

Germany's Increased Defence Estimates.

OFFICIAL REPLY TO ENQUIRY NOW RECEIVED.

Under Consideration at the Foreign Office.

It will be recalled that at the beginning of the week Sir John Simon announced in the House of Commons that he had requested the British Ambassador at Berlin to make an official enquiry concerning Germany's increased Military Estimates.

John Simon has now received Germany's reply, the contents of which have not yet been made public. Indications in the German newspapers it is surmised that Germany will maintain that she is completely within her rights and will explain the increase as being merely to cover the cost of re-arms and renewals.

German Press Views.

Officially, the increase is a step towards the re-arming of the German Navy, Military and Air Armaments. It is estimated that the increase in the German Navy, Military and Air Armaments has been received at the Foreign Office and is under consideration by Sir John Simon who is likely to make a statement on the subject in the House of Commons on the earliest opportunity. The increase in the German Navy, Military and Air Armaments is estimated to be about 10 per cent.

HONG-KONG LOAN.

To be Redeemed This Year and Not in 1943.

Dr. Alkline Leading by Two Points.

The Crown Agents for the Colonies announce that the Hong Kong Government 10 per cent. secured stock 1918/1924, the amount of which is £4,485,750, will be repaid in full on October 15. This loan, which was first issued over 40 years ago should have remained outstanding until April 15, 1963, but the Government have decided to redeem their debt on the date of maturity on giving 50 cents per cent.

The loan will be repaid mainly out of sinking funds and accumulations—British Official Wireless Service.

SILVER AGREEMENT.

Notified by Spanish Cetes.

THE TORRES STRAITERS' AGREEMENT. Madrid, April 9. The Torres Strait Islands have signed the Torres Strait Islands Agreement reached at the Barcelona Conference in 1933.

THE GORI GOLDFIELDS.

Steady Progress in Development.

STOCK EXCHANGE. [STANDARD CORRESPONDENT].

It is understood that the study progress is being made in development of the Gori Goldfields. The study is being made by the Gori Goldfields Development Committee. The study is being made by the Gori Goldfields Development Committee. The study is being made by the Gori Goldfields Development Committee.

THE LEAGUE OF NATIONS.

Sir A. Chamberlain's Resignation. [STANDARD CORRESPONDENT].

"To Preserve Peace." IN ROYAL DISCUSSIONS. Appointment and Dismissal of Officers.

The amended and consolidated Royal Instructions have been issued for the appointment of officers in the League of Nations. The instructions are contained in the "East African Standard" relating to the appointment of a second member to represent native interests on the Legislative Council.

Class 30 of the Royal Instructions now consists of the following: "All Commission to be granted by the Governor to any person or persons for carrying out any office or employment unless otherwise provided by law, be granted subject to the approval of the Council of Officers."

THE BUDGET.

Special Cabinet Meeting on Monday.

At a special meeting of the Cabinet held Monday evening, the Hon. Mr. Chamberlain's speech in the House of Commons on the following day. Mr. Chamberlain's speech is expected to last about two hours and he has announced himself to the House during the last few days of his term of office.

In accordance with custom, the details are kept secret, even from his immediate Cabinet colleagues, until the day of the statement. The general belief among the members of the House of Commons is that the speech will be a masterpiece of statesmanship and will bring a new era of peace and stability to the world.

IRON AND STEEL TRADES.

Machines Arriving Next Week.

It is expected that the new machines arriving next week will be of great value to the iron and steel industry. The machines are expected to arrive from the United States and will be used in the production of iron and steel.

RATES OF EXCHANGE.

The following rates of exchange were announced by the National Bank of Kenya on April 14, 1934.

THE R.A.F. CRUISE.

Little Support for Amendments.

What has it to do with shoes?

Shoes, like buildings need good foundations. Otherwise they quickly sag and lose their original shape. The foundation of every K Shoe is the insole, cut in one piece from specially selected tough kangaroo leather. It takes all the stress and strain of walking and enables the shoe to keep smart and shapely after months of hard wear. That is why Maxwell Brady & Co. recommend K Shoes so strongly. They are wonderful value for money.

K Shoes—English made.

NAKURU WAR MEMORIAL HOSPITAL

Extensions During Past Year.

A DIFFICULT PERIOD.

Unfortunately the X-ray apparatus was damaged by lightning from England, but the lectures part was on order, and would soon be re-ported. The alterations to the hospital have been completed in a most satisfactory manner. The heavy expenses of construction in having to go to Nairobi. Approximately 800 lbs. have been added on instruments. Some were exceptionally, but many were of low kinds which had been stored. Among the operations which had been obtained was radiology, provided by Messrs. Miller and Board. The plan of the Board were expressed to the R.E.O., Dr. Charteris, and to the whole staff of the hospital. The plan of the Board was expressed to the R.E.O., Dr. Charteris, and to the whole staff of the hospital. The plan of the Board was expressed to the R.E.O., Dr. Charteris, and to the whole staff of the hospital.

Resignation.

The Chairman stated that both he and Mr. Cranwell had decided to resign from the Board, and then they would then transfer to the Board. The Board would then have to be elected. The Board would then have to be elected. The Board would then have to be elected. The Board would then have to be elected.

The Provincial Commissioner, Mr. Wally, suggested that he should resign. He pointed out that, owing to the administrative changes which had been made as a result of the economic programme, the Board had been reduced to a skeleton staff. It was felt that the Provincial Commissioner would be very great loss, and trusted that Mr. Wally would see to it that the Board would be re-elected.

The Year's Work.

The Chairman then reviewed the main points of interest of the past year. His comments on the financial position were as follows:

A NEW HORTICULTURAL SOCIETY.

Inspection Meeting at Kericho.

The meeting was held on Saturday, April 29, at Kericho. The meeting was held on Saturday, April 29, at Kericho. The meeting was held on Saturday, April 29, at Kericho.

THE YEAR'S WORK.

The Chairman then reviewed the main points of interest of the past year. His comments on the financial position were as follows: The meeting was held on Saturday, April 29, at Kericho. The meeting was held on Saturday, April 29, at Kericho.

THE CAR SUCCESS OF THE YEAR - AND WHY

Over 13,000 motorists have been content to wait weeks for delivery of this Light Six by Vauxhall. Even with nine months' day-and-night work the Vauxhall factory was not able to cope with the rush of orders. And now this ONE snag is vanished. Factory extensions costing over £500,000 now enable Vauxhall to meet the demand.

Control of Malaria in Mombasa. MARKED IMPROVEMENT DURING PAST YEAR.

Danger from the Mainland.

STEADY DECREASE IN CASES RECORDED AMONG EUROPEANS AND NATIVES.

The report on malaria in Mombasa issued by the Medical Officer of Health is an encouraging one. The year 1933 marked a definite improvement in both the incidence and control of malaria and there is every indication that this will be maintained in future years.

The greatest difficulty in carrying out anti-malarial measures is experienced on the Mainland. Measures on the Island itself are comparatively easy to carry out and consequently have been very largely successful. On the Mainland, however, considerable difficulties exist, and although the Island may be kept clear, it is always in danger from the Mainland whence mosquitoes are brought over in a number of ways, but usually by wind.

Report of the M.O.H.

Mombasa, April 10. In his annual report for 1933 the Medical Officer of Health for Mombasa deals at length with the subject of malaria and methods of control. The disease...

The subject of malaria is one which probably excites more interest than any other disease in this island. In fact, in fact, it is a disease which has been the subject of at least frequent attention since its social importance...

It is, therefore, a clear statement regarding the malaria in the Mombasa Municipality, the prevalence of which is not so great as it was in 1932, which is all the more necessary as many persons are rightly or wrongly led to judge of the health of a community by the degree of prevalence of malarial infection.

The fact that malaria is the most prevalent of all the diseases in the Island of Mombasa is a varying grade throughout the island. However, it is not necessarily true that the highest incidence of malaria is on the Island as a whole...

In other words it is probable that the amount of malaria which is imported from the Mainland is not so great as it was in 1932, and that the amount of malaria which is imported from the Mainland is not so great as it was in 1932...

It is to be noted that the malarial infection on the Island is not so great as it was in 1932, and that the amount of malaria which is imported from the Mainland is not so great as it was in 1932...

As a result of the malarial infection on the Island is not so great as it was in 1932, and that the amount of malaria which is imported from the Mainland is not so great as it was in 1932...

As a result of the malarial infection on the Island is not so great as it was in 1932, and that the amount of malaria which is imported from the Mainland is not so great as it was in 1932...

