2nd of July 1915 in the East African Mounted Rifles serving with the 1st East African Mounted Rifles.

TRAIN WRECKING IN AUSTRIA.

Rails Deliberately Removed.

Prison Fined.

INTERNATIONAL EXPLOSION DETAILLED.

[REPROCESSED NEWS' ASSOCIATION]

A train was killed April 10 people, mostly postal officers, were seriously injured in the demolition of the international express from Vienna to Paris at a station near Innsbruck. The rails had been deliberately removed over a distance of 30 feet.

LEGION OF HONOUR.

Grand Cross for Retiring British Ambassador.

[REPROCESSED NEWS' ASSOCIATION]

London, April 11. Lord Tyrrell, the retiring British Ambassador in Paris, yesterday received from the President of the French Republic, M. Laroze, the rare distinction of the Grand Cross of the Legion of Honour in recognition of his services in the position of French-English Ambassador.

AN AMBASSADOR'S DEATH.

[REPROCESSED NEWS' ASSOCIATION]

London, April 10. Admiral Sir Arthur Hays Miles, whose death was reported yesterday, died on April 7 and was buried on April 7. It will be recalled that news of his death was not to be published until after his funeral.

Indian Government and Gandhi.

RELEASE OF CIVIL RESISTERS EXPECTED.

A Responsive Gesture.

It is expected that in return for Gandhi's appeal for a responsive gesture to his statement of civil disobedience, Government will gradually release all civil disobedience prisoners.

It is expected that in return for Gandhi's appeal for a responsive gesture to his statement of civil disobedience, Government will gradually release all civil disobedience prisoners.

It is expected that in return for Gandhi's appeal for a responsive gesture to his statement of civil disobedience, Government will gradually release all civil disobedience prisoners.

BAN TO BE LIFTED.

[REPROCESSED NEWS' ASSOCIATION]

London, April 10. The gradual release of all civil disobedience prisoners, except those convicted for sedition, is expected to follow Gandhi's statement that he would advise all Congressmen to suspend civil resistance for a year as a distinguished from specific grievances and he also would be the sole civil resister.

THE GRADUATED POLL TAX BILL IN UGANDA.

(Continued from page 1).

An enquiry by Government into the incidence of taxation is recommended.

The Budget Balance.
In regard to the suggested and for raising additional revenue, the memorandum states that the financial position of the Protectorate is sound and that the maintenance of budget position for 1934 could and should be corrected by economy.
It is emphasized that the Protectorate has accumulated certain surplus balances, and in view of the depressed view that depressed conditions will not be of such longer duration, a small proportion of these surplus balances could be used for balancing the budget this year.
The sub-committee however, is of the view that the use of these balances would not be necessary in view of the good cotton crop and better prices.

Liability for Tax.
Proceeding, the memorandum states that special provisions are made clear and sets for enlightenment of the taxpayer.
The sub-committee desires information as to whether taxation becomes liability for taxation in the event of a change of ownership or payment of claims for insurance.

BOVREIL LTD.

Increased Sales During Last Year.

The thirty-seventh annual general meeting of Bovreil, Limited, was held on March 5, at the Hotel, Nairobi, Kenya Colony, London, E.C.

Lord Leith, B.E.C. (Chairman) who presided, said that Bovreil sales for 1933 exceeded those of 1932.

Mr. James Christie, B.E.C., in proposing the re-election of the directors, said that Bovreil was a subsidiary at Glenashield they used to stand over to a place called the 'Judo' estate to make of a delightful suburban estate named 'Abold' but 'Abold' term had recently vanished from the scene, having been supplanted by Bovreil. It had long partaking of Bovreil for 25 years and turned it to day with undiminished spirit and a growing reputation of its merits.

They were all familiar with the latest properties of Bovreil, with its power of outlasting in agriculture and body-building in its own respect and by promoting the assimilation of other foods. It promptly stimulated the functions of the stomach and was, therefore, an available remedy in cases of shock, collapse, exhaustion and extreme debility.

Apart from its helpfulness in shock and collapse, a Bovreil treatment in the motor-car might be serviceable in other ways. Every motor driver sometimes experiences a 'stitch' or a 'stomach' which no doubt a little alcohol would dissipate but it did so at the price of some slight diminution of attention, which he felt afterwards, and a sense of strain. But a cup of warm Bovreil fortified and made for prompt recovery and prevention of action. It would not, as it was said of a small quantity of alcohol, produce the application of the brake by the fifth of a second—a very minute part of time, but sometimes of vital consequence.

