The facts are as follows. Councillor Secor is May have asked for the resignation of Mr. Secor...

In Praise of the English Character. STRIKING BROADCAST SPEECH BY MR. BALDWIN.

The Nation's Qualities. "ORDERED LIBERTY—A RARE THING IN A TROPIC-LIBERTY WORLD."

I believe, from my heart, that our people are fitted to pass through whatever trials may be before us and to emerge... a greater people in the future than they have been in the past.

The foregoing is a passage from a recent broadcast talk by Mr. Stanley Baldwin on "Our National Character" in the course of which he outlined some of the characteristics of the ordinary Englishman.

He declared that the qualities characteristic of Englishmen were never more needed in the world than at the present time.

Love of Individuality. In the course of an introduction in this, that he doesn't want to mind himself into any common mould, he likes everybody else. He likes to develop his own mind. As a nation, we are proud of our individuality. We are not a military nation, but we are great fighters... We have staying power, we are an industrial nation, we are a nation of inventors...

A sense of Honour. "There, above all, the English people have a curious sense of honour, rather than wit. Honour is the thing that counts with us more than wit, as you may see from the brain. We are proud of our individuality... We are not a military nation, but we are great fighters... We have staying power, we are an industrial nation, we are a nation of inventors...

Wireless Notes.

Notes of the Week.

This page, devoted to the interests of listeners, is compiled by a staff of wireless enthusiasts with wide knowledge of East African conditions.

STATIONS have been coming through generally at very irregular intervals lately... Stationers' strike...

Protection from Lightning.

From consideration of space it has been found that the most practical and safe method of lightning protection is to install a lightning rod...

An Arranger.

In the first place the best technical opinion regarding the possibility of lightning striking the receiving aerial is exceedingly grave but practically complete protection can be secured by directly earthing the aerial outside the building...

The Empire Station.

GSI has been the best of the Empire transmitters at night but on account of the stoppage of the station until about 10 p.m. on the 22nd...

List of Transmitters.

- With reference to last week's Notes and the suggestion of a correspondent H.F.H. I reproduce the list of the Empire Station transmitters with a few comments which may be of interest.

- GSA 49-25 metres. GSI 31-25 metres. GSI 25-25 metres. GSI 25-28 metres. GSI 19-22 metres. GSI 10-22 metres. GSI 10-22 metres.

Below are listed the transmitters available in the country together with the local times and the national transmitters. It will be seen that on all transmitters it is impossible to predict, except in a very general way and for a short time, which will be the best I have however endeavoured to help listeners by marking with an asterisk the transmitter which has been coming through best this week.

Transmission 2: 2.30 to 4.15 p.m. I.T. starting half an hour later on Saturdays GSI* or GSI* (not particularly on an omniband aerial).

Transmission 3: 4.30 to 6.30 p.m. I.T. on GSI* and GSI* (4.30 to 5.45 p.m. I.T. on GSI* and GSI*). This transmission is of a somewhat directional nature and at the moment is disappointingly received here and I am therefore not prepared to state which is the best wave-length to receive it. No doubt the best comes into its own later in the week when the GSI* and GSI* will be the mainstay of the service.

Transmission 5 which continues till 3.30 a.m. on the same transmitters and at such times with an omniband aerial. yourself of STOMACH TROUBLE and a healthy Appetite

by taking Sanatogen

LACK of appetite is merely due to stomach trouble, which in turn is usually a question of 'nerves.' Nerve-weakness prevents the proper functioning of the stomach and intestines and it is only by strengthening the weakened nerves that you can restore the proper functioning of the digestive organ and so, in a logical way, regain a healthy appetite.

Every particle of Sanatogen will actually revitalize the nervous system, because Sanatogen provides the nerve cells with phosphorus and thiamine - the essential materials of nervous tissue.

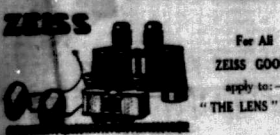

A noteworthy effect of Sanatogen is a better appetite which is generally renewed within three or four days after beginning this 're-feeding,' writes a London physician.

Start a course of this famous nerve-food today. Very soon your appetite will return, and thanks to the all-round strengthening influence of Sanatogen, you will feel and look a healthier and happier being.

GERMANY IN WORLD'S "BLACK BOOKS"

(Continued from page 1.)

to highlight its leading article in all the evening newspapers which while admitting that the League has suffered a serious setback, does not allow its political agitation to prevent it from showing appreciation of the readiness of the situation.

The Daily Telegraph declares that no grounds exist for any fear that there will be indignation by the latest and most sensational of the spirit which they have not yet indicated under the Nazi dictatorship. The Hilberts signature agreement has been a bad situation for the prospect of disarmament and the mind of international opinion.