NATIVE SENTENCED TO DEATH.
(Continued from page 7).

the assault, probably as a result of something on the knife blade.

Nyere was killed by an unprovoked Munda and Mago to Nyere's bed, corroborated the evidence given by Nyere and Mingo, adding that Munda's three main wounds were all inflicted with the same blow.

There was a big fire in the hut, he went on, and the light was sufficiently good to enable him to recognize the accused.

Statement by Deceased.

Superintendent A. Finch said he had a statement from Munda on hospital giving details as to how he came by his injuries and why he attempted to arrest the accused.

The statement was then submitted. It read: "I fell at once for Mingo. I was accompanied by one Mingo. When I got to Nyere's house I saw Karaki, Nyere, Mungu and Nyere inside. At this time my knife was under arrest at Thika."

"On going into the hut I attempted to arrest Nyere. He struck at me with a knife. I put up my hand to protect myself but he cut my fingers with it. Karaki then came towards me holding a gun. On seeing this I left Nyere and closed with Karaki. As I closed with him he caught hold of my left hand, raised it to his mouth and hit my thumb badly. He then struck my right knee with the gun, cutting it very badly.

"While this was going on Mago held my right hand. He then closed the case for the Crown.

The Defence.

Karaki who had followed the whole of the proceedings very closely, stated to give evidence from the witness box. He admitted arriving along at Nyere's hut at about 9 p.m. on November 1 and drinking liquor there with two other natives. Three more natives arrived, and then Munda entered and caught him by the throat and forced him back. He supported himself by holding the ground behind him and then raised himself up.

The last Munda's thumb and struck him on the head with a stick, but not on the leg. He saw Mingo was in an abash. Munda sat on him and ordered the others to lead him home. He had known Munda for a long time and they were on very friendly terms. They had never quarrelled. Munda gave no explanation as to why he was attempting to arrest him. Witness was intoxicated but not "dead drunk."

Cross-examined, he declared he had had no idea why Munda wanted to arrest him. He did not see his aim that night. He narrated it as a protective measure. The natives who were helping Munda had known and it was possible that in the time Munda had restrained his weapons from them.

Questioning him on the Bench as to whether he knew Mungu, he stated that he did not know any people at the spot most of his time at night. He had known that he was going to be arrested but he would not have walked into his own mouth. There was a bar of his being arrested and he had committed them at Lilongwe.

No other witnesses were called for the defence. The Solicitor-General's address occupied scarcely a minute. Counsel for the defence then addressed the Court.

Assessors' Opinion.

In reply to a question from His Lordship as to whether they considered that Karaki inflicted the fatal wound on Munda, all three assessors replied in the affirmative.

After His Lordship had intimated that he would accept the opinion of the assessors as to who was responsible for inflicting the fatal wound, the court then proceeded on the justification and legality of Munda's attempt to arrest the accused. His Lordship held that Munda had full authority to make the arrest.

The accused was found guilty of murder and sentenced to death. When asked if he had anything to say before sentence was passed, he replied "I would only ask you to adjudge this case and to give me another advocate and another judge to try this case."

After he had been sentenced and the judge had informed him that he had the right to lodge an appeal within 30 days, he asked that he be hanged to-day and reinstated. His Lordship refused the request and remarked that he would not be hanged for some time.

He was heard muttering from the dock.

ROAD AND WEATHER REPORT.

The new season is a very soft one to chronicle this week but on the other hand there is a lot of rain in fact on the whole. In the morning, traffic was on the Kaimosi, Huru and Thika districts. I had observed that we must have rain in the next day or so. If only one or two days of rain we shall be very well.

There is no doubt that I think about the 14th or 15th and although they often show change at such a time. The long run was on the 16th. I saw Karaki, Nyere, Mungu and Nyere inside. At this time my knife was under arrest at Thika.

In our morning forecast, it is still raining, but from Friday night through to the 14th or 15th and although they often show change at such a time. The long run was on the 16th. I saw Karaki, Nyere, Mungu and Nyere inside. At this time my knife was under arrest at Thika.

CONTROL OF MALARIA IN UGANDA.
(Continued from page 7).

As a rule, however, the deposition of eggs takes place only in natural water courses, and in pools of rain water. Occasionally the larvae are taken in water in cement tanks, in wells, in pools in the court and in the water at the top of some of the crocks on the verandah. The water in the last two is a mixture of rain and sea water.

The main breeding sites, taken place during and after the rains while water is still lying about, and a rather large area of control is relatively easy. It has to be remembered, however, that owing to the distance and nature of the ground, especially on the slopes, the water in the tanks and the thick brush which exists, it is difficult in heavy and continuous rain to get to every breeding place in detail with the usual means of control. It may be worth a month after, particularly trouble is caused by the breaking out of sewage water in various places. This is mainly confined to the frontiers of the Chaguanu area, but it is a very troublesome source of breeding.

A valuable source of work was done during the year in establishing a number of breeding sites along the cliff edge on the golf course. Here, in the coral, many hollows are found which collect water, and were at one time fruitful sources of supply of susceptible mosquitoes. These were now being filled in, drained or otherwise rendered inhospitable to the larvae. The work was highly successful.

Culture Mosquitoes.

The measures of control directed against anopheline mosquitoes are partly successful as regards malaria mosquitoes, as the latter are to be found making use of the breeding places in the most isolated areas. Thus no discrimination is made as regards the control of the two varieties. They carry no disease here, so far as it is known, and their biting properties are not enough apart from the fact that the average individual has neither the knowledge or inclination to endeavor to discover the variety of mosquito which infests his house.

In addition the culture mosquito breeds in water in a bewildering variety of places and articles, and its activities are mainly domestic. The department, in the efforts to reduce these mosquitoes, is not greatly assisted by the majority of the population.

Due to the intensity of the breeding and the fact that these mosquitoes will deposit their eggs in articles containing water their almost continual presence in varying degree is not surprising.

Stagnant Water.

Attention is now being drawn to the question of the breeding out of the variety of Stagnant Water. These mosquitoes appear to be common in areas, numbers, and the adults are very annoying. They are present where the soil is damp. The period of adult emergence seems to be different from that of the other species, and it is thought possible that the eggs are laid in damp soil to await rain.

The clearing and draining out of both and trees would appear to be effective in preventing their multiplication.

The subject should not be concluded without a reference to the scientific side. There are several points regarding the efficiency of trials which are puzzling and a scientific survey of this position, carried out over a period of time, would be very valuable. It seems probable that the present methods of control are most successful in those areas where the most numerous species are put into practice.

PLATED LUBRICATION WITH COL-GR.

for all Internal Combustion Engines

How it Works:-
Col-Gr in fluid form is mixed with the oil and fuel and under heat and pressure the minute particles of Colloidal Graphite leave the liquid, are attracted to bare metal, and actually become a plated Col-graphoid surface.

What It Does.
It reduces Friction by smoothing and plating all contact surfaces. It reduces Friction by increasing the film of oil on the other. It lubricates at Higher Temperatures. Col-Gr breaks down under very high temperatures. Col-Gr Graphite is manufactured at a temperature of 7,500 deg. F. and will lubricate at much higher temperatures than oil.

It provides a more perfect Piston Seal. This is noticeable as once by the improved pulling power and reduced fuel consumption of all Col-graphoid Engines.

FINALLY. It preserves the oil body longer. It penetrates, softens and frees Carbon. It provides lubrication to the top of the piston and cylinder.

IT MORE THAN SAVES IT COST.

ASK THOSE WHO USE IT.

CORRESPONDENCE.

The Editor does not accept responsibility for the views expressed by his correspondents in the Columns and in all cases the name and address of the writer must accompany a letter, but necessarily for publication, but in a measure of good faith. Briefly is also essential to avoid consideration.

KENYA CONSTITUTION.
To the Editor "E.A. Standard," Sir.—I understand from what I heard by wireless last night, that there is to be an additional member in Legislative Council to represent Native interests. This appears to me to be a very arbitrary step on the part of Government.
As far as I know, this has not recently been discussed in Council, though perhaps in the past has been discussed at some time or other by the numerous Commission and its various reports.
I am not sure whether or not this is a step which is perfectly correct.

