NAIROBI, FRIDAY, NOVEMBER 3, 1953

Labour in British Local Government.

INCREASED REPRESENTATION ON COUNCILS.

At Expense of Conservatives.

HEAVY GAINS REGISTERED AT THE ELECTIONS.

The Labour Party in Britain has considerably increased its representation on the Councils of cities and boroughs as a result of the triennial elections held last week.

The full returns have not yet been declared but already members of the party have captured 178 seats, mainly at the expense of the Conservatives. The latter have lost 102 seats.

Previous Losses Wiped Out.

By Mr. N. 2. The results of the polling in the Triennial Municipal Elections in over 200 cities and boroughs of England and Wales which took place yesterday are not yet complete but it is clear that the Labour Party have largely erased their representation on these councils.

About 100 results were declared last night and they showed that Labour had a net gain of 178 seats, nibbling at the expense

ARRESTED JOURNALIST RELEASED.

But to be Expelled from Germany.

OFFICIAL STATEMENT.

Brother's Tribute to Way in Which He Was Treated.

London, Nov. 3. The English journalist Mr. Noel Barber is to be expelled from Germany but will be expelled from Germany. The announcement officially releasing Mr. Barber is welcome after that after investigating his case, the State Attorney's Department is letting us know that there is no reason for further prosecution. At the same time Mr. Barber's activity in Germany had been such as to constitute his expulsion.

Mr. Barber, who is well known in the British press, had been in Germany since 1945 and had been in the country since 1945 and had been in the country since 1945.

LOLOKOREN MINERS IN CONFLICT WITH NATIVES FROM OVER THE BORDER.

BETTER ROAD WANTED.

In the Lolokoren area are about 300 miners, chiefly European. They held a meeting on Sunday to discuss the situation in matters which have given rise to serious complaints and it was also attended by the Provincial Commissioner, District Commissioner, the Public Works Department, the mines inspector and other local officials from Kisumu, as well as the Commissioner of Mines, who flew from Nairobi.

One of the complaints had to do with the number of huts by natives. Lolokoren is near the border and the area opened up for residential activities by British proposals for facilitating the transportation of claims were also mentioned. Each of the departments concerned has taken the matter for consideration. It is understood that it is possible that the matter will be referred to the Ministry of Lands, Colonies and the Native Department for consideration.

FEELING OF RELIEF.

EDUCATION PROBLEMS ON THE PLATEAU. THE EAST AFRICA STUD. BOOK.

Criticism of Farm School System.
INSPECTION REPORT.
 Many Children in District Not Provided For.

["STANDARD" COMMENTARY.]
 [Editorial October 20.]
 At a School Committee meeting held at the Eldoret School on Saturday (October 20) the subject for discussion was Education on the Plateau with special reference to the Farm Schools. Mr. H. H. H. Bradshaw, the District Commissioner, was in the Chair, and Mr. H. H. Bradshaw, Inspector of Schools, was present. The Principal of the four Farm Schools, the subject of the report, was also present. The Chairman said that the meeting was specially convened to discuss Education on the Plateau, with special reference to Farm Schools. Mr. H. H. Bradshaw, the District Commissioner, was in the Chair, and Mr. H. H. Bradshaw, Inspector of Schools, was present. The Principal of the four Farm Schools, the subject of the report, was also present.

Inspection of Farm Schools.
 Mr. Thomson said that at the last School Committee meeting it had been decided that a complete inspection of the system of the Farm Schools should be made. The Chairman, Mr. H. H. Bradshaw, the District Commissioner, was in the Chair, and Mr. H. H. Bradshaw, Inspector of Schools, was present. The Principal of the four Farm Schools, the subject of the report, was also present.

System Criticized.
 Mr. Thomson criticized the Farm School system, he did not think that the education provided by them justified the expense. He pointed out the expense of the system, and the fact that the system was not providing the education which was needed for the children in the district. He also pointed out the fact that the system was not providing the education which was needed for the children in the district.

Changes in Staff.
 The educational changes in staff of the Eldoret School were criticized and it was pointed out that with

5200 DAMAGES FOR LIBEL

(Continued from page 5)

that plaintiff's reputation was not very much injured. The motion had proceeded, and the action of his counsel in asking further questions further aggravated the matter.

The Judge. His Honour held that the only question was whether the defendant had been negligent in not reading the letter in full. His Honour said that if a man writes a letter of this kind and does not read it, he could come into court and say that he only published it because the two persons it was addressed to became he was doing so out of a desire to cause the publication of a considerable amount of scandalous matter.

No judge was going to sit down with a letter like that before him and say that he was negligent in the course of proceeding. The judge had already given judgment on the question of the custody of the letter, and he was not to be asked to do anything less than that in the hands of the police? It was not the kind of anonymous letter referred to in the defendant's evidence that judges were continually receiving and putting into the wastepaper basket.

Malice in Every Line. This was a letter which plaintiff's counsel rightly described as libelling in its whole content. One had to consider every line. One had to consider every word. One had to consider every sentence. One had to consider every paragraph. One had to consider every line. One had to consider every word. One had to consider every sentence. One had to consider every paragraph. One had to consider every line.

Regarding the suggestion that the most only consider the publication of the two judges, His Honour said that it was not the kind of anonymous letter referred to in the defendant's evidence that judges were continually receiving and putting into the wastepaper basket.

Defendant's Reply. Commenting on defendant's reply to the letter asking for an apology with an amount of money for damages, His Honour said that one would have expected him to justify the letter, but he had not. On the basis of the letter complained of, even if it was not further than the two judges, His Honour held that plaintiff was entitled to something more than the \$100, but he thought defendant would be held responsible for the results of his letter in the way that its contents had become known.

Pointing out that plaintiff had not asked for punitive damages for although some of his answers were high-faluting for he based his action on principles. His Honour held that he was entitled to substantial damages and though no money could be made out of the affair, judge and jury had to try and estimate some amount to compensate a man for the attack on his reputation. Plaintiff was in a difficult position. He had lately had to bring his family affairs before a Court, and as a result this scurrilous letter had written. It was strange indeed that he was not allowed to come to Court without fear of attack of this kind.