This was no time for chattering as regards food. They were just emerging from a prolonged economic strait that had imperiled the health of millions. It was, therefore, a time for building up the health of the people, and in that Bovreil might play a very useful part.

The Royal Agricultural and Horticultural Society of Kenya.

Notice of Special General Meeting.

NOTICE is hereby given that a Special General Meeting of the Members of the Royal Agricultural and Horticultural Society of Kenya will be held at the Hotel, Nairobi, at 4 p.m. on THURSDAY, April 26th, 1934, for the purpose of dealing with the following agenda:

M. F. HILL, Secretary.
AGENDA.

- To consider, and if approved, to pass the following Resolution—
That the Rule 4 of the Constitution and Rules of the Royal Agricultural and Horticultural Society be and hereby be amended and that the following Rule be substituted in place thereof.
Members of the Society shall be persons, partnership firms, and corporations (excluding heretofore provided) and shall be of five classes, namely: Life Members, Full Members, District Members, Associate Members and Honorary Members.
Life Members are those persons, partnership firms, or corporations elected as such for periods of 10 years.
Full Members are those persons, partnership firms, or corporations who pay an annual subscription of Shs. 20/-, provided always that no person, partnership firm or corporation may be a member of any of the Society's districts as defined in Rule 8, unless he, she or they are ordinarily resident therein.
Associate Members are those persons, partnership firms, or corporations, who pay an annual subscription of Shs. 10/-.
The Council may in its discretion nominate persons for election as Honorary Members at the next following Annual General Meeting.

- To consider, and if approved, to pass the following Resolution—
That the following addition be made to Rule 8 of the Rules and Constitution of the Royal Agricultural and Horticultural Society of Kenya—
"The privileges of Associate Members shall be as follows:—
(a) They shall receive one Member's Vote for all Agricultural Shows organized by the Society in the District of the District of the Society (as defined in Rule 8) within which they are ordinarily resident.
(b) They shall pay fees at any reduced rate which may be fixed by the Exhibition or Farm Law Stock (except Horses) or of Farm Produce, at all Agricultural Shows, organized by the Society in the District of the Society (as defined in Rule 8) within which they are ordinarily resident.
(c) They shall have free access to and use of any records which the Society may collect for the information of its Members.
(d) They shall have the right to vote at the District Annual Meeting of the Society's District (as defined in Rule 8) within which they are ordinarily resident."
To consider, and if approved, to pass the following resolution—
That the following sentence shall be added to Rule 9 of the Rules and Constitution of the Royal Agricultural and Horticultural Society of Kenya.
"The Director of Agriculture shall be a Member of the Council, ex-officio and an Honorary Member of the Society."

THE 1934 BUICK IS HERE—!

Many things about the 1934 Buick you already know—its traditional reliability, traditional surpluses. One power plant (this year even more powerful, more efficient). But new surprises await you. A ride reveals them.

First, there is the almost unbelievable ease with which the new Buick rides. Two distinct sets of springs on the front wheels miraculously smooth the road. The wheels take the bumps done—the passenger rides in comfort.

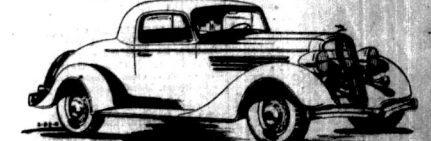

Another surprise—no annoying sideways of the body as you round a turn. The rear end is cross-stabilized, the body stays vertical.

There are surprises for the driver, too. The engine starts automatically at his first touch of the accelerator. Steering is amazingly easy. Power brakes operate with almost unbelievable ease and smoothness. The engine automatically regulates its own choke and cold idling speed and delivers more power than before.

All this is new in the 1934 Buick. And with it the comfort of no-draft ventilation, the luxury of increased space, beautiful upholstery and appointments, bodies insulated against heat, cold and sound. So now for a ride—the car is waiting at our showrooms. See it and ride in it without obligation.

RIDING—Independent front wheel suspension "levels the road." No-draft ventilation controls the air you breathe — More legroom—greater comfort — Cross stabilizer prevents sideways and rolling — Resterless Bodies by Fisher—fully insulated against heat and sound.

DRIVING—Choke, manifold heat and idling automatically regulated — Engine starts when you press accelerator — Steering is 20 per cent. easier — Increased Power — Power Brakes.

MUNICIPAL COUNCIL OF NAIROBI.

Town Planning and Development Ordinance, 1931. Regulations, 1931.