COTTON SEED.
To the Editor, "E.A. Standard," Sir.—With great interest I have followed your interesting published in regard to Cotton Seed and I must say that Mr. Arnold Bradley has struck the right point, i.e. manufacturing the Cotton Seed into a self-seeding product, I have myself adopted some preliminary steps. I expect in the next few days samples and even correct figures, but I think it will be useful to have available figures on my own collecting experiment. It may be remembered that the well-known processes used in Europe and other similar countries cannot be employed here and the local conditions must be taken in consideration. Drying only with the reported quantity of 80,000 tons of Cotton Seed per year, this means that for an average quantity of 200 tons per day and such a quantity is far too great to handle by machinery even of the biggest size. These are, however, machines available with a steady intake and output flow of the material and this is the correct and only type to use. Such a machine has the further advantage that it can incorporate in the plant so that there is eliminated.
The next step is the separation of the oil from the seed. In East Africa the usual procedure is solution by hydraulic pressure is also out of the question for the same reason that the quality material cannot be handled in the working time at our disposal. I hope

turning to the use of the oil-free

AN ELDORET LEVY.

of the Cotton seed. It would be wrong to sell the Cotton seed as it is now to the coffee and other growers in former times it has to be ground otherwise it would be a waste of time and money. Farmers do not want cotton plants without the coffee bushes. A much better idea would be the conversion of the seed into ash which can be used for frackings. This calls for another machine not much different from that used in the current industry but also pays well as the finished product would be much cheaper and generally better than the imported product as super-phosphate, etc.
As a feeding product, let me mention that the use of Cotton seed is not only confined to the feeding of cattle and similar animals but also in the manufacture of soap. Cotton seed oil is a very valuable by-product and can be used for making lamp oil and other successful experiments in the use of it have already been made in Africa and India.

THE RAIRER.
To the Editor "E.A. Standard," Sir.—I am very sorry to hear that you are expecting something which has not yet been accomplished any, where and therefore it is uncertainly as to the weather. Weather is all an exacty when the rains are going to continue.
To the Editor "E.A. Standard," Sir.—According to the report appearing in your issue of 11th day, it appears that the Eldoret Municipal Board have passed no motion for the reduction of the rate levied on the rate payers included. Although one may be sympathetic, yet I feel that it might be negotiated by them. If the Eldoret Municipality is granted permission for the removal of the levy, then a precedent for the whole Colony is created. Every one I think realizes that the rates have been increased, but, certainly not so badly as a section only. It is also proposed to restore the old rates levied in 1928.

A TRUE STORY from THE OLD LAND!
AFTER dinner not eating a full glass of our purest two whiskeys into two liqueur glasses and submitted them to the judgment of an independent wine merchant. "What do you think of that?" he inquired. "The wine merchant took the glasses, rubbed the whiskey round them, sniffed them carefully and tapped each in turn. Finally he looked me up, pointing to it, he said, "That's a good you'd enjoy it as a Godsend." The whiskey was our ten year old SPEY-ROYAL.

KENYA'S PARAMOUNT FLOUR

Is now recognised as being the finest flour obtainable in Kenya to-day—whether "local" or imported.
It is milled only from the best part of selected wheats.
It can always be relied upon, as it is consistent in quality.
It can be purchased at any grocers in 50 lb., 25 lb., 10 lb., and 5 lb. bags—the larger bags being more economical.

It is an UNGA product.

A HEAVY EASTER TIME.

But No Problems Solved.

"The Pensioners" Success at "Pompey."

[REBORN] CORRESPONDENT.
 London, (By air mail).
 The Easter programme has by now the finish and Luke second no means made it plain as to who is and who is not, to be honoured, promoted, relegated, and suffer all the vicissitudes of the football world, but Messrs' who less than a minute remained in the position of affairs at the bottom of the table, but Chelsea gave them seven new hopes by their astonishing success at Portsmouth. Newcastle and Middlesbrough, neither of whom is comfortably placed, had a draw of a goal apiece at St James' Park. Even greater than the loss of the second point was Newcastle's misfortune in having four players injured—Weaver, Philpotts, Williams and Murray. They finished the match with nine men, Weaver and Williams having left the field.

Goal Friday.

Football League clubs opened at Good Friday a heavy Easter holiday programme, which there were seven games in the First Division, a full fixture list in the Second Division, and ten matches in each Section of the Third Division. The chief feature of the day was Arsenal's capture of the First Division lead from Huddersfield, the former again leading Derby by a single goal at Highbury, whereas Huddersfield could only make a draw at Liverpool. Chelsea's first victory away from home, at the expense of a point to Portsmouth, the Cup Finalists, and the inability of any of the first five clubs in the Second Division to win their matches. The spectators at Highbury saw James show the leading goal with a brilliant strike left, by way in the inside right position when he made his successful shot. Derby's defeat lost them third place, they were overtaken by Tottenham, whose goalkeepers, drawing home to Stoke, was a particularly disappointing result for London.

When Johnson got his first goal for Liverpool a minute before half time and Hanson made it 2-2 just to overcome Barrow, who hold a much higher place in the Northern Section of the Third Division, but Stockport's victory was bought at a big price. Lythgoe, their second scoring centre-forward, being badly hurt. Norwich led in the Southern Section.

Nottingham saw the last month of the season opened and great fighting at the top and bottom of all the Leagues. Although they led in the interval at Stoke, the Arsenal had to surrender a point, and the result is that once more they are level at the top with Huddersfield—48 points for the same number of games. Chelsea and Sheffield United; the two bottom teams in the First Division, both won great victories, after their opponents had got their heads in front of the goal. Liverpool also well—was leading Birmingham for County—lost Birmingham fell heavily at Sunderland.

The "Southern" hope" in the Cup Final, suffered a second defeat, but they were not out of the contest. Chelsea's 3-0 victory at Portsmouth on Good Friday was followed by a loss of full points (also by 2-0) to Sheffield Wednesday. (Premier). Brentford, Newcastle, Preston—the four teams battling won their engagements. In losing Port Vale by a couple of clear goals, Brentford kept their place (second to last) on goal average.

Ken's "Bat Trick."
 In the First Division, Cambridge gave Middlesbrough the lead in the first five minutes at Brewood Lane, and they led by two goals at the interval. But they lost Griffiths, suffering from concussion, and he had held the Sheffield United forwards. Without him Middlesbrough went to pieces, and Picketing (2)—one from a penalty—and Boyd scored for Sheffield United. Now, playing steadily right instead of inside, Leicester City's first goal against Newcastle, Loch-head increased Leicester's lead before Pearson got one for Newcastle, but Pearson got the answer beyond doubt with a third for Leicester. Alan scored Newcastle's second goal just before time. The visitors were not a convincing side, and Leicester were always their own masters. Poor shooting cost Aston Villa a point against Blackburn Rovers. Portsmouth did a lot of off-driving, but failed to break down the Sheffield Wednesday defence. It was a fierce struggle at Stoke, with honours even. Basin ground Arsenal the Arsenal the lead half a minute—single chance in the first half before the interval, and Matthews got Stoke's goal 24 minutes after the resumption. Both defences were magnificent. Good work by

Both and Luke paved the way for Huddersfield's goal against Manchester City, which was scored by John Smith in the second half. (Derby, the Sheffield United fight, missed a penalty in the first five minutes, but Birmingham's goal did not emerge for long, but a similar scoring after 14 minutes. Derby then made amends for his mistake by getting another County and Carter added goals for Sunderland in the second half. McCormack and Hunt missed early chances before Hunt gave Tottenham the lead from a pass by Hall. Hunt added a second just before the interval. Hunt completed his hat-trick in the second half, starting which McCormack and Evans (N) also scored for the Blues. Kenley got one for Leeds just before the end. The home attack was in general form in the second half. Liverpool scored three goals in five minutes in the first half against Derby County. Newcastle buys converted a centre by McDougall, and followed up with another a minute later. Then Johnson added a third. Liverpool got a goal for Derby just before the interval. Derby improved a lot after the interval, and Romage scored their second, but Liverpool reasserted themselves and a goal by Hodgson put the issue beyond doubt. After Lewton had missed a penalty, he was sent off by the Wanderers. James scored from 20 yards range. Goldring got another from concussion, and he added the Sheffield United forwards. Without him Middlesbrough went to pieces, and Picketing (2)—one from a penalty—and Boyd scored for Sheffield United. Now, playing steadily right instead of inside, Leicester City's first goal against Newcastle, Loch-head increased Leicester's lead before Pearson got one for Newcastle, but Pearson got the answer beyond doubt with a third for Leicester. Alan scored Newcastle's second goal just before time. The visitors were not a convincing side, and Leicester were always their own masters. Poor shooting cost Aston Villa a point against Blackburn Rovers. Portsmouth did a lot of off-driving, but failed to break down the Sheffield Wednesday defence. It was a fierce struggle at Stoke, with honours even. Basin ground Arsenal the Arsenal the lead half a minute—single chance in the first half before the interval, and Matthews got Stoke's goal 24 minutes after the resumption. Both defences were magnificent. Good work by

THE PROBLEM OF RELEGATION. Vital Matches this Afternoon. The President Departs for Home.