Application Refused. Mr. Molewa applied for a stay of the proceedings in the Council for the submission of evidence by Mr. M. Molewa. His Honour held that he was not allowed to come to Court without fear of attack of this kind.

Application Refused. Mr. Molewa applied for a stay of the proceedings in the Council for the submission of evidence by Mr. M. Molewa. His Honour held that he was not allowed to come to Court without fear of attack of this kind.

TWENTY YEARS AGO.

The following extracts are taken from 'The East African Standard' (Founded 1914) on the occasion of the twentieth anniversary of its publication.

A fortnight ago last (23rd) the Standard was founded in Nairobi. It was the first newspaper published in the city, and it has since then been a constant source of information to the public.

The Standard is a daily newspaper published in Nairobi. It is the largest and most influential newspaper in the city, and it has a wide circulation throughout the country.

OLD MUSEUM BUILDING.

Not to be Disturbed by New Road Schemes.

The Nairobi Municipal Council at its meeting on Tuesday accepted without comment the full report of the Nairobi Planning Committee.

A letter was read from the Commissionaire of Lands and Survey, stating that he had no objection to the Council's proposal to reserve the site of the old Museum Building for the proposed new road scheme.

It was observed that although a sum of £2,000 was paid by the Government for the acquisition of the site, the Council had not yet received the money.

The Council decided to request the Government to pay the sum of £2,000 to the Council for the acquisition of the site.

Publicity Experts

Interested in Kenya.

VALUABLE CONTRACTS MADE DURING PAST YEAR.

Residential Settlement.

NOT MERELY A MATTER OF A FEW PEPPERY INDIAN COLONELS.

Some critics of the policy of encouraging "Residential Settlement" in Kenya declare that it means bringing a large number of peppery old retired Colonels from India to Kenya.

But these critics are short-sighted. "Residential Settlement" is going ahead.

So is Publicity. During the past year the G.H.Q. of the Kenya Association has interested several very influential publicists in the country's future.

Posters for Europe and the East.

Kenya is entering into keen competition with nearly all other Colonies for the fastest and most efficient office and general services.

Publicity

We who happen to live in the Kenya Colony are interested in the publicity which the Kenya Association has so far put forth to induce the public to settle in Kenya.

It is not only Kenya that is interested in publicity. The Kenya Association has been busy since the beginning of the year with the various publicity campaigns which it has been carrying on in various parts of the world.

What the Critics Say

Certain critics say that the Kenya Association is doing more harm than good in that it is likely to induce a large number of retired Colonels to settle in Kenya.

But these critics are short-sighted. The Kenya Association is doing more good than harm in that it is likely to induce a large number of publicists to settle in Kenya.

Moment Proportion

At the moment the Kenya Association is making special efforts to induce publicists to settle in Kenya.

A Ten Year Example

As another example of publicists settling in Kenya, we may mention the case of Mr. H. H. H. who has been in Kenya for ten years.

Neat Sports Clothes.

Designs in search of a new
form for sportswomen have no
doubt or fear as to the very
useful citizen frock. Now they
are concentrating on beautiful
gowns or frocks and the very
useful citizen frock. Now they
are concentrating on beautiful
gowns or frocks and the very
useful citizen frock...

Not all these handsome frocks
are elaborate and expensive. One
very well known dressmaker
showed a model in navy's wing
blue stockinette made "important"
by the insertion of tiny
diamond panels of gold tissue
around the neck-line of the
corage, and on the lower halves
of the sleeves. Satin, however,
is the favourite material with vel-
vet given a runner's edge.

There is a good deal less of
the matching line in the making
of the dressmaker, not only
with regard to sports clothes,
but for street wear and smart
occasions. In fact collections do
not suit costume, hat, gloves,
shoes, and handbag, to say the
least of buttonhole and little
silk handkerchief, fitting into
one colorful whole, a stone
colour coat, made with the new
punch-buck, will be worn with
a white-red or a brown frock.
This may repeat the red or the
brown tone, or may be in some
color which blends with it.

Levity Hats.
After a series of weird and
unbecoming hats, the weeks and
months to come will see Parisi-
ennes enjoying headgear which
is charming, made on lines that
are a complete change from any-
thing seen in the millinery world
for a long time. Little velvet
for a long time.

Two "Mistress" Frocks for afternoon wear. One, in multiple-tone stockinette,
has attractive plaid sleeves of blue velvet gage checked with silver, and
a dusty-rose color collar. The other is dull black with pale pink
large plaid pink, with tiny black line checks.

Blue tulle inserts blouse in blue and
white striped tulle, with a white
or navy-blue cord, neck and bands.

A Useful Recipe.

Chop four small apples and
four small tomatoes. Peel the
apples, core, slice, chop some of
the apples, leaving firm ones. Cut
the tops off the tomatoes, and
gently scoop out the pulp, leaving
skins unbroken. Sprinkle the
tomatoes with salt and pepper.
Chop the scooped-out apple, and
mix it with the tomato pulp. Stirred
together, add to apple and tomato,
with more formal shapes, too-and
pattened velvet having two or
more colours woven into the soft
surface is popular for hats with
a crown.

A crown which looks impud-
ent in silk velvet shows can be
very lovely in the rock weave of
a silk velvet and a number of
padded tones are to be found in
the range of tints from which
The Parisiennes are working.
Pale blue was the tone of one
attractive model. The velvet
was shirred down the centre of
the crown, and the shirred ends
were used to form a slight peak
over the brows with the effect
of a coronal across the top of
the head.

Jewel and semi-precious stone
colours are popular. There is a
lovely ivory blue also, a
lovely pink, and a soft blue,
among the fifty or so hats which
form a very smart and
work-famous millinery.

As though the material were
not sufficiently smart, the
unfamiliar hats for afternoon wear
are finished with ear pinnets,
and in some of the millinery col-
lections there are models made
entirely of feathers. You may
find a new-fitting shape. Pre-
sented of the lobe of a few
seasons back, the form of which
is velvet or a soft white felt, and
the crown a soft dove mass of
fine feathers, the crown is
now worn as a separate element
for a hat and opera-
stand upright in some of the
topics.