BAZAAR AREA NOTICE IS HEREBY GIVEN that the Municipal Council of Nairobi at a Meeting held on the twenty-seventh day of March, 1934, passed the following resolution—

RESOLVED—That the Council in pursuance of the provisions of Section 2 of the Town Planning and Development Ordinance, 1931, and of Section 3 of the Town Planning (Procedure) Regulations, 1931, do hereby direct to prepare a Town Planning Scheme with reference to an area situated wholly within the Municipality of Nairobi and enclosed within the inner edge of a blue border on a Map now produced by the Council and certified by the Municipal Engineer under No. 18, as contemplated, to be held on the twenty-seventh day of March, 1934, as Map No. 1, relating to the area known as the Bazaar Area.

AND NOTICE IS HEREBY FURTHER GIVEN that the Map No. 1 referred to in the above resolution has been deposited at the Municipal Offices, Government Buildings, Nairobi, and is open for inspection by all persons interested without payment and may be seen between the hours of 9 a.m. and 4 p.m., on Monday to Friday inclusive, and on Saturdays between 9 a.m. and 12 noon, holidays excepted for a period of TWENTY-ONE days from the thirty-first day of March, 1934.

Any suggestions for the inclusion or exclusion of lands or any from the area of the proposed scheme may be sent in writing to the Municipal Council before the twenty-eighth day of April, 1934.

Dated this twenty-eighth day of March, 1934.

F. S. ECKERSLEY, Town Clerk.

Nairobi Hebrew Congregation.

NOTICE is hereby given that an extraordinary general meeting will be held in the Board Room of the Empire Theatre, Nairobi, at 10 a.m., on Sunday the 15th April, 1934.

CORRESPONDENCE.

The Editor does not accept responsibility for the opinions expressed by his correspondents in these columns and in all cases the name and address of the writer should be given so that we may send a return letter, and, if necessary, publish the same, but as a guarantee of good faith, brevity is our essential condition.

Cotton Seed.
AS AN ILLUSTRATION OF MONETARY POLICY.

To the Editor, "E.A. Standard."
Sir—It is evident from the statement of the Acting General Manager of the Railway that the cotton seed has been made the responsible party for the shortage of the Railway. This is a most unfortunate error. It is not the cotton seed which is the cause of the shortage, but the fact that the cotton seed is a commodity which is in demand by all the States of the Union, and the fact that the cotton seed is a commodity which is in demand by all the States of the Union, and the fact that the cotton seed is a commodity which is in demand by all the States of the Union.

the sterling reserves of Kenya and Uganda. It is not the cotton seed which is the cause of the shortage, but the fact that the cotton seed is a commodity which is in demand by all the States of the Union, and the fact that the cotton seed is a commodity which is in demand by all the States of the Union, and the fact that the cotton seed is a commodity which is in demand by all the States of the Union.

success of the Kenya and Uganda Railway; if it is the case that the existing rate merely covers "coal and oil" costs we are already subsidizing to the extent of the proportion of capital charges. Administrative costs etc. which are fairly applicable.

I personally doubt if the suggested margin of Shs. 275 would cover the case. When I examined the prospectus four months ago, I was advised that Shs. 275 was the minimum subsidy required, the total sum to be repaid in 10 years, and according to distance from ginsery to rail transport, it will be more from this that a flat reduction of railway would not meet the position, as this would result in those nearest rail making an extra profit while those beyond a certain distance would still be unable to export.

The Railway being permitted to charge higher rates when prices were good, under an agreement to place the surplus to a reserve fund to be used for subsidizing when prices were low as at present, assistance could be given from this fund in the way to the extent of the amount in reserve, but this proposition when made some time ago met with a very cold reception in this class of traffic.

Yours etc.
E. A. WOOD.
April 9, 1934.

from a few hundredweights of the present rate in each case.
In East Africa I consider a similar thing could be done and to such goods as maize or Kenya would probably absorb most of the profit (this low-protection) produce and the cotton seed of all ways pays for shipment.

Yours etc.
ANOLD BEADLEY.
April 10, 1934.

TRAFFIC SIGNALS.
To the Editor, "E.A. Standard."
Sir—A driver wishing to turn right should signal his intention in good time so following traffic turn when the passage is clear. All following traffic owes him on his left hand side. This is the correct procedure whether in traffic or not.

Yours etc.
"SIGNAL."

GUARANTEED THE LARGEST CIRCULATION OF ANY NEWSPAPER IN KENYA, UGANDA, TANGANYIKA AND ZANZIBAR.

NAIROBI, FRIDAY, APRIL 13, 1934.

Provisions of the New Road Traffic Bill.