LOCAL "DERBY" AT VILLA PARK. Interesting Second Division Encounters For Top Team.

Today's matches in the First Division of the English league will have a strong bearing on the question of relegation. Birmingham are away from home, at Villa Park, and as both are in the danger zone, there will be a wonderful fight for points.

The keen fight for promotion which is being staged in the Second Division involves every match in which the top clubs are engaged with tremendous interest. Grimsby have no competition with the fight in that they have won the championship and promotion. The point remains to be decided as to who will go up with them.

Cherchfield's Path. Cherchfield are by no means in the same happy position as Nottingham. They will have to fight every inch of the way now if they are to secure advancement.

ENGLISH LEAGUE. Aston Villa vs. Birmingham. Huddersfield vs. Newcastle. Leicester City vs. Sheffield Wed.

When will the Rains Come? We had a little rain on Thursday night, but we could do with a bucketful. I hope that next week the nation will receive a real drenching.

Success Stories. Doncaster vs. Fulham. Cardiff City vs. Brighton and Hove. Swansea vs. Newport. Exeter City vs. Plymouth Arg. vs. Barnet.

WEEK-END EVENTS. Principal Sporting Fixtures. Former Captain Elected.

NOTABLE GATHERING AT PARKLANDS. The most important event over the week-end is the Rugby Gymkhana which is down to be held at Parklands Sports Club ground this afternoon.

DO YOU KNOW? Newcastle United have won the English Cup on three occasions, while they have figured in the final of the same cup in 1905, 1911-12, 1913-14, 1924-25, 1926-27, 1928-29, 1930-31, 1932-33, 1934-35, 1936-37, 1938-39, 1940-41, 1942-43, 1944-45, 1946-47, 1948-49, 1950-51, 1952-53, 1954-55, 1956-57, 1958-59, 1960-61, 1962-63, 1964-65, 1966-67, 1968-69, 1970-71, 1972-73, 1974-75, 1976-77, 1978-79, 1980-81, 1982-83, 1984-85, 1986-87, 1988-89, 1990-91, 1992-93, 1994-95, 1996-97, 1998-99, 2000-01, 2002-03, 2004-05, 2006-07, 2008-09, 2010-11, 2012-13, 2014-15, 2016-17, 2018-19, 2020-21, 2022-23, 2024-25.

**Shakespearean Festival this Week
 "Jungle Rhythm Studied at Torr's"**

Under the tropical African sun—Nairobi, Kenya, to be exact. They will be glad to know that Bobby with his wife and Micky Mighell are due to arrive in England about the end of April. Before he left this country Bobby was regarded as one of the hottest ever, and now that he has had ample opportunity of studying jungle rhythms at first hand he should be more rhythmic than ever. "So says the 'Mickey Maker'." But even on a crowded Saturday night one would hardly call Torr's Hotel a 'jungle'.

CLAUDE R. COLQUHOUN leads the parade in "The Wiser Sex". A Paramount Picture.

Opposite View.
 MRS. Miss Mauder, the film motor, at the Imperial Institution Club dinner: "I have been shocked frequently by some of the

Police Officers in Uniform

staff I see. I have a boy of eight, and I shall certainly prevent him from attending films till he is 16 or 20."

Not Rhythm.
 "MOST of the old-timers of the profession will remember that ultra-rhythmic pianist, Bobby Minton, who for the past three and a half years has been swinging

music popular entertainment which does not leave a bad taste."

DONOR. Parthasarathi, Junior, of the Film Club: "Greta Garbo is often regarded as the most intelligent of her sex. . . . A film actor's slip is not a sin, it is the most thing in a sin scenario."

No Movies.
 ONLY one film is being shown at the Empire this week—"The Wiser Sex"—and from Thursday the Railway Players will take the stage for four nights. It has also to be noted that there will be no performance at the Princes Theatre this evening, as it has been engaged for a lecture.

Police Charges.
 IN the Kenya Official Gazette issued on Friday, there was published a note of charges to be made for the services of members of the Police Force who engaged for, among other things, attendance at private entertainments.

With this few people will agree, and while it is a new thing here it is the common practice at home and in other countries to make people pay for when they engage police to regulate traffic or look after vehicles at weddings, etc. The Kenya note is quite a moderate one.

The Shakespearean Festival.
 COMMENCING on Thursday, in the Empire Theatre, the Railway Players stage "The Taming of the Shrew" for four nights, on the occasion of the Second East African Shakespearean Birthday Celebration; the first performance taking place on the evening of Monday, the author's birthday. Considerable interest is being manifested in the production, for it brings back to the stage many well known amateurs. Plans are now available. Audiences will it is hoped note that the tickets for each evening are at 8d., and that there is no more deadly than to arrive late and disturb everybody else. This will be all the more pity because of the fact that Mr. J. A. Mauder has included the Prologue. On this page are reproduced two of the scenes from the play taken by H. K. Dinkler.

A Brushing Space.
 AFTER this, the future containing must be the East African Pageant later in the year. It has been hoped so far as "Building Days" would come time in May or June, but under circumstances which make this impossible, at the moment at any rate. The proposal had not quite been abandoned, however.

"Some" Catches.
 SANE wanted wealth, luxury and amusement, but he shrank at paying the price. "Foolish," "Ridiculous," "The Foolish."

"So This is Hollywood!"
 RECENTLY George Hat has been credited Hollywood as "a place of two centuries—the step on the back and the kick in the pants. Here are some other hand-picked features of the same city: Gary Grant: A burlesque show with everybody trying to play the biggest. Sylvia Sydney: Where even the smallest get delusions of grandeur. Gary Cooper: The promised land. . . . broken promises. Candidate Collectors: An optical illusion. "Oliver" Hood: A place of their own—and no more. . . . Edward Sutherland: The place of deferred payments. Samuel H. Bernstein: "A mass of authors, all in search of the same thing."

Maintenance of Order in Outlying Districts.

INCREASED POWERS TO DEAL WITH UNRULY TRIBES.

Provisions of New Bill.

BONDS TO BE REQUIRED AS GUARANTEE OF GOOD BEHAVIOUR.

In order to provide for the better administration of certain of the outlying districts of Kenya, inhabited by nomadic and warlike tribes, a Draft Bill has been published providing for greater powers for administrative officers in the maintenance of order in these districts.

Under the Bill a Provincial or District Officer may, in the case of any feud or quarrel which is likely to lead to bloodshed, order any or all tribes concerned to execute a bond as a guarantee for good behaviour. He may also order that a dispute be referred to an arbitral tribunal.

Other provisions in the Bill give power to administrative officers to remove from areas affected, any person or persons considered to be dangerous to peace and good order. On the other hand, the Bill provides that no person may leave a district to which the Ordinance is applied without in possession of a passport or other prescribed document.

The reservation of grazing lands and water holes for any particular tribe or community may be made by the Provincial Commissioner. It is considered that disputes over grazing areas and water holes often leads to bloodshed.

The Bill, if passed into law, will only apply to such areas as may be ordered by the Governor.

A Passport System.

One of the most important of the bills to be introduced into the Legislative Council during the coming session is the Kenya (Administration) Ordinance, 1934, in which provision is made for the maintenance of order in certain outlying districts within the Colony.

The Bill further seeks to provide for certain persons to be provided with a passport, and the carrying of passports when leaving certain outlying districts within the northern frontier area.

The Bill will only apply to such areas as may be ordered by the Governor. It is considered that disputes over grazing areas and water holes often leads to bloodshed.

Under the Bill wide powers are given to the Provincial Commissioner and District Commissioners with a view to facilitating administration in the outlying districts.

Another clause states that in the case of a dispute which is likely to lead to bloodshed, the Provincial Commissioner or District Commissioner may, in the case of any feud or quarrel which is likely to lead to bloodshed, order any or all tribes concerned to execute a bond as a guarantee for good behaviour.

Other provisions in the Bill give power to administrative officers to remove from areas affected, any person or persons considered to be dangerous to peace and good order.

