WHO CAUSED GUERNICA FRIGHTFULNESS?

REBEL, GERMAN, AND BASQUE DENIALS

More Eyewitness Details

EVIDENCE OF AEROPLANES AND BOMB MARKINGS

General Franco "does not know anything" about the destruction of Guernica, of which every additional detail that comes to hand is more horrible than the last.

Berlin has "officially denied" that Germans or German aeroplanes took part in the raid.

The amazing suggestion that the destruction was caused by the Basques themselves is denied by the Basque President.

In the meantime Reuters' correspondents report that all the aircraft taking part were German and that bombs were marked with German emblems.

World opinion has been roused and there are general expressions of horror. Moves are on foot in Britain and children from Bilbao, where food and relief ships continue to arrive without difficulty.

The land attack on the Basque capital is being strongly pressed on but claim and counter claim, as usual, make it difficult to learn the exact position.

Aiding Bilbao Refugees

Spanish Government April 29. Five miles were systematically bombed and set on fire.

Italy Mentioned A representative of the Basque Government in Paris has issued a statement in which he says that the Basque Government is directing the most bitter struggles of the civil war.

WORLD OPINION AF Furore as "Instrument of Massacre"

The destruction of the town has raised fierce protests in many quarters.

The House of Commons on Tuesday asked Mr. Eden whether any further steps had been taken to prevent people from being or from selling the material.

Germany Involved It is officially denied in Berlin that German aeroplanes were involved in the Guernica raid.

Basque Demands The Basque President has demanded that the town be destroyed.

GERMAN PRIESTS SENT TO GAOL

Alleged High Treason

London, April 29. The four occupants of two R.A.F. bombing planes were killed by German soldiers.

HELP FOR REFUGEES

Proposed Withdrawal of Women and Children. Consideration is now being given to the evacuation of the civil population of Bilbao.

It is believed that the Basque people will be evacuated to the southern section, also the Salinas, Estora and Spah.

ALUMBRIST BRIGADE

It is learned in Dublin that General O'Duffy's Brigade will leave Spain in a few weeks.

An official opinion by the International Commission on the Disarmament of Arms is that the British naval force would be sufficient to maintain order.

British Ships Arrive The British steamer "Hulk" has arrived in Nairobi.

Protection of Ships Having received representations from the Seaman's Union, the Government has agreed to suspend the operation of the Merchant Shipping Act.

LAND ATTACK Basque Day Insurgent Claim of Prisoners The insurgents claim that thousands of prisoners and large quantities of munitions have been taken.

KENYA'S BIGGEST AND BEST SHOW

GLANCE AT THE PREPARATIONS AT 'KABETE'

Miniature Empire Exhibition

All sections out to make the Coronation event memorable.

Seven weeks ahead of the great event of the Kenya Agricultural Year—the annual show of the Kenya Rural Agricultural Society—the Society's grounds at Kabete are alive with industry and preparations are well advanced.

The tale is the same all over the extensive show ground. New permanent buildings going up here, display sheds are being extended there, the roads are going up all round, and every inch of space that can be used without taking from the show, its advantage of reasonable early hours, is being made out.

Object Lessons for Farmers

A week round the grounds was a profitable and interesting one.

It is the object of the Society to show to the farmer the results of his own work.

The Society is also showing the results of the work of other countries.

A Tanganyika Wedding Education—Past and Present

Singleton—Evans

An Address given by Lady Sidney Farrar at the District Annual Meeting of the Nakuru Branch of the East Africa Women's League.

Holy Trinity Church, Nairobi. On April 13th the marriage of Miss Margaret J. Singleton of the Standard Bank of South Africa Ltd. Nairobi, to Mr. and Mrs. F. W. Singleton of Marburg, Natal, was celebrated at the New Stanley Hotel for two days before going down to Marburg. She is a cousin of Mr. H. J. Morgan of the Health Dept.

First of all, what is education? It was understood by a good many of the ladies present that education is not only a matter of knowledge of books, but also a matter of character. Education is a process which begins at birth and continues throughout life.

