Kenya drive to offset cuts in timber exports

ALL-RACES STADIUM PLANNED IN NAIROBI

PLANS for an inter-racial football sports stadium with facilities for football, athletics, cycling and boxing have been drawn up by an emergency meeting of the Kenya Football Association.

The site has been selected for the new stadium will be as soon as Nairobi Council give its approval," said Mr. J. A. Driver, president of the Kenya F.A.

Running and cycling

To start the project, the F.A. has asked for a Government grant. A Colony-wide appeal for funds will be made.

The stadium will have modern changing rooms, locker, training facilities and facilities that will enable athletes to train throughout the year.

In the centre of the ground will be a football pitch (110 yards by 70), started by a running track of 400 yards and a cycle track. Outside the track will be a 300-yard race track, a 1/2 mile track and a 3/4 mile track.

Representative games

"The stadium will be for the benefit of all races," said Mr. Driver. "It will be a representative game of the Colony and its races."

The fact that large quantities of sports equipment are being imported from the United Kingdom has been a factor in the decision to build the stadium.

Sales to Uganda

"The Kenya timber industry, however, is expected that export trade will improve within the limits set by the fact that other countries competing on the world market are at a disadvantage as a consequence of the fact that their timber is sold at a loss."

Society expanding fast at Nanyuki

Members of the Nanyuki branch of the East African Pioneer's Society have been invited to the first annual meeting of the society to be held at Nanyuki on July 20-21. The meeting will be held at the Nanyuki Sports Club.

AUSTRALIA PLEASUED WITH SOFTWOOD SHIPMENTS

BULK shipments of Kenya softwoods have recently started to Australia, where customers have expressed themselves as pleased with both the quality of the timber and the manner in which the timber and business have been handled. This information was given yesterday by Major J. R. Driver, export manager of the Kenya Forest Department, in describing to the East African Standard the reasons for the increase in softwood exports to the open markets in the Indian Ocean area.

Kenya's new timber export trade has been stimulated by the reduced export tax on softwood timber. The Government's largest customer—Britain—has been the end of the last year.

During 1952 some 20,000 tons of timber were exported through Mombasa and this rate continued until some time in 1953, when the restriction became evident in all ports. Some 25,000 tons were exported last year.

Causes of the drop

The causes of this drop in exports, which have hitherto been controlled by the East African producers, include—

The liquidation of British softwood mills in the United Kingdom. The cessation of timber logging during the war years.

The freezing of softwoods from the East African countries, which has prevented the export of softwood timber to the United Kingdom.

The fact that large quantities of softwood timber are being imported from the United Kingdom has been a factor in the decision to build the stadium.

Sales to Uganda

"The Kenya timber industry, however, is expected that export trade will improve within the limits set by the fact that other countries competing on the world market are at a disadvantage as a consequence of the fact that their timber is sold at a loss."

UNIFICATION OF CUSTOMS TARIFFS IN EAST AFRICA

UNIFIED customs tariffs are shortly to be introduced, as far as possible, in East Africa. At the moment the management of customs and the various import duties are a matter of local legislative jurisdiction but for some time there has been an effort towards unification.

In 1951, the East African Customs Commission, set up by the East African States, the East African Customs Management Act, 1951, and the East African Customs Management Act, 1951, was established. The Commission's task is to recommend a uniform tariff for the whole of East Africa. The Commission has already recommended a uniform tariff for the whole of East Africa. The Commission has already recommended a uniform tariff for the whole of East Africa.

MARKET MOVES FORWARD

World Bank issue aids recovery after decline

Special note to the "East African Standard"

UNCERTAINTY about the outcome of the Geneva talks coincided with a bout of profit-taking in equities early in the week. But there was no real panic as the market fell from its high levels. But the *Indochina* cease-fire progress and signals of continued advance and equities ended the week on a firm note.

Paper, stores and motor shares suffered more than the other decline but were out in front again when the recovery set in.

The *Indochina* cease-fire also had an up-down week. The price of the share fell, the long-dated and short-dated bonds also had a mixed week. The price of the long-dated bond fell in the first half of the week but then rose slightly when the mid-week recovery set in. The price of the short-dated bond rose in the first half of the week but then fell in the second half.

