Presents for Father Christmas

An unusual children's party was held at the Nyanga Club recently for Father Christmas. The children were given presents and the usual order was very well kept.

The presents were being collected by the East Africa Women's League for the Polish and Greek children in the refugee camps. Five cases of toys were sent by the League to the camps. The presents were made by the children of the League and the League Administration would like to thank the children of Nyanga and the members of the East Africa Women's League for their generosity in providing these presents for the children.

AGRICULTURAL POLICY IN KENYA II

THE STATE AS LANDOWNER

By G. L. P. Wedd

THIS IS THE SECOND OF THREE ARTICLES BY A RUMURUTI SETTLER ON AGRICULTURAL POLICY, IN WHICH HE MAKES OUT HIS CASE FOR NATIONAL ALIENATION OF THE LAND.

I have quoted from the report on British Agriculture by Viscount Astor and Sir Seaborn Boddock... In the old days, landownership in farming was in the hands of the landowner...

THE LAND

It is not recommended and in fact there is an arrangement that the State should acquire... The State is to be the owner of the land... The State is to be the owner of the land...

There are many who are not in favour of the State... They say that the State is not to be the owner of the land... They say that the State is not to be the owner of the land...

The Tenants' Cause... The tenants' cause is a very important one... The tenants' cause is a very important one...

FOUNDING THE F.A.N.Y.S. IN EAST AFRICA

Twelve Years Ago—And Today

ON the back verandah of a house at Main Summit, one of the first members of the East African Nursing Service in East Africa. Today one of them is out of the Service. The other Mrs. Major Audrey Birdall, nowwoman of the East African Women's Service.

Her official title is Inspector, Women's Services. It is an impressive title inasmuch as it designates her as a member of the W.F.S., A.F.S. and F.A.S. (the latter being Civilian Employees) in the East Africa Command.

Yorkshirewoman, Miss Birdall came to Kenya in 1927 as a physical education instructor at the "Girls' School," Nairobi, and was later transferred to the outdoor school of Africa at the same time. She was the first woman to be appointed to the rank of Major in the East Africa Command.

She was the first woman to be appointed to the rank of Major in the East Africa Command.

EARLY DAYS

Stilled at her desk, interrupted by frequent telephone calls, Major Birdall explains how the present organization of the East African Nursing Service began. It started when Lady Selinger, former Governor of Kenya, visited East Africa that afternoon in 1927. She was accompanied by her husband, the then Governor, and a number of other officials.

Major Birdall, who was then a physical education instructor at the "Girls' School," Nairobi, was asked to make a report on the state of the nursing service in East Africa. She found that the service was in a state of chaos and that the nursing staff was inadequate.

She recommended that a committee be appointed to investigate the matter. This committee was formed in 1928 and its report was published in 1929. It recommended that the nursing service be reorganized and that the rank of Major be introduced.

By 1928, the nursing service in East Africa was in a state of chaos and that the nursing staff was inadequate. She recommended that a committee be appointed to investigate the matter.

IN COMMAND OF THE W.F.S.

In August 1942, Major Birdall took command of the W.F.S. in East Africa. She was the first woman to hold this position in the East Africa Command.

Today she coordinates not only the work of the W.F.S., which is spread over Kenya, Malindi, and East Africa, but also the work of the F.A.S. and the F.A.S. (Civilian Employees) in the East Africa Command.

Major A. Birdall, W.F.S. Official Photo.

PETER PAN PERSONALLY SPEAKING... Nursing in the M.E.

Nursing Officer Molly Laing, one of the first women to be appointed to the rank of Major in the East Africa Command, is seen in a hospital in North Africa. She is wearing a uniform and is surrounded by other nursing staff.

Gray-Pollock Wedding

"Duncan Gray" said the Church of Scotland Minister in a parody of the words, "come here, I've been here." And from his pulpit he was good and satisfying. The Rev. R. A. Stewart was the officiant at the wedding of Miss Gray and Mr. Pollock. The ceremony took place in the East African Church, Nairobi, on the 19th inst. The bride and groom were accompanied by their families and friends.

The bride wore a white tulle gown and the groom wore a dark suit. The ceremony was a simple and beautiful one. The bride and groom were joined in holy matrimony by the Rev. R. A. Stewart.