The reservation of grazing lands and water holes for any particular tribe or community may be made by the Provincial Commissioner.

The Bill, if passed into law, will only apply to such areas as may be ordered by the Governor.

Under the Bill wide powers are given to the Provincial Commissioner and District Commissioners with a view to facilitating administration in the outlying districts.

BRITAIN'S LOYALTY TO THE LEAGUE.

The Corner Stone of the Government's Policy.

STAYMENT BY PARKER.

[BY WIRELESS.] On Monday, April 16, the loyalty of the British Government to the League of Nations was reaffirmed by the statement made by the Prime Minister in the House of Commons.

He said a message from the Prime Minister who stated: "The objects of the States who drew up and signed the Covenant of the League are defined in its opening lines—promotion of international co-operation and settlement of international peace and security."

"The promotion of international co-operation, was I take it, given first place of all in the Covenant because it was in the midst of a half-century of war, it was the conviction of those working to bring about the League of Nations that the only way to secure peace was by the adoption of the League of Nations system."

"This has remained the conviction of those who have been addressing the present conference have been addressing the present conference."

A NEW DEPARTURE IN BROADCASTING.

[BY WIRELESS.] The Channel of the Broadcasting Corporation, which is now being broadcast by the British Broadcasting Corporation, will be broadcast by the British Broadcasting Corporation.

Comments on the British Budget.

[BY WIRELESS.] The Chancellor of the Exchequer, Mr. Ramsay MacDonald, who will be on Tuesday evening delivering his Budget speech to the House of Commons.

Grating Areas and Water Holes.

Whenever it appears expedient to reserve any particular tract of land for any particular tribe or community, the Provincial Commissioner or District Commissioner may, in the case of any feud or quarrel which is likely to lead to bloodshed, order any or all tribes concerned to execute a bond as a guarantee for good behaviour.

TANGANYIKA CROPS.

THE BEAUTY OF KENYA COLONY IN PICTURES. Kenya Kameru Studios. THE IDEAL GIFT—Containing three hundred and thirty pages of beautiful pictures of Kenya Colony. It is a... N.W. HOWE & CO. LTD. Nairobi.

POPULATION OF ROMBASA

(Continued from page 1.)

to give in such a report more than a general impression of progress, unsubstantiated by accurate figures.

The number of deaths registered was 803. It is estimated that the number of deaths not registered is approximately 350, giving a total of 715 for the year.

Using these figures a crude death rate, for all races, is estimated of approximately 15 per 1,000 living, an estimate to be corrected with reserve.

Of the registered deaths 179 were Indian. Assuming that practically all deaths among the Indian community are registered this gives an approximate crude death rate of 16.2, probably a low figure.

The death rate for the European population, which cannot be set, is probably one of the highest in the population, can be stated to be very low.

Pneumonia

Of the registered deaths, pneumonia and broncho-pneumonia were the most numerous, the highest proportion being 60 deaths for approximately 24 per cent of those registered.

During the year 112 cases of influenza infanorum disseminata were notified to the Medical Officer of Health among those there were again accounted for 40 of which were due to influenza.

Tonight's Films

Empire Theatre.

How the crooks of the underworld are enumerated in their nefarious deeds by a clever young man, who has abandoned his studies in Europe and returned home in order to return to America on a blonde wife, and save her from being falsely convicted of murder, as shown in "The Water Seal," the picture at the Empire Theatre to-night.

Princess Theatre.

stand the strain of a love for the same man. Blondie and Lottie are back in the motor New York tonight house until Lottie goes well for herself and using the Police, she will have the man and an expensive apartment.

Capitol Theatre.

There never was a friendship between two women that could

low, and the incidence of this disease shows no sign of marked decrease. There was an increase in the number of cases of typhoid and paratyphoid fever, especially among the European population.

THE FARMER AND THE TOWNSMAN.

To the Editor, "E.A. Standard," Sir.—In your issue of 14th inst. Mr. G. Davidson touches on a subject to which I would like to suggest a solution. Why is the settler (the man who settles on the land and tries to develop it) sympathetic towards the townsmen's efforts to bring more settlers into the Colony? It would be a pity to carry to the Editor.

THIRD PARTY INSURANCE.

To the Editor, "E.A. Standard," Sir.—Mr. Morris has still to justify his plan for Government interference with private enterprise. However occasionally the Government's interference was collected, it would do so only with the necessary minimum staff to administer the fund and for the rates of compensation. In the case of established insurance offices, the actual expenditure is very small and would require little extra cost.

A point which Mr. Morris seems to have overlooked is that compensation for injury can only be obtained in respect of the legal liability of the party responsible for the accident. It does not follow that a person who has received an injury can claim compensation. It is a common Department administered by a fund for compensation they would be absolutely bound by the legal aspect of the case and delay.

Such conditions were world-wide in the times of post-war hysteria, but were perhaps exaggerated and certain more permanent in Kenya which lacked the tempering influence of tradition and effective compensation.

The war had made the world think not for hours, but for months. Like all politicians Mr. Lloyd George missed the mark by miles.

Fortunes were accumulated without that size and patient progress which makes for wise spending and conscientious effort. A handful of superficially successful and easily acquired money and more easily acquired efficiency detailed and reckless extravagance.

Many settlers had brought considerable capital into the Colony and they began to notice how little they had to show in return for the use and seeing the influence of the townspeople, they began to suspect that too large a proportion of their cash had become easy money for

them and be treated in the same way? Let the Administration, the Railway, the Government come down to earth, look the situation in the face and give us an account in a more democratic manner, let the Executive demand of non-producers in some way be reduced.

Since I began writing this, Mr. Ross seems to have supplied an illustration in his letter published yesterday.

Yours etc., M. S. H. MONTAGU, Nairobi, April 11, 1934.

passenger which was due to no thing more than the use of a sign which is accepted by the community. I entirely agree with Mr. Morris that Third Party insurance should be compulsory.

Yours etc., B. G. MOULTON, Nairobi, April 13, 1934.

KENYA CONSTITUTION.

To the Editor, "E.A. Standard," Sir.—In your excellent leading article on "Kenya Constitution Representation of Africans" you deal at length with the significance of the appointment of an additional nominated member to represent

I wonder if the average reader will also realize the significance of the fact that in addition to five Elected Members, the Indian are admitted to represent the appointment of Mr. Abdul Wahab for a period of twelve months. It is not surprising to hear the Executive Council "The European" official members, of which I have always believed were selected from the Elected Members who had differentiated in the case of Indians. Another of the Indians is named as the National Council member of the European representatives.

Yours etc., NAIROBI, April 13, 1934.

THE INDIAN ELECTIONS.

To the Editor, "E.A. Standard," Sir.—I am glad to read that the Indian community in Kenya has been so well represented and so well led by the Indian Election which lasted for three weeks and which was a clear success.

It was made the target of bitter attacks and vituperation delivered, personal and personal grounds and the moderate views which were advanced was not treated with sympathy was not taken. It is a pity that all those who have placed their confidence in me by reading their votes in my favour are not more numerous.

Yours etc., J. B. PANDYA, Nairobi, April 13, 1934.

To the Editor, "E.A. Standard," Sir.—I am glad to see you express the views of your colleagues so deeply friendly to the interests of the African who devoted time and energies to work in consultation and success. And finally to all of those who understand the election, they give us the country with fact and patience and under great pressure of work doing some things.

Yours etc., A. I. DE SOUSA, Nairobi, April 13, 1934.

Standard," Sir.—I am glad to see you express the views of your colleagues so deeply friendly to the interests of the African who devoted time and energies to work in consultation and success. And finally to all of those who understand the election, they give us the country with fact and patience and under great pressure of work doing some things.

Yours etc., A. I. DE SOUSA, Nairobi, April 13, 1934.

the details of that manifesto and would make it my business to do so in order by the community. The voting has given me hope that I should be a sympathetic member which has to be stated.

I decide, I am quite sure that had I either acted or chosen myself into the employment of election tickets economically known. I should have secured much better. But a seat in the Council is only a means to an end, not a goal, and my political work is general will be carried on with the means I possess for the present.

Yours etc., U. K. OZA, Nairobi, April 13, 1934.

To the Editor, "E.A. Answers to Correspondents.

"Indian, Nairobi.—Your letter is calculated to encourage mischief-makers at all times before the new members even take their seats. Being a personal attack, it should also be signed.—Ed. E.A.S."