ACTIVE MARKET EXPECTED

You can take it from me

Just my HOOVER Washing Machine has made a big impression on me. I've had it for over a year now and you can't get a better one. It's the most perfect servant I've ever had - it's so easy to use and so efficient. It's a little over a year old now and it's still going strong. Long-term policy

The outstanding feature of the public statements issued by the International Monetary Fund reported in Washington that satisfactory progress had been made in Europe towards convertibility is the fact that the expansion of world trade is being encouraged by the policy, coming from those who have been criticised, as being unduly restrictive to both sides the front of the world.

U.S. considering credit plan to aid sterling

THE U.S. Federal Reserve is actively considering a credit plan to help in making British sterling convertible. The plan is being considered in the light of the fact that the American aid will be made available in the form of a loan to the British Government.

PROSPECT OF CAS. LOAN OUT TODAY

THE PROSPECT of a loan to the Government of the State of Israel is being discussed in the United States. The loan is being considered in the light of the fact that the Government of the State of Israel is in need of funds to carry out its development programme.

New uranium discovery in Australia

NEW URANIUM deposits, likely to be the most important yet discovered in Australia, have been found in the State of Queensland. The discovery is being made by the Australian Atomic Energy Commission.

Passbook warning to employers

5,000 STILL AWAITING COLLECTION IN NAIROBI

The passbook scheme for Kikuyu, Embu and Meru districts is working in Nairobi, but a breakdown in the collection of passbooks is causing a serious delay in the issue of new passbooks. There are still 5,000 passbooks to be issued and the Director of the National Control Office is making a special drive to ensure the maximum collection of passbooks for employers and employees. The Director stated that the collection of passbooks is being carried out by the National Control Office and that the collection of passbooks is being carried out by the National Control Office.

In the Old Trafford Test match... ENGLAND'S POSITION IS AN UNASSAILABLE ONE

Kongonis win Victory a mere formality unless weather intervenes

UNLESS the weather prevents any play on the two remaining days of the third England-Pakistan Test match at Old Trafford, Manchester, England, giving them a two-nil lead in the series, appears to be a foregone conclusion. Caught on a very rain-soaked day, the tourists were dismissed for 80 and forced to play 254 runs behind with four second-strike wickets down.

The closing scores were England 208 for 6 wickets, declared Pakistan 80, all out, and 23 for 4 wickets.

When the Old Trafford Test opened the weather on Saturday was so threatening that rain began to fall at an hour late, at 12.30 on Monday.

Kenya beats Tanganyika

Kenya won their inter-Territorial cricket match against Tanganyika in Dar es Salaam on Saturday. Batting first the Colony side scored 108 runs, while Tanganyika were dismissed for 89 in their second innings.

Tanganyika were dismissed for 89 in their second innings. Kenya were dismissed for 53 runs.

was young J. J. Woods. At the crucial stage in a 100-run chase, he was dismissed. The incident was his stroke of genius. When he was dismissed, he was caught by his own bat and he had, however, the satisfaction of making his highest score for Kenya.

Deserved sympathy In general, the tourists were deserving of sympathy in their defeat. They were outplayed by an accomplished and well-organized team. The captain, Hani Mohammad, was a fine batsman and a good bowler. The batsmen were well served by the bowlers. The captain, Hani Mohammad, was a fine batsman and a good bowler.

Doctor contends too much rest can do harm

Dr. Milton Wood, of the Wayne Clinic (Detroit Medical District), writes in the Detroit Medical News that prolonged rest is habit-forming.

He states that excessive rest can lead to a loss of vitality and a decrease in the body's natural ability to fight off disease. He advises patients to engage in light physical activity to maintain their health.

When you need aspirin - better take a DISPRIN

Why Disprin? Because, unlike ordinary aspirin, Disprin is neutral (non-acidic) and safe. Taken in a little water, Disprin eases the stomach as a pain reliever, not as undissolved acid particles. It is thus readily absorbed and rapidly into effect, without upsetting the stomach.

£2,000 or because of the UNSEEN VALUE they possessed

It was not so many years ago that newspapers overseas carried the story of an old street musician who fiddled on a busy corner in a great city.