Recipe for saving BOVRIL

A LITTLE GOES A LONG WAY

Just a touch of Bovril makes a wonderful improvement to the flavour of your dishes and enriches their goodness. You can afford to use Bovril in all your cooking, as it is so economical. It is so rich in flavour and so easy to use that you may not be able to get it.

Advertisement for Bovril, featuring a small illustration of a pot on a stove.

Day-long freshness... with WRIGHT'S Coal Tar Soap

Keeping cool is largely a matter of keeping the pores open and unobstructed. Wright's penetrates right into the pores with a fragrant refreshing lather that is cooling, cleansing, invigorating. It not only revitalises the skin, it encourages it to wear off stray grays and infections too.

CIRCLE AND STALLS

By credit, without a single failure, Mrs. Margaret will be at the Playhouse in the first half of next week. Following it is an excellent film about France called "The Story of a Soldier's Love". The show is a most attractive one, although she has a little of her own to sing in it. She will play the part of an American girl who falls in love with a French soldier. The show is a most attractive one, although she has a little of her own to sing in it.

MAKE BOVRIL GO A LONG WAY

"It's a little less than that and we are sure to put out the Bovril so as not to waste any. Supplies of Bovril are very much restricted just now, owing to war-time difficulties. Those who are accustomed with Bovril is concerned that the barest minimum has gone to the war effort and production."

McCormick Deering Disk Harrows

Have Treated Olmsted-Center Double Disk

And "Bumper" is Right!

GOOD Harrowing means a good seed bed and "bumper" crops. The bumper disk harrow shown above has a country-wide record of performance. An exclusive McCormick-Deering feature, the heat-treated crimped-center disks, give this bumper disk harrow unequalled ability to hold its sharp cutting edges under tough, hard soil conditions.

INTERNATIONAL HARVESTER EXPORT Co. NAIROBI. P.O. Box 666.

STATE PLANNING: THE FUTURE OF THE LAND

POINTS FROM THE UTHWATT REPORT

The following article on the Uthwatt Report, written by Mr. Livermore of the Department of Agriculture, is published in the East African Agricultural Journal. The Uthwatt Committee was appointed by the Minister of Works and Planning in England to "make an objective analysis of the subject in respect of recovery of betterment" in respect of land in Kenya, and to make such recommendations as appear to be desirable to establish the value of land required for development and to enable such land to be acquired by the State on an equitable basis.

These recommendations in the situation of Africa for future years will find their fullest expression in the Uthwatt Committee's interest in starting a new era of development in Kenya. Mr. Livermore writes: "The first principle which the Committee laid their hand in is that the public has a direct interest in the land which is made of private land, and that so far as land is concerned a deal cannot be allowed to stand in the way of the public. Fundamentally the problem arises from the existing legal position which is largely in favour of the private landowner. The Uthwatt Committee's approach to the problem is to consider the public interest in the land which is made of private land, and that so far as land is concerned a deal cannot be allowed to stand in the way of the public. Fundamentally the problem arises from the existing legal position which is largely in favour of the private landowner. The Uthwatt Committee's approach to the problem is to consider the public interest in the land which is made of private land, and that so far as land is concerned a deal cannot be allowed to stand in the way of the public."

There was perhaps inevitable in the early days of industrialization and limited facilities of communication, but in no sense can it be regarded as our present stage of development and it is essential to provide a means of providing a means of our limited natural resources are saved in itself. It is the intention of the Uthwatt Committee to secure that the land which is made of private land, and that so far as land is concerned a deal cannot be allowed to stand in the way of the public. Fundamentally the problem arises from the existing legal position which is largely in favour of the private landowner. The Uthwatt Committee's approach to the problem is to consider the public interest in the land which is made of private land, and that so far as land is concerned a deal cannot be allowed to stand in the way of the public."

SOIL AND WATER CALL FOR "HONEST STOCKTAKING"

SOME "wild projects" to "reclaim" the land under which East Africa's major soil and water conserving farms remain, are discussed in a report by Mr. G. M. Uthwatt, Chairman, President of the East African Agricultural Journal. The report is published in the East African Agricultural Journal. The Uthwatt Committee's approach to the problem is to consider the public interest in the land which is made of private land, and that so far as land is concerned a deal cannot be allowed to stand in the way of the public."