The Education Department in Tanganyika is a young one, but it has already achieved many successes. It has established a system of primary and secondary schools, and has begun to provide technical and vocational training for the youth of the country.

Education is a process which begins at birth and continues throughout life. It is a process which is never complete. It is a process which is a continuous process. It is a process which is a process of learning and growth.

The ceremony was performed by the Rev. F. J. Robinson, who was assisted by Mr. V. W. Anderson who was the officiating minister. The bride and groom were accompanied by their families and friends. The reception was held at the hotel where a large number of guests were entertained.

In England up to the days of the Renaissance the education of the young was based on the study of the classics. The curriculum was based on the study of Greek and Latin literature, history, and philosophy. The aim of education was to produce a well-rounded and cultured individual.

Education is a process which begins at birth and continues throughout life. It is a process which is never complete. It is a process which is a continuous process. It is a process which is a process of learning and growth.

Education is a process which begins at birth and continues throughout life. It is a process which is never complete. It is a process which is a continuous process. It is a process which is a process of learning and growth.

Miss Ethel Rifkin of Nairobi, whose engagement to Mr. D. Ruben of Rongai was announced recently.

NEW DELHI, April 12.

If the Act is really such that there is the slightest difficulty in the Governors telling Congress Leaders that there is nothing to prevent their going ahead with the programme outlined in the (Congress) Election Manifesto, then we have to admit that we too have been mistaken about the Act. We, too, would recognise that it should now be replaced by another. — "The Statesman."

A fortnight has elapsed since the Congress Party Provincial Conference had the demand for an amendment. The constitutional and legal rights and wrongs of the people have during the last few days been subjected to an almost scorching detailed discussion. # KEYS TO THE EMPIRE A DEFENCE

## RESERVE PILOTS FOR THE REGULAR SQUADRONS

### SIR ROBERT BROOKE-POPHAM'S ADVICE TO THE COLONY

#### Home or Local Training

**AN AUXILIARY SQUADRON NOT AT PRESENT A PRACTICAL PROPOSITION**

His Excellency the Governor Air Chief Marshal Sir Robert Brooke-Popham spoke at two Sir George's Dinners on the week end. On Friday last he replied to the toast of "Kenya" at Nairobi when he described the country as the Empire in miniature and emphasized the opportunities for leadership both in Imperial and East African questions which presented itself to the community.

On Saturday night replying to the toast of the Imperial Forces he outlined his views on the nature of the contribution that Kenya could make to Imperial air disarmament with a key and direct plan of defence for the country which had not come out as an Air Chief Marshal with a cut and dried plan of defence for a world which he had given some thought to the potentialities of the Colony from this point of view.

Sir Robert suggested that while the establishment of a local auxiliary air squadron could not be regarded as practical at present, it might be possible to provide a reserve supply of pilots for the use of the regular Air Force.

## Two Dinner Speeches

"I am one of those who believe that it would be a great advantage to form a local reserve supply of pilots for the use of the regular Air Force. It is undoubtedly the most successful and best attended of the dinners held by the Governor, and it is a very creditable one." Sir Robert's speech was a very creditable one, and it was a very creditable one. It was a very creditable one, and it was a very creditable one.

## ROUSE YOUR UNDERLIP

see BLACKHEADS clear  
PORES look finer

**Begin to use this "deep-skin" treatment**

**TWO COMMON FAULTS**—blackheads and coarse pores which mar the prettiest complexion—can be removed in a few minutes when you apply blackhead-removing function blackheads—clog the pores with overthick skin. First blackheads form. Soon pores are looking larger.

**Why not**—can bring the healthy underlip back to healthy action—rouse it with the faithful use of Pond's deep-skin treatment:

**Every night**, pat on Pond's Cold Cream. Its specially blended ointment goes deep, deep under the surface of the skin, softens, and loosens up the pores. Wipe off. At once, your skin looks clearer! It is more cream—loose. The complexion shines.

**Every morning** (and before make-up) repeat... Your skin is smooth for powder. Your white face fresher, clearer, more beautiful. Pores are disappearing. You are actually smaller!