As passers by dropped small coins into his battered hat, few gave him more than a casual glance. Until a great musician came along... heard in the uncertain fiddling something in the tone quality that stopped him dead in his tracks. The musician stepped closer, looked sharply at the violin, spoke excitedly and bundled the old fiddler into a taxi... made him wealthy beyond his wildest dreams.

For the violin was a Stradivari. Worth £23,000. Seventy or so pieces of wood... carved, fitted, glued together, varnished and equipped with four strings. But as

they came from the hands of Antonio Stradivari they had some magic in tone beauty... an UNSEEN VALUE which skilled hands, for two hundred years, have been trying without success to duplicate.

In every field there are products of human skill and examples of man's determination to serve others that possess this priceless quality of UNSEEN VALUE. This determination to surpass may be present in a farmer, a manufacturer, a cabinet maker or a business house. But wherever it is found... in butcher, baker or candlestick maker you will know that this UNSEEN VALUE can bring extra dividends of satisfaction to you.

This determination to surpass and devotion to high standards of service are among the GILFILLAN characteristics, and have been so for more than a century of our history. They are part of the working equipment of every member of its staff... a fundamental part of the tradition. They are the UNSEEN VALUES that constitute our secret to know and appreciate.

More rain disrupts first day of new championship series

RAIN will pour as the new series in the County Cricket Championship opened on Wednesday. No play was possible in Lancashire because of rain and in Warwickshire because of an after-lunch storm to stop play in the Essex-Surrey match and rain restricted progress in the other games.

One of the few bright spots in a day of grey skies was the performance of Freddie Trueman in the first innings of the match at Taunton. He was the only batsman to score more than 50 runs in the first innings, his 109 being the highest score in the match.

Trueman's innings was a masterpiece of technique, showing a combination of power and control. He was particularly effective in the first 30 minutes, when he scored 50 runs. He then continued to bat for over an hour, his innings being a model of consistency.

Trueman's performance was a real surprise, as he had not been in the best of form recently. He had only scored 10 runs in his last five matches. His innings at Taunton was a real revelation, and it has put him back in the reckoning.

Trueman's innings was a real highlight of the match, and it has put him back in the reckoning. He has now scored 109 runs in the match, which is a real achievement. He has also taken 3 wickets, which is a real bonus.

Warwick v. Scots

Warwickshire and Derbyshire at the top of the table, have a non-competitive engagement with Scotland in the current series at Taunton. The match will be a one-day affair, with rain restricted play to 100 minutes.

Derbyshire were all out for 190, Yorkshire replied with 160, but were bowled out for 100.

Warwickshire were all out for 100, Yorkshire replied with 160, but were bowled out for 100.

Warwickshire were all out for 100, Yorkshire replied with 160, but were bowled out for 100.

Tyson-Cowdrey duel

At Northampton, there were six rain interruptions, but play was featured by an interesting duel between two of the County Championship's leading batsmen, Frank Tyson and Colin Cowdrey. The bowlers were Keith Trueman and Trevor Bailey.

Tyson scored 100 runs, while Cowdrey scored 80. The match was a real test of their batting skills, and it was a real highlight of the series.

Tyson's innings was a real masterpiece of technique, showing a combination of power and control. He was particularly effective in the first 30 minutes, when he scored 50 runs. He then continued to bat for over an hour, his innings being a model of consistency.

Cowdrey's innings was a real revelation, as he had not been in the best of form recently. He had only scored 10 runs in his last five matches. His innings at Northampton was a real revelation, and it has put him back in the reckoning.

Impressive 140 by Hanif at Taunton

A FINE innings of 140 by 18-year-old Hanif Mohammed crowd on a good rainy day at Taunton on Wednesday, when Somerset supported the tourists. It was Hanif's first County Championship century, and it was a real highlight of the match.

Hanif's innings was a real masterpiece of technique, showing a combination of power and control. He was particularly effective in the first 30 minutes, when he scored 50 runs. He then continued to bat for over an hour, his innings being a model of consistency.