SECOND READING PASSED WITHOUT DIVISION

Appalling Accident Figures.

FOUR PEOPLE KILLED A DAY IN THE METROPOLITAN AREA ALONE.

Concomitantly with the introduction of the Government's new Road Traffic Bill which passed its Second Reading in the House of Commons on Tuesday, the Home Office has published a return of road accidents for 1933.

These figures, which yearly show a marked increase, reveal a truly appalling state of affairs. Over 7,000 people were killed in road accidents last year, and over 200,000 were injured, the highest numbers yet recorded since the statistics were first compiled in 1876.

new Bill does not affect motorists alone, motor cyclists, pedal cyclists and pedestrians have all to contend with the new legislation and drastic penalties will be enforced.

Great changes are also to be made in the law governing third-party risks. Injured persons will no longer have to prove that the insurance company is liable. The law will be simplified and the procedure in such cases will be made easier.

Insurance Charges.

It is proposed to mark out the new Bill in the House of Commons, as possible, approximately 250 evenings. The majority sit in Westminster, others are at Holloway, Putney, St. George's, and Poplar. Among the institutions are the Grand Hotel, Piccadilly, Strand, Pall Mall, Whitehall, Trafalgar, Whitechapel, Kingsway, High Street, Whitechapel, High Street and Whitechapel. The most important is attached by the Ministry of Transport to the provisions in the Bill relating to compulsory driving and infringements of the speed limit.

Driving Tests.

Convictions for exceeding the speed limit or for careless driving will be entered on a driver's license. A person convicted of such an offence will be disqualified for a month in the case of the first conviction, or for a longer period in the case of a second conviction. The nature of the offence will be stated on the license. It has not yet been prescribed, but it is understood that the Minister of Transport will be empowered to issue a license to a person who has not yet been convicted of such an offence, but who is deemed to be a competent driver.

The Speed Limit.

A degree of elasticity is introduced into the provisions for the new speed limit of 30 miles an hour which is to operate in urban areas. The Bill allows that in any particular area street-lighting is insufficient for the purpose of the speed limit, the limit may be raised to 40 miles an hour, or to 50 miles an hour in the case of roads which are not subject to the speed limit.

Further Measures.

For example, there is to be a new scheme for the control of motor cars, designed to limit the number of cars which may be used in any particular area.

DEATH OF TWO BRITISH ARTISTS

A Painter of Pictures

By JOHN COLLIER, R.A.

(Two men were arrested.) London, April 11.—The death in an automobile of two British painters, they are the Hon. John Collier and Mr. George Spencer Watson, R.A.

The Hon. John Collier was the second son of the Robert Collier, afterwards Lord Monkswell. Born in 1890, he was educated at the Slade School of Art at the Paris and London. A typical artist of his old school, he is now the Hon. John Collier was not a great deal in the sentence that can be put in his mouth. He was not a great deal in the sentence that can be put in his mouth. He was not a great deal in the sentence that can be put in his mouth.

ETHER IN PIGS' BLADDERS

Curious Explosion in Germany

By HARRY COLLIER, R.A.

(Two men were arrested.) Berlin, April 12.—Eight people were killed and seven seriously injured in an explosion caused by ether in pig bladders which had been put in a lonely farmstead at Kutzenberg near the German-Polish frontier while they were filling pig bladders with ether and methylated spirits.

One of the bladders caught fire, causing an explosion which set fire to the house and blew off the roof. The farmer's five children and his mother-in-law and a Polish smuggler were killed instantly. The farmer and his wife and five daughters were seriously injured, the latter despite their injuries received in the explosion, one of his daughters, aged 16, died of her injuries at the hospital.

CLOSE OF DUKA MURDER TRIAL

Two Natives Corroborated of Crime

THIRD ACQUITTED.

Further Corroborative Charge Pending. The last of the Crown witnesses heard yesterday morning in the Thika murder trial was the long-eared witness, the late Mr. Justice Horne and the three Native witnesses.

In the re-examination, Kabira wa Munda, the first witness called on Wednesday, suggested that the reason why Karoki offered him his clothes was that Karoki was afraid he might be identified if he continued to wear them. Witness did not say that he expected that they were stolen property. Karoki wa Nyaga, said he saw the clothes in the house of his brother, Nanya, sometime last year. He was asked to describe them. One of them was the second shirt, Nanya wa Munda. Karoki and Nanya left early the following morning after spending the night at the house of the other two men. Kabira, left before the other two men got to sleep.

ELECTRIC GRID SYSTEM.

Five Years' Work Now Completed.