Three hard-boiled eggs, one
raw egg, tomato, salt, pepper,
oil, and a little cream.
Shall the hard-boiled eggs
and set them in halves. Beat
the two raw eggs with hard-boiled
halves into this, then rest them
with bread-crumbs. Repeat the
two raw eggs before putting the
spices into a pan containing boil-
ing iron-fat. Cook until golden
brown, take up and drain thor-
oughly. Place the eggs on a hot
dish, garnish with fresh parsley
and a light sprinkling of
cayenne and serve with hot
tomato sauce.

To Fry Parsley: Wash and dry
a large bunch of fresh parsley,
drop it into oil, but fry for half
an hour, cook till crisp. Drain be-
fore serving.
Savoury Egg Breadcrumbs: For
six people allow six eggs, one
and a half ounces butter, one

gill cream, five teaspoonful
chopped parsley and chives mix-
ed, four tomatoes. You will also
need bread-crumbs, cayenne, salt,
parsipars, and a bay leaf. But-
ter, six small ramekin dishes.
Mix together the bread-crumbs,
parsley and chives, adding salt
and cayenne to taste. Laid the
ramkins with this mixture,
break an egg into each, and add
a small piece of parsley, a little
butter, a dash of cream, and two
alices of tomato arranged one
each side of the egg. Cover with
bread-crumbs, sprinkle with pars-
ley, and cook in a hot oven
until the eggs are just set.
Sprinkle with chopped parsley
and serve at once.

Baked WONDRA
still fresh FRIDAY

Left: Cake batter made with cheap ordinary
flour and made photographically strong in
more than 10 minutes in water. Note large
cracks in the top and sides.
Right: Cake batter made with Royal (phos-
phate) flour and made photographically strong
in more than 10 minutes in water. Note fine
grained cake that cracks, fresh and moist for days.

Royal gives an EVEN TEXTURE that
holds in the MOISTURE and FLAVOUR
CAN you bake a cake that
will stay fresh, moist and
delicious for five days?
Certainly if you use Royal.
But use cheap, ordinary
baking powder—and what
happens? Your cake quickly
loses its moisture and flavour
the last piece is just a taste-
less remnant.
The pictures of the cake
batter above show why baking
powder makes such a differ-
ence. See what happens in
the last piece is just a taste-

Every one who
bakes knows that a differ-
ent story! All the hobbles in
the batter are tiny and uniform.
Rising evenly... steadily...
these small hobbles build
up a fine even texture—that
holds in the freshening
moisture in your cake.
Even five days after baking
a Royal cake is still fresh and
moist. Fluffy... light... and
deliciously tender.

NOTES OF THE WEEK.

RECEPTION conditions have just now been so very good...
On a fairly long experience, I must say that the sensitivity of the set is not only increased so as to bring in the signal at the previous strength level, it will, of course, be unduly difficult to work the feed-back...
As I have received several letters requesting information with regard to this set, I am preparing an article which will do more fully with this.

Readers' Interests.
It appears from the correspondence that I am not alone in being disappointed at the greater interest in the developments which have occurred during the last year or so; a point which I am sure you will be glad to read in detail...
As regards the volume control, I am glad to hear that you are getting a much better result with this country...
As regards volume and quality with commercial receivers, as there has been a lot of correspondence to deal with this week, I have had to omit a small article...
I am returning your diagram and trust these little hints may help you to get better results...
The third valve being a D.M. 3 requires about 9 volts G.B. at 120 volts which is a good operating range for it...

THE VOICE OF GOD.

"God, who at sundry times and in divers manners spake in times past unto the fathers by the prophets, hath in these last days spoken to us by His Son..." (Hebrews 1:1)

This is a book which more or less every Jew reads. A young Jew went to see London (London) and returned, thinking that he had not spoken to my people for a long time. He was not to catch the accents of the voice of the Lord, but he was deaf to the speaking words. The reason for this was that he had not listened to the voice of the Lord, but he was deaf to the speaking words. The reason for this was that he had not listened to the voice of the Lord, but he was deaf to the speaking words.

THE SHEEP KED

Causes Heavy Losses to the Sheep Owner

The existence of the insects that the wool, and the irritation they produce in feeding causes itching and rubbing, which the general discomfort and loss of blood caused by the sheep is reflected in the condition of the wool, which becomes uneven and full of knots and weak spots. It is not unusual for a poorly fed and infested flock to cause a natural break in the fleece.

Susu Swimming Club.
A Water-Polo Match This Evening.
SPORT COMPETITIONS START NEXT WEEK.

There will be a meeting of the Club this evening at 6.15 p.m. This is the last of the 'tree' meetings before the season's competition commences, and it is hoped that all members will turn up to proceed to the first event, which is a polo hand-icap race, on November 7.

The greatest care has been taken in compiling the fixtures for this season, and the programme is widely varied. Copies of the list will be available on November 7.

A new model will take place this evening—teams will be formed at the ladies. It is hoped that many new members, as possible will take part in order that they may be club members in time to fill the polo arrangements.

It is hoped that the ladies will be able to play shortly owing to rain being the appearance just before the meeting, and it is hoped that the polo players will not let the weather delay them from playing on Monday, and towards the second half of the week.

Mr. W. W. Kellie, the secretary of the club, has received from the members of both sides lines, one of whom presented the problem as far as it was concerned by allowing out and being the subsequent proceedings a horizontal position on the field. However it is still very early in the season and two or three more matches should not arrive on our farm again.

PRINCE OF WALES SCHOOL BEATEN BY THIKA.

The following are the scores of the matches played on Sunday, Parklands played on their ground were well beaten by Gymkhana in a game in which high scoring was the rule. B. J. Howes made 97 not out, B. G. H. Wood, A. W. Hunter 47 and C. H. J. Wood 47. The Parklands' Indians had an easy victory over Katiwar Sports Club, C. N. Shukla took 25 for 28 and B. Datta took for 14.