"Poppy Day at Kiili." The list of country district contributions to the 1933 Poppy Day Fund did not include Kiili, where Shs. 210 was collected. The Hon. Secretary of the E.A.W.I. Kisumu branch has written an explanation to the District Commissioner, Mr. C. E. V. Buxton) informing him that the list of contributions sent from Kisumu to headquarters of the East Africa Women's League in Nairobi stated clearly that by kind favour of Mr. Buxton, Shs. 210 had been collected in Kiili. Apparently, however, in the list sent to the East African Standard by the President from headquarters, the Kiili collection was included in the total sum collected in the Kisumu area. Kiili subscribers were asked to note the explanation.

Dramatic Reappearance of Famous Russian.

RUSSIAN LIVING IN SECRECY NEAR PARIS.

A Mysterious Household.

IDENTITY DISCOVERED AS RESULT OF POLICE RAID.

Leon Trotsky, the famous Russian revolutionary and lieutenant of Lenin, whose whereabouts during the past few years has been a mystery, has been discovered living in secrecy in a village in France, not far from Paris.

For some months the inhabitants of the village were terrified by the mysterious movements of the occupants of an expensive villa. They were thought to be spies, forgers or crooks, and finally the police conducted a raid on the premises, when the identity of the occupants was established.

Trotsky was discovered sitting at a desk with a revolver placed on either side of him. He was living in secrecy because he feared the vengeance of the White Russians.

It was in possession of a French passport authorizing him to live in the Department of Seine et Marne, although it was generally believed that he was living in Corsica.

In Fear of Vengeance.

Paris, April 15. A telegram under protest, at the hands of the Department of Seine-et-Marne, to the inhabitants of the village of Les-Lignoulles.

The White Russians have been terrorized for some time past by the mysterious household living in the expensive villa. They were thought to be spies, forgers and crooks, and finally the police conducted a raid on the premises, when the identity of the occupants was established.

As War Minister.

On March 22, 1918, Trotsky resigned the post of Foreign Minister and was appointed Commissar for the East. He immediately proceeded to organize the Red Army, and during the following years he was active in bringing his organization up to a very high standard of efficiency.

His Downfall.

In 1925 Leon Trotsky's downfall was due to the revolution of 1917 which was followed by the Russian civil war. Trotsky was appointed Commissar for the East, and he was followed by most well-known men in the Russian Revolution, including Lenin, Stalin, and Bukharin.

A Feted Peace.

On the formation of the first Soviet Government in November, 1917, Trotsky was appointed Commissar for the East, and he was followed by most well-known men in the Russian Revolution, including Lenin, Stalin, and Bukharin.

Marooned in the Arctic.

The rescued women and children of the Russian Arctic expedition being brought in safety to the mainland on dog sledges, after having been marooned on the ice following the sinking of the ship. The dramatic story of the rescue by acceptance of the remaining members of the party was published in the "E.A. Standard" yesterday.

THE AMERICA CUP.

British Challenger Launched.

[BY WIRELESS.]
 The centre boat, built out of copper by "Endevour," Mr. T. O. Stephens, of the Royal Yacht Club of America, left New York yesterday for the start of the America's Cup race.

BRITISH LIVESTOCK INDUSTRY.

Special Marketing Board Recommended.

[BY WIRELESS.]

WAR POEMS.

Manuscripts Presented to British Museum.

[BY WIRELESS.]
 The surviving manuscripts of Wilfred Owen, the brilliant young poet, killed in action in the last days of the war, were presented to the British Museum yesterday.

NEW GOLD REEF IN THE UNION.

Rich Discovery in Natal.

Near Vryheid.

OPTIONS SECURED ON ALL SURROUNDING FARMS.

[BY WIRELESS.]
 The town of Vryheid, in Northern Natal is greatly excited by the news that a big Transvaal firm's representative has located a rich gold reef running over five miles. All farms within 10 miles of the discovery have been secured on options.

A WARM APRIL.

Record in Britain for 41 Years.

[BY WIRELESS.]
 Britain yesterday experienced her warmest April yet, with the sun shining brilliantly and the thermometer rising to 73 degrees, the highest temperature since Sunday morning.

NO GOVERNOR-GENERAL.

Canadian's Plans to Save £1,000,000.

[BY WIRELESS.]
 A proposal to hold the post of Governor-General vacant for ten years, thus saving the Canadian taxpayer about £1,000,000, was made at the annual meeting of the Association of Native Sons of Canada, which has been presented to Mr. Bennett, the Prime Minister.

CROWN LANDS.

Amendments to Present Law.

[BY WIRELESS.]
 In the Crown Lands (Amendment) Bill, 1934, to be presented to the House of Commons, the Government propose to amend the law relating to the disposal of Crown lands.

STOCK EXCHANGE.

[BY WIRELESS.]
 The stock exchange in London was quiet today, with the main indices showing a slight advance. The closing prices were as follows: The Standard Index, 4,110; the Industrial Index, 4,080; and the Commercial Index, 4,050.

Sensational Suicides in France.

MILLIONAIRE BANKER AND HIS BROTHER.

The "Stavisky of 1910."

GRUESOME SCENE IN THE PARIS COURT OF APPEAL.

The suicide of a millionaire banker and his brother has caused a sensation in France. The banker who was recently known as the "Stavisky of 1910" was sentenced to three years in that year for fraud, although popular opinion was favourable to him.

A Popular Figure.

[WIRELESS NEWS ASSOCIATION.]
 A sensation has been created by the suicide of two brothers, Henri and Gaston Bobette, who were prominent financiers in the Court of Appeal added a year ago to the list of the "Stavisky of 1910." He was a millionaire banker and had 20 big companies, and was owner of many palaces on the Riviera. He was sentenced to three years imprisonment, but was released on a railway line near Melun, when he pulled out a razor and cut his throat in the Court and died in hospital.

RATES OF EXCHANGE.

The following rates of exchange were announced by the Nairobi banks yesterday: London on Paris 75; London on New York 63 1/2; Bombay T.T. on London 1/16 3/16.

TAKEN OUT TO DIE. HELEN WILLS FOR WIMBLEDON.

Hunter Finch Old Native in the Bush. Wants to Defend Her Title.

["STANDARD" CORRESPONDENT.] KILIM. (Tanganyika). Sudden death is close to a horror scene hunting in the bush to come across a native in distress. Yet one such hunter, while shooting recently in the Kilimbero Valley had his most unusual experience.

On his way up to the entrance of an island which he had just shot the hunter found, in his surprise, an old native man in an exhausted, emaciated condition. The old man who was so thin that he could be lifted by one hand, was lying on the ground, apparently under the palm tree under which the stand was brought down.

THE ROYAL ACADEMY. Preparations in Hand for Exhibition.

["STANDARD" CORRESPONDENT.] London, April 2. (By air mail.) Oil paintings by non-members began to arrive at the Royal Academy this week, and the entries for this year's exhibition, which opens on May 7, look like exceeding all previous records. The usual number of about 1000 pictures, ranging from 10,000 to 12,000, but this year there will probably be nearly 2000.

THE JOMARANG STOCK EXCHANGE.

Table with columns for various stock exchange items and prices. Includes items like 'Following are prices of selected securities', 'London, April 16', and various stock listings.

A SCHOOL CONCERT. Enjoyable Entertainment at Nakuru.

["STANDARD" CORRESPONDENT.] NAKURU, April 14. The Nakuru School held its annual concert at the end of the Spring term, and was more than up to the mark.

The large hall was most tastefully decorated, and was crowded both on Tuesday and Wednesday with parents and friends, and numbers of pass and present scholars.

In November it was stated that the tennis star was unlikely to do much for Wimbledon this year, but she said she would not play tennis until 1935, but it seems that now she has recovered sufficiently to warrant her re-appointing as Wimbledon champion.

RECOVERY BEGINS PATIENCE.

Mrs. Wills-Moody has issued a denial of the report that her retirement from tennis is imminent, says Reuters. She adds that she has no desire to attempt to return before the electrical treatment which she is undergoing has entirely restored the injury to her back.

Cuff Links made specially from a piece of timber found in a potato field in the English district of Loddon were being sent by Farmers Union as a wedding present to Mr. Walter Elliot.

We Cordially Urge you to Ride in the 1934 Buick TC-DAY

Get a New Conception of Riding Comfort!

In just one ride, you'll agree that Buick has made a new standard of comfort. That ride is a revelation. Road shocks are strangely absent. There is no lurching. No gust of wind disturbs your enjoyment — yet the air within is always fresh.