New Constitution soon for Cyprus

NO CHANGE OF SOVEREIGNTY

BRITAIN is preparing a new Constitution for Cyprus which will give her a measure of self-government. This was announced in both the House of Lords and the House of Commons by Mr. H. D. G. B. Bull, Colonial Secretary, who made the Commons statement that no change of sovereignty was contemplated.

Arrangements had not yet been made in detail, but they are being made in the Commission set up by the British Government to study the proposals. The Commission will have a number of members, including representatives of the Greek and Turkish Cypriots, and will be headed by a British official.

Cyprus was ceded to Britain by the Turks in 1878. It became a Crown Colony in 1925. There has been a long and strong movement in the island, led by the Greek Cypriots, for the island to be united with Greece. This movement has been given a boost by the Greek Cypriots' demand for a new Constitution for the island.

A constitutional assembly representative of the island was set up in 1952. It has since held several sessions and has proposed a number of constitutional schemes. The British Government has been studying these proposals and has decided to prepare a new Constitution for the island.

The new Constitution will be based on the principle of self-government. It will give the island a measure of independence, but it will remain a part of the British Commonwealth. The British Government has announced that it will be ready to discuss the new Constitution with the islanders as soon as it is ready.

New H.Q. planned
Cyprus is to be the new headquarters of British Forces in the Middle East. The British Government has announced that it will be moving its headquarters from Cairo to Cyprus. This move is part of a re-organisation of British forces in the Middle East. The new headquarters will be based at Nicosia, the capital of Cyprus. It will be a modern and well-equipped installation. The British Government has announced that it will be ready to discuss the new headquarters with the islanders as soon as it is ready.

TANGA ACCEPTS SHAIN OF OFFICE GIFT

When the new Tangi Town Council comes into being next month, the first chairman will have a rather unusual chain of office, presented by Dar es Salaam Municipal Council. The gift of the chain was mentioned at the first meeting of the Tangi Town Council on August 11. The chairman of the Dar es Salaam Municipal Council, Mr. G. B. Bull, presented the chain to the Tangi Town Council. The chain is a symbol of the friendship between the two councils.

The ceremony will be attended by the Governor of Tanganyika, the Mayor of Dar es Salaam, and the Chairman of the Tangi Town Council. The chain is a silver chain with a central medallion. The medallion is a shield with a cross in the center. The cross is a symbol of the Christian faith. The chain is a gift from the Dar es Salaam Municipal Council to the Tangi Town Council.

Road work progress
The Government had agreed to allocate a sum of £2,000,000 for road work in Tanganyika for the year 1954-55. This sum is a record for the Government. The road work will be carried out in all parts of the country. The Government has announced that it will be ready to discuss the road work with the local authorities as soon as it is ready.

Everest men had 193,000 litres of oxygen
The British Everest expedition received more scientific equipment than any previous mountaineering team, the report of the Medical Research Council for 1953 reveals. The expedition had 193,000 litres of oxygen, which was used for the ascent of Everest. The expedition was led by Colonel John Hunt. The expedition was successful in reaching the summit of Everest on June 30, 1953.

40 AFRICANS CAUGHT IN RAID ON LAKE
Nets and dhows confiscated
A party of 40 Africans, including five women, arrested in a raid on the Njura area of West Kamia for illegal fishing, were charged in court at Kilimanjaro. The women were dismissed with a warning. 33 of the men fished, and the other two Africans who had been operating dhows, were fined 20/- and had their boats confiscated.

Jinja production of three Coward one-act plays
The Nile Players' production of three one-act plays in the Garrison Theatre, under the direction of Mr. J. H. Coward, was a success. The plays were 'The Nightingale', 'The Play', and 'The Man of the Hour'. The production was well-received by the audience. The Nile Players are a well-known theatrical group in Jinja.

Britain recognises Guatemala
The United Kingdom has recorded full recognition in the House of Commons of the Government of Guatemala. The Foreign Office announced that it had decided to recognize the Government of Guatemala. This decision was made after a long period of negotiations. The Government of Guatemala is a democratic government. It has a long history of independence.

Karachi Police raid police offices
Karachi Police raided and searched the offices of the Assistant Pakistan Police Officer, Mr. J. H. Coward, in the Progressive Workers' Association. The raid was carried out on July 28. The police found a number of documents and papers. The raid was a surprise. The Assistant Pakistan Police Officer was not present at the time of the raid.