SPORTING BRIEVITIES
Back to Kenya.
 Among the arrivals on yesterday's train was Mr. B. M. Jones, who returns after an absence of some 18 months. During the past two years he has been with Messrs F. H. Ayres Ltd., the well-known sports goods manufacturer, training them in the manufacturing side of the sports fabric. Needless to say he is bringing Messrs May and Co. Ltd.

It is hoped that the Gigg Cup and Schwartz Cup competitions will be well supported this year. The weekly known now to need any explanation but it must be remembered that the former closed on December 19 and for the latter, Mr. A. H. Hunter has been addressed to Mr. W. N. Maclean. Box 104 with regard to the Gigg Cup and to Mr. B. D. Englund, Box 1135, concerning the Schwartz Cup.

THE ECONOMICS OF KENYA AGRICULTURE.

Trying to Increase Rate of Coffee Picking.

AN ALTERED TECHNIQUE.

An Economic Survey of the Dairy Industry.

"A meeting of producing and commercial interests was convened by Nairobi to consider the representations which should be made to the Secretary of State regarding commodities to be recommended for Imperial Preference at the impending Ottawa Conference (states the Annual Report of the Kenya Department of Agriculture).

"In addition to certain general issues the matter considered in detail were: sugar, grain, general produce, sisal, timber, dairy produce, tea, groundnuts, hides and skins, oil seeds, wattle bark and poles. Agreement was reached on recommendations to be made in the case of each of these commodities as to the Colonies and Dominions in which preference for Kenya produce should be sought. The members present at the meeting, representative of all Kenya producing interests and commerce, recognizing that under the Congo Basin treaties the Co-Operative was best enabled to give practical effect by means of tariff discussions in the Ottawa Conference, adopted their views to their influence. It was decided to recommend the following preference for Kenya goods, as a result of the Ottawa Conference important preference were granted, in which Kenya produce participated in the United Kingdom and certain Colonies. In particular they may be mentioned the following commodities and markets with the preferences granted: coffee, 14 per cent in Canada, New Zealand and South Africa; sisal, 10 per cent in the United Kingdom; wattle bark, 10 per cent, and hides and skins in the United Kingdom; fruit, 10 per cent of value in India and Ceylon; sisal, 10 per cent of value in the United Kingdom and India; butter, 10 per cent in the United Kingdom; wool, 10 per cent of value in Ceylon; oil seeds, 10 per cent of value in the United Kingdom.

"The case of sisal fibre presented special difficulties and in consultation with the East African Sugar Growers' Association was arranged to consider these. The issues were so complicated that it was decided that the Chairman of the sisal growers' Association should proceed to England to lay the case of the sisal industry before the authorities and organizations concerned. No action was decided except in the United Kingdom, where an important duty of 10 per cent of value on sisal and hard fibres was proposed within the Empire was imposed.

Marketing.

"Following the enactment of the Co-operative Societies Ordinance in 1922 a small number of important European co-operative associations have been registered. The Farmers' (Co-operative) Association Limited, which has been in existence for a number of years, representing a great deal of influence

on the central industries of the country and with which the Department is connected, is the oldest and largest of the co-operative societies in Kenya, but also of farming in general.

"The Kenya Co-operative Credit Society Limited, embraces the larger part of the European dairy industry of the Colony and operates creameries at Nairobi, Limbua and Nairobi. An additional measure is to be erected at Thompson's Falls, following pre-arranged negotiations in which the Department has taken a prominent part. This co-operative association is a successful institution, with its capable director and the expert supervision of butter and creameries. It is becoming well known in the English market as a reliable producer of high class butter. The quality is appreciated in the English market as well as in the New Zealand butter.

"The third European co-operative society which has recently been formed, though registered as a co-operative, is the Tea Planters Co-operative Union, Limited. The purpose of this association for the present is purely the co-operative purchase of supplies for its members and it has already done so. It is also beginning of a large co-operative movement among coffee growers in the district. It is also beginning to do so in the case of sisal, wattle bark and hides and skins. It is also beginning to do so in the case of sisal, wattle bark and hides and skins. It is also beginning to do so in the case of sisal, wattle bark and hides and skins.

"Of the two native co-operative associations which were introduced in 1922, the Kenya Co-operative Union, which was formed in 1922, to be formed and registered last year, to which reference was made in the last Annual Report as not being favored by this Department, one actually was registered but, shortly to be dissolved, and the other did not reach the point of registration. The original marketing committee, notwithstanding the failure of the co-operative movement, is still active in the marketing of the Kenya Produce to which reference was made last year.

Board of Agriculture.

"The Board of Agriculture was constituted in May 1925. The first meeting was opened on 2nd June, by the Earl of Devon (the Governor) (the President). Standing Committees of the Board to deal with the various subjects mentioned in the report were formed. These committees included the marketing committee, which had been formed for each important industry. A general committee to consider the agricultural credit facilities was also appointed.

"During the year there were held two meetings of the Board, one in the month of August and one in the month of September. The Board also held a meeting of the Standing Committee of the Board on 10th October. The Board also held a meeting of the Standing Committee of the Board on 10th October. The Board also held a meeting of the Standing Committee of the Board on 10th October.

X-RAY MARTYR.

Addition to Big List of Victims.

["STANDARD" CORRESPONDENT]. London, October 17.

The death is announced at Edinburgh of Dr. William Hope Fowler, late chief surgeon, "radiologist" in Victoria Street, Infrmary. Dr. Hope Fowler was a martyr to the science which he was a pioneer, and when the King conferred upon him the commandship of the Victoria Order at Buckingham Palace last February he warmly praised his self-sacrificing labours under the Admiralty and War Office.