Today it is no worse and there is still a possibility that it may be improved. The terms of the Four Power Pact signed by Germany provide the means for taking up any threads of negotiation on the German side. It holds that the solution must be most easily attained by the use of the methods of Geneva. Events may justify his prediction.

A Plain Duty.

London, Oct. 16. "The Times" urges the public to avoid loose talk of threatenings to the League of Nations, and to the contrary of the money scheme which Germany has put forward.

JUDGMENT is with the majority of people, namely a slight interpretation of the word CONDEMNATION.

is understood that by far the greatest obstacle to the attainment of a Disarmament Convention is the deliberate and insistent militarization of the news people and that their own moral conscience is the supreme and most urgent concern.

Debate in Parliament.

In an interview, Mr. Ramsay MacDonald, Minister of Foreign Affairs, said that the Government were not in a hurry to discuss the German proposal for a general disarmament conference.

The news of Saturday's developments has been received with some interest in London where the announcement of Germany's withdrawal from both the Disarmament Conference and the League of Nations is regarded as a serious step.

Parting of the Ways in South Africa.

CAPE NATIONALISTS DECLINE TO SUPPORT FUSION.

A New Party?

Political history appears to be repeating itself in the Union of South Africa.

In 1912 General Hertzog, a powerful and influential member of the South African Party and a Minister in the Botha Cabinet, resigned owing to a difference of opinion with the Prime Minister and formed a new group—the Nationalists—eventually to become the head of the State. In 1963 Dr. F. Malan, the leader of the Cape Section of the Nationalists has broken away, with a large following, from General Hertzog, and it is probable that a further purely African party will be formed in the Union.

While the Transvaal, Free State and Natal Nationalist Parties strongly supported General Hertzog's proposal for fusion with the South African Party, the Congress of the Cape Party overwhelmingly opposed it, in spite of the question being made a matter of confidence in the Premier.

A Successful Year.

The following is the Hon. Secretary's report: A satisfactory record of progress has again been maintained by the Association, and in some respects a distinct advance has been made. Since the last Annual General Meeting some 1500 matches have been played in an average attendance of 12.

The Kenyan Club Competition has again been held, and the results were as follows: Singles, H. M. MacGregor; Doubles, H. M. MacGregor and G. O. D. Rhodes; Mixed, H. M. MacGregor and G. O. D. Rhodes.

Nakuru Rifle Club.

First Handicap Shoot.

The Club's first monthly handicap shoot took place on Monday, October 9th, 1933, at 10.30 a.m. The weather was very good and the shooting was of a high standard. The winner was Mr. H. M. MacGregor, who scored 100 out of 120.

The Championships.

The Championships of the year were not up to the standard of previous years. The weather was very good and the shooting was of a high standard. The winner was Mr. H. M. MacGregor, who scored 100 out of 120.

The New Pavilion.

Acting on instructions received at the last Annual General Meeting, the Council proceeded with the erection of the new pavilion, and this appears to have met with general approval. The provision of shower bath, dressing and other facilities was much appreciated by competitors during the championships, and there is no doubt that you will use from the side on the balance sheet the Nairobi Club have given security of tenure for an indefinite period, but no any extent for not less than ten years.

Mr. A. Rawlin's visit.

Mr. A. Rawlin was visited at his home in London by Mr. H. M. MacGregor, who was accompanied by Mr. G. O. D. Rhodes. They discussed the possibility of arranging for the tour of six players who were then in South Africa to return via the East Coast and to break their journey at Mombasa. Owing to a shortage of time everything had to be done by cable but it was eventually found that return to arrangements having already been made for the return of the tour to England it was not possible to present to the members-updated programme. These took the form of a pamphlet which was distributed to all the members with approval.

All the trophies with one exception (the Ladies' Doubles) were retained in Nairobi.

The Men's Doubles trophy was won by Mr. D. S. Douglas and Mr. H. M. MacGregor. The Ladies' Doubles trophy was won by Mrs. D. S. Douglas and Mrs. H. M. MacGregor.

bulletin. Conditions vary, but generally the market is not so good as contracts for the sale of the timber which remains by the vendors for the planting and maintenance of trees, the buyers being confined to the proceeds from the sale of the timber.

The position of the buyers of the bonds is quite different from that of debenture-holders or other creditors of a company. The holders of a company's 'Trustee' for the bondholders, even if they are not independent of the company (which is not always the case) can afford only very limited protection. Apart from planting and maintenance, the bonds create no liability of the issuing company. If there is no crop of timber, the bond is not a profit, the holder is left with a sum of money which is not valued...