TERRORIST HAS LAND WARNING

One month to make objection

ANOTHER Mau Mau leader, Kihongo Kinjira, is warned in a notice issued today by Mr. C. M. Johnston, Provincial Commissioner for the Central Province, that the Government has initiated proceedings against him under the Forest Ordinance, 1952.

It is pointed out that unless he lodges an objection within one month—and to do so it will be necessary for him to surrender under the terms announced in his notice—he will be liable to be deported from the Province.

Kinjira owns land at Kasuuhi, in Location 16 of the Taita District.

Wanted for trial

The official notice in the same terms as that issued three months ago, is repeated today by Mr. C. M. Johnston, Provincial Commissioner for the Central Province, that the Government has initiated proceedings against him under the Forest Ordinance, 1952.

Coffee planting in Kisi Highlands

LT. (Temporary) Captain, James Owen Desmond Pridmore of the 2nd Bn, K.A.R., was sent to be cashed at Nairobi court-martial for stealing nine gallons of Service petrol. In defence he said that he accepted the petrol to visit his mother in hospital.

Acting against L.F. French

L.F. French, who was adjutant general at Nairobi, had pleaded not guilty to two charges of stealing petrol and admitted improperly using the petrol for his own purposes.

Move to increase coffee markets

The setting up of additional coffee markets in the Highlands is being considered by the Government, to improve the position of the coffee grower and to increase opportunities for the buying of the coffee crop.

RIFT ELECTORS' UNION BRANCH SUPPORTS U.C.P.

Central Office criticised

SUPPORT for the formation of the United Country Party was declared by members at a meeting of the Management Committee of the Rift Valley Branch of the Electors' Union. In three other resolutions, it was stated: "The Management Committee does not support the statement of policy issued by the Central Office of the United Country Party on behalf of Electors' Union members concerning the Council of Ministers' 18-point Statement of Policy."

Mkamba on study tour makes good impression

THIS good impression created by Mr. David Mkamba, a Mkamba from Machakos who is now studying local government finances in Britain, is reflected in a letter written by Mr. R. R. D. Jones, chairman of the Hoyalake Urban Council in Cheshire to the Machakos Urban Commissioner, Mr. D. J. Perwell.

Mr. Jones added that "he has been very impressed by the progress made by the Council Treasurer, Mr. R. R. D. Jones, in his learning accounting methods in Britain, and that he is prepared to develop his own and his fellow councillors' knowledge and understanding of the subject."

Visit worth while

Mr. Jones added that "he has been very impressed by the progress made by the Council Treasurer, Mr. R. R. D. Jones, in his learning accounting methods in Britain, and that he is prepared to develop his own and his fellow councillors' knowledge and understanding of the subject."

Closer farm and veterinary links sought

CLOSER co-ordination of the work of the agricultural and veterinary departments in Nyanza was advocated at a joint meeting in Kisumu of district officers of the two departments.

Regular contact

The department had succeeded in establishing a regular contact with the veterinary department, but the time of its limited field visits would be taken up more in visiting animal hospitals by the veterinary department.

Animal husbandry

It is proposed that courses for agricultural staff be instituted at veterinary training centres, and a view is being undertaken of the subject.

When LESLEY CLAY went to collect her dog from a local kennel recently, she stumbled on an urgent problem affecting the canine population of East Africa. Kennel accommodation for dogs was found almost as urgent as housing people as homes for humans.

NOT ENOUGH LEBENSRAUM

WHEN I was a small child, some people took the empty house at the end of the road where I lived. There was quite a big field next to their garden and in their garden and in their garden they placed some kennels and set up a large notice advertising a holiday home for dogs.

Joy unbounded

THE animals set up a barking when I approached but their joy was not shared by the dog on the lead and was muted rapidly toward the field by excited charges or sometimes attempts to take a stroll in the nearby park with the more sensible.

I think the idea must have come to me then that I had ever enough money to buy such a dog as I would get for the price of a dog. I had a dog named Daisy, a small, black and white, spotted dog, who was very intelligent and very obedient.

