"PEACE with GERMANY" DEBATE

SOUTH Africa with its unhappy knack of getting on the world's front pages, has again made history. General Herting's "Beese motion in the flouse of Assembly and the debate which followed it; has made this the most interesting—and the most addening—welk which South African politicians have seen for many years.

When the House met everyone expected the usual Opposi-tion motion of "no confidence," and probably an attack on the emergency regulations, internment system, the broadcasting changes and other aspects of special war time measures.

ECONOMY IN THE USE OF PETROL.

THE SHELL COMPANY OF EAST AFRICA LTD., think at their numerous customers may be interested in the llowing statement issued by the Royal Automobile Club:—

"The speed at which a vehicle is run has a very considerable illilatence on the petrol consumption. Generally speaking, for maximum economy a car or motor cycle should be run as much as possible at a speed between 20 m.p.h. and 30 m.p.h., and rapid acceleration should be avoided. In the same way, maximum use should be made of top gen, with the object of avoiding unnecessary "revving" of the

"Sparking plugs should be adjusted and cleaned, especially in the case of engines having eight or more cylinders. Each cylinder should be tested individually to make sure that it is functioning properly. The need for valve tappet adjustment, for instance, may result in a "weak" cylinder which will cause wastage of petrol.

"Test brakes to ensure free running, maintain the tyres at the correct pressures and have the wheels checked for proper alignment.

"It will be of assistance if the engine is switched off and the gear put into neutral on all long descents. Use second gear when starting from rest in the case of a can fitted with a four-speed box."

Mr. Stanley said the Treaty of Versailles was held by some people to be the cause of all the present trouble, but, he asked, what kind of a treaty would Germany be likely to impose on a beaten Britaine.

Italian Action "Out Of Respect For Our English Friends"

After having been on the Askari a German coaster, from belo the war began until they sought retuge in a Klamayo pris from which they were shipped by the Italian Government Dar es Salama, 22 natives have returned to Tanganyika wi a grim story.

It tells of fierce buffeting, beatings and imprisonment aboard the ship, endured until the crew "mutinied," seized the boats and went ashore, telling the Italian authorities that they would rather be shot than go back.

en the Italians shipped them back to Tanganyika they were told. "We are doing this because of the respect we have for our friends the English."

The main outlines of the story were published some months ago.

They are confirmed and amplified in the following account