WIRELESS PROGRAMMES.

Empire Broadcasting Service.
The film "Smilin' Through" being shown at the Empire Theatre to-night is one which is distinctly above the average shown in Nairobi. It is an American production with an English setting. However, the film has a certain charm there is an entire absence of incongruity due to a misrepresentation of British life. The detail is remarkably good, while the story is very effectively handled by a strong cast including: Norma Shearer, Leslie Howard, Fredric March, C. E. Hooper and George Meeker. The scenes are set in an English country house and surroundings and as most of the individual members of the cast are British no fault can be found with the accent of the artists, a very necessary factor to obtain the proper atmosphere. The story which covers periods from the mid-Victorian era to the last war, is a very powerful and emotional one. It is also highly dramatic, and while some of the more melodramatic scenes are overdone and lack some of their effect, the film as a whole is a really well worth a visit. It is a new reel, a certain and a comedy programme.

NAIROBI, SATURDAY, OCTOBER 14, 1953.

No Postponement of Disarmament. GENERAL COMMISSION TO MEET ON MONDAY. Discussion to Proceed.

BRITISH ATTITUDE SUPPORTED BY FRANCE AND UNITED STATES. As a result of further negotiations at Geneva, a postponement of the meeting of the General Commission of the Disarmament Conference, as suggested in certain European quarters earlier in the week, is now unlikely.

Great Britain is determined to push ahead with the work of the Conference, and in this attitude she is strongly supported by France and the United States.

The Trial Period. [THROUGH SWITZERLAND'S AGENT.] Bern, October 12. The Swiss Government has announced its intention to continue the disarmament conference.

No Postponement. [BY WIRELESS.] Bern, October 12. Although the Swiss Government has announced its intention to continue the disarmament conference, it is reported that the British Government is still in favour of a postponement.

COFFEE MARKET. Cabled Reports from London. It is understood there was a general agreement between the British, French and Swiss delegations that there would be no postponement of the meeting.

Keys. During the week ended October 11, 1954, keys of various descriptions were offered at auction. The highest price paid for a key was £102-5-0 for a key of the Royal Palace, London.

THE STOCK EXCHANGE. [BY WIRELESS.] NAIROBI, OCT. 13. Sterling on New York was quoted today at 4/6 and on Paris at 7/11. The stock markets were buoyant, particularly the heavy industrial. The Foreign Exchange market was very active with War Loan at 101/5. Gold was 122/10-14.

REVOLUTION IN SIAM. SEQUEL TO SHOOTING OF CATTLE. REICHSTAG FIRE TRIAL. War Clouds Gathering in the Far East.

Rebels Marching on Sattler Who Took Law into His Own Hands. REVISION COURT'S FINDING. Original Fine of 1/6 to be increased to 100/6.

WITNESSES REPEAT THEIR ACCUSATIONS. [THROUGH SWITZERLAND'S AGENT.] Bern, October 12. A dramatic reconstruction of part of the procedure of firing the Reichstag, as seen by witnesses was made this evening in the presence of thousands of spectators who were crowded off by police and a rail train of 200 yards from the Reichstag.

ANOTHER PENITENT TO AMSTERDAM. [THROUGH SWITZERLAND'S AGENT.] Bern, October 12. Mr. Charles Van der Grinten, a Dutchman, was reported to have confessed to the shooting of a Dutch diplomat in London.

REGISTRATION OF TITLES. Objects of Proposed Amending Bill. A Bill published in the Kenya Official Gazette this week seeks to extend the Registration of Titles Ordinance to the whole of Kenya.

NATIVE TRADERS. Complaint by Nandi Farmers. [BY A CORRESPONDENT.] The following resolution was unanimously adopted by the Nandi Farmers in meeting on September 26.

BEVER AT BIRK. Seven things happen day by day all over the world, states the opinion of a writer in the following list: 1. A man is born; 2. A man dies; 3. A man is married; 4. A man is divorced; 5. A man is widowed; 6. A man is single; 7. A man is a bachelor.

REBELLION IN SIAM. SEQUEL TO SHOOTING OF CATTLE. REICHSTAG FIRE TRIAL. War Clouds Gathering in the Far East. [THROUGH SWITZERLAND'S AGENT.] Bern, October 12. A dramatic reconstruction of part of the procedure of firing the Reichstag, as seen by witnesses was made this evening in the presence of thousands of spectators who were crowded off by police and a rail train of 200 yards from the Reichstag.