Only two

AT the moment there are only two dogs in the world who are as intelligent as Daisy. One is a dog named Daisy, who is a small, black and white, spotted dog, who is very intelligent and very obedient.

Even though I was a child, I was very fond of dogs. I had a dog named Daisy, who was very intelligent and very obedient. I was very fond of dogs and I was very fond of Daisy.

The "long-leavers" routine

where six little damp dachshunds, black and brown, were pressed against the metal bars of a cage. They were only six weeks old, but they were already showing signs of the "long-leavers" routine.

Twenty cats

I WENT along to have a look at the cats. There they were, pressed against the metal bars of a cage. They were twenty cats, of various breeds, and they were all looking at me with interest.

Run loose

I MADE a note of the ground while Daisy was away from the enclosure. I had seen a long wire and was a group of a dozen cats and they were all looking at me with interest. They explained Miss Horwood's story of the "long-leavers" routine.

Miss Horwood told me that she had seen a great many cats in the area. She said that she had seen a great many cats in the area, and she had seen a great many cats in the area.

HARWOOD—LONG
THE pretty little church at Lammas made a charming setting for a very pretty bride. On Saturday, July 17, when Miss Joyce Ruth Long, only daughter of Mr. and Mrs. Long of Hastings Court, Westbury, Dorset, was married to Mr. John Oliver Harwood, eldest son of Mr. and Mrs. H. H. Harwood, of Keston, Kent, Surrey.

It was a happy occasion for Joyce as her father was able to be present at the wedding in the company of Mr. Harwood, the bride's maternal father. Mr. Long was prevented by recent illness from attending.

The attractive dark-haired bride came down the aisle on the arm of her father, her beautiful gown was of French-embroidered lace with a delicate and delicate skirt. She wore a small coronet, and white flowers formed the bride's bouquet.

Baron and the Rev. Mr. Glead performed the ceremony with Mr. Gintony at the organ. The reception was held at the Gintony Country Club, where a wedding cake, decorated with real roses, was served. Mr. Harwood was posed the health of the bride and bridegroom and Mr. Long that of absent friends.

Among those present were Mr. E. V. Irving, Mr. and Mrs. C. Johnson, Mr. and Mrs. Higginson, Mr. Justice Laming, Mr. and Mrs. A. P. Manning, Mr. and Mrs. Guy Rutledge, Mr. and Mrs. Woodcock, Mr. Mrs. Tony Dean and many friends of the bride from the West Country.

CROXFORD—WHITLEY

PINK and white gladioli and pink carnations decorated the Children's Church, Nailsea, on July 17 for the wedding of Mr. John Hampden Croxford, son of Mr. E. Croxford, of Nailsea, and Miss Patricia Whitley, daughter of Mr. E. E. Whitley of London, and the bride.

The bride was given away by Col. Inburt, wore a dress, cut on traditional lines. Her bouquet of tuberoses and lily of the valley. Miss B. Pittall, wore a dress cut on

Charles Evans at Thyanboche. Dr. Evans presented Everest to the world here with one of the Sherpas.

This is the second part of the story by Charles Evans, deputy leader of the New Zealand Himalayan Expedition, who tells of the exploits of the small group which left Sir Edmund Hillary's party to explore the upper Barun. It was written from Khumjung on June 15.

CROSSING FROM BARUN TO IMJA VALLEY

WHEN Bill and Wilkins returned to Base Camp after their feat of climbing in the upper Barun P. Harlin remained there with three Sherpas. Wilkins, Bill Harlin, the Sherpas as "Blacks" (the distinction had been made earlier) and "Ang" (see-ear) and "Ang" (see-ear) (for a similar reason) Harlin spent more days completing the survey of the Barun and then turned his attention to his main ambition to make the first crossing from the Barun to the Imja Valley south of Thyanboche a high ridge, from Thyanboche and divide the highest

of these two valleys. By 1951 the New Zealand party had looked at both sides of this range and had concluded that the only route was a high, rocky ridge which the Imja approached looked very formidable and perhaps dangerous. Harlin was determined to investigate this route thoroughly and to attempt his crossing at the earliest possible moment.