Dr. Hope Fowler's death recalls the long list of X-ray workers who have sacrificed their lives in the cause of humanity. Among those who in Britain have succumbed to the slow and painful death of cancer caused by their labours are: Dr. Robert Knox, of Harley Street, London; Dr. August Parsons of the Seaman's Hospital, Greenwich; Dr. R. G. Hildall, of the Luton Hospital, who lost his life in 1914; Mr. Pringle, operator at the Prince of Wales Hospital, Tottenham, who lost both hands; Dr. Alfred Chad Taylor, of Peterborough; Dr. J. Hall Edwards of Birmingham, whose hands and arms were amputated as the disease spread; Dr. Jasper Holders of the Manchester Infrmary; Mr. Archibald Douglas Reid of St. Thomas's Hospital, London; Mr. Thomas Dodd, one of the pioneers in the use of the X-ray system in Newcastle; Mr. Alfred Smith, formerly radiographer and chief dispenser at the Coventry General Hospital, who underwent 17 operations in four and a half years, and died at the home at Leighton, Lincolnshire, in January of this year.

Economic Investigation.

"The general plan of work in the Section of Economics and Statistics as outlined in the previous year's report was continued during the year. A considerable amount of work was primarily of an administrative nature, but involving economic aspects, were also carried out by the Department during the year and had the effect of retarding the progress of investigation work in the section.

"A paper on 'Some economic aspects of coffee-growing in Kenya' was read by the Agricultural Commissioner at the Farmers' Days in July. This followed a survey of coffee estate management in which reference was made in last year's report. The paper dealt with the economic aspects of coffee-growing in Kenya, and was read by the Agricultural Commissioner at the Farmers' Days in July. This followed a survey of coffee estate management in which reference was made in last year's report.

Occupied and under cultivation.

for each type of farm the native labour: the number of live stock of various kinds, and the number of implements and machinery on farms of the various types. Some twenty types of farms were separately distinguished, the classification being adopted rather with a view to obtaining the maximum amount of information from certain official returns. It is possible to construct a picture of the average farm with each type, and although there may be wide divergences from the average in individual cases, yet the average more closely represents the general run than any other single figure.

The statistics obtained were too voluminous for publication and are being retained for reference purposes.

The Week's Films:

ONLY one film is being shown at the Empire Theatre this week and that is "The Golden Call," which is a wild and woolly west picture but a beauty show. A comedy with music is should be a very bright and colourful affair.

BOTH of the films at the Capital Theatre are good. First of those is an Edge Wallace story, and simply a mention that the stars are Herbert Marshall, and his wife Edna Best, Gordon Barker, and Anne Grey is enough to substantiate the claim that it will "get over." The English Press proclaimed it as an fine a story of the sort you see on the screen, and it contains comedy too. It must if Gordon Barker is in the cast.

"Moby Dick" gives John Barrymore, the opportunity of interpreting a remarkably interesting book, written of the days of New Bedford when whaling was practically the only industry of the people. The whole industry of the people, the whaling almost a legendary animal, the misadventure of the whaler, and Young Ahab who, frustrated in love by his brother, begins what is practically a life hunt for the whale "Moby Dick." Provided that the main theme of the book has not been interfered with, the film should be a really worth while one, and full of exciting episodes.

"Richard of Bordeaux."

ON this page appears one of the scenes photographed by Mr. H. K. Hicks from the play which the Railway Players are this week presenting at the Empire Theatre. It is an exciting moment in "Richard of Bordeaux," the remarkable historical play written in the modern idiom, and the fifth scene in Act I. It shows the Tower of London, with Richard J. A. Mallett; Anne, Maria Knightley and Robert de Vere (Owen Suttman); "Robert! Are you crazy when you come here?"

THE other photos by Mr. Hicks are of Maria Knightley, Anne de Bohemia, and Mr. H. K. Schwitzer in the Duke of Gloucester. They are members of a remarkably fine cast whose performance, if yesterday's dress rehearsal is any criterion, is likely to rank very high indeed. A complete collection of photos of the cast is on view at the Empire Theatre, where seats may be booked at practically any hour of the day.

THE play is being presented on Wednesday, Thursday, Friday and Saturday evenings, commencing at 8.45. A point to be remembered is that latecomers will not be admitted until the completion of the scene.

"Tales of Old Japan."

MEMBERS of the Nairobi and District Philharmonic Society are summoned to the general meeting today at 8 p.m. in the Bulwain Lodge. The first rehearsal of "Tales of Old Japan" will also take place.

Premiere Variety Show

IT came this week a really great variety show was given in Nairobi and there was a considerable number of entertainment would be most welcome about here. In the colony as a reasonable amount of talent that has never appeared in public and in question now occurs. Already a good deal of the programme has been arranged for these arrangements for comedians, dancers, vocalists and other specialty items.

THE arrangements are in the hands of Mr. Harry Young, local business and old time professional with wide experience of the type of entertainment Mr. H. H. Spurr is acting as manager. Music and comedy will be included in the programme, and a number of other items are being planned for the programme.

"Miss Tillie"

DAVID has been selected for the performance of this group, and will be staged at the Empire Theatre on the evening of December 29 and 30. The arrangements are being prepared under the direction of Mrs. L. de Mollie and Mr. E. B. Passmore. The novelty of female cast differing from the film version was pointed out last week. The latter was written more from the viewpoint and a quality that is entirely absent from the book, without in any way lessening the humor which underlies the pattern of the tale.

NATIVE COFFEE. Decision of the Kenya Government.

Experiments are to be made in the growing of coffee by natives in Kenya. The Government announcement made at the Coffee Conference this week puts at rest all doubts on the subject. The decision was inevitable. It is morally indefensible to attempt to restrict an area reserved generally for the African in the proper economic development of the country. The moral endeavour to do this was bound to fail. The planters in Kenya have secured the right of first choice for a considerable period of time but a change has taken place in public policy in the orientation of public policy in Native Affairs in Kenya and the Government has determined to permit native coffee-growing in some of the results. The refusal of permission in the past has been blamed almost entirely upon the settler and his desire for a fertile acreage. This has a double effect. Kenya Policy that basis of attack will be removed. But there is a great difference between the removal of a barrier and the development of the new freedom. The African in the mass is not yet bound to the art of modern agriculture. His methods even in connection with the crops with which he has long been familiar are still primitive and unimproved. By introducing a policy of coffee growing by natives in Kenya the Government has accepted a heavy responsibility. It has accepted that the area at Kitale Embu and Meru for the experiment for a period of years. It has accepted that these areas have been developed in the past. It has accepted that these areas have not had at present no product sufficiently high in price to bear the cost of transport. It has accepted with the results that the native industry will be developed. It has accepted that the standard of living is low and

DRINKING MORE MILK - NEW USE FOR VOLCANOES - MAN-EATING LION - HURST & NOSE PRINTS.