By HARRY COLLIER, R.A.

(Two men were arrested.) London, April 12.—The national electric grid system, which has been under construction for five years, is now complete. The transition from the construction phase of the Central Electricity Board's activities to the general trading is marked in their annual report which claims that during the trade depression electricity has contributed to higher competitive efficiency in British industry.

The report records an increase of 10 per cent in the output of electricity from public supply systems in Britain in 1933, which year there was an increase of seven per cent over the previous year. World Output. During 1933-34, an increase in the world output of electricity was under five per cent. In 1937 about 25 per cent of the generation in Britain was taking supply of electricity. Last year this figure had been raised to 40 per cent and there is reason to believe that within a shorter period this rate of progress will be repeated.

To Control Incitement to Disaffection.

ALLEGIANCE AND DUTY OF HIS MAJESTY'S FORCES

Changes in the Law.

By HARRY COLLIER, R.A.

In the future it will be an offence even to be in possession of documents which would be likely to seduce members of His Majesty's Forces from their duty and allegiance. A number of changes in the law concerning incitement to disaffection are proposed in the Bill to be introduced into the House of Commons by the Attorney-General, "to make better provision for the prevention and punishment of offences being committed. Despite congestion of business, the Government hope to start the bill during the present session. The bill provides also that in future it will be an offence to possess documents likely to seduce members of the Forces, while powers similar to those already possessed in respect of obscene literature will be given to magistrates to grant search warrants for suspected premises, where it is reasonably suspected that an offence is being committed. The Government hope to start the bill during the present session.

Waterless Farms Along Wharf of Nile.

By HARRY COLLIER, R.A.

Waterless farms are to be built along the wharf of the Nile. The Government are planning to build a series of waterless farms along the wharf of the Nile. The Government are planning to build a series of waterless farms along the wharf of the Nile. The Government are planning to build a series of waterless farms along the wharf of the Nile.

BRITISH CRETONNE - FOR - KENYA HOMES 1934 DESIGNS

THIRD ACCUSED ACQUITTED.

The statements which the three accused had made to the District Officer, Thika, during the preliminary hearing, were then put in evidence. Mr. Malik then submitted that the evidence was insufficient to justify a conviction. The court acquitted the third accused.

THE DEFENCE.

There were no witnesses for the defence, and both accused made statements from the dock. The defence counsel, Mr. Malik, then submitted that the evidence was insufficient to justify a conviction. The court acquitted the third accused.

THE OUT EXPLAINED.

He went on to explain how he received the call on his wife. He said that while he was on his way to the court, he received a call from his wife. He said that while he was on his way to the court, he received a call from his wife.

22 Miles Without Oil.

SEVERE TEST

by TECHNICAL COMMITTEE OF

Royal E. A. Automobile Association provides proof of Superiority

OF

GERM OILS

OBJECT OF TEST—

To establish that a car can, after using a standard grade of "Germ Oil," run a considerable distance after all the oil has been taken from the engine sump.

Special Features of Test—

- 1. No upper cylinder lubricant was used.
2. Sump of engine was removed before test to drain of all oil.
3. Car was driven by members of committee at speeds varying between 20 and 25 miles per hour.
4. Car started four people riding in weight 47 stones (300 lbs.).
5. Car had covered 22,000 miles.

INCREASED "OILINESS" MEANS

Less friction, Increased power, Lower fuel consumption, Fewer repair bills, Less wear and tear, Easy starting always and A MARGIN OF SAFETY unequalled by other oils.

GERM OILS

RETAIL PRICE COMPETITIVE WITH ALL OTHER OILS.

RETAINS LUBRICATING QUALITIES LONGER THAN OTHER OILS.

"A British Success OF WHICH ALL MAY WELL BE PROUD"

That is what the "Owner User" means when the Well-to-do motorists praise increasing "OILINESS" of lubricating was invented.

Without Like or Equal

"THE OIL THAT NEVER LEAVES THE BEARINGS"

GERM LUBRICANTS LTD. ENGLAND.

Sole Agents for EASTERN AFRICA—

THE STANDARD MOTOR OIL OF AERO QUALITY.

KENNEL NOTES

By Margaret Collyer

Mrs Collyer, OBE, to whom all correspondence in connection with 'Kennel Notes' should be addressed, does not hold herself responsible for accuracy of statements made by her writers, or, in the main, based on information supplied by her correspondents.