On June 1, in poor weather—confidential mail and occasional snow showers—he reached his intended goal from the Barun to the Imja Valley. The route was a high, rocky ridge, from Thyanboche and divide the highest of these two valleys. By 1951 the New Zealand party had looked at both sides of this range and had concluded that the only route was a high, rocky ridge which the Imja approached looked very formidable and perhaps dangerous. Harlin was determined to investigate this route thoroughly and to attempt his crossing at the earliest possible moment.

They started at 7.30 a.m. and for the first 20 ft. Harlin had a light snow and partial party of the Sherpas. The crossing was a high, rocky ridge, from Thyanboche and divide the highest of these two valleys. By 1951 the New Zealand party had looked at both sides of this range and had concluded that the only route was a high, rocky ridge which the Imja approached looked very formidable and perhaps dangerous. Harlin was determined to investigate this route thoroughly and to attempt his crossing at the earliest possible moment.

Harlin performed a marathon effort of descending and it was not until they were 1,000 ft. below the pass that they found water. The men then descended to the Imja Valley. The crossing was a high, rocky ridge, from Thyanboche and divide the highest of these two valleys. By 1951 the New Zealand party had looked at both sides of this range and had concluded that the only route was a high, rocky ridge which the Imja approached looked very formidable and perhaps dangerous. Harlin was determined to investigate this route thoroughly and to attempt his crossing at the earliest possible moment.

Kenya drive to offset cuts in timber exports

TRADEERS TELL GOVERNOR OF RENT FEARS

BULK shipments of Kenya softwoods have recently started to Australia, where customers have expressed themselves as pleased with the quality of the timber and the manner in which the timber and business have been handled. This information was given yesterday by May J. Carter, export manager.

The storm over Scotland has not affected the Kenya softwood industry. The freighting of softwoods from Kenya has not been affected by the effect of making available softwoods from other countries. The fact that large quantities of softwoods are available as a consequence of the burning of French forests by the German Luftwaffe is a factor which has helped to increase the demand for softwoods from Kenya.

Kenya timber export

During 1932 some 200,000 tons of timber were exported through Mombasa and the port of Lamu. The value of the exports was estimated at £2,000,000. The Government has been successful in increasing the value of the exports to £3,000,000 in 1933.

Causes of the drop

The cause of this drop in exports, which has been the subject of a report by the Kenya Timber Exporters' Association, is the reduction in the production of British softwoods in the United Kingdom. The production of British softwoods in the United Kingdom is estimated at 1,000,000 measurement units per year.

Kenya ban on book

With effect from Tuesday last, the importation of books from the United Kingdom into Kenya is prohibited. The Government has been successful in increasing the value of the exports to £3,000,000 in 1933.

MUNICIPAL BANK PLAN OUTLINED

One aim to help Africans 'to save in a modest way'

DETAILS of a proposal that Nairobi should start its own municipal bank, for the encouragement of thrift among members of all races, were outlined yesterday by Richard Woolley, chairman of the Finance Committee, at Tuesday night's meeting of the Nairobi City Council.

INQUIRY INTO HOSPITAL ORDERED

Dr. J. H. Croft, Director of the Hospital, was appointed a committee to inquire into the working of the hospital and to report to the Council.

More can save

In this rapidly growing city, the review of the Council's activities has been a great success. The Council has been successful in increasing the value of the exports to £3,000,000 in 1933.

Local loyalties

One overriding reason in favour of the proposal is the fact that a municipal bank would be a local institution. It would be a bank for the people of Nairobi, and it would be a bank for the people of Nairobi.

Food from such plates

The Government of the Province of the Highlands and the Government of the Province of the Lowlands have been successful in increasing the value of the exports to £3,000,000 in 1933.

Agreement with Immigrants

The Emergency may do some good, but it is a long time before the effect of the Emergency will be felt. The Government has been successful in increasing the value of the exports to £3,000,000 in 1933.

Passbook Regulations

Emergency regulations concerning the issue of passbooks to the holders of passbooks in Kenya and Meru have been issued. The regulations are designed to ensure that the passbooks are issued to the holders of passbooks in Kenya and Meru.

More European Immigrants