**Keep up the Pond's patting treatment.** At blackheads, pores are soft, take a clean tissue, and press them out. Now blackheads will stop coming! And the very places where pores showed largest will be finer textured.

**SKIN FLAKY? MELT IT SMOOTH!**

For this you need a different cream

**TURN** flaky bits that rough up your skin, and ruin your make-up—dry-out particles of skin, flaking off. You need a new kind of cream to melt them smooth!

A distinguished dermatologist says: "The most beneficial cream I know of is Pond's. It applied, dries-out surface cells, softens them, and melts them smooth. The skin immediately looks fresh."

Now you know why Pond's Vaseline Cream is such a great wonder-balm!

**For a smooth make-up**—before powder, brush on Pond's Vaseline Cream. It melts the soft glow "underneath"—bring out the skin's own beauty. It melts away the flaky bits that rough up your skin. It melts away the flaky bits that rough up your skin. It melts away the flaky bits that rough up your skin.

Apply to face, neck, and hands, wherever skin is rough. It softens your skin more, the longer it's used.

THE PLAGUE OF SMALL CATERPILLARS

SUDDEN APPEARANCE A MYSTERY

Ground Nairobi at present has vast numbers of caterpillars marching in long columns, hence the caterpillars are known as the "Army worms."

Caterpillars occur periodically, usually from five to seven years (only a statement issued by the Department of Agriculture) and when actual crop thousands of square miles in the various districts throughout the country. Why they should suddenly appear in such great numbers will require explanation.

They were first reported by Inspector James Smith of the Forest Department in the Nairobi district in 1937.

Revenue Funds

A substantial decrease in the amount of revenue for the year 1941-42 is expected, and it is anticipated that the Government will have to raise the revenue by other means.

It is estimated that the revenue for the year 1941-42 will be about 10% less than for the year 1940-41. This is due to a number of factors, including a decrease in the amount of revenue from the various districts.

# FIGHT TO FINISH" SAYS FRANCO

## WE CANNOT CONCEIVE COMPROMISE.

### Talk to British Pressmen

**INSURGENT LEADER DENIES CUALALAJARA DEFEAT STORY**

Madrid, April 30. (Associated Press)—General Franco, insurgent leader, today denied the report in the "Daily Mail" at Salamanca, Spain, that he had given the first interview to the British press since his victory over the Republicans in the Guadaluajara battle.

General Franco, special correspondent for the "Daily Mail," at Salamanca, Spain, the insurgent leader saw him in the first interview to be given since the Guadaluajara engagement.

Asked about the Guadaluajara battle, claimed by the Government side, and many correspondents writing from the Government side, General Franco said that the whole line of his "fight to finish" had led to a retreat of one particular column, a "unit" of volunteers, lost in the night, but that the rest of his army had held its position and was obliged to "rectify its positions towards the rear with our pressure from the enemy."

"The Red Press propaganda," he said, "may liberate us of falsehoods and lies."

"The last question was about Madrid, and General Franco said "Madrid may be taken at any time, and it is not for me to venture to name any time limit."

## "United Spain" Ideal

London, April 28. (Associated Press)—The "Daily Mail," London, April 28, stated in an article that the insurgent leader, General Franco, has a "fight to finish" attitude in the sense of the Spanish saying, "we cannot conceive compromise." He said that he was fighting for a "United Spain" and that he would not accept any compromise.

# FILM FARE FOR THE WEEK-END Present and Coming Attractions

Errol Flynn in the role of "Captain Jack," gives a very good performance in the film which is being shown at the "Empire Theatre" this week-end. It is the "action picture" which you will know by the British Standard of policy on the Spanish Main, which includes the names of Olivia de Havilland, Lionel Atoll and Paul Robeson.

Today's offers the had chance of seeing at the Playhouse Theatre "Forgotten Men" the film remount of the last War compiled from authentic scenes gathered together by war photographers of the Government's control. It is a genuine piece for peace and an attempt to objectify the present generation the largest of war and the fidelity of it.

Two of the World's Greatest, showing at the Capital Theatre, is a society drama working up to tense scenes in a court-room, where a member of the aristocracy stands on trial for murder. Cross-examine Bennett star, supported by Ned Hamilton and Helen Vinson.

