Lawless days in the Australian outback

An Eastman Colour adventure re-creates, *Holden under Attack*, life in the lawless mid-19th-century Australia, comes to the screen through novel book. Adapted from Bill Henderson's novel, it deals with three drovers of a bullock team, a father and his two sons, who get involved in cattle rustling, holdups and bank robbery, but eventually learn to their cost that crime does not pay. The rugged tale unfolds against a spectacular backdrop of life "down under" in the outback.

Police Finch, Ronald Lewis, David McCallum and Laurence Naughton fill the principal roles and their vital, expertly photographed portrayals keep the pace of an exciting tale. Moreover, the spectacular highlights are evenly spread over the set and considerable running time, while the composition of the scenes, their exterior is impressive. The picture graphically describes life among the early bushmen, contains all the thrills of the traditional Westerns and yet has a distinct flavour of its own.

Mr. Finch declares that the right touch of bravado in a swashbuckler is vital if it is to be a success. He says that the novel's author, Bill Henderson, was a first-class storyteller and that the picture is a first-class adaptation of his work. He says that the picture is a first-class adaptation of his work. He says that the picture is a first-class adaptation of his work.

A brilliant action story, full of thrills and suspense, the film is directed by John Gilling. It stars David McCallum, Ronald Lewis, and Laurence Naughton. The picture is a first-class adaptation of Henderson's novel.

A scene from the movie 'Holden Under Attack' showing a man and a woman in a close embrace.

Bad times in Lebanon Staunch friend of the West

Leader admired

Many Lebanese have not only admired the leadership of the late President Ezzeddine, but also his policies. His death has left a void in the country which is being filled by the military and the political class. The people are looking for a new leader who can bring stability and progress to the country.

Family's head
The family's head was a man of great influence and power. He was a man of great vision and a man of great courage. He was a man who was loved and respected by all who knew him.

Friends shocked
The death of the President has shocked his friends and family. They are all mourning the loss of a great leader and a great man. The country is in a state of mourning and the people are looking for a new leader who can bring stability and progress to the country.

CAPITAL THAT HAS BECOME A MIDDLE EAST RIVIERA

By Marnie Frost

HOW often, when the Middle East is mentioned, pictures flash through the mind of not really exciting prospects. Do you, Beirut, Haifa and Damascus have in the archaeological found them even more fascinating.

I found my gaze in the Middle East, where East meets West but it is the death of West that adds the extra flavor. If you seek positively transfixed something for at least six months of the year, this is the place.

The discovery of this phenomenon has been a great boon to the people of the Middle East. It has brought a new life to the region and has made it a place of great interest and attraction. The people are now looking for a new leader who can bring stability and progress to the country.

Temples ruins
The ruins of the temples and the remains of the ancient cities are a testament to the greatness of the Middle East. They are a reminder of the great achievements of the past and a source of inspiration for the future.

Snow cover
In winter, when Beirut is covered in a blanket of snow, it is a sight to behold. The city is transformed into a winter wonderland and the people are looking for a new leader who can bring stability and progress to the country.

A street scene in Tripoli where some of the worst of the riots occurred.

LAND-ROVER's 10-year lead

The 4-wheel drive Land-Rover was introduced in 1948. Today, available in two chassis lengths with a variety of body styles, its lead is unquestioned. An immensely strong chassis, corrosion-proof alloy bodywork, all-weather passenger comfort, optional power take-off - these established the Land-Rover as Rover engineering, have firmly won 75% of the total production in the world's markets. Since 1949, over 700,000 Land-Rovers have gone overseas. Land-Rover performance, endurance and reliability have been proved over millions of miles. No other vehicle has given such valuable and versatile service to agriculture and industry, to government departments and the armed forces of the free world. When better Land-Rovers are made, the Rover Company will make them.

Even the way you walked...

In the old days they used to say... "you can tell a gentleman of quality by the way he walks." Possibly our forefathers knew what they were talking about, for the proud and upright bearing of a man and his fine clothes clearly showed him to be of the quality.

But the preference of discriminating people today for articles that are reliable, strong and long-lasting gives the word "quality" an altogether new significance. It no longer has a single meaning. It means first and foremost, something which is well made and which has a reputation.

The name of Prestool is synonymous with quality for the refrigerators have become renowned for good service. C.B.V. are proud to have had the Prestool Agency in East Africa for over 20 years and invite you to share the faith in this fine British product.

The scheme involves the consolidation of various departments and the creation of a new executive branch. The city manager, Mr. [Name], has proposed a plan that would give him more authority over the city's operations. The Board of Aldermen is expected to vote on the plan in the near future.