Mr. Alanwyn Pugh, of Old Java in the morning 1 Monday, and took writes that he has had a dog named from England and pedigree pedigree the first five, which, unfortunately, one dog and two litters. The dog, a brindle, whose pedigree I have to my, is a smart looking fellow and should be smart to improve the breed. He is now one year and three months, all and is over Jack. He is registered with the B.I.C. in Victoria under the name of "Beryl" (a female) "Harley Blang" (a male) "Maggie Condon" (a female) "Sylvia Lady Lark". The breeders are nearly a year old and are half sires one brindle, the other black and tan. Beryl's litter is "Peter the Dinosaur" (a male) "Barbara Bernice London" (a female) "St. Dunstan Lark" (a male) "Peter the Dinosaur" (a male) "Michael" (a female) "Lark" (a male) "Woodborough Swamp" (a male) "Queen" (a female) "Barbara Viton" is by the same sire as "Jack" and "Sarah Thang" (a female) "Howard Butler" (a male) "Lark" (a male) "Star Conson" (a female) "C. H. Headman" (a male) "Blair" by "Galasia" (a female) "C. Howland's Wild Rose".

The "Transvaal" room is the black and tan bitch but the pedigree sent me are not marked. I am sure you had to write the names correctly but the copies of the pedigree are written, think the pedigree are and are very far removed from clear.

My friend Friday does not tell me whether his dog "Barbara Blang" is to be placed of public and these breeders writing me has him must write direct to owner and inquire about him. I strongly advise you to newly imported dog as soon as possible in case of any trouble as to consigning the new blood into the Colony. I am very glad to hear that anywhere in favour of the breed and there seems to be a ready sale for them in general with the aim here.

The letter from Mrs. Blundell thanking me for writing of Kerry Blundell, Mrs. S. A. Kerry, whom I had told Mrs. Blundell that it should not ask less for her pups than 20 and 25 sh. In this Colony I lose no puppy, however good or bad would be considered. I have no dog, and nothing to be made out of prize money offered at them Mrs. Blundell quite realizes this and suggests asking 25 sh. for a puppy, and 20 for a bitch, which is a good working price and will hurt nobody. I had thought you had passed in Springs, but I am completely heavy for the current month is also anticipated.

A Record Month. When the list for the month closed it had reached the record total of 4,110,985, the largest for any single month in the history of the breed. The previous record month was October last year when the total estimated value of the plans passed was 4,700,000.

Effect of Continued Drought. The continuation of the drought is doing very considerable damage to coffee, crop expectations throughout the district. The few months experience of the drought has caused the coffee trees on many plantations to flower heavily and the blighting of new dropping off unfertilized. Out some of the bigger coffee estates have lost half a ton of crop. expectation a day are calculated. The last few days have looked more promising for rain.

No Trace. The Anglo Baltic Timber Co., Ltd., of 20, St. James' Place, London, has been informed by the Resident Magistrate, Nairobi, on Tuesday for failing to have two efficient braking systems on a motor-car belonging to them. It was stated by the court that the lorry was driven by a native while being driven by a native while being driven by a native while being driven by a native.

Robber. The driver of the lorry was then fined Sh. 5/- for not possessing a Sh. 5/- driving licence. He was further charged with failing to take a certificate of competency. The driver of the lorry was then fined Sh. 5/- for not possessing a Sh. 5/- driving licence. He was further charged with failing to take a certificate of competency.

Robber Stamp Pads. The driver of the lorry was then fined Sh. 5/- for not possessing a Sh. 5/- driving licence. He was further charged with failing to take a certificate of competency.

A Recipe for next week

A Question You Cannot Answer. The old saying 'I can believe my own eyes' ought to be forgotten. Eyes often play tricks. One eye may be doing the work of two, yet you seem to be seeing clearly—until the over-worked eye lets you down.

Sometimes, by constant straining, you can actually force defective eyes to see fairly well. But sight at such a cost is dangerously misleading. Your optician cannot answer the vitally important question 'How do you see?' The answer can only be given after your eyes have been carefully examined by an optician specially trained for such work and thoroughly experienced.

There's no excuse nowadays for serving Sunday's roast cold on Monday. Make it into a tasty Shepherd's Pie with the aid of Bisto. Mince the meat and onion together and mash the potatoes. Fathead and onion in the pie-dish, mix a desert-spoonful of Bisto with warm water, add to the meat and stir well. Cover the whole with the potatoes smoothing neatly with a fork and place in a moderately hot oven until nicely browned. You'll find it delicious.