### Next Week

Nairobi's Shakespearean Festival Play, "Twelfth Night," will be presented here "Thursday" at the Empire Theatre by the "Empire Players" and guest artists under the direction of Mr. A. J. B. Mackay. The only London "most" favourite in amateur Shakespearean work and many new players. To the film world there will be shown "Eloise's Story" at the Capital Theatre next Monday. This is a crime reporter's real-life story of the gangster world, and it features Franklin Dore, Andrew Stone and Joseph Collins. All the same names next Thursday "The Men Who Could Walk Water" will be screened. It is the admirably modern film version of H. G. Wells' famous short story of a man who, through the aid of water, remains in contact with water.

The "Hope of His Side" coming to the Playhouse Theatre next week, stars Rodney Hayward in a specially written comedy introducing Uncle Lennon Football to the scene. Highly respected actor James H. H. (Mabel) Constance, who has been the largest of film at football. Shirley Temple film will feature "Our Little Girl," which is being shown at the Empire Theatre on Monday next, in which the child star achieves the recognition of Donald Crisp, Noel Coward and his wife (Blossom) Keay.

# SCOTSMEN RAMPANT England's Offences Against Treaty

["STANDARD" CORRESPONDENT] London, April 19.

On 23rd Andrew V. Day, 1910, in St. Andrew Society of London and the St. Andrew Society of Glasgow presented a petition to King George V on Scotland's treaty right in the British Isles in which the petitioners stated that they and many other Scotsmen stated with approval, the manner in which certain Government Departments had disregarded the provisions of the Treaty of Union of 1707, both in the letter and in the spirit and had, both in British and in Imperial harbours, marshes and in continental waters, to interfere with the fishermen described as "undue jurisdiction" in the harbours and fisheries of England, in place of treating the British of Scotland and England as equal partners in that Union.

The petition deals with various matters under the following heads: setting other unauthorised use of the waters of Scotland and "English" in British and Imperial waters.

The abandonment of the Scotch fish has involved loss of work to Scotland, and the damage to the fishery—Bog-burnie—purely English in design and construction.

The flag of the British Navy, contrary to the treaty, display St. George's Cross on the hull of St. Andrew's Cross—the Union Jack has been employed.

The War Office recognises St. Andrew's Cross on the hull of the Colours, but declines to recognise St. Andrew's Cross, though both are constitutionally equal.

The English Royal Coat of Arms is used on the hull of the Scotch fishing boats.

The flag recently designed for Governmental display, the English Royal Coat of Arms, which is unconstitutional and reflects upon Scotland's share in founding the Empire.

With regard to the fish, in the petition it is stated that in the case of the fish, it is not possible to produce this use, as the existing of the fish, it is not possible to produce this use, as the existing of the fish, it is not possible to produce this use.

**THE FUTURE OF THE KENYA ASSOCIATION**

To the Editor, "E.A. Standard":

The writer of the letter last week in the issue that will appear in the next issue, was not aware of the fact that the article which has been published in the Kenya Standard, Nairobi, Kenya, is not a reprint of the article which appeared in the Kenya Standard, Nairobi, Kenya, but a reprint of the article which appeared in the Kenya Standard, Nairobi, Kenya.

It may be remembered that the article was made in Friday's issue of the Kenya Standard, Nairobi, Kenya, under the heading "The Future of the Kenya Association". The article was written by the writer of the letter last week in the issue that will appear in the next issue, and it is not a reprint of the article which appeared in the Kenya Standard, Nairobi, Kenya.

As far as it is practicable within the confined range of the letter, and to put it as shortly as possible, the defence would appear to be on the following lines:—

(1) "Lament" presents a distorted view of a professional publication. However accurate the facts, this article is, it is suggesting that a description in accordance with the business would be that of a professional canvasser for his own private interests, and not a member of the public, and that he was not a member of the public, and that he was not a member of the public.

(2) Major Leonard will be found to be a member of the public, and that he was not a member of the public, and that he was not a member of the public.