NEW YORK CITY'S average population is 10,000,000 a day. As the city's population is 7,218,000, it follows that every man, woman and child is nearly a full year behind the depression of 1932. The city's population is 3,300,000, or very close to a full pit.

INFANTS ARE the largest number, as the specialists in child hygiene think that approximately one quarter a day is required, the well-being of those of tender years.

IN RECENT YEARS the consumption of milk had been steadily gaining in the metropolitan centers. The consumption of the medical profession and to the high standards of purity enforced by the local Board of Health.

IN THE PERIOD 1910-14, for instance, the daily per capita consumption of milk was about one and a half pints more than half a pint, but in 1928 it had risen to four-fifths of that measure. The city shows each day about 117,000 quarts of milk.

A NEW USE for volcanoes has been found by scientists. They have been used to produce electricity in the world's past. Mr. Rosenfeld, of Pennsylvania State College, said the International Geophysical Congress that volcanoes have been used to produce electricity for 400,000,000 years ago, or even earlier.

IN ANY VOLCANIC ERUPTIONS ash is thrown out, which is often very fine and settles in the surrounding rocks. The ash of volcanoes is used to produce electricity. Learning the age of rocks is the first step toward knowing the age of the earth.

THE BENTONITE BEDS were a shock on the age of rocks as determined from fossil plants, and animals found in them. Bentonite is a fine-grained volcanic ash which is used to produce electricity. It is known that the same age even if the fossils are different.

A TINY FAIR of human beings has been discovered in a cave in the Valley of Gorge, Transylvania. It is believed to be a young woman of 2,000 years old, who lived in the valley.

CHANGES IN THE COFFEE RULES.

Size and Weight of Bags Used for Export.

During, in the course of his remarks at the Coffee Planters' Day, with changes in the Coffee Rules, Mr. F. J. Anderson, Senior Entomologist said...

"For example, in the New World the bag in general use was the 100 lb. bag which holds 50 Kilos...

"The Rules define, also, the weight of bags. It is the general practice, for safety and insurance, to double-bag coffee for export...

Weight of Bags. The Rules, therefore, have been altered to enable shippers to export coffee in small bags...

Second-hand Bags. "It is to be noted—No coffee shall be moved from a plantation, warehouse, or other place, except in new standard bags..."

Not Only Kenya

"Of course you shall miss this country," she said. "We have both been here for many years, but you know that I was married (in 1906) only a fortnight before I left Home for come to Kenya? I stayed in Mombasa until we came to Nairobi in 1914 and the point is that my husband died during my married life in Kenya."

She then contemplated, at the settling in Home for the first time, the fact that she had been so long in Kenya.

STAFF GIFT.

Tributes To His Colleagues.

The staff of the Judicial Department—European, Indian and native—gathered in the Court of the Supreme Court of Kenya on the afternoon of the 24th inst. to pay a tribute to Sir J. Barth, K.C.B., Chief Justice of Kenya, by presenting to him a silver watch.

The staff of the Judicial Department—European, Indian and native—gathered in the Court of the Supreme Court of Kenya on the afternoon of the 24th inst. to pay a tribute to Sir J. Barth, K.C.B., Chief Justice of Kenya, by presenting to him a silver watch.

After tea, Mr. Jack, on behalf of the staff, explained the meaning of the occasion. Addressing Sir J. Barth he said—

Honour. Sir J. Barth is not a member of the staff in which Lady Barth does not in her professional visits to the neighbourhood of the Law Courts, give a cheery greeting.

The staff of the Judicial Department—European, Indian and native—gathered in the Court of the Supreme Court of Kenya on the afternoon of the 24th inst. to pay a tribute to Sir J. Barth, K.C.B., Chief Justice of Kenya, by presenting to him a silver watch.

Example to the Staff

Your Honor has seen this Colony develop from rather weak childhood to robust youth. You are very fond of optimism as to the further advancement.

was £100,000, but the issue of payments made it possible for the Land Bank to place on the account in December, 1932, the total of £132,000. This figure was covered by more than 100,000 acres of short term credit, made to the industry.

The Land Bank

The Land Bank has made a promising beginning in providing loans to the industry. The first instalment of £100,000 was placed on the account in December, 1932, the total of £132,000. This figure was covered by more than 100,000 acres of short term credit, made to the industry.

The Staff's Help

Sir J. Barth's staff and administration have been most helpful, nevertheless failed to recognize himself in the picture drawn. Any success, however, that he has achieved in the last few years has been due to the help of his staff.

Second Annual Coffee Planters' Day.

VALUABLE DISCUSSIONS OF PRACTICAL PROBLEMS. Importance of Research.

HIS EXCELLENCY'S TRIBUTE TO WORK BEING DONE AT AMANI.

In opening the second annual Coffee Planters' Day yesterday His Excellency the Acting Governor spoke of the value of such occasions for discussions between planters and Government officers of the practical problems of the industry.

Referring to the importance of research work Mr. Moore paid a tribute to the value of investigations of coffee problems being pursued at the Amani Institute.

What, he said, the primary duty of the Coffee Board was to administer funds levied under the Coffee Industry Ordinance, any proposals by the Board calculated to promote the interests of the industry would receive the careful consideration of Government.

His Excellency expressed Government's sympathy with these planters who were suffering as a result of the drought.

Coffee Conference To-day.

There was an attendance of 250 people at the Coffee Planters' Day... The first speaker was Mr. H. M. M. Moore, C.M.G., the present Governor...