COOK WITH BISTO

Today's Trains. The following trains are due to leave Nairobi today: 9.45 a.m. for Nairobi, 10.30 a.m. for Nakuru and Kisumu, 4.15 p.m. for Mombasa and Zomba. From skyways to highways comes the **AIRWHEEL TYRE!**

The world over more people ride on Goodyear Tyres than on any other make

FIRST built by Goodyear for aviation three years ago, this great super-soft AIRWHEEL TYRE was recently made available for motor cars.

Its success among motorists was instantaneous. They said it made riding like flying...like floating on air!

One glance will tell you why. It's just as soft as it looks... and it puts more cubic inches of cushioning air between you and the road than you ever rode on before.

Just for this luxurious featherbed softness that pillows all jolts and jars, many people are buying these big buoyant smooth-rolling cushions of rubber.

But don't overlook their other advantages. They increase the life of your car by absorbing shocks that vibrate right through ordinary tyres.

They increase safety, absorb side-sway on curves...by putting more of the famed road-gripping All-Weather Tread down on the road.

They steer just as easy, take no more petrol...and are simply the last word in style. You've no idea how easy it is to change over to them. See your Goodyear Dealer now.

The Locust Campaign in East Africa.

HOPPERS REPORTED FROM MANY AREAS.

Situation Well in Hand.

CONSIDERABLE DAMAGE TO CROPS AT THE COAST.

Not flying swarms and hoppers are reported from a large number of districts in East Africa, according to the Kenya and Tanganyika Departments of Agriculture. Urgent measures are, however, being taken to deal with the situation, which is well in hand, although further heavy hatching is expected in some areas during the next few weeks.

There has been some opposition by the natives in the Masai-Machakos area to the use of rumour of serious cattle losses. This opposition was overcome as a result of demonstrations carried out by the presence of certain chiefs, who agreed that there was no danger to cattle.

It being swarms in the coast area destroyed young maize and stripped banana trees. Little damage to crops has occurred elsewhere in East Africa.

Natives' Suspicion of Poison.

The following reports on the locust situation in East Africa have been received by the Kenya and Tanganyika Departments of Agriculture. The former report that between the April 12 and the latter April 7:

At it is anticipated that the hopper pest should be fairly easy to control, and at present they are being satisfactorily dealt with on European farms and the local Administrative Officers are devising ways with native areas.

It is reported that during the most recent flights from Kenya to Tanganyika, the hoppers were not so young and easily trapped, but at least the hopper plagues of the past few years were contained and bananas were not destroyed.

From the Val-Taveta region it is reported that flies are thick at the moment in Western Taveta, and that many are in the laying stage. Some of the earlier flies have hatched out, though emergency have been kept in a small state. The hoppers are being sprayed with DDT, and are being destroyed as they appear by beating and burning.

MAVIE OPPOSITION TO CROPS.

At Masai-Machakos AREA - As mentioned in my report of March 29, flies were reported to Masai-Machakos to investigate the whole position on the spot. The new report shows that buildings have taken place over a large area, notably in the vicinity of Malindi where several acres of hoppers have been reported. It is expected that further work will occur in this district during the next few days.

At Malindi - A large number of hoppers has been reported, and the Government has been organized as now in operation. In the event of the assistance and co-operation of the Government, the hoppers have been obtained and a European expert appointed to superintend the work.

At Kilim - Reports from Mr. Mowbray and Mr. Eddell. Building is being carried out in the vicinity of Kilim. It is expected that the hoppers will be completely suppressed or exterminated.

BRITAIN'S INDUSTRIES.

Increased Activity in Iron and Steel Works.

Small swarms of flies are still present in the Masai-Machakos area and hatching are taking place.

At Malindi - A large number of hoppers has been reported, and the Government has been organized as now in operation.

At Malindi - A large number of hoppers has been reported, and the Government has been organized as now in operation.

DISARMAMENT BUREAU.

The Guarantees of Execution.

Views of "The Times."

AWAITING AN EXPLANATION BY FRANCE.

Approval is expressed in England at the decision of the Bureau of the Disarmament Conference to allow a little more time before sending to Geneva for diplomatic conversations.

"The Times" thinks it would be folly to interrupt these Governmental exchanges just at a moment when a further note by the French Government may be expected to state precisely what is meant by guarantees of execution.

"The Times" says it can hardly be beyond question that guarantees will be signed by the British Government, which has already promised providing for limitation of armaments.

Other People's Quarrels.

"The proposal now being put forward by the Disarmament Conference is one which has not yet been decided by the Disarmament Conference in case any further steps are necessary.

It is reported that the hopper pest should be fairly easy to control, and at present they are being satisfactorily dealt with on European farms and the local Administrative Officers are devising ways with native areas.