Beauty you admire — performance you respect — traditional Buick reliability — the vastly increased comfort — all are brought together in this Buick for 1934. New independent springing miraculously smooths the road so you ride easy. The new cross-connected stabilizer prevents annoying sideways curves... The car grips the road. You feel secure. The power plant is virtually automatic — the engine starts automatically when you put your foot on the accelerator — choking and cold idling are automatically controlled.

Quick, positive power brakes save guard your safety. And Fisher No-Drift Ventilation controls the air you breathe — keeping it constantly fresh without annoying drafts. The body is insulated against heat and cold.

There will be a distinction in owning this remarkable car. We invite you to sample its comfort and convenience... to discover what only the road can show you... the greater enjoyment this Buick holds.

Arrange for your ride to-day.

SOCIAL AND

DOMESTIC

Noble East African Woman.

Death of Miss F. M. Plant.

It has been received of the death in Kenya of Miss Florence M. Plant, a woman whose noble character and noble life has been the inspiration of many hearts in this colony.

She was the daughter of the late Mr. J. M. Plant, who was the founder of the East African Standard.

She was born in England, and was educated at the Royal High School, Edinburgh.

She came to Kenya in 1912, and was married to the late Mr. F. M. Plant, who was the founder of the East African Standard.

She was a woman of noble character and noble life, and her death is a great loss to the colony.

She is survived by her husband, Mr. F. M. Plant, who is now in Kenya.

Her funeral will be held in Nairobi on Friday, April 19th, at 11 o'clock a.m., from the residence of Mrs. J. M. Plant, 11, Upper Hill Road.

The interment will be in the Anglican cemetery.

Fluence prison camp. He said of her "She worked like a slave looking after the allied prisoners at this camp. She stood up to the Germans and refused to be beaten. No amount of pain in East Africa was less than Miss Plant." He said that she was a woman of noble character and noble life, and her death is a great loss to the colony.

She was a woman of noble character and noble life, and her death is a great loss to the colony.

She was a woman of noble character and noble life, and her death is a great loss to the colony.

She was a woman of noble character and noble life, and her death is a great loss to the colony.

Miss Daphne Finkel, whose engagement to Mr. C. S. Fisher has just been announced. Photo: Seen and Edited.

Social and Personal.

MISS Daphne Louise Finkel, who has recently returned from England, hopes to be married to Mr. C. S. Fisher of the Administrative Civil Service in Nairobi before the end of the year. No definite date can be fixed for the wedding until Mr. Fisher, who is at present in England, knows he will return to Kenya.

The wedding will take place in Nairobi, and the bride and groom will be Mr. Hubert Burton of Spora, who was at school with Mr. Fisher. Mrs. Fisher was born in Kenya, and met Mr. Fisher about three years ago.

MR. T. J. O'Shea, who has recently returned from England, hopes to be married to Miss Daphne Louise Finkel before the end of the year. No definite date can be fixed for the wedding until Miss Finkel, who is at present in England, knows she will return to Kenya.

The wedding will take place in Nairobi, and the bride and groom will be Mr. Hubert Burton of Spora, who was at school with Miss Finkel. Miss Finkel was born in Kenya, and met Mr. O'Shea about three years ago.

Funny Wedding at the Cathedral.

Wedded—Froster.

The marriage of Bernard Dr. of Nairobi, only son of Mr. Dr. H. W. Froster, and Miss D. M. Jones, daughter of Mr. and Mrs. J. W. Jones, took place at the Cathedral on Friday, April 12th, at 11 o'clock a.m. The service was conducted by Rev. W. W. J. Wright, Dean of the Cathedral. The bride was given away by her father, who was in a very humorous mood. The ceremony was a very funny one, and the bride and groom were much amused.

Uses for Kenya Fruits.

(Recipes having a special East African character will be welcomed for publication.)

KENYA is a land where most things grow. From lemons, oranges, pineapples, papayas, and guavas, to mangoes, avocados, and breadfruit. These fruits can be used in many ways. They can be eaten fresh, or they can be made into preserves, jams, and fruit cakes. They can also be used in salads and as accompaniments to meals.

Watermelon Fruit Salad.

TAKE a slice ripe watermelon out of the melon, and cut it into thin slices. Wash the slices well, and remove the seeds. Cut up the fruit into small pieces, and mix with a dressing of olive oil, vinegar, and sugar. Sprinkle with salt and pepper, and serve in a salad bowl.

Fashionable Wedding at Eldoret.

A POPULAR BRIDE.

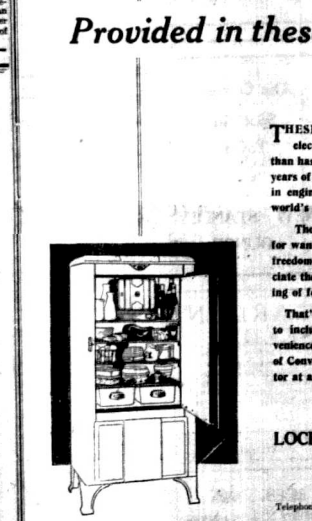

ON April 11, one of the biggest and most popular weddings that has ever been seen at Eldoret took place in St. John's Baptist Church when John Victor Grant, son of the late Mr. A. V. Grant, and Miss Daphne Louise Finkel, eldest daughter of Mr. and Mrs. T. J. O'Shea of Nairobi, were united in marriage by Rev. W. W. J. Wright.

The bride was given away by her father, Mr. A. V. Grant, who was in a very humorous mood. The ceremony was a very funny one, and the bride and groom were much amused.

NOTES FOR WIRELESS FANS

This page, devoted to the interests of Wireless, is conducted by "Aerial," a licensed amateur with a wide knowledge of East African conditions.

Practical Hints

It was pointed out last week that an aerial wire, supported in a standard in free space, will show a natural response to a wave of radio energy exactly in the same way as the wavelength of light. This is fundamental in explaining the way in which waves of radio energy are reflected, refracted, diffracted, and so on. It is also the reason why an aerial of a given length will be in resonance with a wave of a given frequency. It is also the reason why an aerial of a given length will be in resonance with a wave of a given frequency.

Notes of the Week

THUNDERBOLTS AFFECT RECEPTION

SIGNAL strengths continue to be fairly satisfactory but high speed factors are present on occasions throughout all bands. There is, I think, less than a very considerable decrease in strength of signals from the 20

metre group of stations but the other hand these seem to have suffered less from the fading. Kusilele's reception has been reported of transmission 9 12.760 Good, London Good. 12.740 Good strength with static. London Good. 14.740 8.30 p.m. Prae. fair strength, static and fading. London Did not listen. 15.740 Poor with static. London Fair. 16.740 Poor with static. London Fair. 17.740 Dreadful static. London Bad fading and static. 18.740 Good, London Good.

THE B.B.C. as from April 22 when Summer Time begins in Britain, are changing experimentally, the twenty-four hour method of time notation. For their own purposes they are still in view of the fact that the Empire Broadcasts alone take up a very considerable portion of the twenty four hours, it can hardly fail to be of definite advantage and to Empire listeners used as they are to computations in time notation on G.M.T. there is little doubt that the change will be an improvement as soon as they have had a chance to establish itself. Coincident with this innovation transmission to

Zone 4 will commence a quarter of an hour earlier, that is at 8.30 p.m. L.T. It is unfortunate that those most likely to appreciate long distance broadcasts—those listeners situated considerable distance from centres of population—are least in a position to provide the best means of receiving it. If refer to the mains driven receiver such as can be connected to the average town supply and to the receiver which or necessity has to depend on batteries for the power wherewith to operate in the very nature of things the main drive receiver is found to be superior to its battery operated cousin, economy in current consumption being a negligible factor in its design, but the increasing demand stimulated by the S.W. services now available has resulted in the production of battery driven receivers which for sensitivity, quality of reproduction and economy of operation run the other type very close. Compared with the wireless sets of D.C. they are becoming increasingly convenient and the factum which tend to maintain them at the original level of efficiency and in

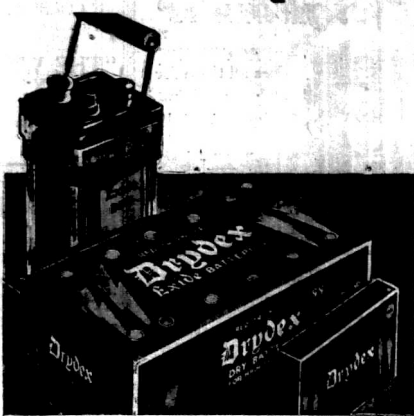

Programme Features.