RECONSTRUCTION OF ALLEGED CRIME. Scenes Outside the New Building. TROOPS ON THE MOVE. CONCENTRATION ON MANCHURIAN FRONTIER.

Outbreak of war is again a possibility in the Far East where the dispute between Japan and Soviet Russia is assuming a serious aspect. As in previous disputes during the past few years, the cause of the trouble is the Chinese Eastern Railway in Manchuria, over which both Russia and the Manchukuo Government, supported by Japan, demand various rights of control.

It is reported that both sides are concentrating troops on the frontier, while business in Harbin, the capital of Manchuria is at a standstill.

Soviet Demands. [THROUGH SWITZERLAND'S AGENT.] Bern, October 12. The dispute between Japan and Soviet Russia over the Chinese Eastern Railway is assuming a serious aspect. As in previous disputes during the past few years, the cause of the trouble is the Chinese Eastern Railway in Manchuria, over which both Russia and the Manchukuo Government, supported by Japan, demand various rights of control.

THE PLATEAU CHAMPIONSHIP.

D. C. Venning Wins by 3 and 2

STANDARD COMMENTARY

The final of the Plateau Championship was played on Monday by a side match, which resulted in a win for Venning by three and two. The first two holes were tied and Venning deserved the victory if only for the concentration that he put into the game and the thought that he gave the more difficult of his shots.

At the first Venning topped his drive into the rough and took two strokes to get on, but although he played an excellent second shot, he was unable to get on the green. On the fourth hole he was again in the rough and Venning was forced to take a long putt for his second and last putt. At the fifth hole he was again in the rough and Venning was forced to take a long putt for his second and last putt.

At the 10th, Nicolson put his second into the bunker and although he was beautifully out, his third shot was a long putt for the hole. At the 11th, Venning topped his drive into the rough and took two strokes to get on, but although he played an excellent second shot, he was unable to get on the green.

which made a mark immediately; the others did not.

Native's Evidence.

A Kikuyu said he saw a native kneeling down by a tree some twenty yards from the spot, at a little distance. The native was on that side of the road. The man in the night and stopped on his other side, or Kikuyu side. A European drove the car when he could not recognize the man, ran away. Another native also ran away, at the witness's command.

The last witness's companion gave similar evidence. He saw no other traffic.

One examined witness said the traffic in front of the car was 10 to 20 yards from the car when they first saw him. He was not trying to cross the road, but was quite close to the grass.

A native riding with Mr. Hunter in his car at the time of the accident, when witness got out, saw that the man in the night had crossed the road. It was on the left hand side of the road. He saw the man on the Kikuyu side and the native was about 20 yards away.

NANTUKI HOSPITAL.

First Annual General Meeting.

The first annual general meeting of Nantuki Cottage Hospital was held at Nantuki on Saturday, 8th inst. A Mr. A. C. Anley in the chair.

In a review of the year's proceedings the chairman said a good meeting of all residents was held early in September, 1923 and it was decided that hospital be built as early as possible. A sum of money sufficient to build a small hospital was subscribed. 25 acres of land were obtained on very generous terms and the hospital was opened for patients on July 1st, 1924. It was found that a general effect we had done what we set out to do and now had a small hospital as a going concern and in a moment's notice that a good deal remained to be done. More equipment was needed.

We had had many generous donations, in cash and in kind, and amongst the givers of these were several firms and individuals of Nairobi. To these general thanks were due.

A Distinguished Career.

The late Sir George Thomson, Governor of Ceylon, whose death was announced on 10th inst. to reside with the Secretary of State for the Colonies in London was reported recently was in the midst of the war. Educated at Winchester and New College, Oxford, he entered the Admiralty as a cadet in 1881. When the war broke out he was one of the four assistant clerks, whose salaries ranged from £200 to £200. Mr. Thomson, then First Lord of the Admiralty, struck by his qualities of initiative and organization, first appointed him Civil Assistant Director of Transport, and within two or three months he became—at 39—Director of Naval Transport.

His services in this office were acknowledged by Mr. Churchill in a remarkable tribute in the House of Commons in which the First Lord, speaking on February 19th, said:

“We have now moved by one at least and almost, a representative 1,000,000 men without, up to the present, any accident or loss of life. Credit for these arrangements is due largely to the head of the Admiralty Transport, Sir George Thomson, and within two or three months he has stepped into the place when the emergency came and has

How I make better Gravy

"I place one good teaspoon of more of Bisto into a basin and smooth it down with half a pint of warm water. Then I pour the mixture into the roasting tin from which the fat has been strained and bring to the boil, stirring all the time—it's really very simple. If you want your gravy thicker or thinner just use a little more or less Bisto. You will soon find out just how much you need."