His Excellency to open the Coffee Planters' Day, Mr. Moore expressed the pleasure of the Government and officers of the Department that he was able to attend.

Research Conference. According to present arrangements an Agricultural Research Conference will be held at the Agricultural Department...

The Small Investors of Great Britain.

SURE SAFEGUARD AGAINST POLITICAL UPHEAVAL. A Stable Country.

A remarkable revelation has been made by Mr. Walter Runciman, the President of the Board of Trade, in a speech that the holdings of small investors in industry amounted to over three thousand million pounds.

He added that not another country in the world could show such a record, and no one could say that this was not a sign of a very stable industrial and financial country.

It was also one of the sure safeguards against drastic political upheavals.

No Fear of Bolshevism. accumulation of savings piled up from small beginnings to larger amounts until now there is the great buffer between prosperity of this country and social poverty.

What with this reserve and all that is opportunities for investment which have taken place there is very little doubt that the world has no fear of the country being swept away in a wave of Bolshevism.

Mr. Runciman was careful to emphasize that the total amount of the savings accumulated in the country is not so large as it might appear, but that it is made up of a vast number of small investors.

He said that the total amount of the savings accumulated in the country is not so large as it might appear, but that it is made up of a vast number of small investors.

A Missing Report.

Early this year evidence was taken at length in the East African Territories by a Commission appointed by the Imperial Government to consider the importance of the administration of justice in relation to the African. The evidence very clearly disclosed the need for a change in the present system, which was shown to be inadequate for the special needs of the Native, particularly the need of Africa who has not yet acquired any large measure of self-government. The Imperial Government initially the Imperial Government selected a very capable and impartial officer, the Chief Legal Adviser to the Colonial Office, to undertake the difficult task. Em-

phasis was placed on the importance of the inquiry, for the which much care was taken to ensure that the results in the death sentences being passed on fifty-five persons, the sentences were reviewed and reduced to a more reasonable proportion. After the Commission had completed its inquiries against similar cases, the results of the inquiry of a whole village occurred in Tanganyika, in that case the results of the inquiry were also passed with the result of the village except four were sent to jail. Both cases were reviewed against the law in force in Britain where the view was expressed before that the whole system of administering justice to the natives was primitive and people required adjustment to the modern life, the tribal customs, and the social aspects of the Native. The examination in long since closed and the report has been prepared. It has not, however, been issued for publication. Time is not being lost, but the case for a change has long been pending. It is not likely that any large alteration may be made in the nature of applying justice to the natives, but the improvement of the present system is being pursued with vigour. Financial arrangements are being prepared for the purpose of the inquiry. Report of the Justice Commission in Tanganyika will have no opportunity of discussing in any detail the financial provision now to make any recommendations. Unless they are other than those and reasonable on such a subject—there can be no doubt that the public will not be surprised to find that the Government of Tanganyika will be willing parties to any such a change. The Government of Tanganyika will be willing parties to any such a change. The Government of Tanganyika will be willing parties to any such a change.

BRITISH ISRAEL NOTES.

What Does British-Israel Mean?

Is it a New Sect?

Emphatically Not! It is a Federation of orthodox Christians of many denominations who believe the Bible to be the inspired word of God, and therefore literally so well as scripturally true.

Is Israel a Nation or a Church? Since God cannot change (Mal. iii. 6). Israel must still be a nation as nations were in the past (Gen. xxi. 33-37) as well as scripturally (Gen. 35-57).

When, Then, Are These Chosen People Israel?

Only one race today answers in every detail to the Bible picture of "Israel in the latter days"—(Christian Dispensation)—the nation of the Hebrews, the British Empire and U.S.A. They possess what Israel was to possess, and are doing what Israel was to do. What Is the Key to British-Israel Truth?

The differentiation between "Israel" and "Jahal," clearly marked throughout the Scriptures (1 Kings xlii; Jer. ii. 21; Ps. ciii. 12; Ezek. xxxvii). They are not interchangeable terms.

The 10 tribes Northern Kingdom or House of Israel, who kept the surname Israel.

Yahal—The 2 tribes Southern Kingdom or House of Judah, of this latter House only, are the "Jews." Hence, all Jews are Israelites, but all Israelites are not Jews. Jews was the name given to the men of Judah only.

For Service, Lev. xxv. 55. "Unto Me the children of Israel are Servants." Isaiah xliii. 30, 21, xlv. 21.

For Witness, Isaiah xliii. 21. "Ye are my Witnesses that I am God." See also Isaiah xlii. 3.

For Blessing, Gen. xii. 13, xiii. 14-16. "I will bless thee and thou shalt be a blessing." See also for Prophecies to special Righteousness, Ezek. xxxv. 20, 22. "I do not see thy son whose O House of Israel, but for Me, Holy Name's sake." See also Isaiah xlviii. 9-11.

What of Salvation? Individually, personal Salvation by Faith in the atonement of Jesus Christ is as necessary for Jew as for any other (but naturally the Israel race is charged with the Gospel and pre-eminently it to the world. See Gal. iii. 23).

Is British-Israel Truth Necessary? I. It alone throws new light on the prophetic Scriptures, Old and New, and British, origin, history and destiny.

II. As part of God's Word, it is as necessary as any other part of His Word.

III. It alone completely demonstrates the inspiration of the Bible, and vindicates the Covenant-keeping God.

IV. If Britain is not Israel, she must go down before the

Posthumous Publication on Fruit.

["STANDARD" (CHRISTIANITY). London, (By Mail)]

The Empire Marketing Board has issued a posthumous publication entitled "Fruit for the World." It contains some interesting facts.

It is revealed that of all commodities fruit has suffered less from the world depression than any other. In this month the price rose to support the contention that fruit is being grown on scientific lines. Wastage has been cut down to the minimum. There are fewer apple trees, but more suitable apples.

The one exception is the grape. The expert says that development in the production of grapes is the result of the grape being a table use and the comparative stability of the average under stress may be due to reduced consumption of wine.

More Oranges.

The main increase in world fruit production has been in oranges and lemons.