DO LISTENERS WANT "POINTERS"? It has been my custom to refer to some of the features of the following week's programmes from the various Empire transmitters, features which to some extent no doubt reflect an individual preference, but acting perhaps mainly as a pointer to those unacquainted to compute differences in time and changes of wavelength.

Helpful Criticism Lacking. THE clarity and volume with which recent Empire Broadcasts have come over encourages me in the belief that "pointers" on programme lines are no longer required, at the same time there is a singular lack, in my often quite voluminous correspondence on wireless subjects, of any reference to programme matter received. Actually the greatest compliment which can be paid a broadcasting organisation is a constructive criticism of the matter received.

The Popular Items. RUNNING commentaries on sporting events, talks, light music, variety, items like the weekly "In Town Tonight" and the comparatively recently introduced "Looking Backward" programme are popular in varying degree; plays and the heavier types of music probably less so. In the absence of any other indications, it can only be assumed that the finer points of such broadcasts are missed through some technical fault connected either with the transmission or with the receiver.

Encouraging Progress of Kenya Sisal Industry.

ORGANISED RESEARCH PLAN INTO WIDER USE OF FIBRE.

Standard Grades.

PROMISING DEVELOPMENT IN NEW DESIGNS OF DECORATOR.

The main lines of the advance are disclosed in an interview with the chairman of the Kenya Sisal Growers' Association published below.

Research is being organised in conjunction with Tanganyika and London, standard Kenya grades will be introduced in July, encouraging progress in making machinery design and improved methods of planting and cultivation are expected to lead more economical production.

Emphasis is laid, however, on the misleading character of recent suggestions that the use of machinery and better planting methods will result in revolutionising production costs and output.

Misleading Views Corrected.

An outline of the recent activities of the Kenya Sisal Growers' Association was given at the East African Standard this week by the chairman, Mr. Colonel Maxwell.

For some time it had been said (the said) that research into new uses for sisal fibre was a matter more specially being carried out in Tanganyika.

(b) The research too further into the use of sisal fibre in the manufacture of paper.

(c) The Association has been proposed to be financed jointly by the Government and the sisal industry.

(d) The Association has been proposed to be financed jointly by the Government and the sisal industry.

(e) The Association has been proposed to be financed jointly by the Government and the sisal industry.

(f) The Association has been proposed to be financed jointly by the Government and the sisal industry.

(g) The Association has been proposed to be financed jointly by the Government and the sisal industry.

(h) The Association has been proposed to be financed jointly by the Government and the sisal industry.

TANGANYIKA'S CROP PROSPECTS.

Last Year's Record Sobering.

INCREASING ACTIVITY.

General Policy of Locust Campaign.

The Executive, the Governor of Tanganyika during his address to the House of Representatives last week, yesterday's issue of the 'East African Standard', spoke on the agricultural outlook as follows—

With another little effort and not really a big one—the Children's Holiday Fund and the splendid success of £200.

During the past two days the donations have fallen off in numbers, for the first time since the 'East African Standard' published the appeal, and it will not be until the end of the month that the subscription list opens very much longer.

The 'East African Standard' hopes that members of the public in town and country who wish to help the Children's Holiday Fund to do so.

There are still numbers of people who wish to help—but they just forget from day to day!

THE SHAKESPEAREAN FESTIVAL.

'The Taming of the Shrew in Nairobi.'

The advent of the rains, long looked for by three weeks, coincided with the very busy period which the production of the 'Taming of the Shrew' by the Kenya Shakespearean Festival.

UGANDA HIGHWAY ROBBERY.

Hard Labour for all Accused.

SMART POLICE WORK

Stricter Immigration Laws Suggested.

[STANDARD CORRESPONDENT]

Kampala, April 16.—The highway robbery on the Uganda-Highway near the High Court Building this morning when the four accused were placed under a charge of robbery while in the possession of arms...

The two Indians, Seth and Yashubhai, were represented by Mr. Malik, the South Africans had no counsel. The Attorney-General for the Crown advised for the Crown.

Judgment.

His Honour in giving judgment said that he would have been more impressed if the balance of the stolen money had been more clearly defined...

A Warning to Others.

"This calls for the first—and it is hoped the last—organized attempt to hold up a motor car on the highway with the object of robbing cash being carried in a motor car by the post office...

Immigration Laws.

This calls for grave consideration. It would seem that our borders are liable to be crossed by undesirable at any moment and these persons can be in the country some time before they are noticed...

KENYA PENNSIONS. Proposed Amendments to Ordinance.

Only two amendments of any character have been introduced in the 'Widows' and Orphans' Pensions (Amendment) Ordinance, 1934...

The first is necessitated by the fact that two sections of the principal ordinance have been found to be in conflict...

However, under another section, officers who have not retired in accordance with the provisions of the ordinance...

Another change in the Bill proposes to give the Director of Public Service the power to release from the service...

As present it is not known what additional amendments will be involved if the Bill becomes law.

MARKET QUOTATIONS.

FILM CENSORSHIP IN KENYA.

(Continued from page 5)

It is understood from private sources that over 5,000 signatures have already been attached to the petition.

Local Population. This agitation has arisen because of the decision of the Board of Censors to license "Soldiers of the King" for exhibition to European and Indian adults only...

The committee were fortunate in getting the cooperation of the S.A.F. formation of the exhibitors in Nairobi to take part in the protest...

Board's Authority. The second point, equally important, is whether the Board of Censors is within its jurisdiction in regard to the wording of the certificate...

The refusal to allow premises to show many of the films is also a serious point with the management of the cinema...

It is well known that the cinema in Kenya has been a success story, and it is hoped that the Board of Censors will be able to give a more liberal interpretation...

NJORO AIR RALLY.

His Excellency to Open New Landing Ground.

His Excellency the Governor attended the air rally at Njoro on Friday, when the landing ground was formally opened...

In connection with the club-house, and one of the first things to be done was to build the landing ground to the club house...

The committee were fortunate in getting the cooperation of the S.A.F. formation of the exhibitors in Nairobi to take part in the protest...

RAID ON KENYA'S BOOTLEGGERS.

(Continued from page 5)

Concealed vans under the floor boards found, and the police themselves emptying the many contents into the ground outside.

Laterally, hundreds of gallons of Nilsen gin were found and destroyed at several fine palaces here...

Seizures of five months imprisonment, with substantial fines, were imposed upon offenders with previous convictions...

The raid passed off, however, without incident, and the police were to congratulate upon a fine and much needed piece of work.

Closely Courtship again, this time in the best picture also made Amnally. It is a love story of a young girl who is courted by two men...

The musical accompaniment is provided by Harry Somers and his orchestra, and there are some excellent songs in this picture...

PREVENTION OF CRUELTY TO ANIMALS.

Political and Social Systems.
THE CASE FOR COMMUNISM.

To the Editor, "E.A. Standard."
 Sir.—I should like to express my disappointment of the summary summary which your correspondents, G. C. Chamberlain, dispenser of Communism as a fact in our Education and Social education. Briefly his opinion appears to be that it is not an attainable for primitive people, and that it can never become a true and genuine system. Communism in its broadest sense does not purport to abolish the economic and industrial system now in vogue, but to bring it under the control of the State. It is not to be confused with the Socialism of the 19th century.

It might be well to define a system which is known by that name, proceeding any further. It means, primarily, the provision of equal education and opportunities to everyone, resulting in the abolition of privilege, class and even family property. It means also and politically in the hands of the people; and secondly, the abolition of monarchy, even if the monarch be a figurehead. It means lowering the standard of living all round, and finally, an attempt to give each individual citizen liberty so long as that liberty does not interfere with the liberty of others or the well-being of the State. It is a system which is known by the name of Communism, and it is a system which is not to be confused with Socialism.

It is not only the fact that the system is not to be confused with Socialism, but also the fact that the system is not to be confused with Socialism. It is not only the fact that the system is not to be confused with Socialism, but also the fact that the system is not to be confused with Socialism. It is not only the fact that the system is not to be confused with Socialism, but also the fact that the system is not to be confused with Socialism.

It is not only the fact that the system is not to be confused with Socialism, but also the fact that the system is not to be confused with Socialism. It is not only the fact that the system is not to be confused with Socialism, but also the fact that the system is not to be confused with Socialism. It is not only the fact that the system is not to be confused with Socialism, but also the fact that the system is not to be confused with Socialism.