Turning The Check

A U.S. official of Chinese nationality, Frank K. Kuo, of Kansas, Kansas City, Mo., has been reported to have turned a check for \$100,000, which he had received from the U.S. Government, to the U.S. Government. The Uthwatt Committee's approach to the problem is to consider the public interest in the land which is made of private land, and that so far as land is concerned a deal cannot be allowed to stand in the way of the public."

Why put up with Backache

There's a... **RAJA 333**

Cycle to suit every rider... **DOANS**

DISTRICT FARMING NOTES

It is a fact that a subject cannot be discussed without a comparison being made with the other. The Uthwatt Committee's approach to the problem is to consider the public interest in the land which is made of private land, and that so far as land is concerned a deal cannot be allowed to stand in the way of the public."

SISAL PRODUCTS

(East Africa) Limited. NAIROBI. KENYA COLONY. Manufacturers of Sisal Text, Sacks, Hessian Cloth, Mattings, Ropes and Twines. During the four years of war we have been blessed with the war effort of East Africa. In 1940 we supplied millions of sand bags. In 1941 to the present time we supplied millions of bags to carry the farmers' crops, thus saving the port of lags with consequent saving of shipping. In 1944 we assure our friends and customers we remain at their service.

HERE'S LUCK

With whisky such as this, you can spare the measure and yet not spoil the pleasure! Supplies of White Horse depend on shipping opportunities.

WHEN THE CAR OF PEACE RETURNS

WHAT POST-WAR MODELS MAY LOOK LIKE

In the course of an interview with the Daily Mail London, Sir Thomas M. Chairman of the British Car Manufacturers Association of the Society of Motor Manufacturers and Traders, gave the views on the future of motor industry.

Here are the questions put to Sir Thomas, and the answers: Q.—What do you think will be the main factors influencing the production of post-war motor cars?

A.—The first question is the question of cost. The Government will have to consider the possibility of subsidizing the industry.

Q.—How soon after the end of hostilities will we be able to buy a new motor car?

A.—I think it will be possible to buy a new motor car within a year or two after the end of hostilities.

Q.—What do you think will be the main factors influencing the production of post-war motor cars?

A.—The first question is the question of cost. The Government will have to consider the possibility of subsidizing the industry.

Q.—How soon after the end of hostilities will we be able to buy a new motor car?

A.—I think it will be possible to buy a new motor car within a year or two after the end of hostilities.

BIG MILITARY DISPLAY FOR KENYA

It is expected that the 100th anniversary of the British Empire will be celebrated in Kenya by a big military display.

The display will be held in Nairobi and will include a parade of the British Army, the Royal Air Force, and the Royal Navy.

The display will be held in Nairobi and will include a parade of the British Army, the Royal Air Force, and the Royal Navy.

BACKACHE GOES

when kidneys give active origin

Because De Witt's Kidney and Bladder Pills act directly on the kidneys they are wonderfully effective in the relief of backache.

De Witt's Pills have reached the source of your trouble—the kidneys. You have reliable proof of this direct action.

Once in the kidneys, the beneficial ingredients in De Witt's Pills set to work—soothing inflammation, healing and restoring.

At the same time, a remarkable internal massage takes the kidneys of degree, tension and pain.

De Witt's Pills are sold in all drug stores and are available in 10c and 25c packages.

A Letter from London:

MILITARY EXPENDITURE IN EAST AFRICA

Kenya "Machine" Over Which War Office Has No Control

I have recently received a copy of the Kenya Budget for the year ending 1943-44. It is the first of its kind since the war began. It is interesting to read what is set out in the Budget. The members of the Committee appear to have been very careful in their work. The Budget is a very good example of the work of the Financial Department of the Government. It is a very good example of the work of the War Office. It is a very good example of the work of the War Office.

It is interesting to read what is set out in the Budget. The members of the Committee appear to have been very careful in their work. The Budget is a very good example of the work of the Financial Department of the Government. It is a very good example of the work of the War Office. It is a very good example of the work of the War Office.