THE EAST AFRICAN SPIRIT.

MILKER GETS SOME PIZZLING PRACTICE.

Victory on Points.

THE ROUNDERS CONTEST WITH FRENCHMAN.

Henry Milner, the light-weight champion, making his first appearance since his defeat by January Waleke, outplayed Edward Frenchman, a comparatively unknown Frenchman, over 10 rounds at the King-Milner proved an easy winner the foreigner having hardly anything to recommend him but guinness.

The contest had not gone to its second or two before January's face was looking lustrous from the striking licks dealt out by Milner, but the champion had a real awakening when he walked round to a right-handed punch which shook him and put his mouth.

Milner did not take any more for a few rounds after this, being content to keep his left hand in his opponent's face, and never went out to seize the target.

The Frenchman must have known what a hopeless task he had of getting past that right-like left, but the possibility came in that Milner tried roaring, swinging and kicking, but all to no effect. Milner took most of the feinting punches on his arms.

Champion's Lost Snag.

January was in a bad way in the fourth round, after being upped and bit, pushed in, and it is not clear though Milner was going to finish this man.

He forced January into his own corner and rained blows at the Milner, however, appeared to have lost the snap and dash he had for four months ago, and in the next round, instead of going out to finish his man, he seemed content to stall him off with his left.

A left hook delivered with the open glove, often found the way through Milner's defence, while in the sixth round January was successful with a right aimed to his jaw.

January made a dose-like attempt in the last two rounds, and although he caught Milner with two left hooks to the body in the sixth, he was well beaten.

RANELAGH POLO CLUB.

Fixtures for the Coming Season.

The Ranelagh Club has issued their provisional polo program for the coming season, which will open on May 1 and last till August 1.

Eleven tournaments will be played, in addition to the County Polo Week fixtures, which define the closing stages of the County Polo Association's three leading tournaments and a handicap tournament open to members of Ranelagh and of the C.P.A.

Another attraction during County Polo Week will be the semi-final and final ties of the tournament for the Skidders' Club Cup, at present held by the 11th Hussars.

There will be announced later for the annual matches between the Royal Navy and the Royal Air Force for the Duke of York's Challenge Cup, between Leeds and Cambridge for the Harrington Challenge Cup, and between a British team and an All-India team for the Vindicta Cup.

There is no change in the club's polo officials, Colonel T. P. Maxwell continuing as manager, Major H. Mason as his assistant, and Major S. G. H. Saunders as secretary.

The club's tournaments will be played on the following dates:—

- Cob's Challenge Cup—May 14-19
- Barnes Area Challenge Cup—May 21-26
- Junior Cob's Challenge Cup—May 28-June 2
- Ranelagh Handicap Challenge Cup—June 4-9
- Ranelagh Open Challenge Cup—June 11-16
- Ranelagh Novices' Challenge Cup—June 25-30
- Initiation Tournament (Blue-Jackets' Challenge Cup)—July 2-7
- Subalterns' Gold Challenge Cup (semi-finals and final)—July 9-14
- County Polo Week—July 9-14
- Northamptonshire Challenge Cup—July 16-21
- Hunt Challenge Cup—July 23-29
- Farwell Handicap Tournament—July 30-August 4.

INTER-VARSITY GOLF MATCH.

Oxford Deserve Their Win.

EXCITING PLAY ON SECOND DAY.

Barbarians Tour in Wales.

THREE VICTORIES.

[* STANDARD * CORRESPONDENT].
London, April 27.

The Barbarians of Eastern Rugby in a course of historic visits to South Wales tour continued Friday they opened against Penarth 4-0. One of the features of the tour team failed to break the opposition who had made them too many runs in this fixture and each-to-it. After about twenty minutes, the Barbarians broke away and found a fine movement by Cowey and D. L. Jones. Howell scored near the posts. Allen failed with the kick.

Within a few minutes, Howey scored a burst through the posts, and Ross in for a try, but the kick again failed. Howey's redoubt. Penarth's attack with a fine try before the interval. Ross's attempt to convert struck the upright and rebounded into play. Although Penarth made no more for them but held the scrum and tries were added by Mabele and Deane, both of which were converted by V. G. Jenkins.

On Saturday against Cardiff, the Barbarians were again victorious by 14-0 by the Barbarians, thirteen internationals from four countries were included in the Barbarians' side, but Cardiff kept their own unit stronger than the Barbarians burst which ended the game scoring, and they were off. In a strong Cardiff attack Owen Smith was upped and head.