America easily leads the important list in bananas, but in heavy crops from the United Kingdom comes first, England followed by Germany and France with 25,000 tons. The United Kingdom will at the top with 25,000 tons. Again Germany comes second with 245,000 tons. This country leads the list also with oranges and dried grapes.

True Israel, who must appear and take Britain's place, and continue her tasks. For this there is no time, and the "latter days" of this dispensation are well advanced.

V. In the coming conflict of nations, Israel is to lead these nations fighting for God (Christian) against the combination of nations fighting against God (Anti-Christian). Think! Britain is the "Chief of Nations" today, is she Israel, or is she the Anti-Christian Power?

VI. In 1847 Britain Incorporated its Holy Land and set foot in Jerusalem. If Britain is not Israel, then Jerusalem is the "Chief of the Gentiles" still. Luke xxi. 24.

A Challenge. If these statements are not correct—prove the contrary! If they are the Truth—Accept them and Pass them on!

Inserted by a group of settlers—Advt.

KENNEL NOTES by Margaret Collyer

Miss Collyer, Giltip, to whom all correspondence in connection with "Kennel Notes" should be addressed, does not accept responsibility for accuracy of statements made in which are, in the main, based on information supplied by her correspondents.

Since writing of the recent Sheep-dog trials which took place at Nairobi, I have been hunting through all my dog-books to try and find out something about the "Border" Sheep-dog. No mention can I find anywhere of Border Sheep-dogs. The Shetland and Border are one and the same breed. I have by me quite a number of illustrations of Shetland Sheep-dogs, and they are exactly the type of dog that I was working sheep at Nairobi.

In the excellent book edited by Mr. C. C. Sanderman, with an introduction by Professor Hoadley, there is an article on "Sheep-dogs" by Miss Mary Grey, B. Litt, and very good photographs of two of her dogs. There are also two that need to be recognized as Border Collies, or Border Sheep-dogs, called "Paddy" and "Griffith" is very like Mrs. Carnegie's "Meg," a somewhat subtler breed than that possessed by "Alice" and a lot of my way of thinking was too much of the "British" breed.

Had there been a show for dogs of the lot that were on the "trial ground" on September 30, I think Mr. N. Moody, "Jew" would have been the winner. The second and "Jim" third, the latter being a bit of a tick low on the leg. I wonder if those knowers far more about these dogs than I do would agree with my placing.

Miss Grey writes as follows—"The Shetland Sheep-dog is a small rough coated collie. Its speed and agility, his endurance and hardihood, his capacity for training as a guard and herker explains his pre-eminence under conditions where these characteristics are essential. Where living is hard, the smaller animal will thrive better than the larger and, this explains the fact that the Shetland Sheep-dog as of the British pony, and the best Shetland cattle and sheep. The prick ears and curly tail of the Icelandic and other Northern types used to be common among Shetland Sheep-dogs, but the general Collie character persisted and these faults, with coarse legs and heavy ears, are being eliminated.

"The Sheltie is a different type of collie from that of the modern show-bred. The "Shetland Club" described it as "a rough collie in miniature." The Scottish Club followed suit with "an ordinary Collie in miniature" but later adopted the modern show standard. The standard of the Nairobi trials gives here was originally intended to avoid exaggerations; there is a widespread feeling that it was not strongly enough delineated one way or the other and it is now being revised by this representative body of fanciers. The Sheltie's coat is fine and silky, the undercoat as close as seal. The profuse coat of

long hair gives this characteristic Collie name, frill and frill. Short-coated dogs were recognized by club law many of the "Border" types. "With again sheep over rough country the Sheltie needs the build of a kanter, but must have the name of Ferrie, or dairy dog. The head should appear the wedge shape without exaggerations. A level mouth is important and the acquired ears should be flexible, as a sheep-dog, often has to throw them back for the voice of command while his gaze is fixed on the alert. The small bright eyes should add to the general alert, intelligent expression.

Description and standard of points. English Shetland Sheep-dog Club: Height over twelve to fifteen inches, ideal height thirteen and a half; skull, flat, tapering; neck long, muscular, long, tapering towards the nose, stop slight, checks flat; teeth, level and good; feet, firm; eyes, brown, of almond shape, set squarely and alert, keen, intelligent; ears, small, placed high, level, carried over the top (tip forward); neck long, muscular and arched; body, compact, back straight, well-sprung ribs, and strong loins; chest, deep, back ribs flat, straight front; fore-legs straight with good bone, pasterns flexible without weakness; hind-legs, muscular at thighs with well bent stiles; feet, with a racy appearance; feet, oval, toes arched and close together, soles well padded; action, light and graceful, and jumping power great for size of dog; coat, double, the outer being long, the undercoat short, soft and close; mane and frill, abundant, forelegs well feathered, hind legs above the hocks profusely covered but smooth down to the smooth tail; coat with good break of hair, with smooth down with upward swirl at tip; usual colors, tricolor black with tan markings, black and white, sable, sable and white, while markings may be shown in the blaze, collar, frill, ears and feet and breast tips. These points are useful for reference in mind when breeding or choosing puppies. Bearing the above points given here anew to my idea of a good Border Collie.

I should be grateful for any help in connection with the subject of these sheep-dogs. Might I suggest that at the next trials, rough collie in miniature? The Scotch Club followed suit with "an ordinary Collie in miniature" but later adopted the modern show standard. The standard of the Nairobi trials gives here was originally intended to avoid exaggerations; there is a widespread feeling that it was not strongly enough delineated one way or the other and it is now being revised by this representative body of fanciers. The Sheltie's coat is fine and silky, the undercoat as close as seal. The profuse coat of

... but what a difference in TEXTURE

JUST look at those yarning "air holes" in cake No. 1 made with cheap ordinary baking powder. They simply ruin the flavour.

In just a few hours the moisture escapes through those cavities—and the flavour goes with it. The cake tastes dry and stale.

But cake No. 2 made with Royal Baking Powder is so soft and moist. It stays as fresh! Five days after baking, it is still as delicious as when it came from the oven.