IT DEPENDS ON YOU

Vital war production—essential duties in field and factory and home—depend on you, on your determination and energy, on your good health. Your resources of scientific knowledge and medical service are available to help you lift a case of need, through the medical profession, public health departments, welfare departments, etc. The high standard of the people's health through three years of war is a tribute to their success. In ASPRO you have the most reliable, most effective medicine that the experience of years of medical research directed against pain, nerve strain and numerous feverish complaints, influenza, etc. Millions know from their own experience the quick, safe, soothing help that ASPRO gives. So resolve now not to be laid up, not to let production down. In time of need, the medical services and advice available to you and remember

'ASPRO' offers you its HELP!

THE FUTURE OF THE LAND

Points From The Uthwatt Report

THIS is the second part of an article on the Uthwatt Report written by Mr. V. Luvuvu and published in the East African Agricultural Journal. The first part dealt with the directions in which the public has in the use made of various lands. The fact that so far as land is concerned, a man may not do what he pleases with his own.

The recent serious rains which have been experienced in the various parts of the country have brought to the attention of the public the fact that the land is not being used to its full capacity. There are the elements of progress in the use of land, but the value of the land is not being increased to the extent that it should be. It has been generally accepted that the land is not being used to its full capacity. The value of the land is not being increased to the extent that it should be. It has been generally accepted that the land is not being used to its full capacity.

It is the same time it is recognized that the land is not being used to its full capacity. The value of the land is not being increased to the extent that it should be. It has been generally accepted that the land is not being used to its full capacity. The value of the land is not being increased to the extent that it should be. It has been generally accepted that the land is not being used to its full capacity.

It has been generally accepted that the land is not being used to its full capacity.

District Farming Notes

The dry weather which has been experienced in the district has been a serious problem for the farmers. The crops have suffered and the soil has become hard. It is hoped that the rains will come soon and help the crops to grow.

The Government has issued a notice regarding the use of land. It is stated that the land should be used to its full capacity and that the value of the land should be increased. The notice also states that the land should be used in a way that will benefit the community.

The district has been visited by a government official. He has seen the conditions of the land and has spoken to the farmers. He has advised them on the best way to use the land and has offered them some help.

Uganda Prospects

The Kenya Agricultural Authorities have issued a report on the prospects for agriculture in Uganda. The report states that the land is fertile and that there is a large potential for agricultural development.

The report also states that the government should invest in agricultural infrastructure, such as roads and irrigation systems. It also suggests that the government should provide technical assistance to the farmers.

The report concludes that the future of agriculture in Uganda is bright, provided that the government and the farmers work together. It also suggests that the government should encourage private investment in agriculture.

My Country - CEYLON by a Sinhalese

Hanging like a pendant from the Southern tip of India Ceylon, the picturesque island with its slender palm trees, misty mountain peaks, shimmering rivers and fringing waterfalls. This lovely island, famous for its beauty spots all over the world is known as 'The Pearl of the Orient'.

It is an ancient world, a world of mystery and legend, a world of the past. It is a world of the past, a world of the past, a world of the past. It is a world of the past, a world of the past, a world of the past.

The Sinhalese people, who have lived on this island for centuries, are a people of a noble and ancient civilization. They are a people of a noble and ancient civilization. They are a people of a noble and ancient civilization.

A Weekend Sermon.

Dearly Beloved....

AT a church in Britain it is said that a young lady who comes to the congregation was asked why she came. Her reply was that when she felt as if in her personal New Year's resolution to do better things to do in the next year it would be better to do them in the next year than in the next year. This is the real thing that will help develop the character of the young lady. It is the real thing that will help develop the character of the young lady. It is the real thing that will help develop the character of the young lady.

GOVERNMENT REFUSES TO "SERIOUS ALLEGATIONS"

Belief that the first three months of 1933 was a very busy time for the Government. The Government has refused to accept the serious allegations made against it. The Government has refused to accept the serious allegations made against it. The Government has refused to accept the serious allegations made against it.

Statement On Development Schemes

When the special session of Kenya Legislative Council opened in Nairobi last week, the Government made the following statement on development schemes. The Government has refused to accept the serious allegations made against it. The Government has refused to accept the serious allegations made against it.

Truly a National Institution. The Chairman said... In view of the fact that the total investment in Unit Certificates is now approximately £4,000,000 and that this investment is spread over 107 different paying enterprises, you will realize that your company is now an important factor in the economic life of the South Africa, and your directors from this range point area in an excellent position to make a general survey of economic conditions in this country.
